# Investment and Railroad Intelligence.

## RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

| ROADS. | Latest Gross Earnings. | | | July 1 to Latest Date. | |

**Net Earnings Monthly to Latest Dates.**—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of Jan. 25 1908. The next will appear in the issue of Feb. 29.

a Net earnings here given are after deducting taxes.
b Net earnings here given are before deducting taxes.
c Figures revised for previous year so as to accord with the new classification of earnings and expenses now required by the Inter-State Commerce Commission.
o By reason of the system of accounts required by the Inter-State Commerce Commission, the gross earnings and expenses for the current periods do not include the operations of Street Rys., Steamboats and Grain Elevators. Under the new system, only the net results from operation of such properties is stated, and this is included in "Income from other sources." Furthermore, under the new method only a portion of the monthly balance due for use of equipment belonging to other roads in the interchange of traffic is charged to expenses, the larger part now appearing under "Other deductions from income," along with interest, rentals, taxes, &c
y For Dec., additional income and net profits from coal, &c., were $41,644 this year, against $61,120 last year, and from July 1 to Dec. 31 were $383,410 this year, against $245,155 last year.

**Interest Charges and Surplus.**—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below these charges.

| *Roads.* | *—Int., Rentals, &c.—* Current Year. | *—Int., Rentals, &c.—* Previous Year. | *—Bal. of Net E'ngs.—* Current Year. | *—Bal. of Net E'ngs.—* Previous Year. |

# ANNUAL REPORTS.

## Northern Central Railway.

(*Report for Fiscal Year ending Dec.* 31 1907.)

On subsequent pages will be found the report of President James McCrea, with the detailed balance sheet and comparative income account for two years. Further comparative figures, including operating statistics, will be given another week.—V. 84, p. 504, 508, 513.

## Interborough-Metropolitan Company, New York.

(*Report for Fiscal Year ending Dec.* 31 1907.)

President T. P. Shonts, New York, Feb. 20 1908, says:

No railroads of any kind are operated by the Interborough Metropolitan Co. That company is a holding company, owning stock in (*a*) Interborough Rapid Transit Co., operating the subway and elevated systems in New York City; (*b*) Metropolitan Street Ry. Co. (now in the hands of receivers), which owns a system of street surface railways operated, prior to the receivership, under lease by the New York City Railway Co., and (*c*) Metropolitan Securities Co., which owns the stock of the New York City Ry. Co.

*Securities of the Interborough-Metropolitan Company Dec.* 31 1907.

| | Authorized. | Issued. | *Reserved. |
|---|---|---|---|
| Collateral trust 4½% bonds | $70,000,000 | $67,825,000 | $2,175,000 |
| Preferred capital stock | 55,000,000 | 45,740,000 | 9,260,000 |
| Common capital stock | 100,000,000 | 93,262,192 | 6,737,808 |

*Reserved against outstanding stocks of controlled cos. not acquired.

*Mileage of Companies Comprising the Interborough-Metropolitan System.*

| | |
|---|---|
| Interborough Rapid Transit Co., subway | 72.48 miles |
| Elevated (Manhattan Railway, leased) | 118.05 miles |
| Surface lines owned or controlled by Interb. Rap. Tran. Co. | 154.03 miles |
| New York City Railway and subsidiary companies | 519.46 miles |
| Total (single track) | 864.02 miles |

The New York City Ry. Co., having defaulted in the guaranteed dividend of 7% on the $52,000,000 of stock of the Metropolitan Street Ry. Co., receivers were appointed on Sept. 24 1907 to take charge of the property, and on Oct. 1 1907 receivers were also appointed for the property of the Metropolitan Street Ry. Co. As a result of this default, the Interborough-Metropolitan Co. has received no dividends since that date on its holdings of Metropolitan Street Ry. Co. stock, and has consequently been obliged to discontinue the payment of dividends on its own preferred stock. These dividends, however, are cumulative.

The earnings of the Interborough Rapid Transit Co. continue good; the surplus for the year ending June 30 1907, after the payment of all interest charges, the guaranteed dividend on Manhattan Elevated Ry. Co. stock and dividends on its own stock being $566,444, as against $281,391 for the previous year, an increase of $285,053. The surplus for the last six months of the calendar year shows a gain over the corresponding period of last year, and the under-river section of the Brooklyn extension, which was opened for operation on Jan. 9 1908, is adding to this surplus at the estimated rate of $700,000 per annum. It is also anticipated that a further increase will result from the opening of the remainder of the Brooklyn extension, about April 1 1908.

The dividends of 9% per annum upon the Interborough Rapid Transit Co.'s stock received by the Interborough-Metropolitan Co. are used exclusively for the payment of the interest upon the Interborough-Metropolitan Co.'s 4½% bonds, against which the Interborough Rapid Transit stock is held in trust as collateral. Any dividends earned and declared over and above this amount will inure to the benefit of the Interborough-Metropolitan Co.

*INCOME ACCOUNT FOR THE CAL. YEAR ENDING DEC.* 31 1907.

| | |
|---|---|
| *Receipts*— | |
| Dividend at rate of 9% per annum on 339,128 shares of Interboroughs Rapid Transit Co. capital stock for calendar year 1907 | $3,052,152 |

## Chicago City Railway Co.

(*Report for Year ending Dec.* 31 1907.)

Including the 11 months ending Dec. 31, under terms of ordinance of 1907, with net income for month of Jan. 1907. Under individual operation prior to date when said ordinance took effect. The dividends, as here shown, include the "extra" 2¼% declared payable Feb. 10 1908.

| | | | |
|---|---|---|---|
| Pass. receipts (11 mos.)_a | $7,460,635 | Int. on capital invest._y | $1,116 386 |
| Other receipts (11 mos.) | 102,059 | | |
| | | Inc. from op. (11 mos.) | $1,634,976 |
| Total receipts | $7,562,694 | Net income Jan. 1907 (net 1908) | 281 582 |
| Oper. exp., taxes, renewals and int. on invest | 6,410.273 | | |
| | | Net income | $1,916,558 |
| Net earnings | $1,152,421 | Dividends (9%) | 1,620,000 |
| City's proportion (55%) | 633,831 | | |
| Company's prop. (45%) | 518,590 | Balance, surplus | $296,000 |

*a* The passenger receipts as above compare with those for full calendar years as follows: In 1906, $7,773,446; 1905, $7,210,671; 1904, $6,009,501.

*y* The "interest on capital investment," $1,116,386, is that certified by board of supervising engineers as provided by the ordinance of Feb. 11 1907. —V. 86, p. 284.

## Toronto Railway Company.

(*Report for Fiscal Year ending Dec.* 31 1907.)

President Wm. Mackenzie, Toronto, Feb. 5 1908, writes:

*General Results.*—Both the gross and the net earnings show very gratifying increases over those of the preceding year. The gross earnings have increased $401,458, or 12.9%. The operating expenses amount to 53.9% of the gross earnings, as compared with 52.9% last year The increase here is due very materially to an advance in wages granted in June last, representing a pro rata increase of 10% over the wages bill of a year ago. The increase in net earnings is $154,737, or 10.6%. Fixed charges, which include bond interest and payments to the city have increased $74,674, due chiefly to increased percentages paid to the city on greater earnings. The city received for taxes, percentages and pavement charges $542,091, an increase of $74,725 over last year.

*Improvements, &c.*—Continuing the established policy, the directors have charged to contingent account $167,462 This, in addition to an allowance for depreciation, represents extraordinary repairs and renewals (not properly chargeable to betterments) of several miles of track on King, Queen, Yonge and College streets. The system has been greatly improved by the reconstruction of this track, now laid with 90-lb. girder rail and best heavy manganese steel intersections.

The sum of $536,388 has been expended during the year for extensions, additions and betterments (not properly chargeable to repairs or renewals).

*Favorable Decision.*—During the year the litigation, popularly known as the Omnibus and Avenue Road cases, which involved questions vital to the interests of the company upon the interpretation of the franchise agreement, was brought to a conclusion by the decision of the Privy Council. The result was a complete victory for the company on all points. (Compare V. 84, p. 1249.—Ed.)

The Legal Department has also won 15 out of 22 injury and damage cases tried in the High Court.

*Toronto & York Radial Ry.*—In July last the Jackson's Point extension of the Toronto & York Radial Ry. was opened to traffic and the results were most gratifying. The company now operates a total of 78 miles. The gross earnings of the system for the year were $282,144; operating expenses $176,403; surplus, after paying fixed charges, $32,893.

*Results for Calendar Years.*

## The Mackay Companies.

*(Report for Fiscal Year ending Feb. 1 1908.)*

The trustees, under date of Feb. 15, report as follows:

The Mackay Companies still owns the whole or part of the capital stock of 102 prosperous cable, telegraph and telephone companies in the United States, Canada and Europe, including the entire capital stock of The Commerical Cable Co. and the various companies constituting the land line system known as the Postal Telegraph.

The outstanding preferred and common shares have not been increased in number during the past three years.

Dividends have been regularly paid on the preferred shares since April 1904 at the rate of 4% per annum; also on the common shares since Jan. 1905, such dividends having been increased to 4% per annum commencing July 1906. The shares are now listed on the stock exchanges of New York, London, Toronto, Montreal and Boston. The Mackay Companies has no debts.

*Trustees.*—On Feb. 15 1907 the number of trustees was increased from five to seven by the election of Robert A. Smith, of Osler & Hammond, Toronto, and Pliny Fisk, of Harvey Fisk & Sons, New York.

*Cable Service.* During 1907 your trustees caused to be laid from New York City direct to Havana, Cuba, a sub-marine cable, to be operated in connection with The Commercial Cable Co., and opened it for business on Oct. 21 1907, giving a one-minute service. The earnings from this cable are satisfactory. Its entire cost has been paid out of the current profits of your system.

The recent completion of certain underground construction in England has enabled The Commercial Cable Co. to dispense with aerial wires from Bristol to London. That company's submarine and underground cables between New York and London are now free from all the dangers of disturbance incident to overhead construction. It is the only cable company giving practically all cable communication between New York and London.

*Land Lines.* The chief improvement on the land line system is the increasing of the wire facilities on one of the transcontinental routes to make the service to the Pacific Coast as efficient as that given by the Postal Telegraph Co. in other parts of the country.

*Telephone Interests.* The Mackay Companies is still by far the largest stockholder in the American Telephone & Telegraph Co., commonly known as the Bell Telephone Co., and during the year 1907 subscribed, through The Commercial Cable Co., for its proportion of the new stock issued in June 1907. Your trustees have confidence in the stability and future of the Telephone company, and realize that the natural relations between the Telegraph and Telephone will lead inevitably to closer relations between these two companies, because of the great economies that are possible, especially in the way of avoiding duplication of pole lines, rights of way, office rents, managers and cost of maintenance, &c., throughout the vast expanse of territory of the United States. The management of the American Telephone & Telegraph Co. has made radical changes during the past year. Retrenchment has taken place in every branch of its business. Expenses have been cut down, the staff reduced, and extensions not urgently required have been deferred, until the stock and bond market admits of easier money at lower rates. Your trustees are in entire accord with President Vail's policy and administration of that company.

[President Mackay at the annual meeting on Feb. 15, it is reported, said: "The Mackay Cos. owns at present about 100,000 shares of American Telephone & Telegraph Co. stock. We have not sold a singles hare during the past year and have no intention of doing so. We took up our allotment of about 10,000 shares on account of subscriptions to the new stock offered in June last, and have since purchased some stock in the open market.

Our own business continues remarkably good, and while we are feeling the effects of the business depression to some extent, the decrease in earnings during the last three or four months over the corresponding period of a year ago is much less than is popularly supposed."—Ed.]

*Strike.*—In Aug. 1907 in several cities, part of the employees of the Postal Telegraph Co. "struck" without warning and without cause, seemingly in sympathy with a strike by the employees of the Western Union Telegraph Co. At once the officials of the Postal Co. became telegraphers again, and, with those operators who remained loyal and with clerks from other departments, kept the business going. The strike lasted twelve weeks, and then the company took back only the efficient and reliable men.

The Postal Telegraph Co. realized, however, that the telegraphers' union was a menace. Accordingly, the company in Oct. 1907 organized "The Postal Telegraph Employees' Association," to be open to all its employees who would abjure all unions; to be conducted without dues and without debts; and to entitle its members to aid from the company during sickness or disability. This Association was enthusiastically received and joined by the employees. It is now thoroughly established, and renders impossible another strike.

*Earnings of Commercial Cable Co.*—During the year 1907 the earnings of The Commercial Cable Co. (which has paid regular quarterly dividends for over eighteen years) showed substantial gains in gross receipts and net profits. On account of the strike referred to above, the net profits of the land-line system were not equal to those of 1906, but were more than those of 1905. The decrease in 1907 did not affect in the slightest the safety of the dividends, which are being regularly paid on The Mackay Companies shares.

(Signed by the trustees, namely, Clarence H. Mackay, William W. Cook, George G. Ward, Dumont Clarke, Edward C. Platt, Pliny Fisk and Robert A. Smith.)

## Pressed Steel Car Company.

*(Report for Fiscal Year Ending Dec. 31 1907.)*

President F. N. Hoffstot, Feb. 19 1908 says in substance:

*General Results.*—During the year 1907 the gross sales of the company were $36,443,304 and after making liberal charges for renewals and up-keep, the net profits were $2,907,920. These profits are entirely the result of operation, as no dividends were received form the subsidiary companies, as these companies needed their earnings in their business.

During March work at both of the company's plants was entirely stopped for several days, owing to the greatest flood in the Ohio River since the year 1832; and several weeks elapsed before normal output was attained. The expense of repairing the damage to machinery and appliances was charged to operating cost.

The percentage of profit was not as great as in some previous years, due in part to the flood, but more largely to the payment of higher wages during the first half of the year, and to the inferior quality of labor obtainable.

The slowing down of business, bringing with it diminution of profits, has some redeeming features. During the last six months our labor costs have been substantially reduced without diminution in efficiency. Extra attention is also being devoted, not only to the reduction of cost, but also to economical improvement and development along new lines, in order that we may arrive at a cost of production which will restore a normal demand for the company's product.

We had in hand at the close of the year quite a number of unfilled orders, which assured us of considerable income during the early months of 1908, but for the future business in volume depends largely upon financial conditions, as the railroads, it is well known, rarely purchase equipment when that which they already have is not completely in use.

*Dividends.*—During the year dividends of 7% have been regularly paid upon the preferred stock, and there has been charged off against properties and franchises, by way of depreciation, $365,000, the balance of the net earnings $1,667,920, has been added to the working capital, bringing the present working capital up to $6,413,579. No dividends have been paid on the common stock.

*Payment on Mortgage Notes.*—Of the issue of $5,000,000 notes the sixth annual installment of $500,000 which matured this year has been paid, leaving unpaid but $2,000,000.

*Additions and Betterments.*—There bas been added to this account upon the books of the company $267,922. Over two-thirds of this amount has been expended on the McKees Rocks plant, the remainder at Allegheny.

*Steel Passenger Car Department.*—This branch of the business is of increasing importance. During the past year a number of all-steel cars for use on subway and elevated railroads have been constructed, and among orders on hand is one for steel passenger coaches for one of the largest trunk lines. These latter cars will be turned out early in 1908. However, this all-steel passenger car work is of such a pioneer nature that it cannot yet be relied upon as a fixed source of revenue. Nevertheless, it is confidently expected that these cars will in a short time be standard for passenger travel in this country, provided the existing antagonistic public sentiment towards railroads shall change.

*Patents.*—A number of patents of importance have been taken out, assigned to your company during the past year, and many applications have been made and are now pending covering what we believe to be important features.

*Joliet Plant.*—The Western Steel Car & Foundry Co. has operated this plant a considerable portion of the year with profit, and it has been deemed advisable to continue the lease.

*Pennsylvania Car Wheel Co.*—During the year car wheels continued to sell at a price out of proportion to the cost of pig iron and coke to such an extent that this company earned less than in former years. Notwithstanding this there was a balance of earnings which was added to working capital after providing for depreciation, &c.

*Fidelity Land Co.* The houses of this company have been fully occupied during the year. A four story brick lodging house for single men was built out of surplus earnings, but this prevented the payment of the $50,000 purchase money mortgage. It is believed if the earnings of the ensuing year are as large as last we shall be able to pay off this mortgage, and when this has been done, all net earnings will be available for dividends to you company, or other purposes.

*Canada Car Co., Limited.* This plant is in successful operation, with a good output on both freight and passenger cars, and shows substantial

earnings. The existing financial conditions, however, have not warranted the making of provisions for plant extensions, nor providing additional working capital. Dividends upon the preferred stock are cumulative and it is confidently believed that your holdings of stock of this company will soon be a direct source of revenue.

*Pennsylvania Malleable Co.*—The operation of this plant has been satisfactory and substantial improvements have been made on the property. The malleable department has been in continuous operation. The car-wheel department, represented by the Central Car Wheel Co., showed no profit, due to the cause affecting the car-wheel business in general, but in values of raw material that operations will in the future show profit.

*Western Street Car & Foundry Co.*—The changes in management have proved beneficial and we are confident that with a restoration of former business conditions this company will make as satisfactory a percentage of earnings upon its output as your company. At the present time, however, the falling off in demand for cars has made it impossible to keep the plants in full operation.

*SALES, PROFITS, DIVIDENDS, &C., FOR CALENDAR YEARS.*

| | 1907. | 1906. | 1905. | 1904. |

## National Biscuit Company.

*(Report for Fiscal Year ending Jan. 31 1908.)*

President A. W. Green says in substance:

Of the bonds and mortgages assumed at the formation of the company amounting to $1,814,000, there has been paid off $957,576, leaving unpaid $856,424, none of which has yet matured. The accounts payable are simply the current bills for raw material and supplies, which were not adjusted before the close of the year. The cash resources are ample.

*Dividends*—Up to Jan. 31 1908 the company declared and paid 39 consecutive quarterly dividends of 1¾% each on its *preferred* stock; also 30 consecutive quarterly dividends of 1% each on its *common* stock up to Jan. 31 1907; and during 1907 four quarterly dividends of 1¼%; in addition, the company on April 15 1906 paid an extra dividend of 1% on its common stock; also on April 15 1907 another extra dividend of 1% on its common stock, making in all 36 dividends paid on common stock.

*Shareholders.*—The total number of stockholders of the company immediately after its organization was about 1,300. The total number now is about 7,500. Of this number 2,395 are employees of the company. Under the plan of enabling employees to purchase our pref. stock, they have purchased 7,933 shares. This is exclusive of a large amount of stock, both common and preferred, held by our directors, officers and principal managers.

*New Buildings.*—In our last annual report we described two buildings in the course of construction for the purpose of increasing the capacity of our New York plant, one of these buildings being at the corner of 15th St and 9th Ave., adjoining the Nabisco works, and the other on 16th St. adjoining the Uneeda Biscuit works. These buildings were completed and placed in operation in the spring of 1907. Without them we could not have taken care of our business during the summer months. To erect and equip these buildings cost about $1,000,000, which has all been paid.

*Imitations Stopped.*—In our last annual report we stated that the company had concluded, with unbroken success, twelve suits in the United States courts, involving our trade marks and trade names; that in addition 330 imitations were stopped without litigation. Sixty-eight new imitations appeared during the year just closed, but we were able to stop all these without litigation. These different imitations involved over 100 different manufacturers of biscuit.

*General Results for Year 1907.*—In former reports we referred to the fact that the manufacture of "In-er-Seal" trade mark package goods could be conducted in large plants, situated at central points, with better results than when scattered among a large number of plants, and that we had sold back to the former owners a couple of cracker factories and the business connected therewith, because they were not profitable to our company in this evolution. This course of action resulted in considerable loss of sales to the company.

Notwithstanding these facts our sales during the ten years have increased $7,750,944, being about 23%. Our profits have increased $809,272, being over 24%.

Our increase in sales is not due to the fact that there is a less number of rival manufacturers of biscuit than there was in the first year of the existence of this company. On the contrary, the number has increased. We have frequently stated that our policy was not to buy out competition, nor to attempt, by a ruinous war of prices, to crush the same, and to that policy we have steadfastly adhered. We offer our goods for sale at a fixed price and upon stated terms, available to all grocers. Our business is increasing and becoming each year more secure, because we offer for sale the best goods, put up in the most attractive manner, and give to the grocer the most satisfactory service.

## Uuited Box Board & Paper Company, New York City.

*(Report for Year ending Dec. 31 1907 with Balance Sheet Jan. 25 1908).*

The report signed by President Sidney Mitchell and Secretary and Treasurer Hyatt Cox, under date of Feb. 20 1908, says in substance (compare separate statement for American Strawboard Co. below.—Ed):

*Change in Status Effected by New Management.*—The present board of directors was elected Feb. 21 1907 to find practically no cash on hand ($1,131); outstanding accounts long past due and the stock of supplies and material on hand so low that many of the mills were forced to close.

The treasury securities, including $889,000 general mortgage 6% bonds, and the company's equity in the stock of the American Straw Board Co., by a vote of the former directors on Jan. 5 1907 had been delivered to O. C. Barber. Mr. Barber refused to relinquish control of the Straw Board Co., or to surrender your treasury securities unless your directors would purchase his holdings in the stock of the American Straw Board Co., sign a general release for the former officers and directors of the company, etc. The critical financial condition of your company made the return of your treasury securities and the control of the American Straw Board Co. absolutely necessary, and your directors were therefore compelled to comply with Mr. Barber's demands.

In addition to assuming the then existing indebtedness your directors were forced, through the purchase of the American Straw Board Company's stock from O. C. Barber and others, to add $350,000 to the company's floating debt. The notes given in payment for said stock came due and were paid in full Jan. 15 1908. This entire indebtedness, while larger than the year before, was carried at a saving in "interest charges" of $15,829, as compared with 1906.

*Plants, Repairs, Improvements, Depreciation, &c.*—Expenditures for repairs and improvements during 1907 amount to $360,166, as compared with $238,002 during 1906. The entire amount spent in this way during 1907 has been charged out to profit and loss, and has resulted in an increased daily capacity amounting to 115 tons. The mill at Wilmington, Ill., has been improved with an additional machine, new building, etc., at an expense of $200,000. This mill will have an increased tonnage of 25 tons per day, making a total increase in the daily capacity of 140 tons.

We hope that in the near future the demand for our product will increase sufficiently to justify the necessary expense in rehabilitating more of our mills which have hitherto been idle. The expense would be small in proportion to the value of the properties and would largely increase the output.

We have charged off against surplus $89,793 covering doubtful accounts, old claims and depreciation on personal property and supplies. The present "accounts receivable" represents current account and the "merchandise and supplies" have been reduced to cost.

*Earnings.*—The profits of the United Box Board & Paper Co. and subsidiary companies for 1907 are equivalent to 6% earned on the outstanding preferred stock as against 4% during 1906. The increased earnings are due to reduced administration expenses, and a larger volume of business. All raw material has advanced and the manufacturing profit per ton was smaller in 1907 than in 1906.

Salaries of officers and heads of departments show a reduction of $32,805. The "dead mill expense" was reduced $23,752, through sale of dismantled properties, and by placing in operation some of the idle plants.

*Capital Stock.*—The company has purchased during the year several thousand shares of its common stock and your directors recommend that $1,967,400 of the common stock now in the treasury be retired, thus reducing the total authorized capital stock from $28,967,400 to $27,000,000.

*Finances.*—The improved financial standing of your company made it possible for your mills to operate without inconvenience during the financial disturbances of last fall, and we manufactured in November the largest monthly tonnage of the year.

There has been a reduction in bonds and mortgages of the company of $216,000; in addition $68,000 first mortgage bonds of the American Straw Board Co. and a mortgage of $100,000 of the Uncas Paper Co. have been retired; a total reduction in mortgage debt of $384,000.

In addition, besides increasing your investment in the American Straw Board Co., the company has added $217,669 to working capital.

Had the stockholders complied with the plan submitted to them in April 1907 and purchased bonds then in the treasury, a dividend on the preferred stock might be conservatively considered at this time. Your directors believe, however, that the policy of strengthening the financial condition of the company should be continued.

*Stockholders.*—The company has 1,159 stockholders of record.

*EARNINGS OF THE UNITED BOX BOARD & PAPER CO. AND SUBSIDIARY COMPANIES*

## American Strawboard Company.

*(Statement for Fiscal Year ending Dec. 31 1907.)*

The United Box Board & Paper Co. (see that company above) owns within a few shares of 90% of the $6,000,000 capital stock of this company, which, therefore, issues no separate report, but at the annual meeting held on Feb. 6 President Mitchell, it is reported, said in part:

Notwithstanding the difficulties encountered during the year from lack of straw and the loss of one of our mills by fire, the net earnings amounted to $407,710 and the earnings of the stores to $54,604, a total of $462,314, or 7.7% on the stock. In addition to the dividend paid during the year the company has reduced its mortgage debt $168,000 and has expended $217,312 in improvements and additions to mills, besides repairs of $76,663, as compared with $56,904 in 1906. The mill at Wilminaton, Ill., has been improved with an additional machine, new building, &c. and as a modern mill should soon make good returns on this investment. The capacity of the Uncas mill has been increased several tons per day.

Your directors are hopeful that in the near future the demand for our product will increase sufficiently to justify the necessary expense in rehabilitating several of our dead mills. These mills, although enjoined by the court from manufacturing strawboard, on account of the pollution of rivers, could be reconstructed so as to manufacture paper stock boards. The expense would be small in proportion to the value of the mills, and it would increase our output 90 tons per day.

(The company's dividend record has been as follows: 1890, 8%; 1891, 8%; 1892, 8; 1893, 4; 1894-97, none; 1898, 1; 1899, none; 1900, 3; 1901-05, none; 1906, Dec., 2; June 1907, 1; Sept. 1907, 1; Jan. 15 1908, 1.—Ed.)

—V. 86, p. 233.

## Herring-Hall-Marvin Safe Company, New York City.

*(Report for Fiscal Year ending Dec. 31 1907)*

President C. U. Carpenter, under date of New York, Jan. 31 1908, says:

*General Results.*—The net earnings for the year 1907 amount to $103,525, after paying interest charges and before charging off $34,746 for depreciation. This depreciation amounts to 5% on buildings, 10% on machinery and 20% on furniture, fixtures, cartage, plant, etc. In addition to

this we have charged to expense $22,790, including all replacements of new tools, patterns and belting.

The net earnings of the year were made chiefly in the first nine months, general business conditions during the last quarter having changed abruptly.

The large reserve ($86,334) for completion of contracts is established to care for the expense attendant upon the erection of jobs shipped the latter part of 1907. During the year $40,000 debentures matured and were paid. There is no lien or mortgage on the property. A number of new patents have been issued to the company which we believe will prove of value.

*Fire Test.*—In the recent Parker Building fire in New York City our modern safes withstood successfully the most severe trials possible. Many of them, heated on the exterior to a white heat, fell 90 to 150 feet to the basement, where they lay for days beneath burning debris. All 16 of them preserved their contents intact.

*Outlook.*—We believe the present depression is temporary and that the progress of the company's business will continue satisfactory in the future.

*RESULTS FOR CALENDAR YEARS.*

## Manufacturers' Light & Heat Co., Pittsburgh, Pa.

*(Report for Fiscal Year ending Dec. 31 1907.)*

President H. B. Beatty says in substance:

*Extensions, &c.*—Upon the organization of the new board of directors last year, the matter of first importance considered was the development of the gas territory of the company. After careful consideration the policy was inaugurated of making liberal expenditures for new drilling. Accordingly, there was expended for drilling of wells, improvements, betterments, extensions, &c., an aggregate of $1,576,042. Add to this $210,918 paid out for gas purchased, and we have the aggregate of $1,786,960, with the result that the company now has on hand for consumption an abundant supply of gas, and is in splendid position for this winter, and, in all probability, for a considerable period. Your directors also unanimously agreed that, instead of completing one pumping station, which was deemed sufficient for the year, two pumping stations should be at once commenced.

The striking of an extraordinarily large gas well by a local company in the territory in Harrison County, West Va., near which your company held 5,000 acres, and a still larger amount northeast, on the same anticlinal, presented a problem which required immediate action. It was determined to at once drill two wells in this territory, and as these wells, when completed, proved to be of great capacity, your board felt justified in at once building a line to that territory, a distance of approximately 25 miles. The contract for the above line has not yet been completed, and the pumping stations above referred to are still in course of construction, wherefore neither of these items, approximating $460,000, appears in the statement of either assets or liabilities, and both will be paid for out of the "improvement fund" set apart for the years 1908 and 1909, which fund represents 20% of the gross receipts of the company.

*General Results.*—The total earnings for 1907 were $4,994,803, or $172,000 less than for the year 1906. This decrease is explained by the diminution in the normal earnings in October, November and December, brought about by the financial conditions and consequent shut-down of large manufacturing plants to which your company was supplying gas. Had normal conditions prevailed during these months, our gross earnings would have exceeded those of the year 1906 and would have been the largest in the history of the company. Many of the mills are now resuming and it is hoped that the earnings of your company during the balance of the winter will be correspondingly increased.

Attention is called to the fact that, excluding the cost of drilling new wells, and including only the value of the new material placed in such wells, there has been an increase in assets during the past year, for improvements, betterments, extensions, new wells, cash on hand, accounts and bills receivable, of $1,185,694, and that there has been a net decrease in liabilities of $827,220, making a total surplus for the year's operations of $2,012,914. In other words, the stockholders have had this amount added to the value of their stock.

## Consolidated Cotton Duck Co., Baltimore.

*(Report for Fiscal Year ending Dec. 31 1907.)*

*EARNINGS FOR CALENDAR YEARS.*

| | 1907. | 1906. | 1905. |
|---|---|---|---|
| Income from sales | $10,621,387 | $9,941,151 | $9,268,872 |
| Income from other sources | 67,821 | 83,673 | 89,145 |
| Total income | $10,689,208 | $10,024,824 | $9,358,017 |
| Cost of materials, labor, supplies, &c | $9,319,162 | $8,427,427 | $8,138,150 |
| Current interest and general expense | 239,480 | 295,516 | 302,694 |
| Net earnings | $1,130,565 | $1,301,881 | $917,172 |
| Deduct interest on bonds of constituent companies, including first mortgage bonds of the Mount Vernon-Woodberry Cotton Duck Co | 426,000 | 392,966 | 363,225 |
| Balance, surplus | $704,565 | $908,915 | $553,947 |
| Dividends on preferred stock | (6%) 360,000 | (6) 360,000 | ------ |
| Balance (see note below) | $344,565 | $548,915 | ------ |

*Note.*—Of the balance surplus in 1907, $704,565 (before deducting dividends and charges to depreciation), $242,578 (against $370,003 in 1906) is derived from the operations of the Consolidated Cotton Duck Co. and $461,987 (against $538,912 in 1906) from the operations of the Mount Vernon-Woodberry Cotton Duck Co.

Of the surplus in 1907 $96,922 has been credited to depreciation account and $255,834 charged off to merchandise and material accounts. In 1906 $283,735 was charged off for depreciation.

The labor account above in 1907 in operating the mills shows an increase of $221,000 above that of 1906 on a small increase of production.—V. 85, p. 465.

## Mexican Light & Power Co., Limited.

*(Report for Fiscal Year ending Dec. 31 1907.)*

President George A. Drummond, Montreal, Feb. 4, writes in substance:

*Preferred Stock.*—On Aug. 30 1907 an issue of 7% preference stock of the nominal value of $2,400,000, gold, was authorized, to liquidate outstanding liabilities and to purchase the Robert Electric Co., a competitive lighting company in the Federal District of Mexico. The entire issue was underwritten in London, England, where a public issue was made late in November, with marked success considering the financial stringency. The company has already received payment of part of the subscriptions, and the balance will be paid during the present year.

The properties and business of the Robert Electric Co. are to be purchased for not exceeding $350,000, gold, and it is expected that they will be taken over during the present year.

*Construction.*—During the year there was expended on capital account $2,475,332, gold, of which over $1,000,000 was expended in completing the first Necaxa installation, approximately $1,000,000 on distributing lines and equipment in the City and Federal District of Mexico, and approximately $350,000 on the second installation, which has cost $688 000, gold, to Dec. 31 1907.

The Laguna dam has now reached a height that will provide a storage capacity of 30,000,000 cubic meters of water. The construction of the provisional dam at Los Reyes and the tunnel connecting it with the Laguna reservoir has progressed satisfactorily. The construction of the large dam at Necaxa necessitates the deposit of 1,634,000 cubic meters of material. On Dec. 31 1907, 337,000 cubic meters of material had been deposited, and the work is now proceeding at the rate of 73,000 cubic meters per month. The lower toe of this dam is now about 60 feet above the river bed, affording a limited storage capacity to regulate the supply of water for power-house No. 1.

*Difficulties of Operation.*—Owing to the lack of reservoir capacity at Necaxa and the unprecedented dryness from June to December, considerable coal was necessary in the operation of the steam plants, and this expense may be continued to a greater or lesser extent during the first five months of the present year. The combined flow of the Necaxa and Tenango rivers from July 1 to Dec. 31 1907 was, approximately, 70,00,0000 cubic meters less than the average flow during the corresponding months of the six years from 1902 to 1907. As each cubic meter of water represents a value of 3¾ cents, Mexican currency, when compared with the cost of steam production in Mexico City, the value of water storage is easily computed.

*Storage Capacity.*—The reservoirs now under construction will have, when completed, storage capacity as follows:

| | *Necaxa.* | *Laguna.* | *Los Reyes.* | *Total all three.* |
|---|---|---|---|---|
| Cubic meters | 44,852,600 | 44,013,000 | 26,179,200 | 115,044,800 |

*Earnings.*—The gross earnings for the year 1907 were $2,465,185, gold, as compared with the estimate of $2,521,000, gold, but the operating expenses, owing to the necessary consumption of coal during the year, were $52,869, gold, in excess of the estimates made and published in January 1907. The company has applied $161,202 to the maintenance of its plants, and, owing to certain minor defalcations in Mexico and to the doubtful character of certain outstanding accounts, it has been deemed advisable to write off from profit and loss debts of $93,697, gold, as uncollectible.

*Installations Connected.*—On Jan. 1, instant, the installations connected in the City and Federal District of Mexico and in El Oro and vicinity represented, approximately:

| *January 1st.* | 1907. | 1906. |
|---|---|---|
| Public lighting (1,650 arcs in 1907; 1,542 in 1906) | 1,453 h.p. | 1,370 h.p. |
| Private lighting (No. of 16 c.p. equivalents, 312,000 in 1907; 268,372 in 1906) | 24,744 h.p | 19,770 h.p. |
| Power—Motor units, Federal District | 19,958 h.p. | 15,620 h.p |
| Tramways | 8,000 h.p. | 670 h.p. |
| El Oro mines and vicinity | 13,198 h.p. | 9,225 h.p. |
| Total now connected | 67,353 h.p. | 46,655 h.p. |

*Increase of Business.*—As the financial stringency apparently has had less prejudicial effect in Mexico than in many other countries, it is not expected that the hitherto increasing demand for power in the districts supplied by this company will be seriously impaired. The company has now in sight additional contracts for supplying installations representing motors of over 3,000 h.p. capacity, exclusive of the contract already made with the Federal Government of Mexico for furnishing for 20 years, approximately, 3,000 h.p. for the purpose of providing potable water for the City of Mexico, which supply will probably commence late in the present year, so soon as the Federal Government has so far completed its works as to avail itself of this contract. (A table in the report shows that for the year 1908 it is estimated that the total gross earnings in Mexican currency will be $5,760,000, contrasting with $4,930,370 in 1907; net earnings, $2,150,000 against $1,950,143.)

*Note.*—Not included in the above statement of assets for 1907 were 49,882 shares of the capital stock of other companies, chiefly water companies, par value $3,793,190; sundry bills receivable, not immediately collectible, amounting to $25,534; also patent rights, factory buildings, machinery, &c.—V. 84, p. 627.

# GENERAL INVESTMENT NEWS.

## RAILROADS, INCLUDING STREET ROADS.

**Baltimore & Ohio RR.**—*Sale of New Issue of Notes.*—The company has sold to Speyer & Co. and Kuhn, Loeb & Co. of New York $6,000,000 5% one-year notes, dated March 2, secured by deposit with the United States Trust Co., as trustee, of $8,000,000 Pittsburgh Lake Erie & West Virginia refunding 4s of 1941. Denominations $10,000 and $25,000. Interest payable March and Sept. The notes are offered for sale at 99½ and interest, netting 5½%.

The bonds pledged are part of an authorized issue of $75,000,000, of which $31,347,000 are listed on the New York Stock Exchange and are therefore understood to be held by the public; some $33,000,000 are reserved to retire underlying bonds and the remainder are either owned by the B. & O. or are reserved for future additions and improvements.—V. 86, p. 227.

**Beersville Coal & Ry.**—*New Name.*—See North Shore Ry., Canada.—V. 86, h. 421.

**Birmingham (Ala.) Railway, Light & Power Co.**—*Directors and Officers.*—The following directors and officers have been elected:

T. G. Bush, F. D. Nabers, B. F. Roden, R. H. Pearson, Lee C. Bradley, W. P. G. Harding, M. V. Joseph, Robert Jemison, G. B. McCormick, W. H. Kettig, B. F. Moore and A. H. Ford, of Birmingham; Harry L. Falk J. K. Newman and Sidney H. March, of New York; William Madison, Smith and George H. Davis of New Orleans. (J. A. Emery and Gordon Abbott, resigned.)

Officers: A. H. Ford, Pres. and Gen. Mgr.; Lee C. Bradley, V.-P.; E. M. Cory, Treas. and Aud.; E. C. Jolly, Asst. Treas.; J. P. Ross, Sec.—V. 85, p. 653.

**Boston & Maine RR.**—*Salaries Reduced.*—The company on Feb. 14 announced a reduction in salaries of 10%, affecting all employees receiving over $100 a month.—V. 86, p. 336, 228.

**Camden & Trenton (Electric) Ry.**—*Receivership.*—At Trenton, N. J., on Feb. 18, Vice-Chancellor Walker appointed Wilbur F. Sadler Jr. of that city as receiver for the company on application made by former President Henry V. Massey, who stated that he owns ten shares of the capital stock of the company, holds 349 other shares by proxy and holds $25,000 bonds of the New York-Philadelphia Co., the holding corporation. The bill of complaint alleges insolvency and mismanagement, and says:

The Camden & Trenton line has been operated at a loss for a long period, the deficit for 1907 having been $46,559; Jan. 1 1907 the general deficit was $66,951, and it now amounts to $115,000. The company has other debts and losses aggregating, with the foregoing, about $200,000; the company defaulted Nov. 1 1907 in the payment of interest on its ($710,000) first mortgage bonds, amounting to $17,750, and has also defaulted Jan. 1 1908 in the payment of the interest on its ($622,500) general mortgage bonds, amounting to $16,562, and is unable to meet maturing obligations. (The New York-Philadelphia Co., it is also alleged, in 1905 acquired $1,018,470 of the company's $1,500,000 capital stock.—Ed.)—V. 86. p. 228.

**Chicago Cincinnati & Louisville RR.**—*Receivership—Further Particulars.*—Referring to the appointment of a receiver noted last week (p. 420), a member of the firm of George A. Fernald & Co., in an interview, said:

The application for receivership in connection with this road was a friendly one. The road itself, although a short one, is of an exceptionally high grade, and is in excellent physical condition. The application for a receiver is due to the inability of the company to raise money under the existing financial conditions, and as a result its gross earnings have fallen from $116,000 in October 1907 to $64,000 in January 1908. The property has recently been examined by an eminent expert, who believes the road is capable of showing gross earnings of $9,000 per mile under favorable conditions. The object of the appointment of a receiver is to preserve the property for the benefit of all interested. Fernald & Co. own $250 000 of the company's bonds and holds $380,000 more as collateral for loans, —V. 86, p. 420.

**Chicago Terminal Transfer Co.**—*Litigation Likely.*—*Stockholders' Committee Calls for Deposits.*—Referring to the advertisement on another page, the following statement is made on behalf of the committee:

The future of the company still seems to be in doubt. The stock appears to be divided between that presumably held in the interest of the Chicago Burlington & Quincy RR. and that represented by the stockholders' protective committee, consisting of George I. Malcom, George D. Mackay, Edward A. Morgan, James L. Laidlaw and E. L. Oppenheim. The committee represents both preferred and common stock, and was organized for the purpose of protecting the interests of the minority stockholders in the litigation relative to the Baltimore & Ohio lease. For a while it seemed that the Baltimore & Ohio Co. had arranged to acquire the stock represented by the committee, but these negotiations having evidently fallen through, it looks as if the litigation will have to be fought to a finish. The committee has retained Hornblower, Miller & Potter as counsel.

*New Directors.*—William T. Nelson and H. H. Hall have been elected directors succeeding Fred G. Reighley and Ralph M. Shaw.—V. 86, p. 226, 107.

**Coney Island & Brooklyn (Electric) RR.**—*New President.*—S. W. Huff, of Richmond, Va., General Manager of the

Virginia Passenger & Power Co., has been elected President of the Coney Island & Brooklyn RR. to succeed John L. Heins, who resigned to become Chairman of the Board.—V. 86, p. 420.

**Coney Island & Brooklyn RR.**—*Bonds.*—The Public Service Commission on Feb. 18 authorized the company to issue $30,000 bonds to cover the cost of ten new cars.—V. 86, p. 420.

**Erie RR.**—*Quarterly—Caution.*—The earnings for the quarter and six months ending Dec. 31 as reported to the New York State authorities, on a portion of the system were:

| 3 *Mos.*— | *Gross.* | *Net.* | *Other Income.* | *Charges.* | *Surp. or Def.* |
|---|---|---|---|---|---|
| 1906 | $11,785,027 | $1,747,075 | $323,522 | $3,519,498 | def. $1,448,901 |
| 1905 | 12,529,299 | 4,094,954 | 175,879 | 3,206,300 | sur. 1,064,533 |
| 6 *Mos.*— | | | | | |
| 1906 | $25,380,134 | $5,781,252 | $571,734 | $6,775,381 | def. $422,395 |
| 1905 | 24,825,271 | 8,207,998 | 292,367 | 6,224,404 | sur. 2,275,951 |

Referring to the foregoing figures, an official statement issued yesterday says in substance:

These figures for the six months ending Dec. 31 1907 are based on the records of the Public Service Commission at Albany. They are misleading, for the reason that they represent the operations of only that part of the Erie system that reports to the New York State authorities.

The operating statement of all the Erie lines for the *six months* ending Dec. 31 1907 was as follows:

| | |
|---|---|
| Gross earnings | $27,626,633 |
| Working expenses | 22,258,159 |
| Net earnings | $5,368,474 |

Adding to this the income from investments and other sources, and deducting therefrom the accrued interest on bonded debt and all other fixed charges, leaves a *surplus* for the six months ending Dec. 31 1907 of $454,972

*No Dividend Declared.*—Wednesday, Feb. 19, was the date when the directors customarily meet to declare the semi-annual dividend payable in April on the first preferred stock, but no meeting was held. Attention is called to the fact that the Public Service Commission has not yet rendered a decision on the application of the company for authority to pay in scrip the dividends declared last fall, and the chairman of the Commission is quoted as saying that the legal question involved is a difficult one, and is still pending, and that it is impossible to state when the decision will be made.—V. 86, p. 228.

**Detroit Toledo & Ironton Ry.**—*Transfer of Block of Notes.*—The Kleybolte holding of $1,208,000 Detroit Toledo & Ironton notes, deposited with a trust company to secure a loan of $820,000, has been taken over by H. B. Hollins & Co. This, it is understood, gives Hollins & Co. control of the situation, though they say they will co-operate with the note-holders' protective committee.

*Changes in Noteholders' Committee.*—Newman Erb and Leopold Kleybolte have resigned from the noteholders' committee (V. 86, p. 420, 337). See also above.—V. 86, p. 420, 337.

**Freight Rates.**—*Reduction Ordered in Kansas.*—The State Board of Railroad Commissioners of Kansas on Feb. 14 ordered the railroads operating in the State to put into effect on April 1 next, it is stated, a new schedule of maximum freight rates, the reduction on the various articles enumerated averaging between 15 and 20% of the present rates.

**Georgia Railway & Electric Co., Atlanta, Ga.**—*Report.*—

| *Cal. Yr.* | *Gross Earnings.* | *Net Earnings.* | *Fixed Charges.* | *Pref. Div.(5%).* | *Common Dividend.* | *Balance Surplus.* |
|---|---|---|---|---|---|---|
| 1907 | $3,309,341 | $1,646,059 | $784,675 | $120,000 | (6%) $428,448 | $312,936 |
| 1906 | 2,894,924 | 1,467,073 | 635,637 | 120,000 | (6½) 390,949 | 320,487 |

—V. 86, p. 337.

**Great Northern Ry.**—*Dividend on Ore Certificates.*—See Great Northern Iron Ore Properties under "Industrials" below.—V. 86, p. 285, 229.

**Hudson Companies, Tunnel Railroads connecting New York, Hoboken and Jersey City.**—*Offering of* $5,000,000 *"6% Secured Gold Notes" Dated Feb.* 1 1908, *Convertible at Option of Holder into First Mortgage* 4½% *Bonds of Hudson & Manhattan RR., due* 1957, *on Basis of* $1,500 *Bonds for* $1,000 *Note.*—Harvey Fisk & Sons, 62 Cedar St., New York, having sold a large amount of the $15,000,000 secured notes, offer $5,000,000 thereof by advertisement on another page at 98½ and interest, yielding over 6½% per annum on the investment. These notes and the company's important system of tunnels, railroads and terminals on which the notes are secured by deposit of collateral, and which will shortly be in partial operation, adding greatly to the facilities for the transportation of passengers between New York City and New Jersey, were fully described in the "Chronicle" of Feb. 1, page 285. See also map on page 69 of "Railway and Industrial" Section, and article in "Railroad Gazette" of New York for Feb. 21. The first section of the tunnels, namely, the twin tube from Hoboken, N. J., to Morton St., New York, and thence northeasterly to 6th Ave. and 19th St., nearly three miles in all, is to be opened to the public on Feb. 25. A circular further says:

The Hudson & Manhattan RR. Co., under an existing 500 year contract with the Pennsylvania RR. Co., will later, with that company, operate a joint through service between Newark, N. J., and New York City.

Annual net earnings of the system are conservatively estimated at $4,000,000, a sum largely in excess of all fixed charges. From present schedules, rental sources alone, including the rentals from the Terminal Buildings at Church, Cortlandt and Fulton streets, New York, where the company's station occupies the entire underground section, will produce more than half the amount of the interest charges on the Hudson & Manhattan RR. Co. first mortgage bonds.

The above statements are based in part upon letters and documents furnished to us by the Hudson Companies.—V. 87, p. 285.

**Hudson & Manhattan RR.**—*Notes Offered.—Opening of Road.*—See Hudson Companies above.—V. 86, p. 286.

**Illinois Central RR.**—*Injunction Preventing Vote on Stock Held by Union Pacific Interests Dissolved.*—Judge Farlin Q. Ball in the Superior Court of Cook County, Ill., on Thursday dissolved the injunction restraining the Railroad Securities Co. and the Union Pacific from voting on the $28,123,100 Illinois Central stock held by them at the annual meeting, which, as adjourned, will be held on March 2. Compare V. 86, p. 1576, 1270, 1082. The opinion, said to contain about 10,000 words, holds that the two companies named have full ownership of the stock they claim to own and hold to the amount above stated and that such ownership and the right to vote thereon are not forbidden by the statutes or public policy of the State.

Mr. Fish's attorneys say the case will be tried on its merits and an appeal taken from the final decision if again adverse. No appeal, it is said, can be taken from the interlocutory order to be entered on the present decision.

The decision which is, of course, important in holding that a foreign corporation may own stock in a company organized under Illinois laws, will, it is thought, prove to be of value to the Union Pacific in the suit (V. 86, p. 287) recently brought by the Government to set aside its control of the Southern Pacific and its stock holdings in other roads.

*Equipment Mortgage.*—A committee of the directors has in hand the drawing up of the form of an instrument to secure an issue of $30,000,000 equipment bonds which, as stated last week, will be used as collateral until permanent financing of the floating debt can be arranged. The company, it is said, owns rolling stock valued at $40,000,000, free and clear.—V. 86, p. 420, 337.

**Kansas City Mexico & Orient Ry.**—*Securities Offered.*—Steps are being taken to place additional amounts of bonds and stocks in Europe, and in the meantime the shareholders are urged to subscribe at par either for 1-year 6½% joint notes of the two construction companies which are building the railroad, each $1,000 note being secured by $2,000 in first mortgage bonds of the railroad company; or for first mortgage bonds of the railroad company, with a bonus of 40% in preferred and 40% in common stock. President Stilwell, in a circular letter, says:

I cannot urge too strongly the necessity of completing the 67 miles of track necessary to connect the road between the Red River and Benjamin. This will give us a line in operation from Wichita, Kan., to Sweetwater, Tex., and will enable us to secure a great deal of through business. We have experienced very trying times and it has been difficult to carry on construction work during the past 90 days; but we have continued to do so, and I hope our stockholders will now come to our assistance. This will give us 434 miles of continuous track in this one section, which ought to show earnings of $20,000,000, or much more than we have invested in the entire line up to the present time.—V. 86, p. 421.

**Lancaster & York Furnace Street Ry.**—*Change in Capitalization.*—This company, it is stated, has increased its bonded debt from nothing to $150,000, and has reduced its capital stock from $280,000 to $170,000; par value of shares $50.

The company owns 12 miles of trolley line, placed in operation in December 1903, but partially destroyed by flood in January 1904, operations resumed in April 1904. President, Fred Shoff, Lancaster, Pa.; Secretary, Jacob H. Bryne, Lancaster, Pa.; Treasurer, Amos M. Landis, New Danville, Pa.

**Lehigh Valley RR.**—*Equipment Trusts.*—It was learned this week that, in addition to the block of $2,000,000 4½% equipment trusts, series J, sold last October to Drexel & Co. of Philadelphia and associates (V. 85, p. 1005), there was subsequently sold to the same bankers a further lot of $3,000,000, completing the issue of series J. The equipment covered by and acquired through this $5,000,000 series, and the payment in cash in advance of $824,820, includes:

| | | | |
|---|---|---|---|
| Number | 1,000 box cars. | 1,000 steel gondolas. | 3,000 steel coal cars. |
| Capacity | 80,000 lbs. | 100,000 lbs. | 100,000 lbs. |

—V. 86, p. 52.

**Marietta Columbus & Cleveland RR.**—*To Be Operated by Toledo & Ohio Central Ry.*—President Jas. T. Blair says:

On Feb. 1 the Toledo & Ohio Central Ry. Co., as agents for the owners, assumed the entire control of the Marietta Columbus & Cleveland RR. (44 miles in length, extending from Moore Junction to Palos, O., &c.—Ed.) All equipment of every kind now in use in connection with the operation of the road will be turned over to said company. The general operating traffic and accounting departments will also be under the control of the Toledo & Ohio Central.—V. 81, p. 1100.

**Mexican Central Ry.**—*Option Expires, but Consolidation Negotiations Still Pending.*—A press dispatch from the city of Mexico on Feb. 18 said:

It is stated by Jose Y. Limantour, Minister of Finance, who has charge of the Government negotiations for the merger of the National lines and the Mexican Central, that, although the Government's option for the purchase of the Mexican Central expired on Feb. 1, and has not been renewed, the agreement as to the terms of the pending transaction remains in force until such time as either of the two interests involved manifests a desire to withdraw. In that case the agreement terminates a fortnight after such notice has been given. This practically has the effect of continuing the option. It is thought the transaction will be consummated in a short time. Compare National RR. of Mexico below.—V. 85, p. 1402.

**Missouri Pacific Ry.**—*Official Statement.*—In connection with the fall this week in the price of the stock, President George J. Gould was quoted as saying:

Rumors of financial troubles in the affairs of the Missouri Pacific are ridiculous. As for a receivership, that would never under any circumstances be permitted.

The Gould interests are back of the Western Pacific Ry., which is building from Salt Lake City to Oakland, Cal., with branches, 930 miles (of which 146 miles are in operation), but the Missouri Pacific, it is pointed out, is not concerned with that enterprise except indirectly through its interest in the Denver & Rio Grande and Rio Grande Western—V. 80, p. 1730; V. 86, p. 337, 286.

**Mobile Jackson & Kansas City RR.**—*New Directors.*—The following changes are announced:

New Directors—Brayton Ives (Chairman), George R. Sheldon, John W. Simpson, A. P. Walker and Wallace B. Rogers.

Retired—E. K. Stallo, R. W. Jones Jr., C. E. Levy, R. B. Scandrett and J. W. Whiting.

The new company, the New Orleans Mobile & Chicago RR., it is expected, will be organized shortly with the new directors above named.

*Reorganization.*—President L. S. Berg says:

Under the plan of reorganization about $1,500,000 has been obtained to apply to the improvement of the property and to provide additional equipment as well as to take care of the floating debt. The company is now practically on a cash basis.—V. 86, p. 52.

**Montreal Street Ry.**—*Debentures.*—The Bank of Montreal received subscriptions in London during the first week of February for an issue of £460,000 4½% 14-year sterling debentures at 96%, payable 5% on application, 25% on allotment, 35% Mch. 31 and 31% April 30 1908. Payment may be made in full on allotment under discount at 3½% per annum.

The debentures are for £100 each, payable, principal and interest, at the Bank of Montreal, London, and will be secured by means of a trust deed equally with existing debentures for $1,500,000, as a charge upon all real estate, bonds and stocks of subsidiary companies now owned by the company. The company cannot create any new mortgage in priority to the debentures. The company has now outstanding first mortgage bonds as follows: First series 5% bonds, due March 1 1908, $292,000; and second series 4½ % bonds, due Aug. 1922, £140,000; of these the first series will be redeemed out of the proceeds of the present issue. (There are also outstanding $1,500,000 20-year 4½ % debentures, dated 1902.) Interest will be paid by coupons on May 1 and Nov. 1. The certificates, which will be issued after allotment, will carry a coupon for three months' interest up to May 1 1908; definitive debentures will be issued in exchange for fully-paid scrip as soon as possible after May 1 1908. Compare V. 85, p. 1207; V. 86, p. 338 163.

**Muskegon Grand Rapids & Indiana RR.**—*Coupon Payment.*—Coupon No. 41, due Jan. 1 1907, is now being paid at the office of Winslow, Lanier & Co. The surplus Oct. 1 1907, after paying coupon No. 40, was $5,147, from which $86 of old accounts were charged off, leaving $5,061; the net earnings for the five months—August to December, inclusive—were $17,700; total, $22,761; amount required to pay coupon No. 41, $18,750; surplus as of Jan. 1 1908, $4,011. —V. 83, p. 1591.

**Nantucket Central RR.**—The road has installed gasoline motor cars on its 8½-mile line between Nantucket and Siasconset and will dispose of its narrow-gauge locomotive equipment.

**National RR. of Mexico.**—*Dividend Postponed.*—It is announced that the directors at a meeting held in the city of Mexico on Feb. 14 considered the declaration of the regular dividend on the first preferred stock ($32,000,000), and, although fully earned, decided to postpone action on account of the pending merger negotiations. 1% was paid semi-annually (2% per annum) from Aug. 1906 to Aug. 1907, both inclusive.

*Negotiations Active.*—See Mexican Central Ry. above.—V. 86, p. 53.

**New York-Philadelphia Co.**—*Receivership for Controlled Company.*—See Camden & Trenton Ry. above.—V. 86, p. 229, 53.

**Norfolk & Western Ry.**—*Equipment Trusts.*—A special despatch from Durham, N. C., on Feb. 11 to the "Raleigh (N. C.) News and Observer," announces the filing on that day of four equipment trust agreements for $1,000,000 each, under which the Virginia Company acts as lessor and the Commercial Trust Co. of Philadelphia as trustee. (Compare V. 82, p. 840). The equipment obligations secured by these agreements, constituting apparently Series L, M, N and O, will not, it is said, necessarily be disposed of at present. The rolling stock covered by each, much of which, it is reported, was delivered during the year 1906-07, consists, according to the press reports, of the following (compare V. 85, p. 661):

| *Designation*— | *1st Ser.* | *2d Ser.* | *3d Ser.* | *4th Ser* |
|---|---|---|---|---|
| Freight locomotives | 30 | 3 | - | |
| Hopper or drop bottom gondolas, 50 tons | 545 | 500 | 1,000 | 730 |
| Stock cars, 40 tons | | | | 300 |

—V. 86, p. 286, 109.

**Northampton (Mass.) Street Ry.**—*New Stock.*— The Massachusetts Railroad Commission on Feb. 19 authorized the company to issue 1,750 shares of additional capital stock at $110 per share (par $100) to provide for floating debt incurred for additions to plant.—V. 70, p. 1049.

**Pacific & Eastern RR.**—*Sold.*—An exchange paper says:

Control of this company has been sold by W. Cooper Morris, George Estes and others to Hunt Lewis of Portland, Ore.; Edgar Hafer of Medford, Ore.; and their associates. The road was projected originally from Medford to Butte Falls, Ore., but construction was suspended at Eagle Creek. Compare V. 84, p. 1552.

**Pennsylvania RR.**—*Economies.*—The general business depression, with the resulting decrease in traffic, on account of which the system now has standing idle some 400 locomotives and 77,000 freight cars (one, it is remarked for each shareholder), has led the directors, in common with the management of other roads, to put in effect extensive economies, which in the case of the Pennsylvania include a reduction in the working time of the men in all departments, a stoppage of much improvement work, a curtailment of renewals to moderate limits, &c., &c. Work, however, is being pushed on the company's tunnel roads into New York City and it is expected that the four tunnels under the East River will be excavated through from Long Island City to Manhattan within the next three or four months.—V. 86, p. 422, 286.

**Reading Co.**—*New Treasurer.*—Assistant Treasurer H. E. Paisley has been elected Treasurer of this company, the P. & R. Ry. Co. and the P. & R. Coal & Iron Co., to succeed the late Richard Tull.—V. 85, p. 787.

**Seaboard Air Line Ry.**—*Foreclosure Suit.*—The Continental Trust Co. of Maryland, as trustee under the $75,000,000 first mortgage dated 1900, filed a bill of foreclosure in the United States Court at Richmond, Va., on Feb. 19.—V. 86, p. 230, 109.

*Salaries Reduced.*—Effective Feb. 1 1908, all officers receiving more than $5,000 per annum suffered a 10% reduction in salaries; those getting between $3,000 and $5,000, inclusive, 8%.—V. 86, p. 230, 109.

**Sedalia (Mo.) Light & Traction Co.**—*Bond Offering—Further Particulars.*—E. H. Gay & Co., who, as stated Jan. 18, we are offering a block of first mortgage 5% 20-year gold bonds at 90 and interest, gave in a circular the following additional information:

The franchises are for long periods and extremely favorable in their terms, the ordinance covering the railway and electric-light departments running until 1940, while the gas franchise has just been passed upon by the Missouri courts and is granted for the longest period permitted by the laws of the State.

The company was incorporated in Dec. 1906, and acquired through outright purchase all the property, rights and franchises of the following corporations:

*Total Original Capitalization Replaced by Present Bond Issue.*

| | *Stock.* | *Bonds.* | | *Stock.* | *Bonds.* |
|---|---|---|---|---|---|
| Sedalia Elec. Ry., Lt. & P. Co | $200,000 | $200,000 | Ry. & Elec. Co. of Sedalia, pref | $100,000 | ------ |
| Sedalia & Brown Springs Ry. Co | 80,000 | 50,000 | Common | 150,000 | ------ |
| Sedalia Electric & Ry. Co | 200,000 | 140,000 | Sedalia Elec. Lt. & & Power Co | 50,000 | ------ |
| | | | Sedalia Gas & F. Co. | 75,000 | 60,000 |
| Totals | | | | $855,000 | $450,000 |

There had been expended on the various Sedalia properties through payment on their capital stocks $175,000 in cash and the proceeds from $450,000 of their bonds. Since July 1 1906 additional expenditures of over $200,000 have been made by the Sedalia Light & Traction Co. for improvements and enlargements making a total cash investment to date of upwards of $800,000, all of which comes under the $600,000 first mortgage bonds of the Sedalia Light & Traction Co. outstanding.

The gas plant has been practically rebuilt. Substantial new brick buildings have been erected, modern and efficient machinery and apparatus added, and the holder capacity increased five-fold. The plant is now in first-class condition and capable of meeting the prospective output for years to come. The gas mains have been thoroughly overhauled, and six miles of new mains laid. With the present enterprising control, and with ample plant for the first time, the sales of gas are being doubled.

The street railway has been equipped with between two and three miles of heavy rail since July 1906, and supplied with five new double-truck semi-convertible cars, a modern fire-proof car-barn and shop to repair its entire rolling stock. The power-station has been provided with three new direct connected units, with boiler installations.

The electric-light stations were previously operated separately and in costly competition. They are now consolidated in the street railway power-house under one roof, the old belt-driven machinery being replaced by modern units of high efficiency and of several times the old capacity. These changes have resulted in an important saving in the cost of generation and permit the company to supply the many demands for additional power, which have hitherto gone unsatisfied.—V. 86, p. 170.

**Snowbird Valley Ry.**—*Mortgage.*—The company, which operates a narrow-gauge road from Andrews to Snowbird, North Carolina, 15 miles, and is building a 4-mile branch up Little Snowbird Creek and proposes to build a 10-mile branch up Big Snowbird Creek, has made a mortgage to the North Georgia Trust Co., as trustee, to secure an authorized issue of $25,000 of $1,000 6% 5-year gold bonds.

The company was incorporated in North Carolina in 1905 and is controlled by the Kanawha Hardwood Co., which owns the entire $75,000 stock and will guarantee the bonds. Bond interest payable at Hanover National Bank, New York. President, J. O. Barker; Secretary, F. G. Henneman; Treasurer, W. A. Lewin. Office, Andrews, N. C.

**Southern Pacific Co.**—*Bay Shore Cut-Off near San Francisco.*—This important cut-off, saving over 2½ miles in distance, is described in an illustrated article in the "Railroad Gazette" of New York for Feb. 7.

*Alleged Rebates.—Proposed Litigation.*—The Inter-State Commerce Commission on Feb. 15 announced that information had been placed in the hands of United States District Attorneys throughout the country tending to show violations of the Inter-State Commerce Act in the granting of rebates or "special inside rates" by the company to 108 firms, corporations and individuals, and that orders have been issued to institute legal proceedings thereon.

It is said that in prosecuting these cases the Federal Government will work in harmony with the State authorities of California, who, it is reported, state that they have under consideration 4,000 alleged illegal transactions on the part of the company covering intra-State business only, and that if convictions are secured in all cases fines may be levied approximating $80,000,000. The statement issued by the Commission (see digest in "New York Sun" or "Times" of Feb. 16) alleges that refunds amounted in the various months of 1906 and 1907 to from $30,000 to $50,000 a month; that the refunds or discounts to one shipper between April 1906 (the time of the San Francisco fire, when all previous records were destroyed) to Sept. 21 1907 amounted to $23,894, and to other shippers between the same dates ranged from $13,690 to $22,251.—V. 86, p. 341, 334, 286.

**Third Avenue RR., New York.**—*Foreclosure Suit.*—The Central Trust Co., as substituted trustee, on Thursday filed notice of the commencement of a suit to foreclose the first consolidated mortgage of 1900, under which $37,560,000 bonds are outstanding.—V. 86, p. 338, 230.

**Toledo & Ohio Central Ry.**—See Marietta Columbus & Cleveland RR. above.—V. 86, p. 109.

**Union Pacific RR.**—*May Vote on Illinois Central Stock Holdings.*—See that company above.

*Rumored Bond Issue.*—It was rumored this week on apparent authority, although the reports were unconfirmed, that the company is preparing to issue, when the time is favorable, an amount of bonds stated to be not less than $35,000,000, to retire floating debt incurred for improvements and extensions. The company on June 30 1907 had 1,650 miles of road on which there was no mortgage lien, and in December last 425 miles of extensions were under construction, of which 270 were about completed.

*Directed to Answer Further Questions.*—Judge Hough on Feb. 14 made an order supplementary to that of last month directing President E. H. Harriman and Otto H. Kahn to answer further questions in the Inter-State Commerce Com-

mission investigation touching the purchases of stocks of other roads by the Union Pacific. Compare V. 86, p. 170.—V. 86, p. 338, 287.

**Warren (Pa.) & Jamestown (N. Y.) Street Ry.**—*New Bonds Offered.*—Julius Christensen & Co., Drexel Building, Philadelphia, recently offered for sale $100,000 2d mortgage bonds (the entire issue), dated Jan. 1 1908 and due Jan. 1 1918, without option of earlier redemption. Interest payable semi-annually in Philadelphia, "free of taxes in the States of Pennsylvania and New York." A circular says in substance:

The cost of the property as certified to the New York Railroad Commission was $635,000; $300,000 first mortgage bonds were issued, and capital stock, fully paid, $200,000, leaving a debt of something over $135,000, which has been reduced by surplus earnings to about $100,000. The second mortgage has been made to pay off said floating debt.

The road connects the cities of Warren, Pa., and Jamestown, N. Y., a distance of a little over 20 miles, running via Glade, Venturetown, North Warren, Russell, Ackley, Fentonville and Frewsburg. Total population served over 60,000. Enters Warren over the Warren Street Ry. and in Jamestown has a 50-year franchise. Built entirely on its own right of way owned in fee simple except for three or four miles, for which perpetual franchises are held. There is no direct steam railroad connection between Warren and Jamestown and by using the company's railway through passengers will save one-third in time and one-half in fare, besides landing in the public square of either city.

Built according to the best steam railway practice; no steep grades or sharp curves; two substantial steel bridges. Rails 70-lb. T, with oak and chestnut ties, ballasted with gravel. Equipped with 45-foot cars of latest type, each with 4 motors, andhaving passenger and smoking compartments. The express business is quite important and very profitable.

*Earnings for First Year,* 1906. *and* 11 *Months ending Nov.* 30 1907.

| Period covered | Gross Earns. | Oper. Exp. | Net Earns. | Interest 1st M. 5s. | Balance for 2d M. |
|---|---|---|---|---|---|
| Calendar year 1906 | $83,619 | $41,812 | $41,806 | $15,000 | $26,806 |
| 11 months 1907 | 77,216 | 40,529 | 36,687 | 13,750 | 22,937 |

—V. 85, p. 1520.

**West End Street Ry., Boston.**—*Sale of Common Stock at Auction.*—The company announces that 1,509 shares of the new common stock will be sold at auction by R. L. Day & Co., auctioneers, in Boston on Feb. 26.—V. 86, p. 53, 109, 287, 422.

**Windsor Essex & Lake Shore Rapid Ry.**—*Mortgage.*—The mortgage of the company to the Union Trust Co., Ltd., of Toronto, as trustee, dated Oct. 22 1907, secures "an issue of bonds thereunder not exceeding the rate of $20,000 per mile of the company's railway constructed or under contract to be constructed, not in the whole to exceed the sum of $2,500,000."

The above-mentioned bonds are 1st mortgage 40-year 5% gold bonds; amount authorized $2,500,000, outstanding $750,000, dated Dec. 2 1907 and due Dec. 2 1947. Interest dates Jan. 1–July 1, payable at office of trustee. Denomination $1,000. These bonds are subject to call in any amounts after 1912 at 105. There are no prior liens outstanding. Mortgage covers all real and personal property owned by the company. Authorized capital stock is $2,500,000; outstanding, $500,000 of common and $250,000 of preferred. Par of shares, $100. The officers are: John Piggott, President; W. J. Piggott, Secretary, and W. C. Crawford, Treasurer.

The shareholders will vote March 2 on "a certain proposed agreement providing for the sale of $750,000 bonds and the procuring of $60,000 more to complete the railway to Leamington; also a by-law to reduce the number of directors from 9 to 7; also a by-law providing for the issue and delivery of bonds, debentures or other securities to parties who have made or who may make advances to secure such advances."

*Description.*—The "Electrical World" of New York for Jan. 11 1908 has an illustrated article regarding the single-phase equipment of the company's line, which is now in successful operation between Windsor and Kingsville, Ont., 28 miles, and in process of extension from Kingsville to Ludmington, 9 miles.—V. 85, p. 347.

## INDUSTRIAL, GAS AND MISCELLANEOUS.

**American Steel Foundries.**—*Reasons for Accepting Reorganization Plan.*—In view of the efforts of a shareholder to prevent the carrying out of the reorganization plan (see V. 86, p. 170, 339), the directors' committee, consisting of E. H. Gary, Charles Miller, E. F. Goltra, G. B. Leighton, Edward Shearson and R. H. Swartwout, has issued a circular saying in brief:

The plan contemplated a change in the capital stock only on condition that stockholders should voluntarily adopt it. No provision is made to purchase securities of any minority stockholder. Before abandoning the plan, the committee has decided to make this further statement.

Notwithstanding the business has been prosperous, the stock has appeared to be of little value for sale or security. There has accumulated a large amount of dividends on the preferred, which, up to the present, it has been impracticable to pay. No dividends can be declared under existing conditions; and without a substantial change in the securities there seems no likelihood of dividends on either stock in the near future. To make it possible to distribute earnings without waiting to make up by accumulation of earnings the difference between the value of the properties and the capital stock, the directors decided upon the present plan for the issue of securities representing the fair value of the properties. To secure a reduction of stock thus made necessary, it was essential to provide a plan fair to all stockholders. In the opinion of directors who are holders of a large amount of both preferred and common, the plan will be of material and equal pecuniary benefit to each class if promptly carried into effect.

Swartwout & Appenzellar also by circular urge the stockholders to send their stock to the Guaranty Trust Co. in acceptance of the plan. Compare V. 86, p. 422, 339, 170.

**American Telephone & Telegraph Co.**—*Earnings.*—For January 1908:

| January— | 1908. | 1907. | Increase. | |
|---|---|---|---|---|
| General gross earnings | $3,402,000 | $2,819,000 | $583,000 | 20% |
| Toll earnings of long distance telephone lines | about 790,000 | 703,800 | 86,200 | 12% |
| Total | $4,192,000 | $3,522,800 | $669,200 | 19% |

*Status.*—See report of Mackay Companies under "Annual Reports" on a preceding page.—V. 86, p. 422.

**American Woolen Co.**—*Status.*—President Wm. M. Wood is quoted as saying in substance:

The situation the past day or two is a little bit better. We are having the hardest season since the company was formed. We never ran so little machinery as to-day. 65% of the machinery in our mills being idle. There appears to be great reluctance to buy. There has been a slight improvement in conditions and we are hopeful. I think that before the year is over we shall have a fairly good volume of business, but there is nothing at present to warrant the belief that the mills can be started on full time yet awhile.—V. 84, p. 1184.

**Appleton (Wis.) Water Works Co.**—*Receivership.*—Judge Joseph V. Quarles of Milwaukee on Feb. 11 appointed General Manager J. A. Hawkes as receiver of the company on application made by the Continental Security Co. of New York as a creditor to the extent of $10,000. A press dispatch says:

There has been much litigation the last six years between the company and city. (President) C. H. Venner (of Boston) having enjoined the city from constructing a municipal plant. The State Railroad Commission is about to put a valuation on the plant, the city contemplating purchase from the company.—V. 79, p. 2207.

**Barney & Smith Car Co., Dayton, Ohio.**—*No Dividend Declared on Common Stock.*—The Board of Directors at their meeting on Feb. 11 took no action in reference to a dividend on the $2,000,000 common stock of this company. This was deemed advisable under the present condition of business depression and in view of the uncertainty as to the duration of such conditions. The payment of the regular quarterly dividend of 2% on the $2,500,000 preferred stock was advertised in last week's "Chronicle" to take place on March 2. Compare V. 83, p. 381; V. 82, p. 694, 1042. —V. 85, p. 162.

**Bell Telephone Co. of Canada.**—*Report.*—For years:

| Cal. year— | Gross earnings. | Net earnings. | Divid's (8%). | Bal., sur. |
|---|---|---|---|---|
| 1907 | $4,829,656 | $1,043,797 | $871,018 | $172,779 |
| 1906 | 4,139,335 | 992,855 | 726,677 | 266,178 |

—V. 86, p. 231.

**Bell Telephone Co. of Pennsylvania.**—*Report.*—For calendar years:

| Calendar Year— | Gross Earnings. | Net Earnings. | Dividends (6%) | Balance, Surplus |
|---|---|---|---|---|
| 1907 | $7,670,439 | $2 410,953 | $1,840,417 | $570,536 |
| 1906 | 6,744,508 | 1,954,118 | 1,453,786 | 500,332 |

As to earnings of Chesapeake & Potomac Telephone Co., control of which has been acquired, separately reported, see that company below.—V. 86, p. 231.

**Bowman-Hicks Lumber Co., Kansas City, Mo.**—*Increase in Stock.*—The company, incorporated in Missouri in June 1900, has filed a statement of increase of authorized capital stock from $600,000 to $1,200,000, all of one class, one-half the increase paid (making $900,000 stock outstanding). Par of shares $100. Assets, $1,917,865; liabilities, $1,451,-898. No bond issue. President, W. C. Bowman; Secretary and Treasurer, Geo. R. Hicks.

**(J. G.) Brill Co., Philadelphia.**—*Report.*—For calendar year 1907:

*Results for Calendar Year* 1907 (*Wason Plant Included for* 9 *mos only.*)

| | | | |
|---|---|---|---|
| Gross earnings | $9,211,825 | Div. on pref. stock (7%) | $308,875 |
| Net, after depreciation | 1,368,949 | Div. on com. stock (4%) | 195,799 |
| Balance, surplus, after deducting full year's dividends | | | $864,275 |

The dividends here shown include the four quarterly distributions on each class of stock, including the distributions declared payable Feb. 1 1908 on the preferred, and March 14 1908 on the common stock. Compare official statement, V. 85, p. 1400.

**Brooklyn (N. Y.) Union Gas Co.**—*Dividends Resumed.*—The directors yesterday declared "a dividend" of 2½%, payable March 2 to holders of record Feb. 21. The last dividend was 1%, paid June 1 1906.

*Dividend Record (Per Cent).*

| 1896-1900. | 1901-1903. | 1904. | 1905. | 1906. | 1907. | 1908. |
|---|---|---|---|---|---|---|
| 6 yearly. | 8 yearly. | 9½ | 8½ | Mch., 2; June, 1 | None | Mch., 2½ |

—V. 84, p. 1054.

**Butte Coalition Mining Co.**—*No Dividend.*—As the miner of the company are producing no copper, the directors at their meeting on Tuesday declared no dividend.—V. 85, p. 1340.

**Calumet & Arizona Mining Co.**—*Dividend Action Postponed.*—The following statement was issued on Feb. 20, announcing the postponement of action on the quarterly dividend on the $2,000,000 capital stock (par $10):

On account of payments falling due in March upon options on mining properties, which the board has not yet decided to take or reject, action on the quarterly dividend has been deferred until the next regular monthly meeting. Compare V. 85, p. 1464.

**Canadian Pacific Sulphite Pulp Co., Limited.**—*Listed in London.*—The London Stock Exchange recently listed 64,000 "A" shares of £1 each, fully paid, Nos. 1 to 64,000; also, it is understood, 38,300 "C" shares of 1s. each, fully paid, Nos. 1 to 38,300.

**Chesapeake & Potomac Telephone Co.**—*Report.*

| Cal. Years— | Gross Earnings. | Net Earnings | Interest Charges. | Depreciation. | Balance, Surplus. | Total Surplus. |
|---|---|---|---|---|---|---|
| 1907 | $2,878,504 | $826,091 | $500,844 | $208,205 | $117,042 | $262,621 |
| 1906 | 2,452,076 | 593,505 | 365,417 | 152,406 | 75,682 | 145,579 |

The report of the Bell Telephone Co. of Pennsylvania states that the latter has since Jan. 1 last acquired the entire $8,000,000 of bills payable issued by the Chesapeake & Potomac Telephone Co. and over 99% of the $2,650,000 stock, in exchange for which it has issued $1,750,800 of its own stock in the ratio of $100 for $150 Chesapeake & Potomac stock.—V. 85, p. 1340.

**Chicago Pneumatic Tool Co.**—*Report.*—For calendar years:

| Calendar year | Net profits. | Deprec'n, &c. | Bond interest. | Sinking fund. | Dividends on stock. | Balance surplus' |
|---|---|---|---|---|---|---|
| 1907 | $848,007 | $176,595 | $117,129 | $50 000 | (3%) $190,063 | $314,221 |
| 1906 | 1,001,550 | 150,082 | 115,000 | 50,000 | (4%) 244,351 | 442,117 |
| 1905 | 852,612 | 127,927 | 115,000 | 50,000 | (4%) 244,551 | 315,134 |

V. 85, p. 1648.

**Chicago Telephone Co.**—*New Stock Offered.*—A circular has been issued offering stockholders of recrod Feb. 19 the right to subscribe pro rata at par, to the extent of 25%, of their holdings, for $4,500,000 new stock, payments to be made as follows: March 16, 20%; May 15, 20%; July 15, 40%; Oct. 2, 20%. The proceeds will supply the company's requirements during 1908 under the terms of the new franchises. Compare V. 86, p. 423.

**Cleveland & Buffalo Transit Co.**—*Stock Dividend.*—The shareholders will meet on March 14 to vote on a proposed increase of capital stock from $1,000,000 to $1,500,000, one-half the new stock to be distributed to stockholders as a stock dividend of 25%, balance to remain in treasury. A Cleveland paper says:

The stock dividend will simply capitalize part of the company's surplus. The concern has been very successful. Its bond issue has been retired steadily year by year until Jan. 1 this year, when the last $77,000 was paid off, leaving the company entirely out of debt. (Dividends for 1907 amounted to 8%. For four or five years prior to that time the dividends were 6% annually. The dividends are paid quarterly in Feb., May, Aug. and Nov. The directors are M. A. Bradley, Daniel Shurmer, Harvey D. Goulder, C. C. Harris, Alva S. Chisholm, Geo. W. Gardner, R. C. Moodey and T. F. Newman. -Ed. "Chronicle.")—V. 85, p. 1084.

**Colorado (Bell) Telephone Co.**—Earnings for year:

| | *Gross earnings.* | *Total expenses.* | *Net earnings.* |
|---|---|---|---|
| 1907 | $2,514,366 | $1,756,767 | $757,599 |
| 1906 | 2,097,706 | 1,658,486 | 439,220 |
| 1905 | 1,793,526 | 1,397,094 | 396,432 |

Subscribers' stations Dec. 31 1907 reported as 65,677, against 54,895 in 1906.—V. 85, p. 348.

**Consolidated Gas Co. of New York.**—*Favorable Decision Affirmed.*—The Appellate Division of the Supreme Court, First Department, on Feb. 14, by a vote of 4 to 1 (Justice Scott writing the opinion) affirmed the decision of Justice McCall refusing to grant permission to Attorney-General Jackson to annul the charter of the company on the ground (1) that it is a monopoly in violation of the State (Donnelly) anti-trust Act, and (2) that it is operating on illegal or lapsed franchises. Compare V. 85, p. 286; V. 84, p. 1250.

The Court says what is prohibited is the creation of a monopoly and a condition limiting the supply and enhancing the cost of the commodity dealt in. The consolidation of lighting companies in New York city can, it is said, in no sense create such a monopoly, since any other company may enter the field by obtaining the necessary consents from the constituted authorities, and neither production nor price can be arbitrarily fixed, these being subject to legislative control. Moreover, it is stated to be the settled policy of the State to discourage competition of lighting companies in the same field, as has been clearly held by the Court of Appeals and shown by Section 11 of the Gas and Electric Commission Act of 1905, which authorized the withholding of a certificate to a new company if the territory was already supplied by an ample and well-constructed system furnishing the service proposed at a fair and reasonable rate. The present Public Commissions law also prevents a company from exercising its powers until it shall first have obtained permission from the proper commission.

The question of duration of franchises or permission to open streets and lay pipes is, it is held, one for the municipal authorities to consider and no concern of the State.—V. 86, p. 282, 231.

**Consolidated Rubber Tire Co., New York.**—*Interest Reduced.*—The company, it is understood, has declared an interest payment of 2% on the $2,850,500 income bonds, payable April 1 next, contrasting with 3% in April 1907, 2% in 1906, 1½% each in 1904 and 1903.—V. 84, p. 627, 273.

**Cumberland (Bell) Telephone & Telegraph Co.**—*Report.*—For year ending Dec. 31:

| *Year—* | *Gross.* | *Net* | *Charges.* | *Div. (7%).* | *Bal., Sur.* |
|---|---|---|---|---|---|
| 1907 | $5,917,273 | $2,274,639 | $521,950 | $1,327,681 | $425,008 |
| 1906 | 5,384,844 | 1,937,437 | 405,001 | 1,129,504 | 402,932 |

—V. 85, p. 1272.

**Electric Bond & Share Co., New York.**—*New Director.*—Felix Rosen has been elected a director to succeed the late Geo. S. Stillman.—V. 83, p. 1349.

**Electric Storage Battery Co., Phila.**—*Status.*—President Herbert Lloyd has made the following statement:

In relation to the statements that have been made that the capital stock is to be reduced, I would state that while the suggestion has been made to me by many large stockholders that the time was opportune for such action, I have not yet presented the matter to the board. There is no necessity for such action, and it will not be approved by the board.

The annual statement which will be presented to the stockholders on March 18 will show that the dividends for the year 1907 were earned during the year, there being no necessity for drawing upon the surplus. What the earnings for the current year will be it is impossible to state, as the business of this company is naturally affected by general business conditions.

The company has no debt of any kind, discounts all its bills and has ample cash. Leaving aside its patents, agreements, good-will, &c., the company's assets amount to approximately $5,000,000, or about $30 per share on the outstanding stock.—V. 85, p. 1521.

**Farmers' Co-operative Harvesting Machine Co., Springfield, Ohio.**—*Receivership.*—At Springfield, O., on Feb. 13, this property was placed in the hands of C. S. Olinger as receiver. On Feb. 17 bankruptcy proceedings were brought.—V. 80, p. 2461; V. 79, p. 2459.

**First National Copper Co.**—*New Company.*—See Balaklala Copper Co. above.

*Directors.*—The following directors have been elected: Thomas W. Lawson (Pres.), Edgar L. Newhouse, George N. Towle, William H. Brevoort, T. M. T. Raborg, Thomas J. Barbour and R. N. Bishop.

**Frontier Telephone Co., Buffalo, N. Y.**—*Amended Franchise Desired Permitting Increase of Rates Proportionate to Increase in Service Rendered.*—This independent company, it is learned, contemplates asking the City Council for a franchise amendment permitting an increase in rates, at least for business telephones, for which the charge is now limited to $48 per annum. President Hubbell's remarks on the subject, cited by the "Buffalo Commercial" of Feb. 13, are of interest as bearing on the question, sometimes disputed, whether the increased service which results from a material enlargment in the number of subscribers justifies an advance in the annual charge. President Hubbell says:

Every telephone subscriber is individualized in construction, from his telephone to the central office. Each call from him is a distinct operation and a distinct cost, while in gas, water, street railways, &c., the per capita is grouped and the greater the number the less cost per capita. The unit of value in telephone service is not the instrument itself, but the messages actually used, and to be fair to the telephone company the subscriber should pay for the number of messages he uses, or a flat rate, increasing from time to time as the number of subscribers on the system increases.

The company's original plans called for an investment of $1,000,000, and to-day the plant has grown to represent an investment of $2,500,000, with more than 16,000 subscribers using the service as much as 185,000 times a day. We are proud of this record, but the relation between the quantity and quality of the service and the price paid for it is out of all proportion. I speak particularly of the business telephone. I do not believe we will apply at this time to change the residence rates.

(Capitalization: $3,000,000 stock in $100 shares. No dividends as yet—and $2,000,000 of an issue of $2,500,000 1st mtge. 5% gold bonds due July 1 1922, but subject to call after July 1 1912 at 105; interest payable Jan. 1 and July 1 at Trust Co. of America, N. Y. The Frontier stock was exchanged largely for Consolidated Telephone Company's stock, which issue amounts to $7,718,600, leaving, we understand, very little of the Frontier stock outstanding. Ed. "Chronicle.")—V. 74 p. 886; V. 80 p. 2346.

**Great Northern Iron Ore Properties.**—*Second Dividend of $1 per Share.*—The directors on Feb. 15 directed that a distribution of $1 per share be made on March 16 1908 to holders of their permanent certificates of beneficial interest in the above properties as they may appear of record on that date. Dividend No. 1, also $1 per share, was paid on Sept. 16 1907 (V. 85, p. 53). The number of shares outstanding (no par value) is about 1,495,720.

Transfer books will be closed at 3 p. m. Feb. 28 1908. Holders of temporary certificates should present them for exchange into permanent certificates at once. See advertisement on another page of this issue and compare Great Northern Ry. in V. 83, p. 1290; V. 84, p. 626, 693, 749.

**Hackensack Water Co., Weehawken, N. J.**—*Proposed Increase of Authorized Capital Stock.—No Immediate Issue Contemplated.*—The shareholders voted Jan. 31 to increase the limit of issue of the capital stock "from common stock of a par value of $3,000,000, divided into 120,000 shares of $25 each, to common stock of a par value of $6,000,000, divided into 240,000 shares of $25 each." An official circular dated Jan. 18 says in substance:

It is not proposed to issue any of this increased stock at the present time. We are only carrying out the long-established policy to keep the amount of issuable securities, both stock and bonds, well above the amount of immediate requirements. By pursuing this policy, the company has been enabled to provide the new capital necessary for the expansion of its system to meet the rapid growth of the large district which it supplies, and it is only by continuing this policy that it will be enabled to do so in the future. Of the present authorized issue of common stock ($3,000,000), stock of a par value of $2,625,000 has been issued, leaving only stock of a par value of $375,000 now issuable. The proposed increase to $6,000,000 will make the amount of issuable common stock equal to the amount of its issuable bonds.—V. 85, p. 1521.

**Hudson Navigation Co., Albany, N. Y.**—*New Control.*—The Albany "Argus" of Feb. 16 said:

At a meeting held in New York Feb. 14, following the recent election of Abel I. Culver as President, Charles Gibson of this city was elected a director to suceeed Calvin Austin. There are now two directors each in Albany and Troy and three in New York, which changes the seat of control to this end of the river.

It is understood that at the meeting in New York the company voted a $4,000,000 bond issue and that the Citizens' Company passed a resolution asking the Mallory line to pay the note of $150,000 loaned last summer. (The Grand Jury has been looking into certain financial transactions by the interests previously controlling the Hudson Navigation Co., which finally resulted, it is said, in a loan of $700,000 of the company's funds to the Metropolitan S. S. Co. (compare V. 85, p. 1405), and of $100,000 to the Consolidated Steamship Lines. Compare "New York Times" of Feb. 14.—Ed. "Chronicle.")

*Merger.*—A certificate of merger of Murray's Line, which operates a freight transportation line between Albany and Philadelphia, into the Hudson Navigation Co. was filed Feb. 18.—V. 86, p. 339, 112.

**Independent Brewing Co. of Pittsburgh.**—*No Dividend on Common Stock.*—The directors on Feb. 14 declared the regular quarterly dividend of 1¾% on the $4,500,000 preferred stock, payable Feb. 25, but decided not to pay a dividend at this time on the $4,500,000 common stock. The following statement was made by President John Benz:

When it was decided by the board of directors to pay an initial dividend (of 1%—Ed.) on the common stock last August, the surplus of the company, its earnings and business justified the belief that similar action would regularly follow quarterly. In the meantime the unsettled business conditions generally obtaining have caused the directors to conclude that conservative business policy demands that they should pay no dividend on the common stock at this time. Compare V. 85, p. 349, 1516.

**International Silver Co.**—*Preferred Dividend Reduced.*—The directors on Feb. 19 declared a quarterly dividend of 1% on the $6,607,500 preferred stock, payable April 1, thus reducing the annual rate to 4%, contrasting as follows:

*Total Cash Dividends Paid on Preferred Shares.*

1900. 1901. *Jan.* 1902 *to Jan.* 1907, *incl.* *Apr.* '07 *to Jan.* '08.
1¾% None. 4% y'ly with 1% ext. Mch. 1'07. 6% per an. (1½% qu.).
Also, in Jan. 1903, scrip. for unpaid divs., 21¼%.—V. 84, p. 751.

**Kanawha Hardwood Co.**—*Guaranteed Bonds.*—See Snowbird Valley Ry. under "Railroads" above.

**Kansas City Breweries Co.**—*Report.*—For calendar years:

| *Cal. yrs.* | *Total income.* | *Purchases and exp.* | *Deprec'n chgd. off.* | *Interest on bds.* | *Sinking fund, &c.* | *Pref. div. (3%).* | *Balance, surplus.* |
|---|---|---|---|---|---|---|---|
| 1907 | $2,366,745 | $1,882,515 | $89,227 | $198,840 | $25,000 | $43,980 | $127,183 |
| 1906 | 2,178,612 | 1,632,096 | 82,641 | 196,211 | 28,538 | | 239,127 |

Sales 297,424 barrels in 1907 against 275,468 in 1906. Total surplus Dec. 31 1907, $370,046. Dividends of 1½% each were declared and paid in April and July 1907 but none since.—V. 85, p. 866.

**Lackawanna Steel Co.**—*Report.*—For calendar year, including subsidiary companies:

| *Calendar year—* | *Gross sales.* | *Total net income.* | *Int. rentals, discount, &c.* | *Deprec'n & extraord'y.* | *Balance, surplus.* |
|---|---|---|---|---|---|
| 1907 | $33,011,410 | $6,431,454 | $2,255,627 | $1,731,981 | $2,443,846 |
| 1906 | 28,989,639 | 5,464,145 | 1,335,360 | 2,020,846 | 2,107,939 |

—V. 85, p. 1341.

**Lehigh Coal & Navigation Co.**—*Report.*—For years:

| *Calendar year—* | *Gross revenue.* | *Interest, taxes, &c.* | *Sink. fund & depreciation.* | *Dividends (8%).* | *Balance, surplus.* |
|---|---|---|---|---|---|
| 1907 | $4,142,282 | $1,380,957 | $406,800 | $1,387,604 | $966,921 |
| 1906 | 3,331,742 | 1,337,131 | 319,162 | 1,387,604 | 297,843 |
| 1905 | 3,422,662 | 1,305,265 | 321,415 | 1,387,604 | 408,378 |

—V. 84, p. 568.

**Leicester Corporation.**—*Offering of Guaranteed Stock.*—See Leicester & Continental Mills Co. above.

**Long Acre Electric Light & Power Co., New York.**—*Status.*—In connection with its request to the Public Service Commission to sanction the authorization of $10,000,000 of preferred stock and $50,000,000 bonds (V. 86, p. 423), the company says:

There is only one kind of capital stock outstanding. The amount thereof is $50,000, represented by 500 shares of $100 each, par value. No dividend has been declared thereon and the same is held as follows: The outstanding indebtedness of petitioner is $500,000 upon bonds issued and

sold and $100,000 upon bonds given as collateral security for the faithful performance on the part of petitioner of the contract between petitioner and the American & British Manufacturing Co., a copy of which accompanies this petition, all of which bonds are secured by a mortgage and also about $93,000 upon general open account not secured. Compare V. 86, p. 423.

**Muncie (Ind.) Electric Light Co.**—*Guaranteed Bonds Offered—Earnings, &c.*—Cramp, Mitchell & Shober, Philadelphia, are offering at 96 and interest a block of the outstanding $500,000 first mortgage gold 5% sinking fund bonds, dated 1907 and due July 1 1932, but subject to redemption at 110 and interest on July 1 1912, or any interest date thereafter. (Compare V. 85, p. 225). A circular says:

The American Gas & Electric Co., which guarantees the bonds, principal and interest, pays dividends of 6% on $1,200,000 preferred stock, and in 1907 earned over 6% on $2,500,000 common stock. The company owns and operates, without any competition, electric light and power companies located in the following cities:

| | | | |
|---|---|---|---|
| Atlantic City, N.J. | Conshohocken, Pa. | Bridgeport, O. | Marion, Ind. |
| Scranton, Pa. | Auburn, N. Y. | Canton, O. | Muncie, Ind. |
| Wheeling, W. Va. | Rockford, Ill. | | |

The company also owns the majority interest in the Edison Electric Illuminating Co. of Altoona, Pa.

*Extracts from Letter by Henry L. Doherty, President Muncie Electric Light Co., New York, Jan. 3 1908.*

All of the capital stock of the company is owned by the American Gas & Electric Co., which is a holding company, organized under the laws of the State of New York, capitalized at $7,000,000, which company owns electric-light plants in nine other cities, combined population nearly 500,000.

Total authorized issue of Muncie Electric Light Co. first 5s, $1,500,000; outstanding, $500,000; remainder, held by trustee, to be issued on a basis of 80% of the actual cost of the extensions, betterments, &c., but only when the net earnings for the preceding 12 months exceed double the interest upon the bonds outstanding and those then applied for $1,000,000.

Muncie, Ind., by the city directory recently completed, shows a population of 34,036, and indicates that the population has doubled in ten years.

*Earnings for Year Ending Nov. 30 1907.*

| | | | |
|---|---|---|---|
| Gross earnings | $161,749 | Int. on outstanding bonds | $25,000 |
| Net earnings | 83,118 | Balance, surplus | 58,118 |

The earnings have been increasing for the last 12 months at the rate of $1,500 per month. Compare V. 85, p. 225.

**Nebraska (Bell) Telephone Co.**—*Report.*—For calendar years:

| *Calendar year—* | *Gross earnings.* | *Net earnings.* | *Dividends (6%).* | *Balance, surplus.* | *Total surplus.* |
|---|---|---|---|---|---|
| 1907 | $1,773,166 | $428,544 | $254,888 | $173,856 | $719,860 |
| 1906 | 1,574,669 | 274,302 | abt. 196,812 | 77,490 | 558,324 |

Total stations Dec. 31 1907, 49,973 against 44,517 in 1906. —V. 84, p. 1485.

**New England Watch Co. of Waterbury, Conn.**—*New Stock.*—The shareholders will vote Feb. 24 on a proposition to increase the capital stock from $750,000, all of one class, to $1,000,000, through an issue of $250,000 (10,000 shares of $25 each) 7% cumulative preferred, the same to be offered to shareholders at par to provide additional working capital. Compare V. 84, p. 1185.

**New York & New Jersey Telephone Co.**—*Report.*—The earnings for the calendar year were:

| *Year—* | *Gross.* | *Net.* | *Charges.* | *Divs. (7%).* | *Bal., Sur.* |
|---|---|---|---|---|---|
| 1907 | $8,807,093 | $2,228,950 | $90,209 | $1,687,312 | $451,429 |
| 1906 | 7,447,147 | 1,787,493 | 86,629 | 1,272,797 | 428,067 |
| 1905 | 6,217,288 | 1,508,634 | 62,618 | 1,034,149 | 411,867 |

*New Director, &c.*—H. F. Stevens has been elected a director to succeed former Treasurer H. S. Snow.

At the annual meeting yesterday a detailed statement was made regarding the irregularities of the former Treasurer, mentioned last week, in which the maximum net loss to the company was given as $148,370. This has been charged to profit and loss, leaving the total surplus $4,728,953. The actual loss, it was said, might be reduced $30,000 from equities in Snow's loans. Compare V. 86, p. 424.

**Northern Iron & Steel Co. of Collingwood, Ont.**—*Foreclosure Suit.*—The "Toronto Globe" of Feb. 14 says:

A new phase in the affairs of the company came up yesterday in a writ issued at Osgoode Hall for the foreclosure of a mortgage for $51,299 against E. Helen Currie, Major John A Currie and the Northern Iron & Steel Co. The action is being taken by Howard K. Wood of New York, and comes as the latest development in litigation in which the company has become involved.—V. 80, p. 1000.

**Nova Scotia Steel & Coal Co., Ltd., New Glasgow, N. S.**—*Report.*—For calendar years:

| *Cal. year.* | *Profits for year.* | *Int. on bonds, &c.* | *Depr'n, sink. fund, &c.* | *Pref. dir. (8%).* | *Com. dir. (6%).* | *Balance, surplus.* |
|---|---|---|---|---|---|---|
| 1907 | $944,791 | $266,886 | $274,428 | $82,400 | $299,256 | $21,821 |
| 1906 | 960,281 | 255,629 | 236,784 | 82,400 | | 285,158 |

—V. 85, p. 1522.

**Osceola Consolidated Mining Co.**—*Report.*—For calendar years:

| *Year* | *Gross* | *Profits.* | *Improv'ts.* | *Dividends* | *Bal., sur.* |
|---|---|---|---|---|---|
| 1907 | $2,481,306 | $807,129 | $84,374 | (28%) $673,059 | $49,705 |
| 1906 | 3,646,811 | 1,778,671 | 155,482 | (48%) 1,153,800 | 469,389 |

The dividend charged against the earnings of the year 1907 ($7) was paid in July 1907; no further dividend declared. Compare V. 86, p. 173. V. 86, p. 424, 173.

**Pennsylvania Light & Power Co., Pittsburgh, Pa.**—*Stock.*—The company has filed a certificate of increase of stock from $500,000 to $650,000.

**(The) Pennsylvania Steel Co.**—*Official Statement.*—In replying to our inquiry, Frank Tenney, Assistant to the President, writes:

In relation to value of the Spanish-American Iron Co.'s ore properties in Cuba (V. 86, p. 425), I beg to state that, as you know, Mr. Schwab is not connected with this company, although I understand he has just returned from a visit to Cuba and made the remark as to the valuation of our ore properties in that island. However, the statement does not emanate from any one connected with this company. V. 85, p. 472

**Planters' Compress Co., Boston.**—*Retirement of Two-Thirds of Preferred Stock.*—The shareholders at a special meeting held on Feb. 14 authorized the retirement of two-thirds of the outstanding $3,250,000 preferred stock at a price not to exceed $10 per share, the stock so purchased to be held in the treasury.

Chairman Stephen M. Weld, in a circular dated Feb. 3, said

The directors decided in 1901 that it was essential to reduce expenses. All offices outside of Texas and Louisiana and Oklahoma were discontinued; also the baling of any commodities except cotton, this business being confined to the three States above mentioned. It was soon found unprofitable to operate a number of gin plants, and consequently the company commenced to sell these plants. Negotiations for the sale of the six remaining are progressing rapidly. We also concluded about a year ago that it was inexpedient to deal in cotton in any form. The company has, therefore, on hand something over $200,000 in cash. From the sale of certain assets not required for the business there should be realized within the year about $100,000 more. The company will then have sufficient compress machines and supplies for the demands of at least two years more. To carry on the business, $100,000 in cash will for the present be ample. It is, therefore, proposed that the company should use $200,000 of its cash on hand to retire two-thirds of the present outstanding preferred stock. The funds left in the treasury will, as stated above, be sufficient to carry the company along and keep the Lowry bale on the market until the present machines and supplies are exhausted.

In spite of the disastrous results in the past, the directors believe that the present Lowry compress is a mechanical success, that its cotton bale is superior to any other on the market, and that by energetic endeavor more farmers can be induced to take the presses and more cotton dealers to handle the bale. At present, on account of the attitude of the railroads and the action of the Inter-State Commerce Commission there is no demand for the bale by domestic mills. The demand by foreign spinners has not fallen off and can, it is believed, be increased. The economies for handling the bale for export are still such that the bale can be sold to the foreign spinner for a lower price than he has to pay for the square bale, the farmer can sell it for a higher price than he can get for square bales, and every middleman can make more profit than by handling square bales. The directors consequently think that it would be a serious mistake to give up the enterprise at the present time.

*Offer to Purchase.*—Treasurer Philip M. Reynolds, referring to the aforesaid vote, announces:

The company is prepared to purchase for cash at $10 per share any amount up to, but not exceeding, two-thirds of each preferred stockholder's preferred shares as shown by the books at close of business Feb. 14 1908. The purchase price will be paid at the Old Colony Trust Co. between Feb. 17 and March 25, inclusive, upon delivery of the certificates of stock duly endorsed. In case sufficient stock is not thus purchased to make up the total of two-thirds, the company is prepared to purchase the balance, but no more, at the same rate per share from preferred stockholders who are willing to sell.—V. 85, p. 341.

**Plattsmouth (Neb.) Water Co.**—*Default—Bondholders' Committee.*—Interest on the $62,500 outstanding 1st M. 4% bonds having been in default since and including the coupon of April 1906, the following bondholders' committee, namely, W. J. Brown of Foote & French, W. F. Porter, Attorney, and H. C. Spiller of H. C. Spiller & Co., all of Boston, owning about one-third of the issue, request the bondholders, without depositing their bonds, to co-operate with a view to placing the company on its feet. No assessment or fee, it is believed, will be necessary.

**Pocahontas Consolidated Collieries Co.**—*Litigation by Dissatisfied Shareholders of Old Co.*—The following information is at hand regarding the suit recently brought referred to in last week's "Chronicle" (p. 424):

The original bill was filed by the holders of 214 shares of Pocahontas Collieries preferred stock, but other preferred stockholders who have complied with the requirements of the laws of Virginia have filed intervening petitions, so that the holders of 3,016 shares, or one-fifth, of Collieries preferred stock have instituted proceedings against the Consolidated company for the purposes set forth last week. The petitioners also request that a receiver be appointed and that an injunction be granted against the issue, sale and hypothecation of bonds upon their property as proposed.—V. 86, p. 424.

**Richelieu & Ontario Navigation Co., Montreal.**—*Report.*—

| *Cal. year.* | *Gross earnings.* | *Net profits.* | *Insur. fund.* | *Written off.* | *Dividends per cent.* | *Bal., sur., for year.* | *Total surplus.* |
|---|---|---|---|---|---|---|---|
| 1907 | $1,305,004 | $261,423 | $36,000 | $53,930 | (5) $156,600 | $14,893 | $341,397 |
| 1906 | 1,366,299 | 261,040 | 36,000 | 114,046 | (1¼) 39,150 | 71,844 | 326,504 |

*Note.*—Dividends on the $3,132,000 stock were resumed Dec. 1 1906 by payment of 1¼% (quarterly).

*Bonds Offered.*—The underwriters, it is stated, offered this week in London $1,000,000 5% bonds at 96. On Dec. 31 1907 there were outstanding $3,132,000 capital stock and $293,947 old 5% sterling bonds, interest payable March 1 and Sept. 1. As to the new bonds, compare V. 84, p. 342, 453.

**Rocky Mountain Bell Telephone Co.**—*Explanation as to Omission of Dividend.*—Last month the company, after having paid dividends for some twenty-two years, omitted its January distribution. President Lane says:

The company's business has been affected severely in the past few months on account of the closing down of practically all of the coal and copper mines in our territory; also on account of the closing of the smelters in all but one or two points in our territory; further, by the unsettled condition of labor matters, particularly in Montana. These labor troubles are, however, in a fair way to be settled at a very early date. A settlement of these troubles will have an immediate and satisfactory influence upon the earning power of the company. I am unable to state definitely when our directors will see fit to resume the payment of dividends. Compare V. 86, p. 232.

**Saratoga (N. Y.) Gas, Electric Light & Power Co.**—*Reduction by Former Gas and Electricity Commission Set Aside, but Delegation of Legislative Powers to Commission Upheld.*—The Court of Appeals, by a unanimous decision (Chief Judge Cullen writing the opinion) on Feb. 19 reversed the decision of the Appellate Division of the Supreme Court, Third Department, which sustained the order of the former Gas and Electricity Commission reducing the prices to be charged in Saratoga Springs. Compare V. 85, p. 1344.

The Court declares unconstitutional that part of the former statute which provides that the prices fixed by the Commission shall be the maximum for three years, or until upon complaint new rates are designated by the Commission, on the ground that under the statute one party is accorded a right denied to the other, in violation of the Fourteenth Amendment to the Federal Constitution. The latter provides that no State shall deny to any person the equal protection of its laws. The right of the Legislature to delegate its powers to determine rates is upheld and the appointment of a commission is endorsed as a proper practical measure, thus, it is claimed, establishing the underlying principle of the Public Service Commission law (in which the section held to be invalid is omitted) so far as gas companies are concerned.

The New York City 80 cent gas litigation is not affected by the decisions, as that rate was fixed by the Legislature.—V. 85, p. 1344.

**Semet-Solvay Co., Syracuse, N. Y.**—*New Stock.*—This Pennsylvania corporation has filed notice of an increase of capital stock from $400,000 to $2,000,000.—V. 83, p. 276.

**Stanislaus & San Joaquin Water Co.**—*Sold.*—Los Angeles capitalists, among them Messrs. Hechtman, Kirchoff, Robbins and Balch, are reported to have purchased this company's extensive irrigation system, which covers the southern portion of San Joaquin County, Cal.—V. 67, p. 1358.

# Reports and Documents.

## THE NORTHERN CENTRAL RAILWAY COMPANY.

### FIFTY-THIRD ANNUAL REPORT—FOR THE YEAR ENDING DECEMBER 31 1907.

*General Office, Baltimore, Md., 19th February* 1908.

The Board of Directors submit herewith to the Stockholders of The Northern Central Railway Company a synopsis of their Annual Report for the year 1907:

| | | |
|---|---|---|
| The gross earnings of all lines directly operated were | | $13,237,198 00 |
| Operating expenses, including taxes | | 10,878,632 58 |
| Net earnings from operation | | $2,358,865 42 |
| Deduct rentals paid roads operated on basis of net earnings | | 83,362 48 |
| Net operating earnings of The Northern Central Railway Co. | | $2,275,502 94 |
| To which add: | | |
| Interest on investments | $909,170 50 | |
| Interest, general accounts, rents and other items | 338,254 24 | |
| | | 1,247,424 74 |
| Gross income | | $3,522,927 68 |
| Deduct: | | |
| Fixed rentals of leased roads | $318,397 42 | |
| Interest on bonded debt | 347,315 00 | |
| Hire of equipment, interest on mortgages, ground rents and car trusts and other items | 223,022 79 | |
| | | 888,735 21 |
| Net income | | $2,634,192 47 |
| From this amount the following amounts have been deducted: | | |
| Payments account principal of Car Trusts | $59,381 62 | |
| Dividends of 8% | 1,547,214 00 | |
| Amount transferred to Extraordinary Expenditure Fund | 500,000 00 | |
| | | 2,106,595 62 |
| Balance transferred to credit of Profit and Loss | | $527,596 85 |
| Amount to credit of Profit and Loss 31st December 1906 | | 1,860,467 96 |
| Add sundry credits during the year | | 55,461 42 |
| Amount to credit of Profit and Loss 31st December 1907 | | $2,443,526 23 |

GENERAL BALANCE SHEET (Condensed)—31ST DECEMBER 1907.

| | | |
|---|---|---|
| *Assets*— | | |
| Cost of railway, real estate and equipment | | $20,981,361 98 |
| Securities owned | | 6,776,278 45 |
| Current Assets: | | |
| Due from agents | $713,254 17 | |
| Bills receivable, etc | 2,613,365 70 | |
| Due from individuals and companies, and miscellaneous assets | 431,287 24 | |
| Materials | 1,043,252 41 | |
| Cash | 739,256 25 | |
| | | 5,540,415 77 |
| Depreciation fund for coal lands of the Shamokin Valley & Pottsville Railroad Company | | 569,841 18 |
| | | $33,867,897 38 |
| *Liabilities*— | | |
| Capital stock | | $19,342,568 75 |
| Funded debt (including mortgages and ground rents) | | 6,947,177 02 |
| Car trust principal and taxes charged out and awaiting settlement | | 374,146 92 |
| Extraordinary expenditure fund | | 793,777 15 |
| Current Liabilities: | | |
| Vouchers and pay-roll checks | $1,632,713 03 | |
| Interest accrued on funded debt | 123,891 25 | |
| Due other companies | 566,010 76 | |
| Interest matured on bonds and dividends uncollected | 3,835 00 | |
| Insurance fund | 38,511 02 | |
| Dividend payable 15th January 1908 | 773,638 00 | |
| Miscellaneous | 257,463 69 | |
| | | 3,396,062 75 |
| Depreciation fund for coal lands of the Shamokin Valley & Pottsville Railroad Company | | 570,638 56 |
| Profit and Loss | | 2,443,526 23 |
| | | $33,867,897 38 |

TRAFFIC.

The number of tons of freight moved was 25,053,553, an increase of 3,362,028, or 15.50 per cent. The number of passengers carried was 5,117,006, an increase of 278,783, or 5.76 per cent.

GENERAL REMARKS.

There was a continued increase in your gross earnings, but, owing to the greater cost of labor and materials, the entire gain in your operating revenue was practically absorbed by increased expenses. After payment of interest; taxes, the fixed rentals of leased roads and advances to line, in your system, there was a net income of $2,634,192 47, out of which was paid the regular dividend of eight per cents and after deducting $59,381 62 on account of the principal of car trusts, there remained a balance of $1,027,596 85. The extraordinary expenditures, amounting to $406,222 85, having been met out of the fund set aside last year for that purpose, the sum of $500,000 was tranferred to that fund and the balance of Income to the credit of Profit and Loss. This course is deemed to be prudent in view of the serious falling off in revenue and traffic since the first of December 1907, due to closing of furnaces, mills and other industrial establishments, and to the disturbed financial conditions that have prevailed since that date.

The items of extraordinary expenditure for the year were as follows:

| | | | |
|---|---|---|---|
| *Right of Way* | | | $71,067 00 |
| *Construction:* | Baltimore, extension of Calvert Freight Station | $45,049 42 | |
| | Canton, extending Grain Elevator No. 3 | 92,253 55 | |
| | Canton, additional tracks between 12th and 14th Streets | 720 47 | |
| | Canton, Clinton Street, enlarging Freight Agent's Office | 8,925 47 | |
| | Baltimore, Bolton Yard, Stationary Crane | 16,879 24 | |
| | Reservoir near Parkton | 14,599 86 | |
| | Smyser, Main Street Undergrade Bridge | 6,450 95 | |
| | Enola Yard, Facilities for Operation (¼ cost) | 4,924 00 | |
| | Total | | 189,802 96 |
| *Equipment:* | Rebuilding 424 Pool Freight Cars | $116,669 89 | |
| | Equipping Freight Cars with Air Brakes | 2,161 00 | |
| | Locomotives | 26,322 00 | |
| | Total | | 145,152 89 |
| | Real Estate | | 200 00 |
| | Aggregate | | $406,222 85 |

It will be seen that the main items of Extraordinary Expenditure were the increase of facilities at Grain Elevator No. 3 at Canton, the extension of the freight station at Calvert Street, the improvement of yards in Baltimore, the purchase of real estate and the rebuilding of engines and cars of larger capacity.

There was a net decrease of 2.27 miles in all Company tracks and sidings, due almost entirely to re-measurements.

There were 7,404 tons of new steel rails and 273,423 crossties used in repairs and renewals.

Three new standard passenger locomotives were purchased and two old passenger locomotives were sold and one cut up.

One second-hand passenger coach and one second-hand baggage car were purchased from the Pennsylvania Railroad Company to replace one passenger coach and one baggage-express car destroyed in an accident.

Thirteen cabin, two hundred and twenty-seven box, two box produce and one hundred and seventy-nine gondola cars were built or purchased to partially replace cars destroyed or sold.

The Insurance Fund amounted to $1,017,946 74 on December 31st 1907, the gain for the year being $41,501 94.

There were carried on the rolls of the Pension Department at the end of the year 172 employees, and the pensions paid during the year amounted to $38,547 31.

By order of the Board,

JAMES McCREA, *President.*

Attest: STEPHEN W. WHITE, *Secretary.*

---

**Southern Steel Co.**—*Circular Addressed to Holders of First Mortgage Bonds and Collateral Trust Notes.*—The reorganization committee, Secretary D. G. Boissevain, 30 Pine St., N. Y. City, in a circular dated Feb. 11 1908, say in substance:

Upon the petition of unsecured creditors, receivers in bankruptcy were appointed and took possession; the company has now been adjudged a bankrupt and trustees appointed for its liquidation. The company has also defaulted (compare V. 85, p. 1345, 1146) in the payment: (1) Of the interest due Nov. 1 1907 on its outstanding $3,000,000 first mortgage 5% sinking fund 25-year gold bonds secured by mortgage to the Farmers' Loan & Trust Co., as trustee; (2) of the interest due Dec. 1 1907 on its outstanding $734,000 (of the company's $2,000,000) 5% collateral trust gold notes secured by indenture to the Trust Co. of America, as trustee; (3) of interest and rentals on underlying mortgages and leases of valuable properties owned by subsidiary companies whose stocks are owned by the Steel Company and are pledged as security for the aforesaid collateral trust gold notes, by reason of which defaults foreclosure and ejectment suits have been commenced or are imminent; (4) of certain matured obligations to the amount of $420,000. The security for said $420,000 matured obligations, to wit, $1,266,000 of the company's collateral trust gold notes have been sold and bought in for and at the amount of the principal and interest of said matured obligations and the purchasers thereof have evidenced a willingness to sell to the committee the collateral trust gold notes at said price and interest. The receivers in bankruptcy entirely ceased the operations of the factories, mines and plants, and there are maturing taxes and other prior liens.

In view of the foregoing, and the imminent possibility of the disintegration of the properties, this committee has been formed for the protection of the holders of the first mortgage bonds and of the collateral trust gold notes, and to prepare a plan of reorganization.

Under the agreement the committee is vested with authority to do whatever may be necessary to enforce the rights and interests of the bondholders and the noteholders, including the right to borrow and use such sums of money as, in the opinion of the committee, may be necessary to protect the interests of the bondholders and noteholders, and to secure such sums as may be so borrowed by a pledge of the bonds and notes which may be deposited under said agreement.

Such plan of reorganization as may be prepared by the committee shall be submitted to the bondholders and the noteholders for their approval, and any bondholder or noteholder not approving of such plan of reorganization shall, upon the payment of his proportion of the expenses and obligations of the committee, be entitled to the return of the bonds and notes deposited by him under said agreement.

(A petition was filed on Jan. 11 1908 in the Federal Court at Birmingham for the return of certain properties in Alabama to the possession of the Lacey Buck Iron Co. A petition was also filed in the Federal Court at Chattanooga, Tenn., in which the trustee, under mortgage securing $600,000 bonds of the Chattanooga Iron & Coal Co., and that company itself, prayed for the possession of the properties of the latter company, now held by the Southern Steel Co.—Ed.)

Immediate action by the committee being necessary, the bondholders and noteholders are requested to deposit their bonds and notes with the New York Trust Co., No. 26 Broad St., New York City, without delay. (See advertisement on another page.)—V. 86, p. 424.

**Spanish-American Iron Co.**—*Value of Cuban Ore Properties.*—See Pennsylvania Steel Co. above and compare V. 86, p. 425.

**United Gas Improvement Co., Philadelphia.**—*New Director.*—Rudulph Ellis of Philadelphia has been elected a director to succeed W. W. Gibbs, who resigned.—V. 86, p. 425.

**United Box Board & Paper Co.**—*Report.*—See a preceding page.

*New Officers.*—James Todd and W. C. Staley have been elected directors to succeed C. A. Brown and S. B. Fleming. Hyatt Cox, formerly Secretary and Treasurer, has been chosen 2nd Vice-President and Treasurer, and W. C. Staley, Secretary.—V. 86, p. 233.

*Note.*—The balance sheet above does not include the American Straw board Co., of whose $6,000,000 stock within a few shares of 60% is owned, except under the item of stocks and bonds among assets with other securities owned. There being only about half a dozen other shareholders, the issuance of separate balance sheets of the American Company has been discontinued. The earnings of the latter are included with those of all other controlled properties in the income account above. V. 86, p. 233.

**United States Independent Telephone Co., Rochester, N. Y.**—*Receiver Appointed.*—Justice Nathaniel Foote at Rochester, N. Y., on Feb. 7, upon application by James M. E. O'Grady of that city, holder of $11,200 stock and $28,000 bonds, appointed Henry W. Conklin as receiver for the company.

The receivership, it is explained, is preliminary to an attempt by the bondholders' protective association to recover from the promoters the money paid for the bonds dated Oct. 2 1905, of which $15,773,000, it is stated, were issued, while the sale of collateral on Feb. 1 brought in only $250,000, leaving a deficit of over $15,000,000. Of the $50,000,000 stock, $42,576,000, it is alleged, was issued, mostly to promoters and others without consideration.—V. 86, p. 340.

**Wagner Electric Manufacturing Co., St. Louis.**—*Award.*—Judge Dyer in the U. S. District Court at St. Louis on Dec. 24 1907 reduced to $1 the award made some time ago by Henry H. Denison, Special Master, who assessed at $132,000 the damages incurred by the Westinghouse Electric & Manufacturing Co. for infringement of patent on an oil reducer.

The Court said the Master had assessed the damages on the profit on the sale of the entire transformer by the Wagner Company, regardless of what percentage, if any, the part infringed upon bore to the whole. The patent has no relation to that involved in suit referred to in item, V. 84, p. 1253.

**Western Electric Co., Chicago.**—*New Directors.*—J. T. Waterbury of New York and W. H. Miner of Chicago have been elected directors to succeed H. A. Halligan and J. W. Johnson, who resigned.—V. 86, p 340, 234.

**Western Ice Co.**—*Coupons to Be Paid in Scrip.*—Owing to the fact that the Knickerbocker Ice Co. of Chicago paid the dividend of 2% for 1907 on its common stock on Feb. 20 1908 in scrip (V. 86, p. 419), the Western Ice Co. of New Jersey announces that it will pay its coupons due Jan. 1 1908 in said scrip of the Knickerbocker Ice Co., March 1 1908, at its office, No. 71 Broadway. Compare V. 86, p. 340.

**West Side Lumber Co., Tuolumne, Cal.**—*Called Bonds.*—Fifty ($50,000) first mortgage 6% sinking fund gold bonds of the West Side Flume & Lumber Co. (now known as the West Side Lumber Co.), dated Jan. 1 1902 and secured by mortgage dated Dec. 7 1901, being various numbers ranging from No. 1 to No. 437, inclusive, were called for redemption at par on Jan. 1 1908 at the Mercantile Trust Co., the mortgage trustee, San Francisco. The interest due Jan. 1 will be paid at the Crocker National Bank, San Francisco. Wm. R. Thorsen is President.

**Woonsocket (R. I.) Electric Machine & Power Co.**—*Management.*—The shareholders of this company, which recently passed under the management of the Stone & Webster Co. of Boston (see Pawtucket Electric Co., V. 86, p. 173) on June 18 1907 elected the following board of directors, six of whom were new:

Directors: George Batchelor (President), John J. Heffernan, George R. Smith, Frank E. Holden (President of Woonsocket Gas Co.), all of Woonsocket; Frank A. Sayles of Pawtucket, Frank B. Bemis of Boston. Steadman Buttrick of Boston, Fred A. Arnold of Boston, S. Howard Martin of Boston, Messrs. Bemis, Buttrick, Arnold and Martin being connected with Estabrook & Co. of Boston, who purchased most of the $500,000 capital stock. Messrs. Smith, Batchelor and Heffernan were members of the old board.—V. 84, p. 1058.

---

—Julius Christensen & Co., bankers, Drexel Building, Philadelphia, are offering on another page to investors St. Louis & Springfield Railway Co. 1st mortgage 5% gold bonds, unconditionally guaranteed by the Illinois Traction Co. The bonds are dated Dec. 1 1903 and due Dec. 1 1933. For full particulars as to earnings, road, &c., see "Chronicle," V. 86, p. 422, and V. 85, p. 100. A descriptive circular will be sent upon request.

—Sanderson & Porter, the well-known electrical engineers, 52 William St., New York, announce that Mr. Wynn Meredith has been admitted as a member of the firm and will take charge of their Western office, Union Trust Building, San Francisco. The firm also includes Edwin N. Sanderson, H. Hobart Porter, Francis Blossom, Richmond Talbot and Richard S. Buck.

—Messrs. Swartwout & Appenzellar, 44 Pine St., New York, specialists in short-term securities, have issued a new edition of their wall card of railroad and industrial notes. This latest card, revised to date, contains some 80 issues, representing about $625,000,000, and is in the same convenient form as the earlier number.

—The New York Stock Exchange house of J. S. & R. D. Farlee, 11 Wall St., are offering in to-day's issue a list of high-grade railroad bonds and notes to which they invite the attention of investors. Full particulars can be had upon request.

—The quarters of D. Arthur Bowman, specialist in investment bonds, have been removed to the new Third National Bank Building, St. Louis. Mr. Bowman is St. Louis correspondent of Spencer Trask & Co.

—Mr. John L. Saltonstall, of the firm of Hunt, Saltonstall & Co., Boston, has become a member of the New York Stock Exchange.

# The Commercial Times.

## COMMERCIAL EPITOME.

*Friday Night, Feb.* 21 1908.

Whether it be true or not that some improvement is taking place in business, it is quite as obvious that a spirit of caution still pervades all branches of trade and industry. Prices in some cases have declined, though not markedly.

LARD on the spot has been easier. Domestic trade has continued dull and there has been an absence of export business here. At Chicago some export business has been reported, the sales within a few days amounting to about 1,000 tierces. City 6¾c. and Western 7.10@7.20c. Refined lard has been weak, with trade dull and of a hand-to-mouth character. Refined Continent 7.75c., South America 8.30c. and Brazil in kegs 9.50c. Speculation in lard futures at the West has been active, with prices irregular. Rallies have occurred at times, owing to temporary decreases in the movement of hogs and covering of shorts. But the feeling in the trade continues bearish, owing to the dulness of the spot markets and the fact that the movement of hogs in the aggregate continues large.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

| | *Sat.* | *Mon.* | *Tues.* | *Wed.* | *Thurs.* | *Fri.* |
|---|---|---|---|---|---|---|
| May delivery | 7.25 | 7.25 | 7.37½ | 7.32½ | 7.25 | 7.32½ |
| July delivery | 7.45 | 7.45 | 7.60 | 7.52½ | 7.45 | 7.52½ |
| September delivery | 7.60 | 7.67½ | 7.80 | 7.75 | 7.67½ | 7.75 |

PORK on the spot has ruled steady with trade quiet, purchases being confined to small lots. Mess $13 75@$14 25, clear $14 75@$16 and family $16 50. Beef has been dull but steady on light offerings and supplies. Mess $10 50@$11, packet $11@$12, flank $11 25@$11 75, family $14@$14 50 and extra India mess $21@$21 50. Cut meats have been steady with a small jobbing trade. Pickled hams 8½@9c. and pickled bellies, 14@10 lbs., 7@7¾c. Tallow has been dull but firmer on light offerings; City 5¼@5 5-16c. Stearines have been dull with oleo steady at 7¼c. and lard easier at 8¼@8½c. Butter has been quiet and easier; creamery extras 32c. Cheese has been quiet and steady; State, f. c., small, colored or white, fancy, 15¾c. Eggs have been quiet and stronger; Western firsts 25c.

OIL.—Cottonseed has been quiet and firm; prime summer yellow 38c. Linseed has been quiet with American easier at 43@44c. for raw and 44@45c. for boiled and Calcutta steady at 70c. for raw. Lard has been quiet and easy; prime 68@70c. and No. 1 extra 52@54c. Cocoanut has been quiet and steady; Cochin 8@8½c. and Ceylon 6¾@7½c. Olive has been quiet and steady; yellow 65@75c. Peanut has been dull and steady; yellow 65@80c. Cod has been moderately active and steady; domestic 42@43c. and Newfoundland 44@45c.

COFFEE on the spot has been dull and easy. Rio No. 7, 6¼c. West India growths have been moderately active and steady; fair to good Cucuta 9⅝@10¾c. Speculation in future contracts has continued quiet and prices have shown only trifling changes. In the main the tone has been easier, owing to scattered liquidation by tired holders and some selling for foreign account. Roasters and dealers, however, have given support at times. The outside public continues to hold aloof from the speculation, leaving it a narrow, professional affair.

The closing prices were as follows:

| | | | | | | |
|---|---|---|---|---|---|---|
| February | 5.90c. | June | 6.00c. | October | 6.10c. |
| March | 5.85c. | July | 6.05c. | November | 6.15c. |
| April | 5.90c. | August | 6.05c. | December | 6.20c. |
| May | 5.95c. | September | 6.10c. | January | 6.25c. |

SUGAR.—Raw has been dull and steady. Centrifugal, 96-degrees test, 3.67c.; muscovado, 89-degrees test, 3.17c., and molasses, 89-degrees test, 2.92c. Refined has declined, but there has been no increase of business at the lower quotations. Granulated 4.60@4.70c. Teas have been steady, with a fair jobbing trade. Spices have been moderately active and steady. Hops have been quiet and steady.

PETROLEUM has been firm, with a good demand for domestic and export account. Refined, barrels, 8.75c., bulk 5c. and cases 10.90c. Gasoline has been active and firm; 86-degrees in 100-gallon drums, 22c., drums $8 50 extra. Naphtha has been moderately active and firm; 73@76-degrees in 100-gallon drums 19c., drums $8 50 extra. Spirits of turpentine has been quiet and weak at 50@50½c. Rosin has been dull and steady; common to good strained $3 75.

TOBACCO.—The market for domestic leaf has been quiet, purchases being confined to small lots to fill immediate requirements. The better grades have ruled steady, but prices for the lower qualities have weakened to some extent, while the new crop is selling below the old one, largely because of inferior quality. Sumatra and Havana have been dull and steady.

COPPER has been dull and weak; lake 12¼@12½c. and electrolytic 12⅛@12⅝c. Lead has been dull and easier at 3.65c. Spelter has been quiet and steady at 4.80c. Tin has been quiet and easier at 28.15c. for Straits. Iron has been quiet and steady; No. 1 Northern $18 50@$18 75 and No. 2 Southern $17 25@$17 75.

# COTTON.

*Friday Night, Feb. 21 1908.*

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 134,208 bales, against 180,092 bales last week and 215,113 bales the previous week, making the total receipts since the 1st of September 1907, 6,705,512 bales, against 7,979,637 bales for the same period of 1906-07, showing a decrease since Sept. 1 1907 of 1,274,125 bales.

Speculation in cotton for future delivery has continued quiet, but the strong spot markets at the South, the firmness of quotations in Liverpool, where the spot trade has at times increased, and finally some covering here where some thought the position had become a trifle oversold, have all combined to bring about a small net advance for the week. Moreover, the receipts both at the ports and the interior towns have continued light and the weekly statistics of late have had, on the surface at least, a bullish aspect. Furthermore, the season for crop preparations at the South, especially in the Atlantic States, is reported somewhat backward. Such reports have undoubtedly had more or less effect, though it is recognized that there is still plenty of time to catch up. Some leading interests here have latterly appeared to be buying, and local covering has also been something of a feature on the eve of the holiday—Washington's Birthday. At one time New Orleans was somewhat prominent as a buyer, and though later on it became a seller, partly in sympathy with a break in the stock market, the selling from this source soon died out. Not a little switching business has been done, and spot interests in instances have been buying March and selling July. In general, however, the trading in both "spots" and "futures" has been on a very moderate scale, even when it has not been very small, and though certain large interests have, as already intimated, shown a disposition to buy, the consensus of opinion at the Exchange has on the whole been more or less bearish, owing to the reaction in trade, the lack of speculation and the somewhat disturbed financial situation. Yet the firmness of spot prices at the South, the maintenance of good premiums there on the better grades, the small and decreasing stock at New York and the strength of near months at Liverpool, despite large tenders—amounting on Friday to 14,000 bales—are factors which have been by no means ignored. Indeed, they largely account for the steadiness of values in the face of influences which have plainly militated against anything like a material or sustained advance. To-day there was a moderate advance, owing to covering of shorts, with more favorable Liverpool and Manchester advices and continued firmness of the Southern spot markets. Spot cotton here has been quiet and firm. Middling uplands closed at 11.50c.

The rates on and off middling, as established Sept. 11 1907 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

| | | | | | |
|---|---|---|---|---|---|
| **Fair** | **c. 1.75 on** | **Strict low mid** | **c. 0 30 off** | **Middling tinged** | **c. 0.30 off** |

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only

Continental imports for the past week have been 161,000 bales.

The above figures for 1908 show a decrease from last week of 102,511 bales, a loss of 738,894 bales from 1907, a decrease of 454,112 bales from 1906, and a gain of 622,254 bales over 1905.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

| Towns. | Movement to February 21 1908. | | | | Movement to February 22 1907. | | | |

The above totals show that the interior stocks have *decreased* during the week 10,495 bales and are to-night 59,703 bales less than at the same time last year. The receipts at all the towns has been 97,964 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

| *February* 21 — | 1907-08 | | 1906-07 | |
|---|---|---|---|---|
| *Shipped*— | Week. | Since Sept. 1. | Week. | Since Sep. 1. |
| Via St. Louis | 12,920 | 278,342 | 25,569 | 570,001 |
| Via Cairo | 6,248 | 129,998 | 6,032 | 169,927 |
| Via Rock Island | 1,340 | 19,716 | 4,238 | 49,915 |
| Via Louisville | 1,371 | 37,916 | 2,266 | 55,710 |
| Via Cincinnati | 1,841 | 28,136 | 1,022 | 38,733 |
| Via Virginia points | 3,419 | 60,838 | 6,742 | 85,956 |
| Via other routes, &c | 7,987 | 170,351 | 5,467 | 197,838 |
| Total gross overland | 35,126 | 725,297 | 51,336 | 1,168,080 |
| *Deduct shipments*— | | | | |
| Overland to N. Y., Boston, &c | 4,976 | 67,880 | 4,934 | 106,894 |
| Between interior towns | 1,388 | 55,558 | 1,079 | 36,795 |
| Inland, &c., from South | 893 | 43,658 | 1,870 | 33,261 |
| Total to be deducted | 7,257 | 167,096 | 7,883 | 176,950 |
| Leaving total net overland * | 27,869 | 558,201 | 43,453 | 991,130 |

* Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 27,869 bales, against 43,453 bales for the week last year, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 432,929 bales.

| *In Sight and Spinners' Takings.* | 1907-08 | | 1906-07 | |
|---|---|---|---|---|
| | Week. | Since Sept. 1. | Week. | Since Sept. 1. |

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices from the South this evening indicate that rain has fallen in most sections during the week, with the precipitation a little excessive in some portions of the Gulf and Atlantic States. Temperature has been rather lower. Wet weather is stated to have interfered with the preparation of soil in Texas, but as a whole farmers are well up with their work. Elsewhere as a rule farm operations have made slow progress and are claimed to be backward.

*Galveston, Texas.*—Although rain has at times interfered with preparation of ground for the next crop, farmers as a whole are well up with their work. Rainfall for the week seventy-eight hundredths of an inch on two days. Average thermometer 54, highest 74, lowest 34.

*Abilene, Texas.*—There has been no rain during the week. The thermometer has averaged 47, the highest being 72 and the lowest 22.

*Corpus Christi, Texas.*—There has been no rain the past week. The thermometer has averaged 59, ranging from 40 to 78.

*Fort Worth, Texas.*—We have had rain on one day during the week, the rainfall being fourteen hundredths of an inch. The thermometer has ranged from 22 to 64, averaging 43.

*Palestine, Texas.*—We have had rain on two days during the week to the extent of thirty-nine hundredths of an inch, followed by a cold wave. Average thermometer 43, highest 62, lowest 24.

*San Antonio, Texas.*—There has been no rain during the week. The thermometer has averaged 50, the highest being 72 and the lowest 28.

*Taylor, Texas.*—We have had rain on one day of the week, to the extent of two hundredths of an inch. The thermometer has averaged 45, ranging from 24 to 66.

*New Orleans, Louisiana.*—It has rained on two days of the week, the precipitation being ninety hundredths of an inch. Average thermometer 50.

*Leland, Mississippi.*—We have had rain during the week, the rainfall reaching three inches and eighty-two hundredths. The thermometer has averaged 50.1, ranging from 24 to 67.

*Vicksburg, Mississippi.*—There has been rain on two days during the week, the rainfall being one inch and sixty-eight hundredths. The thermometer has ranged from 28 to 72, averaging 48.

*Helena, Arkansas.*—Not much farm work is being done, but it is believed that more cotton will be planted than last year if labor can be obtained. The river is overflowing outside the levee. It has rained on two days during the week, the rainfall reaching forty-six hundredths of an inch. Average thermometer 41, highest 48 and lowest 25.

*Memphis, Tennessee.*—It has rained on three days of the week, the rainfall reaching two inches and sixteen hundredths. The thermometer has averaged 42.2, ranging from 24.4 to 68.

*Nashville, Tennessee.*—It has rained during the past week to the extent of one inch and twenty-one hundredths. The thermometer has ranged from 24 to 66, averaging 45.

*Mobile, Alabama.*—Heavy rains in the interior middle of the week and freezing temperature later. Farm work is backward and making slow progress. We have had rain on two days of the week, the rainfall being one inch and thirty-eight hundredths. Average thermometer 51, highest 67, lowest 32.

*Montgomery, Alabama.*—There has been rain on four days during the week, the rainfall being one inch and eighty-two hundredths. The thermometer has averaged 48, the highest being 70 and the lowest 31.

*Selma, Alabama.*—We have had rain on one day of the week, to the extent of one inch and fifteen hundredths. The thermometer has averaged 42.5, ranging from 26 to 64.

*Madison, Florida.*—There has been rain on one day during the week, to the extent of fifty hundredths of an inch. The thermometer has ranged from 31 to 74, averaging 53.

*Augusta, Georgia.*—Rainfall for the week seventy-three hundredths of an inch, on two days. Average thermometer 47, highest 74, lowest 27.

*Savannah, Georgia.*—We have had rain on three days during the week, the precipitation being sixty-five hundredths of an inch. The thermometer has averaged 52, the highest being 70 and the lowest 33.

*Charleston, South Carolina.*—There has been rain on three days of the past week, the rainfall reaching one inch and twenty-eight hundredths. The thermometer has averaged 50, ranging from 33 to 68.

*Greenwood, South Carolina.*—We have had rain on two days during the week, the rainfall reaching ninety-five hundredths of an inch. The thermometer has ranged from 32 to 51, averaging 41.

*Stateburg, South Carolina.*—It has rained on two days of the week, the precipitation being one inch and fifty hundredths, followed by high winds and cold wave. Average thermometer 34, highest 68, lowest 29.

*Charlotte, North Carolina.*—There has been rain during the week to the extent of one inch and sixty-four hundredths of an inch. The thermometer has averaged 41, the highest being 63 and the lowest 25.

The following statement we have also received by telegraph, showing the height of rivers at the points named at 8 a. m. of the dates given:

| | | Feb. 21 1908. Feet. | Feb. 21 1907. Feet. |
|---|---|---|---|
| New Orleans | Above zero of gauge | 12.1 | 19.7 |
| Memphis | Above zero of gauge | 39.2 | 18.9 |
| Nashville | Above zero of gauge | 25.0 | 10.8 |
| Shreveport | Above zero of gauge | 14.6 | 4.7 |
| Vicksburg | Above zero of gauge | 33.9 | 48.0 |

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts of cotton at Bombay and the shipments from all India ports for the week and for the season from Sept. 1 for three years have been as follows:

| February 20. Receipts at | 1907-08. | | 1906-07. | | 1905-06. | |
|---|---|---|---|---|---|---|

| All others— | | | | | | |
| 1907-08 | | 3,000 | 3,000 | 8,000 | 76,000 | 84,000 |
| 1906-07 | | | | 6,000 | 44,000 | 50,000 |
| 1905-06 | 1,000 | | 1,000 | 9,000 | 55,000 | 64,000 |
| Total all— | | | | | | |
| 1907-08 | 1,000 | 19,000 | 20,000 | 29,000 | 394,000 | 423,000 |
| 1906-07 | | 28,000 | 28,000 | 29,000 | 598,000 | 627,000 |
| 1905-06 | 1,000 | 24,000 | 25,000 | 43,000 | 524,000 | 567,000 |

According to the foregoing, Bombay appears to show a *decrease* compared with last year in the week's receipts of 27,000 bales. Exports from all India ports record a loss of 8,000 bales during the week and since Sept. 1 show a *decrease* of 204,000 bales.

JUTE BUTTS, BAGGING, ETC.—The market for jute bagging has been devoid of activity during the week under review. A further reduction in quotations was announced on Tuesday last, 2-lb. domestic bagging being marked down to 7¼ cents per yard and rewoven and inferior foreign to 6½ cents per yard, or a drop of ¼ to ½ cent per yard. Jute butts have been dull at 2@3 cents per lb. for bagging quality.

## WORLD'S SUPPLY AND TAKINGS OF COTTON.—

The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Sept. 1, for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amount gone out of sight, for the like period.

| Cotton Takings. Week and Season. | 1907-08. | | 1906-07. | |
|---|---|---|---|---|
| | *Week.* | *Season.* | *Week.* | *Season.* |
| Visible supply Feb. 14 | 4,939,197 | | 5505,852 | |
| Visible supply Sept. 1 | | 2,291,844 | | 1,784,156 |
| American in sight to Feb. 21 | 197,582 | 8,894,145 | 316,486 | 10,630 209 |
| Bombay receipts to Feb. 20 | 76,000 | 1,126,000 | 103,000 | 1,363,000 |
| Other India ship'ts to Feb. 20 | 4,000 | 124,000 | 10,000 | 119,000 |
| Alexandria receipts to Feb 19 | 18,000 | 796,000 | 21,000 | 835,000 |
| Other supply to Feb. 19 * | 1,000 | 186,000 | 2,000 | 207,000 |
| Total supply | 5,235,779 | 13,417,989 | 5,958,138 | 14,938,365 |

* Embraces receipts in Europe from Brazil, Smyrna, West Indies, &c.

## FALL RIVER MILL DIVIDENDS.—

Thirty-three cotton-manufacturing corporations in Fall River have declared dividends during the first quarter of the year, and the total amount paid out is only $35,350 less than for the corresponding period of 1907, when extra dividends served to swell the total to a greater extent than in the current year. The aggregate of the amount distributed has been $561,550, or an average of 2.27% on the capital. In 1907 thirty-two mills made distribution, and the average rate was 2.60%. In 1906 the average rate was 1.94% and in 1905 was only 0.32%; in 1904 it was 1.21%; in 1903 it was 1.44%; in 1902 it was 1.41%; in 1901 it was 1.73%; in 1900 it was 1.81%; in 1899 it was 0.88%; in 1898 it was 0.26%; in 1897 it was 1.01%, and in 1896 it reached 1.99%. It will therefore be seen that the current year's rate of dividend payments is greater than in the first quarter of any year since 1896 only excepting 1906.

| Jan | 25,191 | 20,653 | 528,294 | 560,245 | 98,470 | 104,367 | 123,661 | 125,020 |
| Stockings and socks | | | | | | | 339 | 368 |
| Sundry articles | | | | | | | 16,215 | 16,127 |
| Total exports of cotton manufactures | | | | | | | 495,411 | 481,924 |

The foregoing shows that there has been exported from the United Kingdom during the four months 495,411,000 lbs. of manufacturing cotton, against 481,924,000 lbs. last year, or an increase of 13,487,000 lbs.

A further matter of interest is the destination of these exports, and we have therefore prepared the following statements, showing the amounts taken by the principal countries during January and since Oct. 1 in each of the last three years.

| *Piece Goods—Yards.* (000s omitted.) | *January.* | | | *Oct. 1 to Jan. 31.* | | |

## BREADSTUFFS.

*Friday, Feb.* 21 1908.

Prices for wheat flour have shown some irregularity, but there has been an absence of important changes. In the main the tone of the market has been steady, despite a further decline in wheat quotations and the continued dulness of trade. If buyers in the local market have taken only enough flour to satisfy immediate needs, millers, on the other hand, have shown no disposition to press sales. Trade at most of the larger milling centres of the country has continued quiet. Export business at most points has been at almost a standstill, though on one day during the week sales of 50,000 barrels were reported for shipment to Japan. Rye flour has been quiet and steady. Corn meal has been dull and easier.

Wheat has again declined, mainly owing to continued sharp competition from Argentine in the markets of Europe. The large Argentine shipments, however, have latterly been in some degree neutralized, so far as this country is concerned, by light receipts and dwindling stocks at our Western markets and an excellent demand for cash wheat from Western mills. This domestic demand has largely offset the comparative absence of export business. The stock at Minneapolis has lost 200,000 bushels during the week, and at such points as Chicago, St. Louis, Kansas City and Toledo diminishing receipts have been accompanied by a very noticeable falling off in stocks. In a word, the growing strength of the American statistical position of late has tended to take the edge off the bearish Argentine figures, the large world's shipments and an increase in the European visible supply last week of approximately 5,400,000 bushels. It is a fact that last week the available American supply increased 4,100,000 bushels, as against an increase in the previous week of 2,106,000, and for the same week last year of only 400,000, but during the week just ended the drift of the American statistics has been the other way. American mills have evidently been absorbing large quantities, and it is contended that this fact and the decreasing American receipts would have had far greater effect than has been the case but for the enormous shipments of Argentine wheat to Europe. European quotations have at times very plainly shown the effect of this Argentine pressure, although of late they have been somewhat steadier, partly in response to the advices from American markets. As the case stands, Argentine is the one factor which seems to prevent any marked recovery of prices. Early in the week, however, singularly enough, Russia and even Turkey were buying Argentine wheat. Stocks in the Southwestern markets of Russia have for some little time past been reported small, and within a day or two the Continent has shown a disposition to bid over the United Kingdom for River Plate cargoes. To-day prices were easier at one time on large Argentine shipments and liquidation, but in the main the tone was stronger, owing to light offerings, reports of an active milling demand, firmer Liverpool cables and covering on the eve of the holiday.

| September delivery in elevator | 88 | 86⅞ | 86 | 86 | 86 | 85⅞ |

Indian corn futures have declined, owing mainly to the depression in wheat and liquidation. At times, too, there has been considerable pressure to sell, attributed largely to cash and elevator interests at the West, and the cash market has been quiet as a rule. On the other hand, the movement of the crop has fallen to remarkably small proportions as a result of unfavorable weather for marketing and there has been more or less buying by commission houses and leading Chicago interests. The supply of contract grade at Chicago continues small. But, owing to the weakness of wheat and the belief in a much larger crop movement shortly, there

has been more disposition to sell than to buy. To-day prices were firmer, owing to the better tone of wheat, continued small receipts, light offerings and covering of shorts.

| September delivery in elevator | 59 | 58⅛ | 58⅜ | 58⅛ | 57 | 57⅜ |

Oats for future delivery in the Western market have declined, owing to sympathy with the depression in other cereals. The speculation has been on a comparatively small scale, but there has been scattered liquidation and selling by cash interests, while the chief demand has been to cover shorts. The cash trade has been dull. The receipts have been unusually small, owing to the bad weather for moving the crop; but for all that the supply of contract oats at Chicago continues to increase. To-day prices were easier at first, owing to liquidation and selling by cash interests, but later they rallied on the firmness of other cereals and covering of shorts.

## THE DRY GOODS TRADE.

*New York, Friday Night, Feb.* 21 1908.

There has been some slight improvement in the primary cotton goods market during the past week, but so far it has not been sufficiently marked to cause much comment. A large number of buyers is still in town, and while most of these are retailers there are a few jobbers from the West and South who have placed some orders with first hands both for goods for immediate shipment and, in a very few instances, for future delivery. Prices are beginning to be more attractive to buyers, and there is a disposition to purchase goods at present levels to average up those bought at higher ranges and not yet worked off. Jobbers have done a moderately good business during the week, and this is bound to be reflected in the primary market in the near future. The raw material market is being carefully watched, but it is generally felt that any further decline in the price of cotton that is likely to occur will be more than offset, as far as the price of cotton goods is concerned, by the curtailment of production that has taken place and is still continuing. One of the most favorable features of the week has been the sale of a fair quantity of goods to China and an improvement in the general export business. The prices realized have certainly been very low, but manufacturers have been willing to accept them rather than be forced to let their machinery stand idle. The woolen and worsted dress goods market has maintained its slightly better tone, but conditions in the men's wear market are still far from being satisfactory.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Feb. 15 were 3,919 packages, valued at $223,811, their destination being to the points specified in the tables below:

| | 1908 | | 1907 | |
|---|---|---|---|---|
| *New York to Feb. 15* | *Week* | *Since Jan. 1.* | *Week* | *Since Jan. 1.* |
| Great Britain | 3 | 19 | 55 | 399 |
| Other Europe | 5 | 82 | — | 82 |
| China | | 3,180 | 2,643 | 3,079 |
| India | 20 | 1,703 | | 2,356 |
| Arabia | 1,315 | 2,115 | 2,639 | 10,576 |
| Africa | 331 | 671 | 556 | 2,078 |
| West Indies | 221 | 2,552 | 344 | 3,391 |
| Mexico | 5 | 243 | 52 | 301 |
| Central America | 291 | 2,015 | 320 | 2,527 |
| South America | 1,300 | 6,362 | 672 | 6,206 |
| Other countries | 323 | 2,346 | 126 | 8,073 |
| Total | 3,919 | 21,089 | 7,366 | 39,568 |

The value of these New York exports since Jan. 1 has been $1,454, in 1908, against $2,351,990 in 1907.

While buyers are still moving with great caution, the lower values are creating more confidence and the market for heavy sheetings is appreciably better than it was a week ago. Medium and light-weight sheetings are also in slightly better demand and have been favorably affected by the sale of some 13,000 bales to China during the past ten days. These have consisted for the most part of 3.25 and 3.50 yard drills and 4-yard, 4.70 and 5-yard sheetings, which still further emphasizes the fact that China is prepared to take lighter weight goods from this market than she was accustomed to in the recent past. Other export sales have consisted of ducks and prints, and it is expected that there will shortly be a fair demand for Canton flannels and cotton blankets. Bleached goods have been moving rather more freely, and no further price changes are looked for for some months to come. Denims, ticks and other coarse, colored cotton goods are steadily held, but the demand is very small. The purchasing of napped goods is still being delayed, but is expected to commence actively in the near future. There has been some improvement in the demand for prints, and ginghams have been ordered in limited quantities, both from the South and East. Narrow print cloths continue quiet, but converters have been in the market for some wide goods; the former are slightly easier, but the latter are steadily held.

WOOLEN GOODS.—Practically all lines of men's wear heavy-weight woolen and worsted goods have now been opened and the initial buying of medium-priced goods has been almost completed. That it has been far from satisfactory to sellers can only be repeated, but there is some satisfaction derived from the belief that the orders that have been placed will stand, and that duplicate ordering will necessarily have to be on a fairly heavy scale. It is estimated in some quarters that the amount of initial business has not been more than two-fifths of that of last year. The lower-priced lines have been the worst sufferers, as might have been expected, but the business that has been placed has been unevenly distributed, with the result that occasionally one finds a manufacturer who is satisfied with the results so far attained. The large number of buyers at present in town has had a favorable effect upon the dress goods market, and sellers are much more optimistic over the outlook than they were a few weeks ago. Most of the buyers have been attracted by the special offerings of jobbers and auction sales, but the primary market has not been neglected, and some fair orders have been placed during the week. The suiting trade has been particularly active, but all are looking for something cheap and prices in consequence rule irregular. Broadcloths, panamas and voiles have been in best demand.

FOREIGN DRY GOODS.—There has been more active purchasing of imported woolen and worsted dress goods. Silks and ribbons continue quiet, but an improvement is looked for soon. Linens are moving slowly, and some reduction in prices would not be surprising. Burlaps are steady, and the Calcutta production is to be curtailed from 15 to 20%.

**Importations and Warehouse Withdrawals of Dry Goods.**

The importations and warehouse withdrawals of dry goods at this port for the week ending Feb. 15 1908 and since Jan. 1 1908, and for the corresponding periods of last year.

# STATE AND CITY DEPARTMENT.

## *MUNICIPAL BOND SALES IN JANUARY.*

We present herewith our detailed list of the municipa bond issues put out during the month of January which the crowded condition of our columns prevented our publishing at the usual time.

The review of the month's sales was given on page 361 of the "Chronicle" of Feb. 8. Since then several belated January returns have been received, changing the total for the month to $11,133,636. The number of municipalities issuing bonds was 136 and the number of separate issues 178. In the case of each loan reference is made to the page of the "Chronicle" where an account of the sale is given.

All the above sales (except as indicated) are for December. These additional December issues will make the total sales (not including temporary loans) for that month $13,349,125.

## News Items.

**Montana.**—*Resignation of Governor.*—On account of ill health, Governor Joseph K. Toole has tendered his resignation, to take effect April 1. He will be succeeded by Edwin Norris of Dillon, now Lieutenant Governor.

**New York State.**—*Missouri Pacific Bonds as Investments for Savings Banks.*—Attorney-General Jackson on Jan. 13, in response to the request of Clark Williams, Superintendent of Banks, rendered an opinion in accordance with which the bonds of the Missouri Pacific Railway Company will be stricken from the list of savings bank investments in this State. The Attorney-General holds that as the 2½% dividend for the six months ending Dec. 31 1907 was declared payable with a new issue of stock instead of in cash, the bonds do not fill the requirements of the Savings Bank law. As to the power of the Superintendent of Banks with reference to such bonds now held by savings banks in this State, the Attorney-General takes the position that according, to Sections 8, 18 and 127 of the Savings Bank Law, the Superintendent has full power, specifically conferred by statute, to require the savings banks which now own any of these bonds to dispose of the same. The letter of the Attorney-General in full is as follows:

*Hon. Clark Williams, Superintendent Banks, of Albany, N. Y.*

*Dear Sir:*—I beg to acknowledge the receipt of your favor of December 31 1907, asking whether the bonds of the Missouri Pacific Railway Company are securities in which savings banks may legally invest their funds, and if not, what duty the Superintendent of Banks has to perform in connection with such bonds now held by savings banks in this State.

It appears from your statement that the bonds in question, prior to January 1906, in all respects filled the requirements of Paragraph E, subdivision 6, Section 116 of the Banking Law, and have been held to be legal investments for such funds; that the Missouri Pacific Railway Company has for many years paid semi-annual dividends in cash equal to 2½% upon all its outstanding capital stock, being at the rate of and equal to 5% per annum on such stock, the last of which dividends was paid in July 1907; that the directors of such company have recently declared the usual semi-annual dividend of 2½% upon such stock, payable in January 1908, but have made this dividend payable in stock of the company, and not in cash.

The answer to the first question involves the construction to be placed on Section 116 of the Banking Law. That section enumerates the securities in which the funds of savings banks may be invested, and, so far as applicable to the question here, is as follows:

"Section 116. In what securities deposits may be invested. The trustees of any savings bank may invest the moneys deposited therein and income derived therefrom only as follows: * * *

6 * * * * (e) the mortgage bonds of any railroad corporation incorporated under the laws of any of the United States, which actually owns in fee not less than five hundred miles of standard-gauge railway, exclusive of sidings within the United States, provided that at no time within five years next preceding the date of any such investment shall such railroad corporation have failed regularly and punctually to pay the matured principal and interest of its mortgage indebtedness, and in addition thereto, regularly and punctually to have paid in dividends to its stockholders during each of said five years an amount at least equal to four per centum upon all its outstanding capital stock * * *."

The apparent intent of the Legislature in enacting the proviso contained in this section was to provide a margin of safety as to securities of this class; to require that the corporation issuing the obligations should have earned for a series of years not only enough to pay the interest thereon, but an amount in addition thereto sufficient to justify the belief that its ability to pay such interest would certainly continue. As a standard or means of determining whether the obligor did earn this additional amount, the Legislature fixed upon the payment of dividends upon its stock. While it is not specifically stated that such dividend must be paid in money, the phrase "paid in dividends * * * an amount" must necessarily mean the payment thereof in cash; otherwise, the whole purpose and intent of the enactment would fail of accomplishment. The issue of additional stock by a corporation is an addition to its liabilities rather than an evidence of earning capacity, and to divide this additional stock issued among the stockholders and call it a dividend does not meet the requirements of the statute. The statute requires that such dividend shall have been paid in *each* of the five years next preceding the date of any such investment. Therefore, at the expiration of one year from the date of the payment of the dividend in January 1907 the bonds in question will cease to be legal investments as the company will not have paid dividends equal to 4% during said year, but will, in fact, only have paid 2½%, viz.: That paid in July 1907.

I have not at hand the precise date in January 1907 on which such dividends were paid, but on the day following the corresponding date in January 1908, these bonds ceased to be securities in which savings banks may legally invest their funds.

If such conclusion be correct, we come to the second question, namely, what duty the Superintendent of Banks has to perform in connection with such bonds purchased by savings banks of this State during the period within which said bonds were legal investments, and which are still held by such banks.

The purpose of the statute is to insure the safety of deposits in savings banks by strictly limiting the investments which such banks may make with such deposits.

The Legislature has specified the qualities and characteristics of the securities which may be bought with these funds. If a security had these qualities and characteristics at the time of the purchase, but thereafter loses them, it would seem to be the intent of the statute that the investment be changed. I am of the opinion that a savings bank cannot legally retain and continue an investment, which, though legal when made, has become illegal by reason of the changed character and conditon of the security.

As to the duty of the Superintendent, the Banking Law provides as follows:

"Section 8. Every corporation and individual banker specified in section two of this chapter shall be subject to the inspection and supervision of the Superintendent of Banks * * * *. On every such examination inquiry shall be made as to the condition and resources of the corporation, and mode of conducting and managing its affairs, the action of its directors, the investment of its funds, the safety and prudence of its management, the security afforded to those by whom its engagements are held, and whether the requirements of its charter and of laws have been complied with in the administration of its affairs."

"Section 18. * * * * If it shall appear to the Superintendent that any such corporation or banker has violated its charter or any law of this State, or is conducting its business in an unsafe or unauthorized manner, he shall, by an order under his hand and official seal, addressed to such corporation or banker, direct a discontinuance of such illegal or unsafe practices and conformity with the requirements of its charter and with safety and security in its transactions."

"Section 127. When it shall appear to the Superintendent from an examination made by or reported to him or from a report made by any such corporation pursuant to the provisions of this chapter that it has committed any violation of its charter or of law, or is conducting its business and affairs in an unsafe or unauthorized manner, he shall, by an order under his hand and official seal, direct a discontinuance of such illegal and unsafe or unauthorized practices and strict conformity with the requirements of the law and with safety and security in its transactions."

It would thus appear that the Superintendent has full power specifically conferred by the statute to require the savings banks of this State which have any of the bonds here under discussion to dispose of the same. This does not necessarily mean that it is the duty of the Superintendent to issue a peremptory order to such banks to dispose of the same at once. Such a course might conceivably result in such a depression of the price obtainable therefor, and such a sacrifice of values, as to work serious injury to the interests of the depositors. It seems to me that the method and manner of affecting the necessary changes of investment are lodged in the sound discretion of the Superintendent, as expressed by the Legislature in reference to a similar matter (Section 132, Banking Law): "Nor shall such provisions require the change of investments * * * * except as the same can be done gradually by the sale or redemption of the securities so invested in in such a manner as to prevent loss or embarrassment in the business of such savings bank."

Yours truly,
WILLIAM S. JACKSON,
Attorney-General.

## Bond Calls and Redemptions.

**Bolivar, Polk County, Mo.**—*Bond Call.*—This place has called for payment March 1 5% bonds dated March 10 1894, numbered 21 to 24 inclusive. Denomination $500.

**Denver, Col.**—*Bond Call.*—W. J. Fine, City Treasurer, calls the following bonds for payment Feb. 29:

*Storm Sewer Bonds.*

So. Capt. H. Storm Sewer District Bond No. 24.

*Sanitary Sewer Bonds.*

Harman Special Sanitary Sewer District No. 1, Bonds Nos. 1 to 6, inclusive.

*Sidewalk Bonds.*

Sidewalk District No. 8, Bond No. 21.

*Improvement Bonds.*

Capitol Hill Improvement District No. 2, Bond No. 85.
Capitol Hill Improvement District No. 3, Bond No. 89.
Capitol Hill Improvement District No. 4, Bond No. 82.
South Broadway Improvement District No. 2, Bond No. 28.
Thirteenth St. Improvement District No. 1, Bonds Nos. 1 to 8, inclusive.

*Paving Bonds.*

Alley Paving District No. 4, Bond No. 17.
Champa St. Paving District No. 1, Bond No. 69.
Grant, Logan and Seventh Aves. Paving District No. 1, Bond No. 27.

*Viaduct Bonds.*

Fourteenth St. Viaduct District, Bonds Nos. 765 and 766.

*Park Bonds.*

Highland Park District, Bonds Nos. 187 to 191, inclusive.

Upon the request of the holders of any of the above bonds received 10 days before the expiration of this call, the City Treasurer will arrange for their payment at the Mercantile Trust Co., New York City, but not otherwise.

**Lincoln County (P. O. Troy), Mo.**—*Bond Call.*—Funding bonds numbered from 304 to 325 inclusive were called for payment Feb. 1. Securities carry 5% interest and are in denomination of $1,000 each.

**Mobile, Ala.**—*Bonds Drawn.*—The following 5% bonds, issue of 1881, were drawn Jan. 13 for payment Feb. 1 at the First National Bank or Peoples' Bank of Mobile:

*Mobile City Bonds.*

*Wharf Bonds.*

3477, 3650, 3688, 3697, 3718, 3726, 3766, 3801, 3803 and 3930.

**Omaha, Neb.**—*Bond Call.*—Call is made for payment March 1 at the office of Kountze Bros. in New York City of $25,000 city-hall bonds dated March 1 1888.

**Orleans Levee District (P. O. New Orleans), La.**—*Bond Call.*—This district calls for payment the following bonds issued under Act 116 of 1898: Nos. 17, 40, 54, 75, 81, 85, 92, 100, 124, 137, 156, 159, 174, 198, 201, 212, 213, 232, 274, 290, 307, 308, 310, 319 and 323. Denomination $1,000. Interest will cease March 1.

**Ralls County (P. O. New London), Mo.**—*Bond Call.*—Call was made for payment Feb. 1 of 4% bonds dated Feb. 1 1898 and numbered from 93 to 107 inclusive, each for $1,000.

**St. Joseph School District (P. O. St. Joseph), Buchanan County, Mo.**—*Bond Call.*—This district, Harry H. Smith, Secretary, calls for payment March 1 at the National Bank of Commerce in New York City 4% 10-20-year (optional) refunding bonds numbered 51, 52, 53, 54, 55, 62, 63, 64, 67, 68, 69, 70, 71, 72, 73, 74 and 75. Securities are in denomination of $1,000 each and are dated Feb. 15 1898.

## Bond Proposals and Negotiations this week have been as follows:

**Alameda, Alameda County, Cal.**—*Bond Offering.*—Proposals will be received until 8 p. m., March 27, by F. E. Browning, City Clerk, for the $305,000 4½% coupon municipal-improvement bonds voted (V. 85, p. 958) Sept. 21 1907. Denominations: 280 bonds of $1,000 each and 40 bonds of $625 each. Date April 1 1908. Interest semi-annually at the City Treasurer's office. Maturity $7,625 yearly on April 1 from 1909 to 1948 inclusive. Bid must be made on a blank form furnished by the City Clerk and accompanied by a certified check for 2% of bonds bid for, made payable to the City Treasurer. The legality of this issue has been approved by Goodfellow & Eells, Attorneys, of San Francisco, a copy of whose opinion will be delivered to the purchaser. Accrued interest to be paid by successful bidder. Delivery of bonds April 1 1908.

**Amarillo Independent School District (P. O. Amarillo), Potter County, Texas.**—*Bonds Voted.*—By a vote of 305 "for" to 101 "against" the electors of this district on Feb. 10 authorized the issuance of the $50,000 5% 10-40-year (optional) school-building bonds mentioned in V. 86, p. 361.

**Ambridge, Beaver County, Pa.**—*Bond Offering.*—Proposals will be received until 9 p. m., March 2, by C. M. Greig, Secretary Borough Council (P. O. Economy), for $25,000 5% coupon bonds for the purchase of ground, a garbage plant

and street improvements. Denomination $1,000. Date Jan. 2 1908. Interest semi-annually at the office of the Borough Treasurer. Maturity $5,000 on Jan. 2 in each of the years 1913, 1918, 1923, 1928 and 1933. Certified check for $300, payable to the "Borough of Ambridge," is required. Bonded debt, including this issue, $45,000. Assessed valuation, $3,360,715.

*The official notice of this bond offering will be found among the advertisements elsewhere in this Department.*

**Athens, Clarke County, Ga.**—*Bond Election Proposed.*—Local papers state that this city proposes to hold an election shortly for the purpose of voting on the question of issuing $50,000 sewer bonds.

**Auburn School District (P. O. Auburn), De Kalb County, Ind.**—*Bond Sale.*—On Feb. 3 this district disposed of to local investors at par an issue of $14,000 4% 5-10-year (optional) school-building bonds. Denomination $500. Date Feb. 1908. Interest semi-annual.

**Avalon (P. O. Pittsburgh), Pa.**—*Bids Rejected.*—On Feb. 6 the Borough Clerk offered $10,000 4½% coupon funding bonds for sale. All bids received on that day were rejected. Denomination $1,000. Date Dec. 2 1970. Interest semi-annual. Maturity Dec. 2 1927. Bonds are exempt from State tax.

**Baltimore, Md.**—*Bond Offering.*—Local papers state that proposals will be received until March 16 for the following:

$1,000,000 4% Park Loan stock due in 1955.
1,000,000 4% Annex Loan stock due in 1954.

Accrued interest from Nov. 1 1907 to be paid by purchaser. The Municipal Finance Commission recently increased from 3½% to 4% the interest rate on the $2,000,000 Annex Loan, $1,000,000 park loan, $1,000,000 school loan and $1,000,000 fire loan. The stock to be offered March 16 is part of these issues.

**Bay Island Drainage and Levee District No. 1 (P. O. New Boston), Mercer County, Ill.**—*Bonds Not Yet Sold.*—Up to Jan. 20 this district had not yet disposed of the $150,000 to $165,000 6% registered drainage and levee bonds mentioned in V. 85, p. 1535.

**Beaver, Beaver County, Pa.**—*Bonds Voted.*—It is stated that the issuance of $50,000 sewerage bonds was authorized by a vote of 338 to 153 at an election held Feb. 19.

**Belhaven, Beaufort County, N. C.**—*Bond Offering.*—Proposals will be received until March 1 (this date falls on Sunday but is so given by the Town Clerk) by G. L. Swindell, Town Clerk, for $10,000 5% coupon public-dock and town-hall bonds. Authority an Act of the General Assembly of 1907. Denomination $500. Date May 1 1908. Interest semi-annually at place designated by purchaser. Maturity May 1 1933. Certified check for 1% of bid, payable to the Town Clerk, is required. Assessed valuation for 1907, $617,000.

**Bellevue, Huron County, Ohio.**—*Bond Offering.*—Prodosals will be received until 12 m. March 2 by Geo. Lieber, Village Clerk, for $4,000 6% coupon Castalia Street improvement assessment bonds. Denomination $400. Date Dec. 21 1907. Interest semi-annually at the Village Treasurer's office. Maturity $400 yearly on Dec. 21 from 1908 to 1917 inclusive. Certified check for 5% of bid is required.

**Bellevue (P. O. Station Allegheny), Pa.**—*Annexation to Greater Pittsburgh Defeated.*—The voters of this city on Feb. 18 defeated a proposition to become a part of Greater Pittsburgh. The vote was 381 "for "to 658 "against."

*Bonds Voted.*—The question of issuing $100,000 bonds (V. 86, p. 433) to build a borough hall, pave and curb streets and construct sewers in the Fairview District received a favorable vote on Feb. 18.

**Beloit, Mitchell County, Kan.**—*Bond Sale.*—We are advised that the $18,000 water-works-purchase bonds voted Dec. 17 1907 (V. 86, p. 122) have been sold.

*Bond Offering.*—Proposals for the $15,500 water-works-extension and the $16,500 electric-light-plant-purchase bonds voted on the same day, will be received until Feb. 25. Alice Simpson is City Clerk.

**Bessemer, Jefferson County, Ala.**—*Bond Sale.*—It is reported locally that this city recently disposed of the $25,000 5% 30-year gold coupon storm-water-sewer-construction bonds, $25,000 of the $50,000 5% 30-year gold coupon school-house bonds and $7,500 fire-department improvement bonds. A description of the two first-mentioned issues was given in V. 85, p. 1658.

**Bethlehem, Albany County, N. Y.**—*Bond Sale.*—We are informed that the $21,000 5% 1-7-year (serial) coupon road bonds, a description of which was given in V. 86, p. 122, have been disposed of.

**Bettendorf, Iowa.**—*Bond Sale.*—Geo. M. Bechtel & Co. of Davenport have been awarded $4,000 6% 3-10-year (serial) warrant-funding bonds at 105—a basis of about 5.088%. Denomination $500. Date Jan. 2 1908. Interest semi-annually in May and Nov.

**Brockton, Mass.**—*Sales for the Year* 1907.—During the year 1907 this city disposed of the following bonds at par:

$25,000 4% Water Dept. construction bonds dated March 1 1907 and maturing March 1 1937.
30,000 4% Water Dept. construction bonds dated July 1 1907 and maturing July 1 1937.
30,000 4% Sewer Dept. construction bonds dated April 1 1907 and maturing $1,000 yearly.
60,000 4% School Dept. construction bonds dated April 1 1907 and maturing $3,000 yearly.
6,000 4% Scavenger Dept. construction bonds dated April 1 1907 and maturing $1,000 yearly.
10,000 4% Drainage Dept. construction bonds dated April 1 1907 and maturing $1,000 yearly.
30,000 4% Street Dept. construction bonds dated April 1 1907 and maturing $3,000 yearly.
18,000 4% Fire Dept. equipment bonds dated April 1 1907 and maturing $2,000 yearly.

**Bromley, Ky.**—*Bond Offering.*—Proposals will be received until 8 p. m. Feb. 24 by J. J. Gardiner, City Clerk, for $4,400 6% Pike Street improvement bonds. Denomination $100. Date Feb. 24 1908. Interest annual. Bonds are redeemable ten years after date.

**Brown County (P. O. New Ulm), Minn.**—*Bond Offering.*—Proposals will be received until 10 a. m. March 18 by the Board of County Commissioners at the office of Louis G. Vogel, County Auditor, for $16,000 6% coupon bonds for the construction of Ditches Nos. 6, 9 and 11. Authority, Chapter 230, General Laws of 1905. Denomination $1,000. Date July 1 1908. Interest semi-annually in New Ulm. Maturity $2,000 yearly on July 1 from 1910 to 1917 inclusive. Bonds are tax-exempt. Delivery of bonds, May 1 1908.

**Brown County (P. O. Green Bay), Wis.**—*Bond Offering.*—Proposals will be received by Elmer S. Hall, County Clerk, for $50,000 4½% jail bonds. Denominations: 40 bonds of $1,000 each and 20 bonds of $500 each. Date July 1 1908. Interest annually at the County Treasurer's office in Green Bay.

**Buffalo, N. Y.**—*Bonds Proposed.*—On Feb. 10 the Mayor sent a communication to the Board of Aldermen requesting that the issuance of bonds for the purchase and improvement of lands for park purposes be authorized. The Mayor estimates that the proposed improvements will cost about $2,000,000.

**Calgary, Alberta.**—*Bond Sale.*—This city recently sold $150,000 4½% 30-year debentures to Wood, Gundy & Co. of Toronto as follows: $50,000 at 87, $50,000 at 88 and $50,000 at 89.

**Canton, Ohio, Union School District.**—*Bond Offering.*—Proposals will be received until 12 m. Feb. 27 by W. C. Lane, Clerk Board of Education, for $30,000 4% public-school-property-improvement bonds. Authority Section 3994, Revised Statutes. Denomination $1,000. Date Feb. 27 1908. Interest semi-annually at the office of the City Treasurer or at Kountze Bros., New York City, at option of purchaser. Maturity Feb. 27 1928. Bid must be made on a blank form furnished by the Clerk and accompanied by a certified check for $1,000, payable to Board of Education, drawn on some bank of Canton. Purchaser to furnish blank bonds. Bonds will be delivered within ten days after date of award. They are coupon in form and tax-exempt.

**Capitol School District, Sacramento County, Cal.**—*Bond Sale.*—On Feb. 4 this district sold $32,000 4½% bonds to the State of Washington at par.

**Carbon County (P. O. Red Lodge), Mont.**—*Bond Offering.*—Proposals will be received until 3 p. m., March 23 (bonds to be sold on April 1) by G. S. Finley, County Clerk, for $20,000 coupon bonds at not exceeding 5% interest. Denomination $1,000. Date April 1 1908. Interest Jan. 1 and July 1. Maturity April 1 1928. Certified check for $250, payable to the County Clerk, is required.

**Carroll County (P. O. Carroll), Iowa.**—*Bond Sale.*—On Feb. 17 $7,798 75 6% 10-year drainage bonds were awarded to W. L. Culbertson of Carroll for $7,900 75—the price thus being 101.307. Denomination $1,000, except one bond of $798 75. Date Jan. 15 1908. Interest semi-annual.

**Chester, Meigs County, Ohio.**—*No Bonds Voted.*—We are advised that there is no truth in the report that this place recently voted to issue $17,500 refunding bonds. See V. 86, p. 122.

**Cheyenne, Laramie County, Wyo.**—*Bond Offering.*—Proposals will be received until 8 p. m. March 17 by J. D. Wright, City Clerk, for the $160,000 4½% water-works-system-extension bonds described in V. 86, p. 299. Authority Chapter 15, Division 1, of Title 11 of the Revised Statutes of 1899. Denomination $500. Date Jan. 1 1908. Interest annually at the National Bank of Commerce in New York City or at the City Treasurer's office. Maturity $8,000 yearly on Jan. 1 from 1919 to 1938 inclusive. Certified check (or cash) for $1,000 is required. Purchaser to have bonds printed at his own expense and pay accrued interest from Jan. 1 1908.

**Chicago (Ill.) Sanitary District.**—*Bond Sale.*—We are advised by wire that on Feb. 19 the $1,917,500 4% coupon bonds described in last week's issue were awarded to a syndicate headed by the First Trust & Savings Bank of Chicago at 98.0978 and accrued interest. Maturity on Dec. 1 as follows: $87,000 in 1909; $108,500 in 1912; $77,000 in 1917; $96,000 in 1920; $111,000 in 1922; $94,000 in 1926, and $112,000 in each of the years 1910, 1911, 1913, 1914, 1915, 1916, 1918, 1919, 1921, 1923, 1924 and 1925.

Following are the bids:

| | |
|---|---|
| First Trust & Savings Bank, Merchants' Loan & Trust Co., Illinois Trust & Savings Bank, Northern Trust Co., N. W. Halsey & Co. and The Harris Trust & Savings Bank, all of Chicago | $1,881,025 00 |
| A. B. Leach & Co., E. H. Rollins & Sons and the State Bank of Chicago | 1,872,438 75 |

Lee, Higginson & Co., Chicago—

| | | | |
|---|---|---|---|
| $77,000 due Dec. 1 1917 | 97.64 | $111,000 due Dec. 1 1922 | 96.77 |
| 112,000 due Dec. 1 1918 | 97.45 | 112,000 due Dec. 1 1923 | 96.62 |
| 112,000 due Dec. 1 1919 | 97.27 | 112,000 due Dec. 1 1924 | 96.47 |
| 96,000 due Dec. 1 1920 | 97.10 | 112,000 due Dec. 1 1925 | 96.33 |
| 112,000 due Dec. 1 1921 | 96.93 | 94,000 due Dec. 1 1926 | 96.19 |

The Equitable Life Insurance Co., New York—

| | | | |
|---|---|---|---|
| $100,000 due Dec. 1 1921 | 95 | $100,000 due Dec. 1 1924 | 95 |
| 100,000 due Dec. 1 1922 | 95 | 100,000 due Dec. 1 1925 | 95 |
| 100,000 due Dec. 1 1923 | 95 | | |

All bidders offered accrued interest in addition to their bids.

**Cincinnati, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m., March 16, by Ernst Von Bargen, City Auditor, for $115,500 4% coupon Eighth Street viaduct bonds. Authority, Section 2835, Revised Statutes. Denomination $500. Date Feb. 1 1908. Interest semi-annual. Maturity Feb. 1 1938. Bonds are exempt from all taxes. Bid must be on a printed form furnished by the City Auditor and accompanied by a certified check for 5% of bonds bid for, made payable to the City Auditor. Accrued interest to be paid by purchaser.

**Cisco, Eastland County, Texas.**—*Bond Offering.*—G. D. Ward, City Clerk, is offering for sale the $16,000 5% waterworks bonds described in V. 86, p. 122. Authority, election held Oct. 26 1907. Denomination $1,000. Date Oct. 26 1907. Interest semi-annually at the Hanover National Bank of New York City. Maturity Oct. 26 1947, subject to call after Oct. 26 1937.

**Cleo, Okla.**—*Bonds Voted.*—Bonds to the amount of $25,000 for the construction of an ice-plant and water works were authorized by the voters, according to reports, on Feb. 7.

**Collingwood, Ont.**—*Debenture Offering.*—Proposals will be received until 12 m., Feb. 28, by J. R. Arthur, Chairman Finance Committee, for the following debentures:

$8,600 4½% 30-year debentures.
7,700 4½% 30-year debentures.
6,000 4½% 20 year local improvement debentures.
3,800 5% 20 year water works debentures.
12,000 4½% 20-year good-roads debentures.

**Colorado.**—*Bond Offering.*—Proposals will be received until April 1 by Alfred E. Bent, State Treasurer, for the $900,000 3% 20-year coupon funding bonds. As reported in V. 85, p. 615, the proceeds of these bonds will be used for paying the indebtedness incurred during the years 1899, 1903 and 1904 by calling out the State militia for the purpose of suppressing insurrection and defending the State. Bonds will be in denomination of $1,000. Interest semi-annually at the State Treasurer's office, or at such banking house in the City of New York as the Governor may designate.

**Commerce, Jackson County, Ga.**—*Bond Sale.*—Papers state that the $45,000 water-works bonds maturing Oct. 1 1932, voted on July 16 1907 (V. 85, p. 175), have been disposed of, $25,000 at par to J. B. McCrary & Co. of Atlanta and the remainder to local people. The McCrary Co. have agreed to complete the water plant by Sept. 1 for the sum of $36,000.

**Conecuh County (P. O. Evergreen), Ala.**—*Bond Offering.*—Proposals will be received until 12 m. March 2 by F. J. Dean, Judge of Probate, for the $50,000 5% coupon road-improvement bonds voted on Oct. 28 1907. Denomination $1,000. Date Jan. 1 1908. Interest annually at the Hanover National Bank in New York City. Maturity Jan. 1 1938. Bonds are exempt from State and county taxes. Certified check for $1,000, payable to F. J. Dean, Judge of Probate, is required. Bonded debt, including this issue, $70,000. Floating debt $40,000. Assessed valuation $4,380,000.

**Crosby, Williams County, N. D.**—*Bond Offering.*—Proposals will be received until March 7 for an issue of 8% water-supply and fire-equipment bonds. Interest annual. Maturity five years. A. A. Ashley is Village Clerk.

**Dadeville, Tallapoosa County, Ala.**—*Description of Bonds.*—We are advised that the $8,500 5% gold coupon electric-light bonds which J. B. Rylance, Mayor, is offering at private sale (V. 86, p. 300) are dated Jan. 1 1908. Denomination $500. Interest semi-annually at the Chase National Bank in New York City. Maturity Jan. 1 1938, subject to call after Jan. 1 1913. Bonds are exempt from State, county and city taxes. Total debt at present, $12,500. Assessed valuation $425,000.

**Dalhart, Dallam County, Texas.**—*Bonds Voted.*—It is reported that a proposition to issue $25,000 sewer bonds carried by a vote of 98 to 70 at an election Feb. 10.

**Dallas, Tex.**—*Bonds Awarded in Part.*—Of the three issues of 4% gold coupon improvement bonds, aggregating $650,000, offered on Feb. 10, $50,000 of the $100,000 street-improvement bonds, maturing $2,500 yearly on Oct. 1 from 1908 to 1947 inclusive, and the $50,000 public-school-building bonds maturing $1,250 yearly on Oct. 1 from 1908 to 1947 inclusive, have been taken at par and accrued interest by the Sinking Fund. See V. 86, p. 300, for a description of these securities.

**Daviess County (P. O. Washington), Ind.**—*Note Offering.*—Proposals will be received until March 28 for $7,000 6% road notes. Maturity $3,500 in 90 days and $3,500 in nine months.

**Delta School District (P. O. Delta), Fulton County, Ohio.**—*Bond Sale.*—The Farmers' National Bank of Delta purchased $16,000 5% school-building-addition bonds on Feb. 14 at 107.031. The following bids were received:

| | | | |
|---|---|---|---|
| Farmers' Nat. Bk., Delta | $17,125 00 | W. J. Hayes & Sons, Clev | $16,857 00 |
| Denison & Farnsworth, Clev | 16,971 50 | Spitzer & Co., Toledo | 16,810 00 |
| Otis & Hough, Cleveland | 16,967 00 | People's Savs. Bk., Delta | 16,802 00 |
| Hoehler & Cummings, Tol | 16,859 20 | Seasongood & Mayer, Cinc | 16,772 80 |

Denomination $1,000. Date Feb. 14 1908. Interest annually on March 1. Maturity $1,000 yearly on March 1 from 1911 to 1926 inclusive.

**Dresden, Ont.**—*Debentures Voted.*—This town recently voted to issue $20,000 5% coupon debentures to aid in constructing a carriage factory. Interest annually in Dresden. Debentures are exempt from all taxes. Total debt, not including this issue, $21,172. Assessed valuation 1907, $490,000.

**East Cleveland (P. O. Station J, Cleveland), Ohio.**—*Bonds Voted.*—Local papers report that an election held Feb. 15 resulted in a vote of 213 to 119 in favor of a proposition to issue $38,000 bonds for the enlargement of the Prospect School.

**Edgewood School District, Allegheny County, Pa.**—*Bonds Defeated.*—At the election Feb. 18 (V. 86, p. 182), only 45 votes were cast in favor of the issuance of the $45,000 school-building bonds at not exceeding 4½% interest, while 255 were against it.

**Edmonton, Alberta.**—*Debenture Sale.*—On Feb. 6 an issue of approximately £170,000 5% debentures was awarded to Coates, Son & Co. of London, England, at £95 10s. 6d. per £100. Denomination £100. Date April 1 1908. Interest semi-annual. Maturity part on April 1 in each of the years 1918, 1928, 1938 and 1948.

**Essex County (P. O. Salem), Mass.**—*Note Offering.*—Proposals will be received until 10 a. m., Feb. 24, by David I. Robinson, County Treasurer, for the discount of $150,000 notes issued in anticipation of taxes. Authority, Chapter 21, Section 39, Revised Laws. Loan willl be dated Feb. 28 1908 and mature Nov. 3 1908.

**Fairfax School District, Marin County, Cal.**—*Bond Sale.*—This district on Feb. 10 disposed of $3,000 6% improvement bonds to the James H. Adams Co. at 100.10. This was the only bid received. Denomination $300. Date Jan. 2 1908. Interest annual. Maturity part yearly on Jan. 2 from 1909 to 1918 inclusive.

**Fitchburg, Worcester County, Mass.**—*Temporary Loan.*—According to reports, this place recently negotiated a loan of $150,000 with Bond & Goodwin of Boston at 4.60% discount. Loan matures part in Sept. 1908 and part in Oct. 1908.

**Forrest County (P. O. Hattiesburg), Miss.**—*Bond Offering.*—Proposals will be received until 12 m. March 2 by H. Gillis, County Treasurer, for $40,000 5% jail-construction bonds. Denomination $500. Interest annual. Maturity twenty years, subject to call after ten years.

**Fort Bend County (P. O. Richmond), Tex.**—*Bonds Not Sold.*—Up to Feb. 14 no disposal had yet been made of the three issues of 4% 5-40-year (optional) bonds aggregating $110,000, proposals for which were asked for at any time. See V. 86, p. 123.

**Fostoria, Seneca County, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m., March 2, by J. T. Yant, City Auditor, for $6,000 refunding Sewer District No. 1 and $2,000 North Main Street improvement 4% bonds. Authority, Section 2701, Revised Statutes. Denomination $1,000. Date March 1 1908. Interest semi-annually at the National Park Bank in New York City. Bonds are exempt from all taxes. Maturity March 1 1925. Certified check for 5% of bonds bid for, payable to W. D. Heckert, City Treasurer, is required. Accrued interest to be paid by purchaser. Bonds to be delivered within ten days from date of award.

**Gadsden, Etowah County, Ala.**—*Bonds Voted.*—The election held Feb. 10 resulted in a vote of 193 to 71 in favor of the proposition to issue the $50,000 5% 30-year refunding bonds mentioned in V. 86, p. 182.

**Galt, Ont.**—*Debentures Voted.*—The citizens of this town at a recent election authorized the issuance of $66,000 debentures for the construction of a power-distribution plant. We are advised that up to Feb. 3 no action had yet been taken looking towards the issuance of these debentures.

**Glidden, Ashland County, Wis.**—*Purchase of Bonds.*—We are advised that the Knights of the Maccabees were the purchasers of the $13,000 6% water-works-plant-purchase bonds the sale of which was mentioned in V. 86, p. 241. The price paid was par. Denomination $2,000, except one bond for $1,000. Date July 10 1908. Interest annual. Maturity part yearly on Feb. 1 from 1909 to 1914 inclusive.

**Gloucester, Mass.**—*Temporary Loan.*—According to reports, this city recently borrowed $100,000 from the Gloucester National Bank of Gloucester at 4.69% discount. Loan matures in eleven months.

**Grand Falls (P. O. Big Falls), Minn.**—*Bond Sale.*—The only bid received on Feb. 8 for an issue of $1,500 6% steel-bridge-construction bonds offered on that day was one of par submitted by the Hennepin Bridge Co. This offer was accepted. Denomination $500. Interest annually in Jan.

**Grand Rapids, Mich.**—*Bond Sale.*—On Feb. 17 the National City Bank of Grand Rapids was awarded the $153,000 4½% coupon street-improvement bonds described in V. 86, p. 434, at par and accrued interest. This was the only pro-

posal received. Securities are dated May 1 1907 and mature $51,000 on May 1 in each of the years 1910, 1911 and 1912.

**Greensburg, Westmoreland County, Pa.**—*Bond Sale.*—This borough, according to reports, has increased the rate of interest on the $50,000 10-30-year (optional) permanent street-improvement bonds described in V. 85, p. 1102, to 4½%. It is further stated that these bonds will now be taken by Newburger, Henderson & Loeb of Philadelphia.

**Greenville, Greenville County, S. C.**—*Bond Offering.*—Proposals will be received until 6 p. m. Feb. 26 by G. H. Mahon, Mayor, for $18,000 5% coupon refunding school bonds. Denomination $500. Date Feb. 1 1908. Interest January and July at the Fourth National Bank of New York City or at the National Bank of Greenville. Maturity Feb. 1 1928. Bonds are exempt from all taxes. Certified check for $1,000, payable to the City Council, is required.

**Hardin County (P. O. Kenton), Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. Feb. 24 by Justin Brewer, County Auditor, for seven issues of 5% coupon ditch-construction bonds aggregating $16,450. Authority, Sections 4479, 4481 and 4482, Revised Statutes. Denominations $200 to $1,100. Date Feb. 24 1908. Interest payable at County Treasurer's office in Kenton. Maturity part yearly from one to five years. Bonds are tax-exempt. Certified check for $500, payable to the County Auditor, is required.

**Hastings, Dakota County, Minn.**—*Loan Offering.*—Proposals will be received until 8 p. m. March 2 by Charles Hankes, City Clerk, for $14,000 7% sewer orders. Denomination not less than $50 nor more than $500, to suit purchaser. Maturity $7,000 on July 1 in each of the years 1909 and 1910.

**Hatton, Traill County, N. D.**—*Bonds Voted.*—Reports state that of 73 votes cast at an election held Feb. 15 to determine whether or not $12,500 school-house bonds should be issued, 71 were in favor of their issuance.

**Hettinger County (P. O. Mott), N. D.**—*Bond Sale.*—The State of North Dakota has purchased at par for 4s the $20,000 10-year funding bonds mentioned in V. 86, p. 63. Denomination $500. Date Jan. 15 1908. Interest semi-annual.

**Highland County (P. O. Hillsboro), Ohio.**—*Bonds Not to Be Re-Offered at Present.*—The County Auditor writes us that the $3,780 bonds (the unsold portion of the issue of $5,400 5% coupon road-improvement No. 35 bonds mentioned in V. 86, p. 63,) will not be re-offered for sale until next May or June.

**Hood River Irrigation District, Wasco County, Ore.**—*Bonds Not Yet Sold.*—This district has not yet succeeded in disposing of the $40,000 6% coupon bonds offered but not sold on Nov. 23 1907 and described in V. 85, p. 1600.

**Houston, Tex.**—*Bonds Defeated.*—The propositions to issue the $300,000 bonds for permanent drainage-system construction and the $200,000 bonds for the extension of the water system (V. 86, p. 182) were defeated at the election held Jan. 28. Local papers report the vote as being 401 "for" to 734 "against" on the former proposition and 494 "for" to 638 "against" on the latter proposition.

**Hugo, Okla.**—*Bond Offering.*—Proposals will be received until 12 m. March 17 by J. H. Jackson, City Treasurer, for the $150,000 coupon water-works bonds authorized by a vote of 478 to 4 at the election (V. 86, p. 435) Jan. 28. These bonds are issued pursuant to Section 27, Article 10, Constitution of Oklahoma, and Chapter 13, Article 8 of the Statute of 1903. Denomination from $100 to $1,000, at option of purchaser. Interest rate not to exceed 6%, payable semi-annually at place designated by purchaser. Maturity twenty-five years. Certified check for 2% of bid is required. Purchaser to pay accrued interest and furnish blank bonds. Securities will be delivered within thirty days after the date of award.

**Humboldt, Sask.**—*Debenture Offering.*—Proposals will be received until 10 a. m. April 2 by E. T. Wallace, Secretary-Treasurer, for $7,500 6% coupon fire-protection and water-supply debentures. Date, day of sale. Interest annually in December at the Secretary's office in Humboldt. Maturity part yearly for twenty years. Debentures are exempt from taxation.

**Huntington Beach High School District (P. O. Huntington Beach), Orange County, Cal.**—*Bonds Voted.*—The issuance of $35,000 5% high-school-building bonds was authorized by a vote of 115 to 15 on Feb. 1.

**Kankakee, Kankakee County, Ill.**—*Bond Sale.*—We are advised that $12,000 (not $18,000 as at first reported) 5% judgment bonds were recently purchased by N. W. Halsey & Co. of Chicago at "par, accrued interest and a premium."

**Kentwood, Tangipahoa Parish, La.**—*Bonds Defeated.*—According to reports, propositions to issue $10,000 5% bonds and $25,000 5% public-school-building bonds were defeated at an election held Feb. 10.

**Kirksville, Adair County, Mo.**—*Bond Sale.*—Devitt, Trimble & Co. of Chicago have purchased at par and accrued interest the $19,000 5% 5-20-year (optional) coupon funding bonds offered on Feb. 3 and described in V. 86, p. 301.

**Lakewood (P. O. Cleveland), Cuyahoga County, Ohio.**—*Bond Sale.*—On Feb. 17 the five issues of 5% coupon paving and sewer assessment bonds aggregating $56,670, described in V. 86, p. 301, were sold to Hayden, Miller & Co. of Cleveland at 103.862 and accrued interest. The bids were as follows:

| | | | |
|---|---|---|---|
| Hayden, Miller & Co., Cleve | $58,859 00 | W. J. Hayes & Sons, Cleve | $58,383 00 |
| First Nat. Bank, Cleveland | 58,542 00 | Otis & Hough, Cleveland | 58,381 00 |
| New 1st Nat. Bk., Colum | 58,450 55 | W. R. Todd & Co., Cincin | 57,520 81 |

Maturity one bond of each issue yearly on Oct. 1 from 1909 to 1918 inclusive.

**Latonia, Kenton County, Ky.**—*Bond Sale.*—It is stated that on Feb. 11 $4,000 Earl Avenue improvement bonds were awarded to the Latonia Deposit Bank of Latonia at 102.50 and accrued interest and $1,100 Church Avenue improvement bonds were awarded to the First National Bank of Latonia for $1,200 (109.09) and accrued interest.

**Lauderdale County (P. O. Meridian), Miss.**—*Bonds Proposed.*—In local papers it is reported that the Board of County Supervisors is considering the advisability of issuing $40,000 bonds to aid in holding a county fair.

**Lockport, Niagara County, N. Y.**—*Bonds to Be Re-Offered Shortly.*—This city will re-offer the $5,000 hospital-completion bonds offered without success as 4s on Aug. 31 1907 (V. 85, p. 616) just as soon as the proper legislation raising the rate of interest is secured.

**London, Madison County, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. Feb. 28 by J. W. Byers, Village Clerk, for $2,241 42 5% High Street improvement assessment bonds. Authority Section 73 a Municipal Code. Denomination $500, except one bond of $241 42. Date Feb. 28 1908. Interest annual. Maturity $500 yearly on March 1 from 1909 to 1912 inclusive and $241 42 on March 1 1913. Certified check on some bank in London for 5% of bonds bid for, payable to the Village Treasurer, is required. Purchaser to pay accrued interest.

**Loudon County (P. O. Loudon), Tenn.**—*Bonds Defeated.*—At an election held Feb. 8 only 200 votes were cast in favor of the issuance of $100,000 pike-road bonds, while 500 were cast against it.

**McKeesport, Allegheny County, Pa.**—*Bonds Defeated.*—A proposition to issue $200,000 bonds for the re-paving of Fifth and Walnut streets was, according to reports, voted upon and defeated at an election Feb. 18.

**Madison, Morgan County, Ga.**—*Bonds Withdrawn from Market.*—The Mayor advises us that the $50,000 4½% water-works, sewerage and electric-light bonds offered without success on Dec. 31 1907 (V. 86, p. 64) have been withdrawn from the market.

**Madisonville (P. O. Station M, Cincinnati), Ohio.**—*Bond Offering.*—Proposals will be received until 12 m., March 25, by J. A. Conant, Village Clerk, for $13,329 45 5% Clason Street improvement bonds. Authority, Sections 51 and 95, Municipal Code. Date Dec. 28 1907. Interest semi-annual. Maturity part yearly on Dec. 28 for ten years. Certified check for $200, payable to the Village Treasurer, is required. Purchaser to pay accrued interest. Bonds to be delivered within ten days from the date of award.

**Magnolia, Pike County, Miss.**—*Bond Sale.*—Chas. H. Coffin of Chicago is reported as being the successful bidder for an issue of $25,751 school-building bonds of this city.

**Malden (P. O. Station, Boston), Mass.**—*Temporary Loan.*—This city recently negotiated a loan of $100,000 with Bond & Goodwin of Boston at about 4.65 discount. Maturity eight months.

**Mansfield, Newton County, Ga.**—*Bond Offering.*—Proposals will be received until 12 m. to-day (Feb. 22) by R. G. Franklin, Mayor, care of Bank of Mansfield, for $6,000 school bonds.

**Marion School District No. 52 (P. O. Marion), Williamson County, Ill.**—*Bond Sale.*—This district has disposed of at private sale to Chicago parties the $15,000 4½% 3-17-year (serial) coupon school-building bonds mentioned in V. 86, p. 124.

**Medford, Mass.**—*Temporary Loan.*—This place has borrowed $25,000 through Bond & Goodwin of Boston at about 4.60% discount. Loan runs for six months.

**Medford School District (P. O. Medford), Jackson County, Ore.**—*Bonds Voted.*—An election held Feb. 10 to determine whether or not this district should issue $40,000 high-school-building bonds carried, it is stated, by a vote of 173 to 104.

**Mercer Special School District (P. O. Mercer), Mercer County, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m., March 3, by W. H. Nuding, Clerk Board of Education, for $7,000 5% school-building and furnishing bonds. Authority, vote of 50 to 25 at election Feb. 8; also Sections 3991 tand 3992, Revised Statutes. Denominations $400, $500 and $600. Date March 3 1908. Interest Feb. 20 and Aug. 20 at the District Treasurer's office. Maturity $400 yearly on Aug. 20 from 1910 to 1914 inclusive, $500 yearly on Aug. 20 from 1915 to 1918 inclusive and $600 yearly on Aug. 20 from 1919 to 1923 inclusive. A cash deposit of $200 is required. Bonds will be delivered within ten days from the date of sale. Purchaser to prepare and furnish blank bonds.

**Middletown, Butler County, Ohio.**—*Bond Offering.*—In addition to the $2,041 29 5% 1-10-year (serial) sewer-

construction-assessment bonds to be offered at 12 m Feb. 25 (V. 86, p. 301), proposals will also be received at the same time and place by John Kunz, City Auditor, for $4,079 40 5% assessment bonds for the improvement of Forest Avenue, Grand Avenue, Cremo Avenue, Grimes Street and the west side of Main Street. Authority Section 75, Municipal Code. Denomination $407 94. Date Jan. 15 1908. Interest semi-annually at the National Park Bank in New York City. Maturity $407 94 yearly on Jan. 15 from 1909 to 1918 inclusive. Certified check for $75 is required. Purchaser to pay accrued interest. Bonds to be delivered within ten days after the date of award.

**Midway Independent School District (P. O. Midway), Madison County, Texas.**—*Bonds Awarded in Part.*—Of the $2,500 5% school-house bonds registered by the State Comptroller on Nov. 29 1907 (V. 85, p. 1537), $1,500 have been awarded at par and accrued interest. Denomination $125. Date Oct. 1 1907. Interest annual. Maturity Oct. 1 1927, subject to call after Oct. 1 1912.

**Mitchell School District (P. O. Mitchell), Davison County, S. D.**—*Bond Election.*—The Mayor has called an election to vote Feb. 25 on the question of issuing the $69,000 high-school-building and site-purchase bonds mentioned in V. 86, p. 64. Rate of interest not to exceed 5%.

**Mitchell School District, Stanislaus County, Cal.**—*Bonds Not Yet Sold.*—The $4,000 5% bonds offered but not awarded on Sept. 11 1907 (V. 85, p. 1477) have not yet been sold.

**Mobile County (P. O. Mobile), Ala.**—*Bond Sale.*—On Feb. 17 the $143,000 20-year refunding bonds described in V. 86, p. 302, were awarded to the Central Trust Co. of Mobile at 101.50 and accrued interest for 5s—a basis of about 4.883%. Bonds are dated March 1 1908.

**Monrovia School District (P. O. Monrovia), Los Angeles County, Cal.**—*Bonds Voted.*—The issuance of the $4,000 funding and the $4,000 auxiliary-grammar-school 5% bonds mentioned in V. 86, p. 302, was authorized by a vote of 86 to 3 at the election Feb. 8. They mature $500 yearly for sixteen years.

**Montgomery, Ala.**—*Bond Offering.*—This city is offering for sale an issue of 6% 1-20-year (serial) sidewalk and roadway improvement bonds. Denomination $100. The Mayor writes us that it is expected that about $100,000 of these bonds will be disposed of during the next six months.

**Morgan County (P. O. Decatur), Ala.**—*Bond Election.*—According to reports, the question of issuing pike-road-construction bonds will be voted upon March 11.

**New Bern, Craven County, N. C.**—*Bond Sale.*—The $50,000 5% 30-year coupon street-improvement bonds described in V. 86, p. 363, were awarded on Feb. 15 to Otis & Hough of Cleveland at 101.286—a basis of about 4.918%. Bids were also received from Seasongood & Mayer and Weil, Roth & Co., both of Cincinnati; E. H. Rollins & Sons of Boston, Emery, Anderson & Co. of Cleveland and A. J. Hood & Co. of Detroit. Securities are dated March 1 1908.

**New Hamburg, Ont.**—*Debenture Offering.*—Proposals will be received at any time by William Miller, Village Clerk, for $10,000 4½% electric-light-plant-construction debentures recently voted. Date, day of issuance. Interest is payable at the Western Bank of Canada in New Hamburg. Maturity part yearly for twenty years. Debentures are tax-exempt. Total debt, not including this issue, $25,133 14. Assessed valuation 1907 $472,400.

**New Haven, Pa.**—*Bonds Defeated.*—A proposition to issue $25,000 street bonds was defeated by a vote of 117 "for" to 137 "against" at an election held Feb. 18.

**Newton Falls, Trumbull County, Ohio.**—*Bond Election.*—It is stated that this village on Feb. 24 will vote on a proposition to issue $20,000 water-works-system bonds.

**New Orleans, Orleans Parish, La.**—*Bonds Not to Be Re-Offered at Present.*—The Secretary of the Board of Liquidation of City Debt in reply to our letter asking him to advise us whether or not the $175,000 to $200,000 4% 10-20-year (optional) coupon school-teachers'-salary bonds offered without success on Aug. 27 1907 (V. 85, p. 1103) would again be placed on the market in the near future, writes us that at present he has no idea as to when they will again be offered.

**New York State.**—*Bond Offering.*—Further details are at hand relative to the offering on March 11 of the $5,000,000 4% gold coupon or registered highway-improvement bonds described in last week's issue. Proposals for these bonds will be received until 2 p. m. on that day by Martin H. Glynn, Comptroller, at his office in Albany. Authority Chapter 469, Laws of 1906, as amended by Chapter 718, Laws of 1907. Bonds that are coupon in form will be issued in denomination of $1,000, while those that are registered will be issued in denominations of $1,000, $5,000, $10,000 and $50,000. Date March 1 1908. Interest semi-annually at the bank of the Manhattan Co. in New York City. Maturity March 1 1958. Bonds are exempt from taxation. Cash, bank draft or certified check upon a bank or trust company of Albany or New York for 2% of bonds bid for, and made payable to the State Comptroller, is required. Purchaser to pay accrued interest.

*The official notice of this bond offering will be found among the advertisements elsewhere in this Department.*

**New York City.**—*Bond Sale.*—The Finance Department on Monday night (Feb. 17) completed the award of the $50,000,000 4½% coupon or registered corporate stock and assessment bonds offered on Feb. 14. The total of bids received aggregated $271,242,650. Of the 1,168 received, 470 were successful. An average price of 104.22—a basis of about 4.29%, was realized on the $47,000,000 corporate stock due in 1957 while the $3,000,000 assessment bonds due in 1917 were awarded at an average price of 100.90—a basis of about 4.38%.

These securities have been admitted to the unlisted department of the Stock Exchange and have been dealt in quite heavily during the past week. The prices ranged from 105⅞ to 107.

The bid of the Morgan syndicate for the long-time bonds (103.377) was found to be too low, none of the 50-year stock having heen awarded at prices below 104. The syndicate, however, secured $1,101,880 of the 10-year assessment bonds at their bid of 100.377. The highest price received for the 1957 stock was 106, but only $25,200 was sold at this figure.

The firms and individuals getting the largest single allotments were A. A. Housman $1,000,000, Lazard Freres $1,500,000, A. E. Reid as trustee $1,250,000, Stephen L. Tingley as trustee $1,750,000, Farmers Loan & Trust Co. $1,032,000, Harvey Fisk & Sons $1,420,000, J. W. Davis & Co. $1,000,000 and Charles D. Barney & Co. $1,630,000.

The award in full was as follows:

The list of proposals published in the "Chronicle" last week was incomplete, owing to the fact that as the number was so extensive the Comptroller did not finish reading the same until a late hour. Most of the large bids, however, appear in the above award. Some of the more important ones which are not included above and were not reported last week are as follows:

| | | | |
|---|---|---|---|
| M. L. Turner of Okla | $400,000 from 102.01 to 103.875 | M. E. Harby | $250,000 103.863 |
| Ladenburg, Thalmann & Co., N. Y. | 570,000 from 103 to 103.75 | Long Isl. Loan & Tr. Co., Brooklyn,N.Y. | $250,000 from 102.125 to 103.50 |
| Bond & Goodwin, Boston | 1,050,000 from 101.57 to 103.03 | Mellen Nat Bk., Pitts | 200,000 103.25 |
| Lehman Bros | 525,000 from 101.46 to 103.92 | Second National Bk., Boston | 300,000 from 103.08 to 103.54 |
| Edward F. Cragin | $250,000 from 101.26 to 102.51 | Henry Clews & Co., N. Y. | 1,025,000 from 100.75 to 102.75 |
| | | Francis M Jenks | 100,000 from 102.80 to 103.55 |

**Norman, Cleveland County, Okla.**—*Price Paid for Bonds.*—The price paid by R. J. Edwards of Oklahoma City for the $80,000 (not $85,000 as first reported) 6% 25-year water-works bonds was par. Denomination $1,000. Date March 1 1908. Interest semi-annual.

**Norwalk, Fairfield County, Conn.**—*Bonds Not Yet Sold.*—This city is still on the market with the $35,000 4% 20-year coupon (with privilege of registration) sewer-construction bonds mentioned in V. 85, p. 1417.

**Norwood School District (P. O. Cincinnati), Hamilton County, Ohio.**—*Bonds Defeated.*—A vote of 380 "for" to 427 "against" was the result, we are informed, of the election held Jan. 21 to vote on the question of issuing the $90,000 school-house bonds mentioned in V. 85, p. 1660.

**Ocean Park, Los Angeles County, Cal.**—*Bonds Defeated.*—According to local papers the election held Feb. 3 resulted in the defeat of the proposition to issue the $25,000 5% 40-year bonds for a fire engine and a fire-engine house mentioned in V. 86, p. 302. The vote was 69 "for" to 157 "against."

**Ogden School District (P. O. Ogden), Weber County, Utah.**—*Bond Election.*—An election will be held Feb. 24 to vote on the question of issuing $90,000 4% 5-20-year (optional) high-school-building bonds.

**Oklahoma.**—*Purchase of Mineral Lands and Bond Election.*—It is stated tha tthe Commission, which was appointed last year by the Constitutional Convention for the purpose of advising the State Legislature as to whether or not 440,000 acres of segregated coal and asphalt land in this State be purchased, has submitted its report recommending such a purchase at a price not to exceed $10,000,000. The Commission recommends further that the question of issuing $10,000,000 bonds for the above purpose be submitted to a vote of the people at the next general election.

**Oklahoma City School District (P. O. Oklahoma City), Oklahoma County, Okla.**—*Bonds Authorized.*—According to reports, the Board of Education recently authorized the issuance of $75,000 school-building bonds.

**Oronogo School District (P. O. Oronogo), Jasper County, Mo.**—*Bids Rejected—Bond Offering.*—All bids received on Feb. 5 for the $9,000 10-year school-building bonds at not exceeding 5% interest, described in V. 86, p. 184, were rejected. Proposals are again asked for these bonds and will be received, this time, until March 4. J. L. Russell is District Secretary.

**Oxford, Butler County, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m., March 10, by D.P. Beaton, Village Clerk for $4,500 4½% water-works-system-extension bonds. Authority, Section 2835, Revised Statutes. Denomination $500. Date March 10 1908. Interest semi-annually at the Oxford National Bank in Oxford. Bonds are coupon in form and exempt from all taxation. Maturity $500 yearly on March 10 from 1920 to 1928 inclusive. Certified check for 5% of bonds bid for, payable to the Village Treasurer, is required. Purchaser to pay accrued interest. Bonds will be delivered within fifteen days from date of award.

**Paoli, Orange County, Ind.**—*Bond Sale.*—On Feb. 13 $8,000 4½% coupon electric-light-plant-construction bonds were awarded to the Harris Trust & Savings Bank of Chicago at 101.25. The bids were as follows:

| | | | |
|---|---|---|---|
| Harris Trust & Savings Bank, Chicago | $8,100 00 | Breed & Harrison, Cincin. | $8,024 00 |
| | | S. A. Kean, Chicago | 8,008 00 |
| J. F. Wild & Co., Indianap. | 8,057 50 | R. Kleybolte & Co., Cinc. | 8,000 00 |

Denomination $500. Date Feb. 13 1908. Interest Jan. 15 and July 15 at the Town Treasurer's office. Maturity $500 yearly on July 15 from 1909 to 1912 inclusive and $500 each six months from Jan. 15 1913 to July 15 1918 inclusive. Bonds are exempt from all taxes. Bonded debt, not including this issue, $325. Floating debt, none. Assessed valuation 1907 $418,604.

**Park Ridge School District (P. O. Park Ridge), Bergen County, N. J.**—*Bond Offering.*—Proposals will be received until 2 p. m. March 3 by Geo. E. Duncan, President Board of Education, for $40,000 5% school bonds. Authority election held June 3 1907. Denomination $1,000. Date March 1 1908. Interest semi-annual. Maturity $2,000 yearly on March 1 from 1917 to 1936 inclusive. Certified check for 2% of bonds bid for, payable to the Board of Education, is required. Delivery of bonds April 7 1908.

**Pen Argyl, Northampton County, Pa.**—*Bonds Voted.*—On Feb. 18 the electors of this borough cast a vote of 407 "for" to 302 "against" a proposition to issue $15,000 4% 5-30-year (optional) municipal-building bonds. We are advised that these bonds will be offered for sale next April or May.

**Peoria Township, Peoria County, Ill.**—*Bonds Not Yet Sold.*—This township is still in the market with the $50,000 4% 5-20-year (optional) coupon Upper Free Bridge building refunding bonds offered but not sold on Sept. 16 1907. See V. 85, p. 750. We are informed, however, that unless these securities are disposed of before the next spring election in April, another vote will be taken on the proposition to refund at a higher rate of interest.

**Pine City Township (P. O. Pine City), Pine County, Minn.**—*Bond Offering.*—Proposals will be received until 2 p. m. Feb. 29 by J. E. Odegard, Town Clerk, for $3,000 bonds. Denomination $300. Maturity "on or before ten years." Certified check for $200 required.

**Pipestone, Pipestone County, Minn.**—*Bonds Not Yet Sold.*—This city has not yet succeeded in disposing of the $20,000

4½% 15-year refunding water-works bonds mentioned in V. 85, p. 1660. We are advised, however, that application has been made to the State of Minnesota for a loan of $20,000 with which to refund the old bonds.

**Portland, Jay County, Ind.**—*Bonds Not Sold.*—We are informed by the City Clerk that no award was made on Feb. 3 of the three issues of 6% improvement assessment bonds, aggregating $5,731, described in V. 86, p. 302.

**Prosser, Benton County, Wash.**—*Bond Sale.*—J. M. Holmes of Chicago advises us that he has purchased the $10,000 6% gold coupon water bonds which were offered but not sold on Jan. 1. See V. 86, p. 302.

**Ransom County (P. O. Lisbon), N. D.**—*Bonds Not Yet Sold.*—The $33,960 7% bonds offered without success on Dec. 1 1907 (V. 85, p. 1661) have not yet been sold.

**Rapid City School District (P. O. Rapid City), Pennington County, S. D.**—*Bond Election.*—Reports state that an election will be held Feb. 25 to submit to the voters the question of issuing $15,000 school-building bonds.

**Rensselaerville, Albany County, N. Y.**—*Bond Sale.*—This town, we are informed, has disposed of the $3,100 4% coupon turnpike bonds described in V. 86, p. 125. Maturity on Feb. 1 as follows: $500 in each of the years 1912, 1913, 1914, 1915 and 1916 and $6,000 in 1917.

**Richmond, Quebec.**—*Debentures Not Sold.*—Up to Feb. 13 the $25,000 4½% water-works debentures proposals for which were asked until June 15 1907 (V. 84, p. 1387), were still for sale.

**Richmond, Va.**—*Bonds Authorized.*—Through local papers we learn that at a meeting of the Finance Committee of the City Council held Jan. 9, the City Treasurer was authorized to issue $50,000 4% 30-year coupon bonds to purchase and install water meters. Securities will be in denomination of $1,000 each and will be dated March 1 1908.

**Robertson County (P. O. Springfield), Tenn.**—*Bonds Not Yet Sold.*—No award has yet been made of the $150,000 4% 20-30-year (optional) coupon pike bonds offered but not sold (V. 85, p. 618) on June 1 1907.

**Rochester, N. Y.**—*Loan Offerings.*—Proposals will be received until 11 a. m., Feb. 26, for $300,000 notes running for 5 months from March 2 1908.

Proposals will also be received at the same hour on March 9 for $90,000 notes maturing five months from March 13.

**Rocky Hill School District (P. O. Rocky Hill), Somerset County, N. J.**—*Bonds Not Sold.*—Under date of Feb. 13 we are informed that this district is still endeavoring to sell the $8,500 4½% registered school-building bonds mentioned in V. 86, p. 125.

**Rolling Meadow School District No. 1907, Sask.**—*Debenture Sale.*—We are advised that this district recently disposed of $1,000 debentures.

**Rosser, Man.**—*Debenture Offering.*—Proposals will be received until Feb. 29 by W. H. Beachell, Secretary-Treasurer, for $20,000 5% drainage debentures. Denomination $1,000. Date Jan. 22 1908. Interest annually at the Canadian Bank of Commerce in Winnipeg. Maturity $1,000 yearly on Jan. 22. Total debt, this issue. Assessed valuation $1,002,910.

**Rosthern, Sask.**—*Debenture Offering.*—This town, Geo. Braden, Secretary-Treasurer, is offering the following debentures for sale:

$3,000 5% debentures dated Oct. 1906. Maturity part yearly for ten yrs.
15,000 5% debentures dated May 1907. Interest annual. Maturity part yearly for twenty years.
10,000 5% debentures dated July 1907. Interest annual. Maturity part yearly for twenty years.

Interest on the above debentures is payable at the Imperial Bank of Canada in Rosthern. This town has no debt at present. Assessed valuation for 1907 $710,000. Real value (estimated), $1,000,000.

**Sag Harbor Union School District No. 11 of the Town of Southampton (P. O. Sag Harbor), Suffolk County, N. Y.**—*Bond Offering.*—Proposals will be received by Brinley D. Sleight, Secretary of Board of Education, for $30,000 5% registered school-building bonds. Denomination $1,000. Date Nov. 1 1907. Interest semi-annually. Maturity $3,000 yearly on Nov. 1 from 1911 to 1920 inclusive. These securities are the unsold portion of the $60,000 bonds offered on Sept. 17 1907. See V. 86, p. 243.

**St. Bernard (P. O. Cincinnati), Ohio.**—*Bond Offering.*—Proposals will be received until 12 m., March 5, by George Schroeder, Village Clerk, for $4,968 50 5% Sullivan Avenue improvement assessment bonds. Authority, Section 95, Municipal Code. Denomination $496 85. Date Jan. 11 1908. Interest annually at the Citizens' Bank in St. Bernard. Maturity $496 85 yearly on Jan. 11 from 1909 to 1918 inclusive. Accrued interest to be paid by purchaser. Bonds are coupon in form and exempt from taxation.

**St. Louis, Mo.**—*Bond Offering.*—Local reports state that proposals will be received until March 20 for $1,000,000 4% insane-asylum bonds. They will be delivered April 1 1908.

**St. Petersburg, Hillsboro County, Fla.**—*Bonds Defeated.*—The election held Feb. 4 (V. 86, p. 184) resulted in the defeat of propositions to issue bonds aggregating $80,000. The vote was as follows:

$25,000 6% 30-year school bonds. Vote 76 "for" to 179 "against."
16,000 6% 30-year waterfront purchase bonds. Vote 103 "for" to 163 "against."
9,000 6% 30-year waterfront improvement bonds. Vote 106 "for" to 154 "against."
5,000 6% 30-year sewer bonds. Vote 81 "for" to 168 "against."
4,000 6% 30-year street-crossing bonds. Vote 124 "for" to 135 "against"
12,000 6% 30-year water-works bonds. Vote 92 "for" to 158 "against."
9,000 6% 30-year Central Avenue bonds. Vote 78 "for" to 173 "against."

**Salem, Roanoke County, Va.**—*Bonds Awarded in Part.*—Local reports state that of an issue of $25,000 improvement bonds recently authorized, $8,000 was disposed of on Feb. 13 to local investors at par and accrued interest.

**Salida School District, Stanislaus County, Cal.**—*Bond Sale.*—J. H. Adams & Co. of Los Angeles purchased $6,000 5% bonds of this district on Feb. 11 for $6,006 25—the price thus being 100.104. There were no other bidders. Date Feb. 11 1908. Interest annual.

**San Angelo, Tom Green County, Texas.**—*Bonds Authorized.*—The City Council, it is stated, has passsed an ordinance providing for the issuance of $34,000 school-house bonds recently voted.

**Santa Monica School District (P. O. Santa Monica), Los Angeles County, Cal.**—*Bond Election.*—It is stated that the question of issuing the bonds to replace the burned Washington school-house with a brick structure (V. 86, p. 125) will be held March 5.

**Seneca Falls, Seneca County, N. Y.**—*Bond Offering.*—Proposals will be received until 7 p. m. Feb. 25 by Edward L. Guion, Village Clerk, for the $49,500 sewerage-system-completion bonds voted (V. 86, p. 184) on Dec. 26 1907. Denomination $1,650. Date March 2 1908. Interest (rate not to exceed 5%) payable Jan. 1 and July 1 at Seneca Falls or New York City. Maturity $1,650 yearly on March 2 from 1909 to 1938 inclusive. Bonds are exempt from taxation.

**Seward, Seward County, Neb.**—*Bond Election Proposed.*—According to reports, the citizens of this city have petitioned the Council to call an election to vote on the question of issuing $10,000 city-hall and fire-engine-house construction bonds.

**Shenandoah, Schuylkill County, Pa.**—*Bonds Voted.*—This place, it is stated, has voted to issue $40,000 bonds.

**Taylor, Williamson County, Texas.**—*Bond Election.*—The tax-payers of this city will vote, according to reports, on March 17 on the question of issuing $25,000 5% 40-year street-improvement bonds.

**Temple, Bell County, Texas.**—*Bond Sale.*—The Harris Trust & Svaings Bank of Chicago was the successful bidder, we are advised, for the $90,000 5% 20-40-year (optional) gold coupon water-works bonds dated Dec. 1 1907 and offered on Feb. 11. See V. 86, p. 245, for a description of these securities.

**Union (P. O. Weehawken), N. J.**—*Bond Offering.*—Proposals will be received until 8 p. m., March 2, by the Town Council for $15,000 5% coupon bonds for the re-improvement of Bulls Ferry Road. Authority, Chapter 115, Laws of 1907. Denomination $500. Date May 15 1908. Interest semi-annually at the Town Treasurer's office. Maturity part yearly on May 15 from 1913 to 1917 inclusive. Bonds are tax-exempt. Emil Bantz Jr. is Town Clerk.

**University Place, Lancaster County, Neb.**—*Bonds Not Yet Sold.*—The City Clerk, R. E. Shelley, informs us that the $15,000 5% 5-20-year (optional) electric-light bonds mentioned in V. 85, p. 884, are still on the market.

**Utica, N. Y.**—*Bonds Authorized.*—The Common Council recently passed an ordinance providing for the issuance $4,625 55 5% Square Street and Whitesboro Street paving assessment bonds. Maturity one-sixth yearly on Feb. 7 from 1909 to 1914 inclusive.

*Bond Sale.*—On Feb. 11 seven issues of 5% 1-6-year (serial) paving bonds, aggregating $28,932 92, were awarded at par and accrued interest as follows: $25,995 09 to W. N. Coler & Co. of New York City and $2,937 83 to J. P. Mulhall of Utica.

*Certificate Offering.*—Proposals will be received until 12 m. March 2 by Fred. G. Reussing, City Comptroller, for $150,000 5% certificates of indebtedness. Date March 2 1908. Maturity Nov. 2 1908. Certified check for 1% of certificates bid for, payable to the City Treasurer, is required. Purchaser to pay accrued interest. Certificates to be delivered within ten days after date of award.

**Vigo County (P. O. Terre Haute), Ind.**—*Note Offerings.*—Proposals will be received until 10 a. m. Feb. 22 by Nathan G. Wallace, County Auditor, for a $5,000 6% note. Date day of delivery. Maturity Dec. 1 1908. Proposals will also be received until 10 a. m. to-day (Feb. 15) by Nathan G. Wallace, County Auditor, for a $5,000 6% note. Date day of delivery. Maturity June 1 1908.

*Bonds Authorized.*—The Board of County Commissioners has decided to issue $128,500 4½% coupon bonds for the erection and construction of a jail and Sheriff's residence; also for the remodeling of the present jail. Denomination $1,000, except one bond of $500. Date Jan. 11 1908. Interest June 15 and Dec. 15 at the office of the Terre Haute Trust Co. in Terre Haute. Maturity on Dec. 15 as follows: $3,500 in 1910; $4,000 in 1911; $5,000 in each of the years 1912 and 1913; $6,000 in each of the years 1914 and 1915; $7,000 yearly from 1916 to 1919 inclusive; $8,000 in each of the years 1920 and 1921; $9,000 yearly from 1922 to 1926 inclusive, and $10,000 in 1927.

**Vonda, Sask.**—*Debenture Offering.*—Proposals will be received for $15,000 6% water-works-installation debentures. Date Nov. 4 1907. Interest annually on Nov. 4. Maturity part yearly on Nov. 4 for twenty years. A. F. Totzke is Secretary-Treasurer.

**Wallace, Man.**—*Debentures Not Yet Sold.*—Up to Jan. 27 this place had not yet sold the $50,000 4% 20-year debentures mentioned in V. 85, p. 965.

**Wapakoneta, Auglaize County, Ohio.**—*Bond Sale.*—The three issues of 4½% 1-5-year (serial) coupon sewer-construction bonds, aggregating $6,500, offered but not awarded on Dec. 9 1907 (V. 86, p. 126), have been sold to Chas. Herbst & Sons of Wapakoneta.

**Warren County (P. O. Vicksburg), Miss.**—*Bonds Authorized.*—The Board of County Supervisors has decided to issue $11,000 5% bridge-construction bonds.

**Warren County (P. O. Lake George), N. Y.**—*Bond Sale.*—We are informed by the County Treasurer that on Feb. 5 $115,000 5% bonds were awarded to Emerson & Co. of Warrensburgh at par.

**Wayne County (P. O. Wooster), Ohio.**—*Bond Offering.*—Proposals will be received until 1 p. m. Feb. 24 by Isaac N. Hough, County Auditor, for $9,500 4½% coupon ditch-construction bonds, being the unsold portion of the two issues of bonds aggregating $13,000 mentioned in V. 86, p. 127. Authority Sections 4479, 4480, 4481 and 4482 Revised Statutes. Denominations $500 and $1,000. Date Jan. 1 1908. Interest semi-annual. Bonds to be delivered on the day of sale.

**Webster Groves School District (P. O. St. Louis), Mo.**—*Bond Sale.*—The Secretary, Board of Education, writes us stating that the price paid for the $60,000 4½% (not 4%, as at first reported,) 10-20-year (optional) school bonds awarded on Feb. 7 to N. W. Halsey & Co. of Chicago was $59,219 (98.698), and not 98.53, as reported in last week's issue. Bonds will be delivered March 1 1908.

**Wells County (P. O. Bluffton), Ind.**—*Bond Offering.*—Proposals will be received at any time by Edward Saurer, County Treasurer, for $133,880 4½% coupon highway-improvement bonds. Authority pages 137 and 572, Acts of the General Assembly of 1907. Date Oct. 15 1907. Interest semi-annually in May and November at the National Bank of Commerce in New York City. Maturity part each six months from May 15 1909 to Nov. 15 1918 inclusive. Total debt at present, $35,000. Assessed valuation, $18,500,000.

**Westerlo, Albany County, N. Y.**—*Bond Sale.*—We are advised that this town on Feb. 1 disposed of the $6,500 5% 1-5-year (serial) coupon turnpike bonds, a description of which was given in V. 86, p. 127.

**Westerville School District (P. O. Westerville), Franklin County, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. March 4 by Mrs. Frances M. Flickinger, Clerk Board of Education, for the $16,000 4% coupon public-school improvement bonds mentioned in V. 86, p. 65. Denominations as follows: twenty bonds of $500 each and six bonds of $1,000 each. Date March 4 1908. Interest semi-annually at the Treasurer's office. Maturity $500 yearly on Sept. 4 from 1912 to 1931 inclusive and $1,000 yearly on Sept. 4 from 1932 to 1937 inclusive.

**Wetaskiwin, Alberta.**—*Debenture Offering.*—This city, Jas. W. Hey, Secretary-Treasurer, is offering for sale the following debentures:

| | | |
|---|---|---|
| $90,000 | 5% | water-works debentures maturing part yearly for fifty years. Denomination $1,000. |
| 50,000 | 5% | sewerage debentures maturing part yearly for fifty years. Denomination $1,000. |
| 30,000 | 5% | electric-light-plant extension bonds maturing part yearly for twenty years. Denomination $1,000. |
| 2,500 | 5% | hospital debentures maturing part yearly for twenty years. Denomination $500. |

Interest annually in Wetaskiwi .

**Wheatland, Laramie County, Wyo.**—*Bonds Not Sold.*—This town, S. G. Hopkins, Clerk, is still inviting proposals for the $25,000 6% water-system bonds described in V. 85, p. 431.

**Wheeling School District (P. O. Wheeling), Ohio County, W. Va.**—*Bond Offering.*—Proposals will be received until March 2 by the National Bank of West Virginia at Wheeling, acting as agent for this district, for the $200,000 4½% high-school-building bonds voted (V. 85, p. 244) on July 16 1907. Denomination $1,000. Date Nov. 1 1907. Maturity part

yearly from five years to twenty-five years inclusive. Certified check for 1% of bid, payable to the National Bank of West Virginia at Wheeling, is required. Purchaser to pay accrued interest.

**White Plains, N. Y.**—*Certificate Offering.*—Proposals will be received until 8 p. m. March 16 by the Board of Village Trustees, John J. Brown, President, for $44,000 sidewalk assessment certificates of indebtedness at not exceeding 5% interest. Denomination $1,000. Date March 1 1908. Interest semi-annually at the Village Treasurer's office. Maturity March 1 1913. Certified check on a State or national bank or trust company for 5% of bid is required.

**Wichita, Kan.**—*Bond Offering.*—The City Clerk, R. N. Dorr, is offering at private sale an issue of $7,535 78 5% coupon paving bonds. Authority Chapter 122, Laws of 1903. Denomination $500. Date Jan. 1 1908. Interest semi-annually at the fiscal agency in New York City. Maturity part yearly from one to ten years. Bonds are exempt from all taxes.

**Wilmington, Los Angeles County, Cal.**—*Bond Election Proposed.*—Los Angeles papers state that the City Trustees have commenced proceedings for a $100,000 bond election.

**Windsor, Ont.**—*Debenture Sale.*—On Feb. 12 the $53,593 71.4½% and the $23,391 64 5% local-improvement debentures described in V. 86, p. 364, were awarded, it is stated, to Aemilius Jarvis & Co. of Toronto. Debentures mature part yearly for ten years.

**Winnipeg, Man.**—*Debentures Proposed.*—The City Council proposes, according to reports, to issue $6,500,000 debentures to pay existing liabilities, provide for the retirement of the floating indebtedness and to pay for necessary improvements.

**Winnipeg School District No. 1 (P. O. Winnipeg), Man.**—*Debenture Sale.*—The $200,000 4% school-debentures offered on Feb. 6 and described in V. 86, p. 127, have been purchased, it is stated, by Wood, Gundy & Co. of Toronto. Debentures mature Aug. 1 1941.

**Winthrop (P. O. Station Boston), Mass.**—*Bond Sale.*—According to reports, $140,000 4% 30-year water bonds have been purchased by Merrill, Oldham & Co. of Boston at 100.02.

**Woodstock, Ont.**—*Debentures Voted.*—The question of issuing $27,500 4½% electric-pump and power-distribution debentures carried by a vote of 881 to 154 at an election held Jan. 6. Maturity December 1938. The City Clerk informs us that these debentures will not be placed on the market before the spring of 1909.

**Yonkers, N. Y.**—*Bond Offering.*—Proposals will be received until 12 m. Feb. 27 by James T. Lennon, City Comptroller, for $100,000 5% water bonds dated March 2 1908. Maturity $2,500 yearly on March 2 from 1909 to 1948 inclusive.

**Yorkton, Sask.**—*Debenture Offering.*—Proposals will be received by R. H. Lock, Secretary-Treasurer, for the following debentures:

$45,000 5% 40-year water-works debentures dated Aug. 1 1907.
15,000 5% 40 year sewerage disposal debentures dated Aug. 1 1907
10,000 5% 20-year debentures to obtain a controlling interest in the Yorkton North-West Electric Co., dated April 1 1907.

Denominations: $9,000, $3,000 and $1,000. Interest annually at the Bank of British North America in Yorkton. Debentures are coupon in form and exempt from taxation.

As reported in V. 85, p. 965 these debentures were offered but not awarded on Sept. 3 1907.

**Youngstown, Ohio.**—*Bond Offering.*—Proposals will be received until 2 p. m. March 9 by Wm. I. Davies, City Auditor, for the following bonds:

$10,000 5% Boardman Street widening bonds. Maturity $2,000 yearly on Oct. 1 from 1909 to 1913 inclusive.
1,910 5% Mahoning Avenue sewer bonds. Maturity $1,000 on Oct. 1 1909 and $910 on Oct. 1 1910.
1,295 5% Thurman Street grading bonds. Maturity $259 yearly on Oct. 1 from 1909 to 1913 inclusive.
1,425 5% Silliman Street grading bonds. Maturity $285 yearly on Oct. 1 from 1909 to 1913 inclusive.

The above bonds are dated March 16 1908. Interest semi-annually at the City Treasurer's office. Bid must be made on each issue separately and accompanied by a certified check for 2% of each issue bid upon, drawn on a national bank and made payable to the City Auditor. Purchaser must be prepared to take the bonds not later than March 16 1908, the money to be delivered at one of the banks in Youngstown or at the City Treasurer's office.

| Seven cities, 5 days | $1,508,267,264 | $2,140,226,132 | —29.5 |
| Other cities, 5 days | 354,986,948 | 440,298,764 | —19.1 |
| Total all cities, 5 days | $1,863,254,212 | $2,580,524,896 | —27.8 |
| All cities, 1 day | 415,233,246 | 664,326,650 | —37.5 |
| Total all cities for week | $2,278,487,458 | $3,244,851,546 | —29.8 |

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below detailed figures for the week ending with Saturday noon, Feb. 22, for four years.

### *OUR STREET AND ELECTRIC RAILWAY SECTION.*

We send to our subscribers to-day a new number of our "Street Railway Section," or Supplement, revised to date. It will be observed that the title has been changed, and now reads "Electric Railway Section." The change has been made with the view to making the name more comprehensive, and properly descriptive of the properties represented therein. This publication was originally confined to street railways, but has long passed the point where it comprises merely railways of that description.

In the process of electrical development not only has the form of motive power of practically all the street railways been changed to electricity, but the character of the properties themselves has undergone transformation. Through the building of extensions into the suburbs and beyond, the street railways from being purely urban enterprises have in numerous instances become interurban undertakings of large magnitude, so that the designation "street" railways no longer applies. Moreover, a process of consolidation has been going on, which has given us many electric combinations of large size. These connect numerous cities and towns—embracing networks of railways covering entire States, and some of them several States.

It has been deemed best therefore to drop the old name and to adopt the designation "Electric Railways" instead. We have at the same time enlarged the size of the publication, enabling us to insert a number of companies which previously had to be omitted for the lack of room and also to include some foreign companies in which there is an American interest. These latter are grouped together at the end of the Supplement under the heading "Electric Railways in Island Possessions and Foreign Countries."

The editorial discussions in the present issue of the "Electric Railway Section" comprise "Canadian Electric Railways in 1907" and an article entitled "The Street Railway Situation in Cleveland."

### *THE FINANCIAL SITUATION.*

Why is it that although months have passed since the crisis occurred no real start towards industrial recovery is discernible? Indeed, the months as they pass are showing successively a backward trend—the confused and disordered state of affairs getting more and more involved. This is an absolutely unnatural, unneedful course. It never could have happened thus were it not that the source of the original irritation still remains in unrest, constantly developing a condition in the public mind of morbid excitability. We do not recall any panic so obstinate in resisting initiative in the road towards real recovery as the present. All the embarrassing conditions that gave birth to it seem to have been removed; except that the markets still are kept under the thralldom of a fear that some new utterances at Washington will unfold a new plan for arousing to a higher pitch the antagonism between capital and labor. Harmonious action, the need for building up again industrial activity, is thereby made impossible.

Early in the week some development of the kind rumored was reported as about to be brought forward. Sure enough, Thursday morning the daily newspapers contained the predicted "utterances," which have since been scattered by telegraph all over the country. It is the same old story which we have had over and over again, repeated now in two addresses on the day mentioned. Probably the President's talk to the delegates of the National Education Society at the White House will be the more serviceable in illustrating the method used for keeping the irritation alive. On that occasion the well-worn words were contained in his address, thrown out to be told to the whole world as his determination—that "there will be no let-up in Mr. Roosevelt's war on railroads." If any one will try to frame a more ingeniously formed sentence intended to disturb industrial classes striving to get together on the peaceable basis of live and let live than those words present, he will fail. Remember, it is the President of the United States that is speaking; that the railroads he refers to cover the largest industry in this country; that it represents a total of invested capital of $14,570,000,000; that the securities are held and owned to a greater or less extent by over half of the educated people in the United States; that our worthy President has been engaged in the warfare he refers to almost ever since he took office, the struggle getting more and more tense and crushing to these railroad properties and to the people who own them much of the time since. Then, recalling to mind the many women and children of small incomes left by provident fathers, which his words have reduced to want through loss of dividends and values of stocks sold by force of circumstances at the low prices produced by his attacks—recalling this situation, he adds these highly soothing words: "Seriously, friends, it is idle for any man to talk of despairing of the future of the country or feeling unduly alarmed about it." Then to cheer up these sufferers, and encouraging them to keep on breathing—for eating is out of the question when their patrimony is gone—turning his eyes heavenward, so as to give a righteous look to his acts—he tells them that he is engaged in a holy warfare, his "wars being against the forces of evil." Obviously all this means that righteousness is personified in the person of the speaker and the victims his wars have produced "are the evil ones." How our dear President "can wear a face of joy," as he always does when he reaches this phase of his address, and is repeating these tales—knowing as the world does that they are stated for political effect—is a surprise to intelligent men.

---

How utterly unreasonable, may we not say subject for just derision, these fulminations by the President against railroads and their builders and managers are. The day will come when those who have been foremost in this crusade will hide their heads with shame. Why do not these parties who encourage the President in his unwise course embrace Mr. William McAdoo in their abuse? They do not dare to do it to-day. Perhaps they will have the courage a few months hence. Overpraise to-day, it is evident in the public view, cannot be bestowed on the creator of this grand highway.

Wednesday occurred the official opening for public use of a part of what will be known, notwithstanding the modesty and reported wishes of the projector, as the McAdoo System. The portion opened this week grew out of and utilized the old Haskin tunnel of thirty years ago under the Hudson, which came to be regarded as utterly visionary. Now the tunnel has

been opened from Hoboken to the foot of Morton Street, where it joins a subway under Christopher and other streets to a present terminal at Sixth Avenue and 19th Street. This new highway will soon extend to the terminal at Sixth Avenue and 33d Street, close to and connecting with the great Pennsylvania terminal. The tunnel from Hoboken to Morton Street—designated as No. 7 on the map published in the "Chronicle" of May 10 1902, page 962—now forms the north side of an approximate square. The western side of this square is in New Jersey, where it joins the Hoboken end of the tunnel with the stations of the Lackawanna, Erie, Lehigh Valley and Pennsylvania roads; the southern side of the square is formed by the tubes directly across from the Pennsylvania to Cortlandt Street, near which are the colossal terminal and office buildings now near completion. A passage from these buildings at Church Street will lead to the subway station at Broadway and Fulton; similarly, a branch tube will lead from the station at Sixth Avenue and 9th Street to the subway station at Astor Place. The passenger who comes in by any of the stations in Jersey City on the river front from Montgomery Street to Hoboken may thus (with only a little anticipation at present) go direct through the Interborough subway to any point on Long Island via the Battery tunnel and connections; or to any point north reached by the subway; or to the Grand Central and any place which can be reached from that starting-point; or by the Pennsylvania line itself into Long Island. There will be a choice of routes. The delays and transfers of passenger travel are gone, and the two rivers are in effect obliterated.

The East River has the disadvantage of swifter tidal currents, but the great width of the Hudson and the large strictly suburban traffic by rail which must cross it have made it much the more serious obstruction. Its removal in effect evidently means, for adjacent territory in New Jersey, a development like to that which Long Island is expecting from the tunnels and bridges on the eastern side. One enthusiastic constructor of prophetic statistics estimates a population of 50 millions for Brooklyn alone at the end of a few more decades. Prophecy loses some of its danger when those who indulge in it will not be on the stage at the date when the test will come; yet it is more idle than wise to go into specific calculations about future metropolitan growth. That population tends to mass in cities is known, and no bounds to that movement can be set now; therefore, the importance of these great schemes of local travel now near completion. Mr. McAdoo justly says that New Jersey has been moved three miles nearer Manhattan, in point of time, and that, on the very low estimate of five minutes, average time, to each person crossing the tunnels, this is equivalent to a saving annually of 9½ years of time now wasted by the 100 millions who cross the Hudson ferries each year.

Turning back a moment to the map in the "Chronicle" of nearly six years ago above referred to, we may remark that the Williamsburgh, or No. 2, bridge, which has been open several years, but in small use, has now some subway connecting work briskly progressing on the Manhattan side; that the No. 3, or Manhattan, bridge, then not even positively settled upon, now has both anchorages finished and the towers practically at their full height; and that the No. 4, or Blackwell's Island, bridge, of the cantilever type, is rapidly pushing on to join its two portions. If the reader will draw a line on the map directly across the Hudson from Cortlandt Street, and one from 42d Street across the East River to Long Island City, these two lines will indicate all the new under-river construction of the past eight years, which is certain. The suggested mark on the map on the East side is the Belmont tunnel, now about ready for operation, but in uncertainty as to connections and control. The Pennsylvania's "connecting-railroad" through Brooklyn to Astoria, thence across Ward's and Randall's islands to the mainland, is, of course, not to be left out of mind.

The No. 3, or Manhattan, bridge will form a line through the Flatbush Avenue extension to connect in Brooklyn with the Battery tunnel, the relations of which to Long Island were discussed at length in the "Chronicle" of Jan. 25. There are other schemes talked of. A double tube from Maiden Lane to Pineapple Street; a quadruple tube from East 14th Street to North 7th Street in Williamsburgh, there to join a bridges-connecting loop; and a double tube from East 24th Street to Long Island City, are objects upon which the hearts of Brooklynites are set; there are also proposed land subways almost too numerous to mention.

But there is a lesson which ought not to be left undrawn in such a connection. These great transit constructions, underground and under-river, seem almost so natural and so fitting in with the development of the country as to be quite things of course and almost as if they built themselves because of their recognized necessity; that is, they almost seem so after they are finished and an eager if not grateful public quickly seizes them for active use. But when they had no existence, lying in the far-seeing imagination of some man? That man did not denounce thrift and accumulation, from a barrel-head or in published documents; he was no idler, probably not even in any sense an ora or; certainly he was not of the destructive type. He foresaw a development which would need these facilities; he assumed that the rights of private property would continue to be strictly respected. Certainly it is gratifying, and in a way encouraging, to see these vast works finished and opened, and one more great building projected at the 33d Street terminal; but it is doubtful whether these would have been undertaken if the present emotional feeling towards capital had existed when they began.

---

If any one imagines that the great decline in security values which has occurred during the last two years is of no concern to the general public—that it affects only the capitalist or the man of means—we would invite attention to the savings bank statistics for this State made public the present week by the Superintendent of Banking and which show the condition of these institutions on Jan. 1 1908. It is hardly necessary to enlighten the reader as to the important functions performed by such institutions in affording depositaries for the savings of the humbler classes of the popu ation. It will not be out of place, however, to refer to the magnitude of the deposits of these savings banks in this State. It is over six years since the aggregate first reached 1,000 million dollars and now the total is well on towards 1½ thousand

million dollars. The exact aggregate on Jan. 1 was $1,380,399,090. This represents the accounts of no less than 2,731,447 depositors. Except to the extent that depositors may have accounts in more than one bank, these figures show that nearly 2¾ million persons have a direct pecuniary interest in the prosperity and condition of the savings institutions of the State.

The average of the deposits is only a trifle over $500, so that it is entirely accurate to say that these banks are the custodians of the little hoards of those classes of the people whose individual possessions are not marked by large figures. Based on these averages of the accounts, it would be necessary for two of the depositors to club together in order to buy a single $1,000 bond. And yet he who thinks that for that reason these savings depositors have no interest or concern in the market value of bonds is sadly in error. The depositors do not hold the bonds, but the banks hold the same for them. Hence, when for any cause there is a decline in investment values, the banks necessarily suffer by reason of that circumstance and the depositors suffer through them. The individual depositor may not appreciate or recognize the fact of the loss, or be sensible of it, but the loss is real nevertheless. The savings banks of New York State are mutual institutions and therefore there are no stockholders to bear the burden of the loss, any more than there are shareholders to absorb the gains or profits. The trustees hold the entire resources for the benefit of the depositors and for them alone. The latter are in effect the shareholders, and the trustees administering the affairs of the institutions represent their interests. The significant fact brought out by the returns for Jan. 1 is that, owing to the shrinkage in the value of the investments of the savings banks, the proprietary interest in the same held by the depositors has been correspondingly depreciated.

It appears that during the twelve months of 1907 the deposits of the savings banks of the State were further increased in the sum of $18,363,253. The amount of this increase is the smallest for any calendar year since the hard times of 1894, when the banks were actually obliged to record a loss in deposits. But considering the financial upheaval which occurred in October and November, and the loss of confidence attending the same, it is perhaps surprising that there should have been any increase at all. At the same time it is important that not too much significance shall be given to the increase. It is doubtless safe enough to conclude that the figures indicate that frightened depositors did not after all make very extensive withdrawals of funds from the institutions. That is in accord with common report. On the other hand, it would be going too far to say that the average depositor—the laboring man or general employee—is better off than he was a year ago, or, to be more specific, that he has larger saving hoards to draw upon in the presence of the unfortunate business conditions which are now confronting him. We are sure that the increase in deposits has no such meaning as this. By reason of the involvement of the trust companies considerable amounts of deposits must have been withdrawn from the latter and been transferred to the savings banks. It is quite possible that this furnishes the entire explanation of the increase in deposits.

We come now to the most noteworthy disclosure furnished by the savings banks statistics. We have seen that the addition to deposits during the twelve months was $18,363,253. What does the reader suppose was the increase in the aggregate resources of the institutions? This increase was just $344,846. The fact which confronts us, therefore, is that, with a deposit liability 18 1-3 million dollars larger than a year ago, the aggregate resources of the institutions have hardly gained at all, but remain substantially unchanged. It requires, of course, no deep process of reasoning to find the cause for this impairment of resources. Owing to the decline in all classes of investments, the market value of their assets has been reduced by an amount actually exceeding the addition to the deposits. Conclusive evidence of the truth of this statement is furnished in the circumstance that for Jan. 1 1908 the surplus of the banks above their deposits and other liabilities is reported at only $83,255,275, whereas the corresponding surplus on Jan. 1 1907 was $102,192,265. If we go twelve months further back, we find that on Jan. 1 1906 the surplus was $112,834,424. Thus in two years the surplus has been cut down nearly $30,000,000, or considerably over 25%. If we carried the comparison back to 1901, the loss would be still larger, for at that time the surplus was reported at $118,294,674, as against $83,255,275 now.

This reduction in surplus has come about through no fault of the managements. They have incurred no losses through unsafe or imprudent investments or through reckless or extravagant administration of the affairs of the banks. On the contrary, there is no better governed body of financial institutions anywhere in the world than the New York savings banks. The reduction in surplus reflects simply and solely the destruction and impairment of credit through which there has resulted a tremendous shrinkage in the market value of all classes and forms of investments. In the case of the savings banks, the shrinkage disclosed is all the more noteworthy because these banks are by law rigidly limited as to the obligations in which they may invest their funds. The lawmaker has provided for them only very choice and gilt-edged securities. Yet the discredit attaching to securities of all kinds has been so great that they have all gone down—good, bad and indifferent. Even municipal bonds have not escaped, and in these the banks hold very large sums invested.

The question now is, how much further the impairment of values is to go, and what additional shrinkage in surplus the managers of our savings banks must prepare for. The question is not an easy one to answer. The country and all business interests are in thoroughly sound condition, and if we could count upon freedom from further political assaults on capital and upon corporations, there would be a quick return of confidence, investors would resume purchases, and development work would again go on in the old way and at the old rate. Under such circumstances it would not take long to retrieve the past and the savings banks would be able once more to augment their surplus. The fact is not necessarily an alarming one, but candor compels the statement that the surplus of the New York savings banks is now down to a figure lower than it has been at any time for twenty-two years—that is, the lowest since Jan. 1 1886. Even on Jan. 1 1887, twenty-one years ago, the surplus was reported at $85,633,329, whereas now

it is only $83,255,275. At this earlier date, the aggregate of deposits was only $482,000,000. To-day it is, as we have already seen, $1,380 million dollars. The number of depositors is now 2,731,447, as against only 1,264,535 on Jan. 1 1887. In other words, the surplus then amounted to about 18% of the deposits, now it amounts to less than 7%. Then it averaged $68 per account, now it averages only a little over $30 per account. We commend all this to the consideration of our legislators at Washington and at Albany, and we pray them, we beseech them, to let up in their reckless and destructive work.

---

The "Chronicle" of Feb. 15 noted the incident of a crisis in Copenhagen which resulted in the failure of one bank and in runs upon other institutions at that centre. Later mail advices, in commenting upon this crisis, say that "it excited interest in London, and the more so since a great deal more Scandinavian paper than is quite welcome has latterly made its appearance in London. The real seat of the trouble is Hamburg, which has been from time immemorial, at least ever since the days of the Hanseatic League, the financial and commercial centre of the Baltic towns. But embarrassments caused by the recent failures in Hamburg and Bremen, together with the strained conditions of credit all over Germany, and the heavy deficits of the Empire and Prussia, have necessitated the withdrawal of a good deal of money from Scandinavia. Denmark is quite unaccustomed to the spectacle of a bank failure, and the sudden suspension of the Freeholders' Bank of Copenhagen caused general alarm; a run on several other banks followed, with a sharp fall in bank shares." As noted in the "Chronicle" of the 15th, the intervention of the Danish Minister of Finance, for the relief of the situation, had an assuring effect.

It would seem that the maintenance of the 6% rate of discount by the German Reischsbank, together with good management, have contributed to a steady increase in the gold holdings of the institution, though such increase may have been due in part to the substitution of notes for gold in the circulation, thus relieving the bank from withdrawals for this purpose. Since the beginning of the year the Bank has gained about 10½ million pounds sterling gold and it has correspondingly reduced its outstanding circulating notes. The gold has apparently been chiefly drawn from domestic sources, and such movement may encourage the efforts of the new President of the bank to obtain authority for the general use of bank checks in place of cash for current business needs, thus promoting to a still greater extent the diversion of gold to the bank.

The Near Eastern question seems to have become less disturbing to European politics this week. A new cause for uneasiness appears, however, to have been discovered in the Far East. It was reported this week that, owing to the financial tension in Japan—which has been caused in part by the falling off in trade with the United States, and, to some extent, by doubts regarding Japan's political relations with this country—a transfer to Tokio of that Empire's balances in London, amounting to about 75 million dollars, is in contemplation. The report is discredited at the Japanese Embassy at Berlin, but German firms trading in the Far East confirm the statement as to financial tension.

---

It was officially announced on Wednesday that a call had been made by the Secretary of the Treasury for 25%, or about 35 millions, of public deposits in national banks, payments under the call to be made in installments of 10% on March 9 and the remainder on March 23. The withdrawals will affect deposits in only about 300 of the 1,421 depositories, so that the funds in the smaller capitalized banks, amounting to less than $100,000 each, will not be disturbed. The New York City banks on Friday of last week held, according to the Clearing House statement, $59,229,800 public funds, 25% of which would amount to about 15 millions. That the local banks could surrender this sum without the least inconvenience, appears from the fact that one of the larger institutions last week voluntarily returned to the Treasury 3½ millions of a special deposit that was placed therein last fall, having previously surrendered 2 millions of its quota of regular distributions; moreover, since the Treasury call of this week was issued, our local banks have been anticipating its maturity and have surrendered considerable sums almost daily. It seems likely, because such has been the practice heretofore, that the country banks which have been called upon to surrender their percentage of deposits will effect such surrenders by drawing upon their balances with their New York correspondents. In this way it appears probable that New York depositories, either for themselves or for their correspondents, will respond to the bulk of the requisitions for the 35 millions of public funds. Presumedly before the end of the fiscal year large amounts of Government deposits will be withdrawn from the banks with which to pay for the 64 million 3s of 1908 that will mature on Aug. 1.

---

A recent issue of the weekly bulletins of the New York Life contains an outline map of the country, with the payments on death claims and endowments in each State in 1907 and the number of policies and their amounts outstanding at present in each. As the showing is intended to furnish canvassing material to the field force at home, foreign business is not referred to. It is interesting and practical for the purpose in view, but it suggests to us something which the compiler did not have in mind, namely the degree in which the life companies of this State belong to New York and the degree in which they belong to the rest of the country, and even to the world.

In the New York Life, 142,979 policies, for an aggregate of $282,048,600, belong in this State; but the total in force in the company is 982,448 policies, for $2,005,341,184. Therefore, only 14.56% in number of policies and a small fraction above 10% in amount belong here. In the other great companies the proportion does not vary greatly from this, and all the companies of New York, at the close of 1906, had outstanding 3,040,948 policies, for $5,966,181,902, of which only about 15% in number and 16% in amount belonged at home. The outstanding insurance in the three great companies at the close of 1906 which belonged in foreign countries other than Canada was from 18 to 24% of the entire aggregate in those companies, approximately two-thirds of the foreign-owned portion of course belonging in Europe.

The point, therefore, is this, and to us it seems highly important: while it is admitted that these companies are technically New York corporations,

creatures of New York law and under its control, by what rule of reason and morals does this State assume to manage, in so intimate and forcible a manner, the affairs of a vast trust fund of which seven-eighths to nine-tenths are owned by persons under other jurisdictions, as well as the minor fraction which belongs to citizens of New York? To bring the question more sharply to the point, it is on record and indisputable that the Armstrong laws were drawn up by a few persons of the State and were by those few persons imposed upon an unwilling Legislature. Even if the polite supposition is made that the Legislature is entirely a free and independent agent in the matter, the responsibility does not extend beyond 150 persons. A reasonable care over the trust is an obvious duty on the part of the State, because the companies are incorporated here, and is not in question; but the law now undertakes to regulate the investing of this vast fund, to limit its growth, to limit the reserves which safeguard it, to waste it in compulsory and prescribed elections of trustees, and in many details to deprive its chosen custodians of the discretion the owners committed to them. If it is alleged that these owners were helpless and looked to the New York Legislature to protect them thus, it may well be asked when and by whom this protection has been sought? The technical control of the organizations belongs in this State; the property nearly all belongs under other jurisdictions. If we admit that the persons who framed these aggressive and hurtful laws did so under a sincere belief that they were doing an admirable work, where is the evidence that the owners in other States and countries think so? The intervention was unasked; how is it shown to have been desired?

---

Our annual review of gold and silver production has been delayed somewhat in publication this year on account of the pressure upon our columns, but it is given to-day on pages 518 to 521. The principal fact disclosed by our investigations is the apparent check in production of the metal in 1907. The yield of the world's mines for the year exhibits hardly more than a nominal excess over the aggregate for the previous year. Declines appear in almost all the world's producers' totals, the excess being due entirely to the continued phenomenal development of mining in South Africa. In fact, from African mines alone 935,151 fine ounces more were secured in 1907 than in 1906, whereas the world's excess was only 214,186 fine ounces; the yield from Australasia, United States, Canada, Russia and other sources of supply combined show a decrease of 720,965 fine ounces.

While this easing up in the volume of gold production is not considered to have been more than temporary, data for the opening month of 1908, so far as we have been able thus early to secure the same, does not encourage a belief in any important increasing tendency of yield in the immediate future. Of course, results for a single month do not furnish a reliable basis upon which to predicate future results, but there are elements in the present situation that would seem to give to these January figures more than usual weight. The labor situation in Africa is not the least important element. Repatriation of the Chinese is steadily going on and losses in number thus entailed are being made good by the recruiting of natives. But the question of efficiency is not to be overlooked, and that is where the trouble lies. Reports have recently been current that it was the intention to import from 15,000 to 20,000 hands from Madagascar under a two-year's contract, but this has been denied. In time, however, the labor situation will settle itself, but until that time comes further material development in Africa cannot be anticipated.

The figures we have secured for January 1908 cover almost all of Africa, the greater part of Australasia and the Colar field of India, and they give an aggregate output for the month only very moderately in excess of January 1907. To be more specific, the yield from the mines of Africa was in January this year approximately 626,000 fine ounces, against 599,000 fine ounces in 1907; the principal Australasian fields contributed about 290,000 fine ounces, against 289,000 fine ounces for the same periods, and the Colar field 40,000 fine ounces, against 43,000 fine ounces. So that for all the fields for which we have early returns, the January 1908 excess in yield is only 25,000 fine ounces, as compared with the month of 1907, or very much less than the gain recorded in 1907 over 1906.

---

Southern cotton planters, traders and those closely allied with them are coming to realize the harm resultant from the ill-advised and persistent attacks made through State legislation upon the system of dealings in options or futures on the various cotton exchanges of the country. In a number of States transactions of that kind have already been forbidden by statute and there are now pending in Congress—but we believe with small chance of enactment into law—several bills designed to eliminate cotton exchanges. There is, no doubt, something of truth in complaints made that the present forms of contract of leading exchanges are in a measure unsatisfactory, operating against the best interests of planters and spinners alike. And it has been claimed that the object sought to be attained by the introduction of bills into the National Legislature is to force a better contract from the exchanges. The same cannot be said, however, of the anti-option enactments of the State bodies. We do not destroy to improve; discussion, argument and advice, rightly employed, are the most potent remedial agencies.

That a small percentage of the transactions on the cotton exchanges is speculative may be admitted, but that should not be made to becloud the fact of the utility and absolute necessity of the option or future-trading system to both cotton merchant and manufacturer. The spinner without the hedge provided by the future contract for cotton could not enter into extensive forward engagements for his goods except upon a price basis that would in any event quite fully protect him against loss through possible future changes in the price of the raw material. This would naturally restrict orders for goods and lessen demand for cotton. The merchant, with the protection afforded by the future contract, is able to make contracts with the spinners for cotton of certain grades, supplying it as needed, and thus creating in the market a sustaining demand. Without the future contract he could make no such engagement unless he had the cotton actually in hand. To characterize all option or future dealing as gambling is, therefore, far wide of the mark.

Consequently, the hasty, indiscriminate condemnation of a system that has taken years to perfect,

and under which the movement of the crop has been greatly facilitated to the material benefit of all concerned, is doubtful wisdom. One of the delegates to the International Cotton Conference held at Atlanta last summer, in referring to the subject of future dealings, pointed out that some years ago agriculturalists in Germany, becoming imbued with the idea that transactions in options on grain were inimical to their interests, had the exchanges closed. It was not long, however, before they realized the great loss to themselves the closure had entailed, and the exchanges were petitioned to re-open. We are not apologists for speculation or gambling, as it is the fashion to call it now at the South. But we recognize the inestimable value of the exchanges as factors in the handling of our most important agricultural product, and would consider as a calamity legislation seriously impairing their usefulness.

The views of far-seeing Southerners on the subject of anti-option legislation have been well expressed on two occasions recently by Mr. J. A. Taylor, President of the National Cotton Ginners' Association, in open letters to ginners and traders. His first communication we referred to in our issue of Jan. 11, page 71. In the second, made public last week, he went into the subject more fully, giving the result of his investigations into the systems of the New York and New Orleans cotton exchanges and pointing out the injury to cotton interests that in his mind would follow their extinction. His deliberate conclusion, as expressed in the final paragraph of the letter, is: "If the Southern people who want to help carry the load had not been prevented on account of the recent laws passed preventing trading in futures, we should have received at least $10 more per bale for this crop." This statement, and in fact the whole letter, coming from one closely identified with cotton-planting interests, and in thorough sympathy with all aims having for their object benefit to the South, should be carefully and intelligently pondered.

Further light was shed upon the folly of the recent anti-option legislation by Mr. W. B. Thompson, President of the New Orleans Cotton Exchange, in an address made last week at the Southern Cotton Association convention held at Dallas, Texas. The title of the address was "The Function of a Legitimate Exchange," which he pointed out to be "to improve the market for cotton; to devise ways for minimizing the cost of marketing the crop, and to provide means to both producer and consumer for protection against demoralizing interruptions to the natural course of trade." He went quite fully and convincingly into the subject in all its varying aspects, referring at length to legitimate future trading and to its beneficial effect as a sustaining and broadening factor in the marketing of the crop, and to the loss the South had sustained by indiscriminate attacks upon that system of trading.

---

The Bank of Belgium this week reduced its official discount rate from 5% to 4%. Though a reduction in the Bank of England rate was somewhat expected, no change was made. Compared with last week, open market or unofficial rates were easy at all the principal centres. On Saturday of last week the Comptroller of the Currency issued a call for reports of condition of national banks as of February 14, and responses thereto have been prompt. This, the first call for the year, is later than usual; that of 1907 was on Jan. 26. Banks have been expecting the now announced call some time, and meanwhile, as is customary, the larger institutions have restricted their loan operations and, perhaps, have accumulated reserves and otherwise improved their condition in order to make a good exhibit when the date for the Comptroller's call should be announced. As the result of the release of bank funds, after the issue of this call, the local market for time loans, which had been sentimentally affected by the news of the requisition by the Secretary of the Treasury for public deposits, became easier by reason of liberal offerings; the demand was, however, chiefly for the longer maturities, and business for short periods was small. Toward the close of the week the tone grew steadier, because of expectations that a decrease in bank reserves would be shown in this week's statement on account of large absorptions of surrendered public funds by the Treasury. It is reported that some banks are discriminating against such stocks, as collateral, as are not active, and the sharp fall this week in some of these securities was attributed to their rejection as pledges for loans. Commercial paper is offered in liberal volume,indicating urgent requirements by merchants for accommodation; but there is still a good demand for choice names, chiefly from the West.

Money on call, representing bankers' balances, loaned at the Stock Exchange this week at 2% and at 1½% with the average about 1¾%. Banks loaned at 1½% and trust companies at 2% as the minimum. On Monday and on Tuesday loans were at 2% and at 1½% with the bulk of the business at 1¾%. On Wednesday transactions were at 2% and at 1¾% with the majority at 1¾%. On Thursday loans were at 2% and at 1½% with the bulk of the business at 1¾%. On Friday transactions were at 2% and at 1½% with the majority at 1¾%. Time loans on good mixed Stock Exchange collateral are quoted at 4% for sixty to ninety days, 4¼% for four and 4½@4¾% for five to six months; one large loan was reported to have been made for twelve months at 5%, a concession from a previous quotation of 5¼%. Commercial paper was unchanged at 4½@5% for Eastern mill notes and for sixty to ninety day endorsed bills receivable; 5@5½% for prime, and 5½@6% for good four to six months' single names.

---

The Bank of England rate of discount remains unchanged at 4%. The cable reports discounts of sixty to ninety day bank bills in London 3⅜%. The open market rate at Paris is 2¼% and at Berlin and Frankfort it is 4⅝%. According to our special cable from London, the Bank of England gained £579,585 bullion during the week and held £39,320,717 at the close of the week. Our correspondent further advises us that the gain was due in greatest measure to receipts from the interior of Great Britain, although imports exceeded exports by £272,000. The details of the movement into and out of the Bank were as follows: Imports, £460,000 (of which £70,000 from Egypt, £25,000 from Constantinople, £5,000 from Paris and £360,000 bar gold bought); exports, £188,000 (of which £8,000 to Gibraltar and £180,000 to South America), and receipts of £308,000 *net* from the interior of Great Britain.

---

Early in the week foreign exchange was active and higher, because of a demand to remit for American securities which had been sold in London; it was also affected by an insufficiency of bankers' as well as of commercial bills, the scarcity of the latter being indicated by the high rates therefor. Owing to the fact that the mail service was deranged, there being no fast steamers until Wednesday, and also because the vessels would sail at an early hour on that day, the business was largest on Tuesday, when there was an exceptionally good inquiry for short sterling. The demand seemed, however, to have been satisfied by noon, when there was a decline caused by liberal offerings of bankers' bills by an institution which was supposed to be drawing against credits created through the placing abroad of choice investment securities, and, influenced by such offerings, the market fell off. There appeared, however, to be a firm undertone, and there was a partial recovery by the close. On Wednesday business was comparatively small, there being a disposition to defer purchases until later in the week for to-day's (Saturday's) mail; cables were, though, in moderate request, on account of the settlement on the London Stock Exchange. One event of the week that attracted some attention on Wednesday was the easy market in London for open market discounts, which was regarded as foreshadowing an early possible reduction in the Bank of England rate. This fall in the unofficial rate was apparently caused by the further increase in the Bank's stock of gold, as the result of its securing the bulk of the $3,500,000 of the metal which arrived from South Africa this week. The recent accumulations of gold by the Bank of France and the Bank of Germany, and particularly by the latter, as shown in the statement of the Reichsbank, seemed to indicate that, though our rates for exchange on London might advance even close to the gold-export point, no inducement would be offered for a movement of the metal hence. It was regarded as possible, however, that a situation might develop —because of continued selling of American securities abroad, and consequently of an insufficiency of bills for remittance in settlement therefor—which would necessitate exports of gold in lieu of exchange. The monetary derangement which would probably be caused by such a movement, coincidently with large withdrawals of public funds by the Treasury from the banks, might, however, have such a depressing effect upon exchange as greatly to reduce the volume of such exports.

Compared with Friday of last week, rates for exchange on Monday were 10 points higher at 4 8350@4 8355 for long, 20 points for short at 4 8685@4 8690 and 15 points for cables at 4 8720@4 8725. On Tuesday long rose 5 points to 4 8350@4 8360, short fell 5 points to 4 8680@4 8685, while cables were unchanged at 4 8720@4 8725. On Wednesday long declined 10 points to 4 8340@4 8350, short 10 points to 4 8670@4 8675 and cables 10 points to 4 8710@4 8715. On Thursday long rose 10 points to 4 8350@4 8360, short 5 points to 4 8675@4 8680 and cables 5 points to 4 8710@4 8720. On Friday long rose 10 points and short fell 10 points, while cables were unchanged.

The following shows daily posted rates for sterling exchange by some of the leading drawers

| | | Fri., Feb. 21 | Mon., Feb. 24 | Tues., Feb. 25 | Wed., Feb. 26 | Thurs., Feb. 27 | Fri., Feb. 28 |
|---|---|---|---|---|---|---|---|
| Brown Bros. & Co | 60 days | 4 84 | 84½ | 84½ | 84½ | 84½ | 84½ |
| | Sight | 4 87½ | 88 | 88 | 88 | 88 | 88 |
| Kidder, Peabody & Co | 60 days | 4 84 | 84½ | 84½ | 84½ | 84½ | 84½ |
| | Sight | 4 87½ | 88 | 88 | 88 | 88 | 88 |
| Bank British North America | 60 days | 4 84 | 84½ | 84½ | 84½ | 84½ | 84½ |
| | Sight | 4 87½ | 88 | 88 | 88 | 88 | 88 |
| Bank of Montreal | 60 days | 4 84 | 84½ | 84½ | 84½ | 84½ | 84½ |
| | Sight | 4 87½ | 88 | 88 | 88 | 88 | 88 |
| Canadian Bank of Commerce | 60 days | 4 84 | 84½ | 84½ | 84 | 84½ | 84½ |
| | Sight | 4 87½ | 88 | 88 | 88½ | 88 | 88 |
| Heidelbach, Ickelheimer & Co | 60 days | 4 84 | 84½ | 84½ | 84½ | 84½ | 84½ |
| | Sight | 4 87½ | 88 | 88 | 88 | 88 | 88 |
| Lazard Freres | 60 days | 4 84 | 84½ | 84½ | 84½ | 84½ | 84½ |
| | Sight | 4 87½ | 88 | 88 | 88 | 88 | 88 |
| Merchants' Bank of Canada | 60 days | 4 84 | 84½ | 84½ | 84½ | 84½ | 84½ |
| | Sight | 4 87½ | 88 | 88 | 88 | 88 | 88 |

The market closed on Friday at 4 8360@4 8370 for long, 4 8660@4 8670 for short and 4 8710@4 8720 for cables. Commercial on banks 4 8315@4 8325 and documents for payment 4 82⅝@4 83⅜. Cotton for payment 4 82⅝@4 82¾, cotton for acceptance 4 8315@4 8325 and grain for payment 4 83¼@4 83⅜.

The following gives the week's movement of money to and from the interior by the New York banks.

| Week ending Feb. 28 1908. | Received by N. Y. Banks. | Shipped by N. Y. Banks. | Net Interior Movement. |
|---|---|---|---|
| Currency | $8,254,000 | $5,864,000 | Gain $2,390,000 |
| Gold | 1,708,000 | 1,149,000 | Gain 559,000 |
| Total gold and legal tenders | $9,962,000 | $7,013,000 | Gain $2,949,000 |

With the Sub-Treasury operations, the result is as follows.

| Week ending Feb. 28 1908. | Into Banks. | Out of Banks. | Net Change in Bank Holdings. |
|---|---|---|---|
| Banks' interior movement as above | $9,962,000 | $7,013,000 | Gain $2,949,000 |
| Sub-Treasury operations | 28,300,000 | 33,300,000 | Loss 5,000,000 |
| Total gold and legal tenders | $38,262,000 | $40,313,000 | Loss $2,051,000 |

The following table indicates the amount of bullion in the principal European banks.

| Banks of | Feb. 27 1908. | | | Feb. 28 1907. | | |
|---|---|---|---|---|---|---|
| | Gold. | Silver. | Total. | Gold. | Silver. | Total. |
| | £ | £ | £ | £ | £ | £ |
| England | 39,320,717 | ---------- | 39,320,717 | 36,729,623 | ---------- | 36,729,623 |

## *THE INTERESTING CASE OF GENERAL STOESSEL.*

Despatches from Russia during the present week have been largely devoted to reporting the appeals to the Czar for clemency in the case of General Stoessel. This Russian commander, who held the rank of Lieutenant-General, was in command at Port Arthur during the Japanese War, and it was his surrender of that fortress, at the opening of 1905, which brought him before the Military Court, and resulted, on the 20th of this month, in his sentence to death. The severity of the sentence is in the main explained by the Russian tradition and practice. It has been the almost invariable practice of that service, and the imperial orders have made the tradition virtually a rule, that an officer convicted of having given up an important post to the enemy after siege should be assumed to have committed a capital offence. As a rule, sentences of this sort have either been revoked through pardon by the Czar, or have been commuted by lighter penalties. In the case of General Stoesse the court martial recommended that the death sentence be commuted to ten years' imprisonment in a fortress, and the appeals to the Czar and the Czarina

by officers and civilians have gone further, asking for a full and complete pardon.

Probably it will be granted, for the Emperor is hardly likely to be so blind as to inflict such a sentence on a soldier who was the victim of military incompetence, of which the cause was traceable directly to the throne. The Russian theory of death sentence with probable pardon, after an episode of the sort is none the less a foolish survival; it is a double injustice in that it leaves the stain of such a judgment by a soldiers' court on the name of the unfortunate officer, and that it places his life at the whim of the Emperor. When it is asked what motive, beyond that of an obsolete tradition, could have existed for such a sentence, there is only one satisfactory answer. The wish to make a sacrifice of somebody for a military blunder is strong among the governing powers of the country where such an event has happened, and sometimes among the people also. General Fitz-John Porter's experience was typical. Made the scapegoat for the disastrous second battle of Bull Run, and sentenced "to be cashiered and to be forever disqualified from holding any office of trust or profit under the Government of the United States," it was fourteen years before he was exonerated by a military tribunal—which so far altered the verdict as to give him credit for saving the army from destruction—and twenty-four years before Congress by formal vote removed the undeserved stigma of the original sentence.

In the equally celebrated case of Marshal Bazaine, the sentence of that officer resulted as much from popular demand for a victim as from the wish of Government to divert attention from its own blunders and shortcomings. With Bazaine, as with Stoessel, the death sentence was originally pronounced. The surrender of Metz, which he occupied with an army of 170,000 men, was not the decisive blow at the fortunes of France in the Franco-Prussian War, but it did put an end definitely to the program of further resistance to the German occupation. Bazaine's sentence to death for "having been guilty of negotiating with the enemy before doing all that was prescribed by duty and honor" was commuted to twenty years' imprisonment, from which three years later he escaped. Before he died the general judgment of the French people was that, while perhaps he may not have fought literally to the last ditch, the surrender of Metz was inevitable, and that its surrender at that moment was undoubtedly the means of avoiding needless waste of life. It may indeed be doubted whether any surrender of an army in modern history has occurred in which captious critics might not have maintained that further resistance was possible. Even in the case of Appomattox it was open to argument that General Lee might have continued fighting, and in fact the articles of capitulation between the Northern and Southern generals based their agreement at that time on the belief of each that humanity, quite as much as military judgment, declared that the proper time had come for ending effusion of blood.

The first vague reports which came from St. Petersburg after Stoessel surrendered, to the effect that his conduct during the siege had been faulty and incapable, represented merely the outbursts of wrath and resentment on the part of a suddenly disillusioned people. It is now fully recognized that both the General at Port Arthur and his army were virtually left a sacrifice to the enemy by the incompetent military advisers of the Czar. Supplies for the beleagured troops had been inadequate; the plan for relief had been based on the easy assumption that no Japanese army could resist a southward movement by the forces under command of Kuropatkin. As a matter of fact, the supposed invulnerability of the fortress was the point on which the Russian military clique had staked all its expectations. Stoessel did not surrender until the Japanese, by an extraordinary series of manoeuvres, had captured the heights from which their guns commanded the city, and were sending shells into the streets and barracks of Port Arthur.

It is possible that this incident of the pro forma death sentence on General Stoessel may have indirect effect in Russia in reviving discussion as to the people who really were responsible for the crushing defeat of Russia in Manchuria. It is perhaps too much to look for free canvassing of the case in the present Russian Douma; but the Douma of two years ago would hardly have let the matter pass without some inquiry into the affair; it is a free legislature's duty. Even to-day the Russian newspapers may be trusted to direct some attention to the speculating grand dukes and statesmen who brought on the war with Manchuria to help their ventures on the Pacific Coast, and the thieving bureaucrats who committed the army to a task where everything hung on the proper forwarding of supplies, and then plundered the munitions which were gathered for the soldiers. This was, unfortunately, nothing new in the history of modern war; the scandals which have followed practically every contest of the sort are unpleasantly familiar. With Russia, the point of special significance is that the malefactors of this sort have at no time been publicly called to answer for their actions, but that instead, the brazen effort has been made to shift the blame upon the shoulders of a gallant and unfortunate officer, who was their conspicuous victim. We should hardly imagine that such an episode would do much to remove the public prejudice in Russia against the imperial autocracy.

## *LIMITATIONS UPON THE RIGHT OF WOMEN TO WORK.*

The decision of the United States Supreme Court on Monday, sustaining an Oregon statute limiting the number of hours that a woman may be employed in a laundry, throws a great deal of light upon the question how far a State may legally go in placing restrictions and limitations upon a woman's freedom in the matter of work in occupations affecting her health and physical well-being. The decision is to the effect that, under the so-called police power of the State, restraints upon the rights of a woman to work may be placed, not alone in her own interest, but in the interest and welfare of posterity, through the children she gives to the world. The ruling in this instance has led to some comment, in view of the decision and opinion handed down by our own Court of Appeals only last year, holding that a statute of this State which forbade the employment of women in factories between nine o'clock at night and six o'clock in the morning was unconstitutional. As a result, the inference has been drawn in some quarters that the two decisions are in conflict. We have not seen the full text of the opinion handed down by the United States Supreme Court, but we do not think that

the conclusion referred to is warranted. Judging from the extracts from the opinion which have appeared in the daily papers, it would appear that there is no real divergence between the two courts, or, at least, that the language of the two opinions can be so construed as to make them in complete harmony.

The Oregon statute upon which the Supreme Court has now passed was enacted in 1903. It forbids the employment of females in any mechanical establishment or factory or laundry more than ten hours during any one day. The validity of the law was called in question by Curt Muller, a laundryman doing business in Portland, who claimed it was unconstitutional because it interfered with the freedom of contract as far as female citizens are concerned. The Oregon Supreme Court upheld the statute on the ground that it was a valid police regulation, and this ruling the United States Supreme Court now affirms on substantially the same grounds. Justice Brewer writes the opinion, and he takes the ground that in matters of this kind the other sex is to be placed in a class by itself. There are certain differences between the sexes and these differences justify a difference in legislation even to the extent of restricting in a measure woman's freedom in the making of contracts. The following excerpt from Justice Brewer's opinion will furnish an idea of the course of reasoning by which the Court reached its conclusions upholding the Oregon Statute forbidding the employment of women for more than ten hours in any one day.

"Differentiated by these matters from the other sex, she is properly placed in a class by herself, and legislation designed for her protection may be sustained, even when like legislation is not necessary for men, and could not be sustained. It is impossible to close one's eyes to the fact that she still looks to her brother and depends upon him. Even though all restrictions on political, personal and contractual rights were taken away, and she stood, so far as statutes are concerned, upon an absolutely equal plane with him, it would still be true that she is so constituted that she will rest upon and look to him for protection; that her physical structure and a proper discharge of her maternal functions—having in view not merely her own health, but the well-being of the race—justify legislation to protect her from the greed as well as the passion of man. The limitations which this statute places upon her contractual powers, upon her right to agree with her employer as to the time she shall labor, are not im posed solely for her benefit, but also largely for the benefit of all. Many words cannot make this plainer. The two sexes differ in structure of body, in the functions to be performed by each, in the amount of physical strength, in the capacity for long-continued labor, particularly when done standing, the influence of vigorous health upon the future well-being of the race, the self-reliance which enables one to assert full rights, and in the capacity to maintain the struggle for subsistence. This difference justifies a difference in legislation and upholds that which is designed to compensate for some of the burdens which rest upon her."

Everyone, we are sure, will be inclined to agree with the views of social policy here expressed, which also become the legal views when enunciated by the Federal Supreme Court. The question which arises is how these views are to be reconciled with the opinion handed down by our Court of Appeals last year. The first thought that comes up is that the two opinions covered different things. The Oregon statute fixes the duration of a day's labor, but expressly provides that "the hours of work may be so arranged as to permit the employment of females at any time, so that they shall not work more than ten hours during the twenty-four hours of any one day." The New York statute, on the other hand, undertook to prevent a woman from working at all during certain portions of the day. It is easy to see that the one restriction might be upheld as a valid exercise of the police power of the State, while the other might be condemned as going too far —as stretching police regulations beyond the point where they could be sustained as such. As a matter of fact, that appears to be the precise distinction which the New York Court of Appeals undertook to make, and which led it to condemn the New York statute prohibiting the employment of women between 9 o'clock at night and 6 o'clock in the morning. Certain expressions used by Judge Gray, who prepared the opinion of the Court of Appeals, have been extensively quoted as showing an apparently direct conflict of opinion. The sentence quoted is as follows: "Under our laws, men and women now stand alike in their Constitutional rights, and there is no warrant for making any discrimination between them with respect to the liberties of person or of contract." Standing by itself, the language here employed would appear to sustain the contention that the State Court and the Federal Court are in diametric opposition. But this expression cannot be considered apart from its context. Taken in connection with the other portions of the opinion, and particularly the paragraph in which the expression is used, it is seen to have no such broad and wide meaning as it is attempted to give to it.

It is to be remembered that, in the first instance, the decision of the New York courts—for all the New York courts held the statute invalid, the case only reaching the Court of Appeals after Justice Olmsted in the Court of Special Sessions in the First Division of the City of New York had held the law unconstitutional, and the Appellate Division of the Supreme Court in the First Department had upheld the ruling of Justice Olmsted—had as its basis a previous ruling of the United States Supreme Court. Justice Olmsted took for his guidance the decision of the United States Supreme Court in the case (Lochner vs. New York, 198 U. S. R., p. 45) where it was attempted to fix a ten-hour day for employees of bakeries and confectionery establishments. That law, it will be remembered, was declared unconstitutional. In that case it was attempted to invoke those very police powers which furnish the basis of the present week's decision of the Federal Supreme Court. It was urged on behalf of the statute then condemned that it was to the interest of the State that its population should be strong and robust, and therefore any legislation which might be said to tend to make people healthy must be valid as health laws, enacted under the police power of the State. In reply, the United States Supreme Court at that time said that if that be a valid argument, and a justification for such legislation, it would follow that the protection of the Federal Constitution from undue interference with the liberty of person and freedom of contract is visionary whenever the law is sought to be justified as a valid exercise of the police power. Continuing, the United States Supreme Court then said with reference to the bakery law: "The Act is not within any fair meaning of the term a health law, but is an illegal interference with the rights of individuals, both employers and employees, to make contracts regarding labor upon such terms as they may think best, or

which they may agree upon with the other parties to such contract. Statutes of the nature of the one under review, limiting the hours in which grown and intelligent men may labor to earn a living are mere meddlesome interferences with the rights of the individual." Justice Olmsted applied the same course of reasoning to the New York statute prohibiting the employment of women after 9 o'clock at night or before 6 o'clock in the morning, and accordingly declared the law unconstitutional. The Appellate Division took the same view and the Court of Appeals also coincided.

The point emphasized by this former decision of the United States Supreme Court was that there is a limit to the exercise of the police power. Accordingly, in every given case the question must come up whether the statute under consideration comes within that limit or falls outside of it. The Court of Appeals reached the conclusion that the law against the employment of women at night fell outside the limit and could not be justified as a police regulation. Judge Gray declared that the New York Legislature in the law referred to had overstepped the limits set by the Constitution to the exercise of the power to interfere with the rights of citizens. He then used the expression already quoted, namely that under our laws men and women now stand alike in their Constitutional rights, and there is no warrant for making any discrimination with respect to the liberty of person or of contract. This week's decision of the Supreme Court, as we have seen, differentiates between women employees and men employees, and that distinction the words quoted might be considered as ignoring except that succeeding words go to show that Judge Gray had no intention to deny to the Legislature the right to impose certain restrictions and limitations provided they could be considered as having a real and direct relation to the health and welfare of women and of the race as a whole. In fact, Judge Gray would appear to have had in mind just such a case as that upon which the United States Supreme Court was called upon to pass, and which there is every reason to believe, if it had arisen in this State, would have been declared valid by the Court of Appeals, just as it has been so declared by the United States Supreme Court in the matter of the Oregon statute.

Judge Gray said he could find nothing in the language of the New York law which suggested the purpose of promoting health except that it might be inferred that for a woman to work during the forbidden hours of night would be unhealthful. If the inhibition of the law, he argued, had been framed to prevent the ten hours of work being performed at night, or to prolong them beyond nine o'clock in the evening, it might more readily be appreciated that the health of women was the matter of legislative concern. But that was not the effect, he said, or the sense of the provision in question. If that enactment were sustained, he asserted, then an adult woman, although a citizen and entitled as such to all the rights of citizenship under our laws, may not be employed nor contract to work in any factory for any period of time, no matter how short, if it is within the prohibited hours, and this, too, without any regard to the healthfulness of the employment. It will be observed that the thing condemned by the Court of Appeals is that women should be deprived of the right of employment at all during certain hours of the day, and not that a limit should be placed for their own good and for the welfare of the race upon the total number of hours that they should give to work. There is certainly a sharp distinction between the two things, and accordingly it cannot be claimed that there is any conflict between the ruling of the New York Court of Appeals and that of the United States Supreme Court.

## *THE COUNTRY'S BESSEMER STEEL PRODUCTION IN* 1907.

Though iron production in the United States in the calendar year 1907 considerably exceeded that of the previous year, in face of the depression which ensued in the trade in the closing months following the panic in October, the same statement cannot be made with reference to the country's Bessemer steel production. Mr. James M. Swank of the American Iron and Steel Association has this week made public the official figures, and they show that the aggregate output of Bessemer steel ingots and castings in 1907 was only 11,667,549 gross tons, against 12,275,830 tons in 1906, a decrease of 608,281 tons. The falling off, it will be observed, has been substantial. Of course the Bessemer product represents only one kind of steel, and in recent years open-hearth steel has made such tremendous growth that it would not be safe to predicate an estimate of the country's total steel production on the Bessemer output alone. In other words, in the absence of statistics regarding open-hearth steel (which will not be available until later), we would not be authorized to assume that aggregate steel production in 1907 had fallen below the corresponding aggregate for the calendar year 1906.

It may be that the statistics will show a further increase in the open-hearth product sufficient to counterbalance the decrease in the Bessemer output, though we are inclined to doubt that this will prove to be the case. It is only a few years since the open-hearth product was comparatively insignificant; in 1906, on the other hand, the make of steel by that process reached almost 11 million tons, as against 12,275,830 tons of Bessemer steel made in that year. Should 1907, when the figures are compiled, record a further increase coincident with the decrease in the Bessemer output, the lead which the latter has always maintained would be nearly, if not entirely, overcome, and the two kinds of steel stand on an even basis. It might, then, easily happen that in the current calendar year (1908) the open-hearth production would actually exceed the Bessemer product.

In any prolonged depression in the iron and steel industry, the Bessemer producers are likely to feel the adverse effects much more strongly than the producers of the other main class of steel. The reason for this is that so large a portion of the Bessemer steel produced is used for conversion into rails, and the railroad industry just now, for obvious reasons, is suffering more seriously and laboring under greater burdens than any other industry in the country. It is rather noteworthy that the depression in the iron and steel industry which the country is now experiencing was clearly discernible as in prospect over twelve months ago. In our review of the Bessemer steel figures for 1906 in the "Chronicle" of March 16 1907, we discussed the matter quite at length. We reproduce here some of our remarks on that occasion, not for the purpose of claiming fulfillment of prediction,

or as a vindication of judgment, but to impress upon the public the fact that the existing trade prostration was not produced by the panic of October, but is traceable to well-defined causes long ante-dating that event, and out of which the panic itself grew.

"We appear to be drifting rapidly into the condition of things existing the latter prat of 1903 and a good part of 1904, and which so seriously upset the iron and steel trades at that time. The railroads are no longer able to raise new capital with ease; even the strongest companies, those with gilt-edged credit, cannot borrow except at a high cost. Prices on the Stock Exchange are tumbling in an alarming way. Everything, therefore, suggests caution. The railroads have already given orders on a scale that will keep furnaces and plants active for many months to come, but they are now proceeding with great circumspection and giving further orders very sparingly. They are being attacked by hostile legislation on every side, and business is being slowly but surely undermined by a political crusade against capital and corporate interests. At the same time, railroad expenses are being augmented in such a striking manner, as the result of higher wages and of the increased cost of the various other things that enter into the operating accounts of the roads, that net revenues seem likely to be seriously cut down —are, in fact, already being reduced. Consequently, the power of the railroads to spend money for additions and improvements is being diminished in a double way—first, by the inability to obtain needed capital, and, secondly, by the shrinkage in available net revenues that might be applied for this purpose. Whether the movement adverse to the railroads and the policy on which it is based shall be tempered and modified, that is the question now confronting the whole business and mercantile world. For if railroad interests with their tremendous consumption of iron and steel, are to go through a period of suffering, all other industrial interests in the country will inevitably be obliged to share in this suffering."

The warning here conveyed was not heeded, and as a consequence all industries are suffering in precisely the way indicated. It is within the knowledge of every reader that the policy adverse to railroad interests referred to in the foregoing was not "tempered and modified" as suggested, but was carried on with increasing intensity—there being no let-up even up to the present date—and as a consequence the depression, evident in advance to close observers, inevitably followed, dragging down the whole range of industries. The railroads are in the slough of despond, the iron and steel industry has had to exchange unexampled buoyancy and activity for depression and declining prices, and all other industries are obliged to share in the common misfortune. With the causes thus clearly defined, it must be obvious to every person of ordinary intelligence that improvement, revival and recovery can come only through a removal of these causes. Ease in the money market is not going to restore the old feeling of confidence and buoyancy, which disappeared with the vanishing of orders for goods from the railroads, nor will a reform of our currency system bring back the old conditions, necessary though such reform may be. So long as this fact is not recognized —so long as the political agitation continues and the hounding and persecution of railroads and other corporations goes on—the depression now so keenly and acutely felt will remain in evidence, relieved only by occasional fitful spurts of activity here and there.

We have referred above to the Bessemer steel trade as being the first to feel the effects of anything harmful to railroad interests. The statistics of Bessemer steel rail production, which Mr. Swank has also furnished this week, along with the statistics of the production of ingots and castings, afford striking evidence of the truth of this statement. There has been a quite considerable decrease in the Bessemer rail output. Indeed the loss in this item accounts for almost the whole year's decrease in Bessemer steel production. Mr. Swank reports the production of Bessemer steel rails by the makers of Bessemer steel ingots in 1907 at 3,302,009 tons, against 3,705,642 tons in 1906. In the case of rails, the Bessemer product represents nearly the whole of the rail output. The make of rails out of any other than Bessemer steel is very small. To be sure, the agitation concerning rail breakages, which was quite active during 1907, led some of the railroads to place special orders for open-hearth rails, but while the statistics on that point have not yet been collected, Mr. Swank estimates the product of open-hearth rails for the year at only 250,000 tons, and the aggregate of rails from all sources except Bessemer at no more than 335,000 tons (this including the 250,000 tons of open-hearth rails), comparing with a total of Bessemer rails of 3,302,000 tons. In the following, we indicate the rail production of all kinds for a series of years past, and also the imports and exports of rails.

RAIL PRODUCTION AND CONSUMPTION.

| | 1907. | 1906. | 1905. | 1904. | 1903. |
|---|---|---|---|---|---|
| Bess. rails produced, tons* | 3,387,009 | 3,701,459 | 3,192,347 | 2,137,957 | 2,946,756 |
| Other rails, iron and steel | 250,000 | 186,428 | 183,582 | 146,754 | 45,721 |
| Total production | 3,637,009 | 3,977,887 | 3,375,929 | 2,284,711 | 2,992,477 |
| Imports, iron and steel | 3,752 | 4,943 | 17,278 | 37,776 | 95,555 |
| | 3,640,761 | 3,982,830 | 3,393,207 | 2,322,487 | 3,088,032 |
| Exports, iron and steel | 338,906 | 328,036 | 295,023 | 415,250 | 30,837 |
| Home consumption | 3,301,855 | 3,654,794 | 3,058,184 | 1,906,237 | 3,057,195 |

* Including 85,000 tons, the estimated product of rails by companies not producing their own steel.

The foregoing is useful not only in showing the falling off in 1907 in the home consumption of rails—which falling off, after all, was not so very large, the orders for the rails produced in 1907 having in the main been given before the railroad situation had become acute—but also in revealing the heavy decrease in the consumption of rails which occurred in 1904, following the set-back experienced by the railroad industry in 1903. In 1903 the consumption of rails had been 3,057,195 tons. In 1904 there was a drop to 1,906,237 tons. It remains only to add that the troubles of the railroads in 1903 were insignificant alongside those which they are now experiencing.

Coming back once more to the production of Bessemer steel ingots, the following shows the contribution to the total by the leading Bessemer producing States.

PRODUCTION OF BESSEMER STEEL INGOTS BY STATES.

| *Gross Tons.* 1907 | 1906. | 1905. | 1904. | 1903. | 1902. |
|---|---|---|---|---|---|
| Pennsylv'a 4,351,841 | 4,827,725 | 4,491,445 | 3,464,650 | 3,909,436 | 4,209,326 |
| Ohio 3,636,679 | 3,769,913 | 3,131,149 | 2,050,115 | 2,330,134 | 2,528,802 |
| Illinois 1,723,073 | 1,684,772 | 1,651,250 | 1,257,190 | 1,366,569 | 1,443,614 |
| Other States 1,955,956 | 1,993,420 | 1,667,531 | 1,087,185 | 986,690 | 956,621 |
| Total 11,667,549 | 12,275,830 | 10,941,375 | 7,859,140 | 8,592,829 | 9,138,363 |

It will be seen that both Ohio and Pennsylvania (the two chief producing States) sustained a decrease n their 1907 output, but the loss in Ohio was relatively small, while that in Pennsylvania was quite large, with the result that Ohio is creeping up on Pennsylvania and is no longer outranked by the latter to the extent it was only a few years ago. This is just as Mr. Swank in 1906 pointed out would be the case with the completion of certain new plants in Ohio. The remark applies wholly to Bessemer steel. Of open-hearth steel, Pennsylvania produces eight to nine times the quantity made in Ohio. As indicating how close is the relation between the output of Bessemer steel and the make of Bessemer rails, we would direct attention

to the totals in the foregoing, showing a drop from 9,138,363 tons in 1902 to 8,592,829 tons in 1903 and then to 7,859,140 in 1904, followed by a jump to 10,941,375 tons in 1905 and a further leap in 1906 to 12,275,830 tons.

## *RAILROAD GROSS AND NET EARNINGS FOR DECEMBER.*

We bring together to-day our figures of railroad earnings for the month of December. We reviewed last week the January figures, and very likely to those not familiar with methods of railroad accounting and the practice of issuing periodic returns, it will seem strange to go back now to the December record. But the explanation is very simple. Our January statement was partial and incomplete, covering only the roads which render early preliminary statements, covering now altogether only an aggregate of about 40% of the total mileage of the United States. These early statements, too, are largely estimates, though furnishing very close approximation as a rule to the actual results. The audited figures covering both gross and net earnings cannot be had from the great majority of roads until from four to seven weeks after the close of the period to which they relate. That is the reason why complete compilations for the month of December are only now possible.

In reviewing the December figures we shall reverse our customary process of treating the results. The great body of railroads furnish returns of both gross and net earnings, and yet there is a considerable number of companies that give out only figures of gross. Ordinarily we deal first with the roads giving both gross and net, and then add the roads which supply statements of gross alone. This time it seems desirable first to see what the aggregate loss in gross has been when both classes of roads are considered, and therefore we shall begin with the gross.

December was the first month to feel the full effects of the prostration of the country's industries following the financial revulsion and panic in October and November. Accordingly, a large loss in earnings was looked for. In November our compilation treating the roads as a whole still showed some increase in gross, though not by any means in the net. For December the loss is now seen to have been considerable and yet more moderate than generally expected. In brief, counting all the roads from which we have been able to procure returns, both those appearing in our net earnings statement and those which limit information to the gross earnings, the loss reaches $11,471,359. This we have called a moderate loss, because the ratio of falling off is only 6.20%. It covers the bulk of the railroad mileage of the country, and yet it does not cover the whole of it. None of the New England roads appear in the tabulation, since these do not make it a practice to furnish monthly statements, and there are other roads in various parts of the country which also are not represented. It seems no exaggeration to say that if we could cover the entire railroad mileage of the country, the falling off would reach $15,000,000, which is at the rate of $180,000,000 a year.

The ratio of loss has been reduced through the fact that in the case of the trans-continental roads on the North, comparison is with the period of extreme cold and snow blockades the previous year, when earnings of these particular roads were so heavily reduced. As these roads had no such conditions to contend with in the December just past, they are able by reason of that circumstance in the comparison to make very favorable statements. Thus the Great Northern for December reports $925,150 increase in gross; the Northern Pacific, $362,819, the Canadian Pacific $426,478, and the "Soo" road $160,619. For these four roads together, therefore, we have an aggregate increase of $1,875,066; which to that extent made the showing for the railroads of the United States as a whole more favorable than it otherwise would have been.

It is not, however, until we come to consider the net earnings that we appreciate what really hard conditions the railroads of the country had to contend with. The showing in this instance, as already indicated, is less comprehensive, since, as stated above, some large companies do not give out monthly statements of net. For the roads that do furnish exhibits of gross and net the aggregate loss in gross reaches $9,112,667. The striking fact which stands out conspicuously is that the roads were unable (speaking of them collectively) to offset this loss in gross to any extent by a saving in expenses. In fact, expenses actually increased in face of the falling off in gross receipts, and as a consequence the loss in net is very much larger than the loss in gross, reaching $11,644,048. The ratio of decrease in this case is over 25%, the exact figure being 25.31%.

| *December.* (89 *roads.*) | 1907. | 1906. | *Inc.(+) or Dec.(−)* *Amount.* | |
|---|---|---|---|---|
| | $ | $ | $ | |
| Gross earnings | 132,199,762 | 141,312,429 | −9,112,667 | 6.45 |
| Operating expenses | 97,845,604 | 95,314,223 | +2,531,381 | 2.66 |
| Net earnings | 34,354,158 | 45,998,206 | −11,644,04 | 25.31 |

Making allowance for the roads not represented, it seems safe to say that the net earnings of United States railroads as a whole for December fell behind somewhere between $15,000,000 and $16,000,000. The reduction, it is easy to compute, is at the rate of $180,000,000 to $200,000,000 a year—net, not gross, it should be remembered. There is no reason to think that January results were any better; and under the circumstances can it be deemed at all strange that the railroads should be considering measures of retrenchment and economy—measures which President Roosevelt by his letter of last week to the Inter-State Commerce Commission would halt. Obviously, should he succeed in his effort, the outcome would be general bankruptcy. It needs no argument to show that in every line of business it is necessary to adjust expenses to the volume of trade.

The conditions here outlined with reference to the expense accounts extend to all sections of the country and to all classes of roads. This is well indicated by the following statement showing results by groups of roads. There is only one group that does not record a loss in gross, and not any which forms an exception to the rule of loss in the net. Moreover, in four of the seven groups the loss in net is larger than the loss in the gross as far as amount is concerned, while the *ratio* of loss is heavier than the ratio of loss in the gross in the case of every one of the groups without any exception.

SUMMARY BY GROUPS.

| Number of roads. | Gross Earnings. | | Net Earnings. | | | |
|---|---|---|---|---|---|---|
| | 1907. | 1906. | 1907. | 1906. | Inc. or Dec. | |
| | $ | $ | $ | $ | $ | % |
| Trunk Lines (9) | 31,425,333 | 35,632,713 | 6,170,925 | 10,135,792 | —3,664,868 | 36.15 |
| Anth. Coal (6) | 10,805,593 | 10,746,975 | 3,764,156 | 4,164,581 | —400,425 | 9.62 |
| East & Mid (13) | 4,835,036 | 4,854,339 | 1,029,069 | 1,046,984 | —17,915 | 1.71 |
| Mid West (12) | 7,896,770 | 8,871,365 | 1,907,189 | 2,733,348 | —826,159 | 30.22 |
| North West & Nor. Pac (14) | 21,414,356 | 22,046,021 | 6,896,000 | 8,161,884 | —1,265,884 | 15.49 |
| South West & Sou Pac (14) | 34,807,764 | 35,868,515 | 9,984,079 | 12,765,898 | —2,781,819 | 21.79 |
| Southern (24) | 21,020,910 | 23,292,501 | 4,302,740 | 6,989,718 | —2,686,978 | 38.44 |
| Total (89) | 132,199,762 | 141,312,429 | 34,354,158 | 45,998,206 | —11,644,048 | 25.31 |
| Mexican (5) | 5,971,117 | 5,265,140 | 1,928,801 | 1,798,989 | +129,812 | 7.22 |

With regard to the separate roads the general character of the exhibits is the same, that is, the showing as to the net is much poorer than the showing as to the gross. There are only a few companies that have managed to increase their gross, and yet fewer that are able to present an increase in the net. The following is a summary of the changes for the separate roads for amounts in excess of $30,000, whether increases or decreases, both in the case of the gross and the net.

PRINCIPAL CHANGES IN GROSS EARNINGS IN DECEMBER.

| Increases. | | Decreases. | |
|---|---|---|---|
| Canadian Pacific | $426,478 | Chicago & Alton | 133,615 |
| Colorado & Southern | 202,166 | Atlantic Coast Line | 131,687 |
| Delaware & Hudson | 199,633 | Wabash | 130,418 |
| Atch Top & Santa Fe | 183,488 | Nashv Chatt & St Louis | 127,309 |
| Minn St Paul & S S M | 160,619 | Chicago Ind & Louisville | 121,705 |
| Union Pacific | 155,016 | Mobile & Ohio | 113,029 |
| Chesapeake & Ohio | 90,488 | Chicago Great Western | 107,284 |
| Western Maryland | 79,867 | Wheeling & Lake Erie | 106,994 |
| Southern Pacific | 77,830 | Grand Trunk of Canada | 99,277 |
| West Jersey & Seashore | 52,600 | Kansas City Southern | 92,118 |
| | | Cinc New Orl & Tex Pac | 75,722 |
| Total (19 roads) | $1,628,185 | Lehigh Valley | 75,600 |
| | | Toledo & Ohio Central | 75,594 |
| Decreases. | | Central of Georgia | 73,286 |
| Pennsylvania (2 roads) | y$2,489,109 | Hocking Valley | 68,423 |
| Chicago North Western | 1,132,962 | Alabama Great Southern | 55,044 |
| Baltimore & Ohio | 1,065,348 | Wisconsin Central | 53,403 |
| Louisville & Nashville | 694,948 | Toledo St Louis & West | 48,670 |
| Southern Railway | 693,669 | Gulf & Ship Island | 42,575 |
| St Louis & San Francisco | 595,084 | Phila Balt & Washington | 41,100 |
| Erie | 423,237 | N Y Ontario & Western | 37,446 |
| Missouri Kansas & Texas | 398,637 | Kanawha & Michigan | 37,423 |
| Illinois Central | 335,811 | Duluth South Sh & Atlan | 37,114 |
| Rock Island | 236,562 | Bangor & Aroostook | 36,705 |
| Norfolk & Western | 199,538 | Evansville & Terre Haute | 35,351 |
| St Louis Southwestern | 176,052 | | |
| Seaboard Air Line | 162,964 | Total (39 roads) | $10,566,724 |

x These figures cover only lines directly operated east and west of Pittsburgh and Erie. The gross on Eastern lines decreased $1,114,709 and the gross on Western lines decreased $1,374,800.

PRINCIPAL CHANGES IN NET EARNINGS IN DECEMBER.

| Increases. | | Decreases. | |
|---|---|---|---|
| Minn St Paul & S S M | $161,582 | St Louis Southwestern | $159,195 |
| West Jersey & Seashore | 127,300 | Kansas City Southern | 158,212 |

| Seaboard Air Line | 151,457 | Total (34 roads) | $12,028,217 |

x These figures are for the Reading proper. The Philadelphia & Reading reports a decrease of $2,463,000.

y These figures cover only lines directly operated east and west of Pittsburgh and Erie. The net on Eastern lines decreased $1,577,000 and the net on Western lines decreased $737,500.

Additional significance is given to the feature of increased expenditure by the circumstance that this was already a very important matter the previous year. For example, in December 1906 with $11,001,791 gain in gross, the addition to the net was no more than $887,282. In the following we furnish a comparison of the December aggregates for a series of years past.

| Year. | Gross Earnings. | | | Net Earnings. | | |
|---|---|---|---|---|---|---|
| | Year Given. | Year Preceding. | Increase or Decrease. | Year Given. | Year Preceding. | Increase or Decrease. |
| | $ | $ | $ | $ | $ | $ |
| 1896 | 51,220,114 | 52,520,077 | 1,299,772 | 17,885,105 | 17,[illegible] | 17,[illegible] |

Note.—In 1896 the number of roads included for the month of December was 128; in 1897 [illegible] in 1898, 122; in 1899, 110; in 1900, 121; in 1901, 104; in 1902, 105; in 1903, [illegible] in 1904, 95; in 1905, 96; in 1906, 96; in 1907, 89. We no longer include [illegible] coal-mining operations of the anthracite coal roads in our [illegible]

All the above tabular statements relate to the roads which furnish returns of both gross and net. In addition, there is, as already stated, a number of companies, including some quite large systems, which give out returns only of gross. Starting with the total of the gross in the foregoing, we add these other roads in the table we now submit. In this way we arrive at the loss of $11,471,359 in gross referred to at the beginning of this article.

## *GOLD AND SILVER PRODUCTION IN 1907 AND THEIR MOVEMENTS.*

The world's production of gold after a long period of annual and large increases has apparently suffered a check. We cannot say that the growth in the output of the mines has taken a backset or even a temporary backward turn. There has been just enough increase in the 1907 production to save the year's record from that distinction. The situation, is however, noteworthy in that, as the case stands, if we leave out the South African product the aggregate of all the other sources of supply in 1907 shows a loss compared with 1906.

It is to be remembered that the current expansion in the production of gold began in 1883. That is to say, the 1882 yield, 4,825,794 fine ounces, valued at $99,757,848, was the smallest within our record, that had its start with 1851. Consequently 1882 was the turning point; that is, calling the gold discoveries in California (1851) the zenith of the earlier cycle, we have the 1882 as the nadir or point of extreme depression, whichever way we reckon; thereby making 1882 the close of the old and 1883 the beginning of the new era. But this new era has had one real setback; that was during the Boer War. But it was not, of course, a natural break—that is, caused by exhaustion of the source of supply—it was simply a temporary interruption in the working of the South African mines. Other than the decline in yield during the continuance of that outbreak, there has been no stoppage since 1882—no interruption in the product of the world's mines from year to year large enough to wipe out the average increases.

The South African Transvaal mines under the disturbing influences of the Boer War began to lessen

their output in 1900. Indeed, the latter part of 1899 gives evidence in a small decline in product that the deterrent effect of that contest on the gold product was beginning to be felt. In 1900 and 1901 the contribution of the metal from all Africa was only 562,307 fine ounces in the former year and 474,696 in the latter year. The Transvaal mines got to work again in May 1901, but at first very partially; that month's product being only 7,479 fine ounces. It was not until 1904 that the output began to get near its old volume. This recovery was much slower than anticipated, due to a shortened supply of labor. Since then the annual output has been almost a question of labor. This lack of labor received its earliest important contribution through the importation of Chinese. That movement began in July 1904 and in December 23,025 Chinese were at work in the Rand mines. The number of Kaffirs at the same time also increased materially, there having been 68,707 at work on the first of January 1904 and 76,611 at the close of December. For various reasons this Chinese experiment did not prove satisfactory and the plan of expatriating Chinese was adopted under the new constitution. Since the first of July several thousand Chinese have been returned to China, their places having been filled by natives. Now complaint is being made that the natives are not as good workers as the Chinese and that the cost of producing gold has been increased wherever the natives have been substituted.

Nevertheless during all the years since 1882 the supply of gold from South Africa, excepting during the war period mentioned, has been rapidly increasing, and during most of the time the supply from nearly all the other of the world's sources of annual product has been on the increase, making the surplus accumulations enormous. Indeed it has become somewhat of an enigma what has become of these annual increments. This is so because the amount coined and the amount used in the arts and left in sight do not account for the contributions to the world's supply. Note that in the five years ending with 1887 the total product, expressed in fine ounces, was only 24,870,828 ounces, or the total expressed in dollars was $514,-124,782; whereas in the five years ending with 1907 the total product, expressed in fine ounces, was 89,-763,533 ounces, or a total, expressed in dollars, of $1,855,573,801.

Covering in a similar way the whole series of years from 1884 to and including 1907, and using the United States Mint's figures of gold stocks, we reach the following results: (1) For the period from 1884 to 1893 inclusive an addition of $273,542,952 to the supply; (2) for the period from 1894 to 1900 inclusive an addition of $1,102,081,746, and (3) for the period from 1901 to 1907 inclusive an addition of $918,983,291. A recapitulation of the result for the 21 years shows that besides increasing the world's stocks by $3,000,300,000 during that period there remained a balance of $2,294,607,989 unaccounted for—used in the arts, coined and put in circulation, or gone out of sight.

| Norway | 1,702,000 | 1,660,000 |
| Total this week | £400,437,866 | £388,175,239 |

The following detailed compilation of the gold product will enable the reader to trace the growth in the contribution from the various sources of supply since 1881. Corresponding information from 1871 to 1881 will be found in Vol. 70 of the "Chronicle," page 256, and from 1851 to 1871 in Vol. 54, page 144.

*For figures from 1881 to 1871 see Vol. 70, pages 256 to 260.
1871 to 1851, see Vol. 54, pages 141 to 144.

The ounces in the foregoing table for any of the countries given may be turned into dollars by multiplying by 20.6718. The value in pounds sterling may also be ascertained by multiplying the ounces by 4.2478. Thus, according to the above, the product in Africa in 1907, stated in dollars, is $155,799,966, and in sterling £32,996,429.

**Official Details from Gold-Producing Countries.**

From the reports we have secured from the mines, mint bureaus and other official and semi-official sources respecting gold mining in 1907, we are able to deduce the following:

UNITED STATES.—The preliminary estimate of the production of the gold mines in the United States for 1907, which Mr. F. A. Leach, the Director of the Mint, has furnished, indicates that the country as a whole has decreased its output 230,150 fine ounces of a value of approximately 4¾ millions of dollars. This result is quite below early expectations, a further augmentation of the product in 1907 being anticipated, owing to the considerable development of the industry in the newer fields in Nevada. But while the output of Nevada mines was greater by 262,487 fine ounces, or nearly 5½ millions of dollars, than in 1906—notwithstanding an eight-weeks strike in the Goldfield district—every other State of any prominence as a producer exhibited a diminution in product. In Alaska, where climatic conditions are a very important factor, the product dropped from 1,033,537 fine ounces to 882,923 fine ounces; in California the falling off was from 911,041 fine ounces to 841,454 fine ounces, and Colorado's output declined approximately 100,000 fine ounces. The yield of the mines of South Dakota was also appreciably less than in 1906, and moderate recessions from the records made in the previous year are to be noted in 1907 in Montana, Arizona, Utah and Oregon. In fact, aside from Nevada, Idaho is the only State producing in any mentionable quantity that did better in 1907 than in 1906. Against Nevada's increase of 5½ millions, there was an aggregate decrease elsewhere of 10¼ millions of dollars, leaving the net result for the country a loss in product, as stated above, of 230,150 fine ounces, valued at $4,757,783. The ounces and values as estimated for each State in 1907 compare as follows with the final results for 1906 and 1905:

GOLD PRODUCTION IN UNITED STATES.

| Gold | 1905 | | 1906 | | 1907 | |
|---|---|---|---|---|---|---|
| Production. | Fine ozs. | Value. | Fine ozs. | Value. | Fine ozs. | Value. |
| Colorado | 1,243,291 | $25,701,100 | 1,109,452 | $22,934,400 | 1,010,500 | $20,888,833 |
| California | 928,660 | 19,197,100 | 911,041 | 18,832,900 | 841,454 | 17,394,363 |
| Alaska | 722,026 | 14,925,600 | 1,033,537 | 21,365,100 | 882,923 | 18,251,610 |
| South Dakota | 334,460 | 6,913,900 | 319,512 | 6,604,900 | 197,634 | 4,085,446 |

| Totals | 4,265,742 | $88,180,700 | 4,565,333 | $94,373,800 | 4,335,183 | $89,616,017 |

AFRICA.—Steady and rapid augmentation in gold production, which has been an annual feature of the reports from Africa ever since the first discovery of gold there—excepting only during the period of the actual hostilities of the Boer War and the recuperating period that followed—is reflected in the returns for the last year. The aggregate yield from all the districts reached 7,536,836 fine ounces, a total more than 100% greater than the production of Australasia, nearly 80% more than that of the United States and over 38% of the output of the world's mines. Moreover, this 1907 product of Africa is but little less than was furnished by all countries in 1893.

From the Witwatersrand district, the world's greatest gold-producing field, 6,220,227 fine ounces were secured, or slightly more than 10% in excess of the 1906 output, and this notwithstanding labor troubles which it was at one time feared would not only check further development temporarily but appreciably curtail production. Fortunately, such fears were in large measure groundless, and the closing month of the year made a new record in yield—562,684 fine ounces. As regards labor, the close of the year found the mines better equipped than at the opening, repatriation of the Chinese, which commenced in August, having proceeded smoothly, losses in that way being more than made good by the influx of Kaffirs. In fact, the combined working force in January was 137,395, of which 53,828 were Chinese; in December the number of the latter had been reduced to only 35,676 out of a total of 141,966. The results of gold mining in the Rand proper by months for six years were as follows:

WITWATERSRAND DISTRICT—FINE OUNCES.

| Ounces. | 1902. | 1903. | 1904. | 1905. | 1906. | 1907. |
|---|---|---|---|---|---|---|
| January | 70,341 | 192,935 | 278,867 | 357,214 | 411,256 | 520,089 |

| December | 189,537 | 278,710 | 349,889 | 414,421 | 523,521 | 562,684 |
| Totals | 1,691,525 | 2,859,479 | 3,653,794 | 4,706,433 | 5,559,534 | 6,220,227 |

Districts outside of the Rand also did fairly well in 1907. The group of workings located at Barberton, Lydenburg, &c., in the Transvaal, but not included in the Rand, advanced its aggregate production from 227,083 fine ounces in 1906 to 231,157 fine ounces in 1907, Rhodesia increased its output by over 10% and the mines of West Africa and Egypt are credited with a gain of over 20%. In the Soudan, Algeria, Madagascar, &c., there also have been reports of further development and an expansion in yield. Altogether, the fields outside the Rand produced approximately 1,316,609 fine ounces, or 274,458 fine ounces more than in 1906. The subjoined compilation indicates the progress of gold mining in all portions of Africa since 1887:

AFRICA'S GOLD PRODUCTION—FINE OUNCES.

| | Witwatersrand | | Other | | Total | |
|---|---|---|---|---|---|---|
| Year. | Ounces. | £ | Ounces. | £ | Ounces. | £ |

*Australasia.*—The declining tendency in gold mining evidenced by the 1906 returns from Australasia is also a feature of the 1907 reports. Going over the returns, district by district, we find no case where the outcome was as good in the last year as in the period that preceded it, although in one or two instances the decreases recorded are unimportant. Explanatory of the poorer results, we can merely say, as we have said on former occasions, that in most of the mines the ore from the lower levels has been of poorer grade. Westralian production dropped from 1,794,542 fine ounces in 1906 to 1,697,553 fine ounces in 1907; Victoria's output decreased from 786,054 to 701,988 and New Zealand showed a reduction from 532,922 to 477,303 fine ounces. The least favorable exhibit of all is made by Queensland, the product of which was not only 62,218 fine ounces less than in 1906, but smaller than in any year since 1887. We append a table indicating the product of each colony, in fine ounces; the results in a few instances have been partly estimated; but, we believe, will closely approximate the actual output. It will be noted that the aggregate yield in 1907 was 3,619,104 fine ounces, against 3,925,591 fine ounces in 1906.

PRODUCT OF GOLD IN AUSTRALASIAN COLONIES—FINE OUNCES.

*a* Estimated in part.

*Canada.*—We are under obligation to Mr. Jno. McLeish, Statistician of the Department of Mines of Canada, for the information we have secured concerning gold production in Canada. His estimate for 1907 points to a further falling off in output of 172,939 fine ounces, the aggregate product of the mines being given at 408,721 fine ounces, against 581,660 fine ounces in 1906. Canada reached its apex in production in 1900, good results in the Yukon district having advanced the total from the unimportant figure of 136,274 fine ounces in 1896 to 1,350,475 fine ounces in the year named. Since then there has been a steady and quite rapid decline, the Yukon making poor returns, owing to the difficulties in development in that far north region. The outlook there now, however, is reported brighter and an increased yield is looked for in 1908. But the loss in 1907 is not all to be ascribed to the Yukon, a comparatively considerable decrease being reported in British Columbia. The results for Canada for the last fifteen years, stated in fine ounces and values, are as follows:

| | Values. | Ounces. |
|---|---|---|
| Canada's production in 1893 | $927,200 | 44,853 |
| " " " 1894 | 1,042,160 | 50,411 |
| " " " 1895 | 1,910,900 | 92,440 |
| " " " 1896 | 2,817,000 | 136,274 |
| " " " 1897 | 6,089,500 | 294,582 |
| " " " 1898 | 13,838,700 | 669,445 |
| " " " 1899 | 21,324,300 | 1,031,563 |
| " " " 1900 | 27,916,752 | 1,350,475 |
| " " " 1901 | 24,462,222 | 1,183,362 |
| " " " 1902 | 20,741,245 | 1,003,359 |
| " " " 1903 | 18,834,500 | 911,118 |
| " " " 1904 | 16,400,000 | 793,350 |
| " " " 1905 | 14,486,800 | 700,800 |
| " " " 1906 | 12,023,932 | 581,660 |
| " " " 1907 | 8,450,000 | 408,721 |

*Russia.*—The meagre information we can obtain at this early date as to operations in Russian gold mines, while not at all conclusive in its nature, is still of a character to lead us to infer that production in 1907 was moderately less than in the preceding year. For the purposes of this compilation, therefore, we have estimated the yield at approximately 900,000 fine ounces. Including this 1907 estimate the showing for fifteen years is as below:

| | Values. | Ounces. |
|---|---|---|
| Russia's production in 1893 | $27,808,201 | 1,345,224 |
| " " " 1894 | 24,103,396 | 1,167,455 |
| " " " 1895 | 28,894,360 | 1,397,767 |
| " " " 1896 | 21,535,757 | 1,041,794 |
| " " " 1897 | 23,245,666 | 1,124,511 |
| " " " 1898 | 25,463,337 | 1,231,791 |
| " " " 1899 | 22,167,100 | 1,072,333 |
| " " " 1900 | 20,145,500 | 974,537 |
| " " " 1901 | 23,464,562 | 1,135,100 |
| " " " 1902 | 22,739,013 | 1,100,000 |
| " " " 1903 | 24,632,200 | 1,191,582 |
| " " " 1904 | 24,803,200 | 1,199,857 |
| " " " 1905 | 22,291,600 | 1,078,356 |
| " " " 1906 | 19,494,700 | 943,056 |
| " " " 1907 | 18,604,620 | 900,000 |

*India.*—There is little to be said about gold mining operations in India in 1907. The result in the Colar field, the principal seat of production of the country, fell moderately behind that for the preceding year, for which the rather poor quality of the ore mined is responsible, as was the case in 1906. For 1907 the aggregate product of the Colar field was 531,829 gross ounces, which compares with 563,478 gross ounces in 1906 and 615,561 gross ounces in 1905, the latter being the record total. The statement of yield of the principal mines for seven years, presented in gross ounces, is as follows:

EAST INDIA—GOLD PRODUCTION PRINCIPAL MINES.

| | 1907. | 1906. | 1905. | 1904. | 1903. | 1902. | 1901. |

*Other Countries.*—Of the sources of new gold supply other than those specifically referred to above, Mexico is the most important, and in the development of the industry there very satisfactory progress is being reported from year to year. Between 1900 and 1906 the output of the mines was more than doubled, rising from 435,000 fine ounces to 896,615 fine ounces, and the information we have obtained bearing upon the 1907 operations seems to warrant us in estimating that year's yield at about 925,000 fine ounces. The new supply contributed annually by South American countries fluctuates very much, increasing one year and decreasing the next, so that in the absence of any definite data, which is not procurable thus early, the best that can be said is that the production has been between 500,000 and 600,000 fine ounces. Development in Central America in recent years has been favorable, and the product, though comparatively small, is quite steadily increasing. Europe's contributions to the world's gold product, other than that furnished by Russia, are small, although mining in Austria-Hungary has made much progress, the yield the last two or three years exceeding 100,000 fine ounces. The mines of Great Britain, Germany, Sweden, Italy, Servia and Turkey turn out anywhere from a few hundred to three or four thousand ounces annually. Japan, China, Korea and Siam complete the list of countries from which the world's annual new supply of gold is obtained. Of these, China is the only one where any noticeable change in yield has occurred in very recent years, the product there having been materially less in 1906 and 1905 than in 1904. From such data as we have been able to secure from these miscellaneous sources of supply (not of course including Mexico, which we treat separately), we should judge that the combined production was in 1907 practically the same as in the previous year.

SILVER PRODUCTION OF THE WORLD

Inability to secure much early data with regard to the production of silver militates considerably against our reaching any very definite results as to the 1907 yield of that metal from the world's mines. Mr. Leach's estimate for the United States is, of course, at hand, and some information has been obtained from Mexico, Canada and Australasia, but from other sources of new supply nothing tangible has yet reached us. It is, therefore, practically impossible to prepare any estimate that will not be subject to considerable revision later on. The one conclusion we are able to reach from the information we have is that production was moderately in excess of 1906, Mexico and Canada furnishing most of the increase. While the metal declined in price in 1907 the falling off was not sufficiently important to serve as a check upon mining operations, having been only 11-16d., the highest London price being 32 7-16d., the lowest 24 3-16d. and the average 30 3-16d. In 1906 the average was 30 7/8d., in 1905 was 27 13-16d., in 1904 was 26 3/8d. and in 1903 was 24 3/4d. The year's average was, in fact, with the exception of 1906, the highest since 1896.

We give below a statement of silver production covering each year since 1890. See "Chronicle" of Feb. 11 1899, page 258, for figures back to 1871.

*a* Values of silver in this table are *commercial* values and are computed on the average price each year of silver as given by Messrs. Pixley & Abell, London. Value of £ in this table, $4.8665.

## ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

—The auction sales of bank stocks this week aggregate 320 shares. No sales were made at the Stock Exchange. The transactions in trust company stocks reach a total of 190 shares. These totals include, in addition to the shares sold at the regular Wednesday auction, 300 shares of Mercantile Bank stock and 100 shares of Italian-American Trust Co. stock sold at the Exchange Salesroom on Monday.

| *Shares.* | BANKS—*New York.* | *Low.* | *High.* | *Close.* | *Last previous sale.* |

—An error crept into the February number of our "Bank and Quotation Section" in reporting the price of the shares of the First National Bank of Pittsburgh, Pa. The price was given as 165. The figures should have read 595 bid and 600 asked. The cities of Allegheny and Pittsburgh have recently been consolidated, forming the Greater Pittsburgh, and in the local reports the First National Bank of Allegheny is grouped with the Pittsburgh banks. In taking down our prices a mistake was made in entering the price of the First National Bank of Allegheny (165) against the name of the First National Bank of Pittsburgh.

—The State Senate at Albany on the 26th inst. by a vote of 30 to 19 rejected the recommendation of Governor Hughes for the removal of State Superintendent of Insurance, Otto Kelsey. Fifteen Republicans and a similar number of Democrats voted in favor of Mr. Kelsey's retention, while seventeen Republicans and two Democrats voted against him. Last May, it will be recalled, the Senate by a vote of 27 to 24, declined to concur in a similar recommendation for removal.

—The views of E. J. Parker of Quincy, Ill., on the Aldrich Currency Bill, expressed in a communication to Speaker Cannon of the House of Representatives on the 20th inst., were presented before a meeting of Group 11 of the Iowa State Bankers' Association, held at Mt. Pleasant, Iowa, on Feb. 22. Mr. Parker gives a number of reasons why, in his estimation, the Aldrich Bill does not meet the requirements of the situation, and he makes the following suggestion for its amendment:

If the Aldrich Bill is to be forced through at this session of Congress and the bill introduced by the American Bankers' Association is not to be considered, then let the Aldrich bill be changed and amended by sections taken from Senate Bill No. 108, providing for the incorporation of clearing houses under a Federal law and with power to issue currency to its bank members on the pledge of selected bank assets, and with clearing house rules to enforce its retirement at any time.

The clearing-house associations in some States represent greater banking power than any of the governmental banks of the world. Their issues would have, besides selected securities passed upon by the practical committees of clearing houses, the mutual guaranty of all the associated banks, and their *clearing-house notes would be absolutely safe*, and under strict regulations for redemption at many centres; and when not needed, would be redeemed even more rapidly than issued. Clearing house associations have always caused early redemption of clearing-house certificates.

*The true basis of sound banking is commercial paper*, used as it is in governmental banks abroad; such paper representing *circulating credits based on actual capital*. In addition to the gold in their vaults, it was the basis of bank circulation in New England under the Suffolk Bank System, which bank notes were, at the time of their issue, at a premium in the West.

The sections referred to, added to the Aldrich bill, would, as has been stated, afford the simplest and most effective means for giving elasticity to the currency, and consequent stability to commerce and trade. It would not require any changes or amendments to the National Banking Act; but it would be a supplementary measure, if not a rounding out of the National Banking System, bringing the banking machinery of the country under Government supervision and control. There is centralization in the European system of banking, and the weakness of our system is decentralization. The incorporation of clearing houses under a Federal law, with authority to issue clearing-house certificates and notes, would, by *combining the entire assets of its individual members*, centralize their resources, and, as hereinbefore stated, furnish facilities surpassing even the power of government banks in Europe.

The Aldrich bill provides for an addition of five hundred millions to the volume of paper issues, and without any addition to the gold reserves of

the banks. That is a dangerous power in the direction of inflation. The smaller national banks in the South and West have already taken out circulation to the amount of their capital.

Custom house duties and internal revenue receipts taken from the life-blood of commerce and deposited, as they are, with the sub-treasuries instead of in banks, contribute towards the monetary stringency every fall as well as at other seasons. Crops should be moved without our having to look to Washington for help periodically as well as in times of panic.

The issue of currency should be based upon business transactions, as it was before the Civil War. Bank issues and their redemption would then respond automatically to the extension and contraction of business.

—The directors of the Merchants' Association of New York at a meeting on the 21st inst. approved the report of their Committee on Bankruptcy and Commercial Law, which recommends the endorsement of the Fowler Currency Bill.

—The first test case brought under the Oklahoma Guaranty Deposit law has resulted in the upholding of the Act. The proceedings were instituted by the Noble State Bank of Noble, Okla., against the State Banking Board and the Bank Commissioners, and questioned the right of the State to collect the tax imposed under the law to provide a guaranty fund. In the District Court at Guthrie on the 19th inst., Judge A. S. Houston sustained a demurrer filed by Attorney-General West in the suit on the ground that there were not sufficient facts in the petition to constitute a cause of action. Judge Houston in passing on the case stated that under the police powers the State has the right to collect the tax, as the banks that are allowed to do business in the State are corporations, and hence as much accountable to the Legislature as any other corporation which serves the public.

—In accordance with action taken at the annual meeting of the San Francisco Clearing-House Association, the banks of that city enjoying Clearing-House privileges are hereafter to be examined, from time to time, by an official examiner to be appointed by the Association. The examination is to apply not only to the eighteen members of the Association, but also to other institutions clearing through members. The following resolution defines the attitude of the Association in the matter:

"Resolved: That the executive committee be authorized and directed to select for approval a bank examiner whose duty shall be to examine from time to time, under rules to be adopted, all clearing-house banks, as well as all banks clearing through members."

This resolution was introduced in October 1906 by E. W. Wilson, Vice-President of the American National Bank, but, after lengthy discussion, was laid aside, the majority of the members having deemed action indavisable at that time. In view of the events of the past few months, however, and the part played by the Clearing House toward relieving the financial difficulties, the members have become convinced that central supervision of a permanent sort would be a prudent measure for the future.

—A departure new to this city is about to be introduced by the First National Bank in the establishment of a security company to be formed for the purpose of acquiring and holding real estate, securities, stocks and other properties owned by the bank. In a measure the plan is much the same as that now in operation between the First National Bank of Chicago and the First Trust & Savings Bank, though there is this important distinction that the business of the latter, like that of the parent institution, is of a banking and trust nature. The company which the First National Bank of this city is about to organize is to be known as the First Security Co. It is to have a paid-up capital of $10,000,000, and a special dividend of 100% to be declared on the capital of the bank ($10,000,000) is to apply as payment toward the capital of the proposed institution. The stock of the company is to be issued to and held by six trustees—the President, four Vice-Presidents and Cashier of the bank. These trustees are to exercise the powers of ownership of the stock and are to elect the same board of directors as compose the directorate of the bank. The plan in detail is explained in a circular issued by President George F. Baker as follows:

New York, Feb. 14th 1908.

*Dear Sir.*—It is deemed to be for the interests of stockholders of this bank that a security company, such as has proved advantageous in the case of several other banks, should be organized for the purpose in part of transacting for its patrons certain lines of profitable business, which, though often transacted by bankers, are not expressly included within the corporate powers of national banks. Among these are the acquiring and holding of real estate, securities, stocks and other property.

To this end it is desired to secure the assent in writing of our stockholders to a plan of organizing a security company under the name of the First Security Co., with a paid-up capital of $10,000,000, the stock to be issued to and held by six trustees, who shall be the President, Vice Presidents and the Cashier of the bank. These trustees shall exercise the powers of ownership of the stock, shall elect the same board of directors as that of the bank, shall collect all dividends and pay the same over to the bank for immediate distribution to its shareholders, who have assented to this plan.

Upon receiving the assent of the stockholders the bank purposes to make a special dividend of 100% ($10,000,000) to be received by the trustees, and to be applied to the payment of the capital stock of the Security Company, which stock shall be held by the trustees for the benefit of the shareholders of the bank assenting to this plan.

Upon each certificate of every assenting stockholder of the bank there shall be the endorsement that appears on the following page.

The formal agreement for incorporation, assent, &c., has been carefully prepared by our counsel, and has been approved by our directors, who have assented and recommend your assent thereto.

Your proportionate share of the bank's assets will be in no wise changed.

Kindly sign and return promptly the enclosed power or call at the bank and sign the agreement.

The following is the form of endorsement referred to in the above letter:

The registered holder of the within certificate is entitled, for and in respect of each and every share of stock of the First National Bank of the City of New York represented thereby, to share equally and ratably with all other holders of stock certificates of the bank similarly endorsed, according to their several interests, in the dividends or profits, and, in case of dissolution, in the distribution of the capital, of the First Security Co., a corporation of the State of New York organized in pursuance of a certain written agreement dated Feb. 14 1908 between George F. Baker and others, trustees, and J. Pierpont Morgan and others, stockholders; such interest of the owner of the within certificate, and of all other like certificates, similarly endorsed, being subject to all the terms, conditions and limitations of said agreement; such ratable interest to be sold or transferred ratably only by the transfer upon the books of the bank of one or more of the shares of the stock in the bank represented by a bank stock certificate bearing this endorsement; and all of the interest in and to or in respect of said Security Co. or its capital stock, represented by a bank stock certificate bearing this endorsement, shall pass ratably with, and only with, the transfer of such shares of the bank represented by such bank stock certificate, and upon transfer thereof upon the books of the bank; and an interest in the Security Co. attached to any share of the bank shall be alienable only in connection with such transfer of such bank stock.

No holder of the within certificate or any transferee of any share thereby represented shall be entitled in lieu thereof to demand or receive from the bank a new certificate except with this endorsement thereon; and a transfer of any share of bank stock represented by the within bank stock certificate shall be made by any holder thereof only to a transferee accepting therefor a new certificate bearing this endorsement.

No right to vote upon or in respect of any stock of the Security Co. passes to or shall be exercised by the holder of the within certificate, such voting right being reserved to and by the trustees or their successors.

The officers of the bank, who are to serve as trustees of the stock of the First Security Co., are President Baker, Vice-Presidents H. C. Fahnestock, F. L. Hine, Henry P. Davison and George F. Baker Jr., and Cashier Charles D. Backus. The bank in its statement issued in response to the Comptroller's call of Feb. 14 reported bonds, securities, &c., to the amount of $60,696,651. The surplus and profits of the bank now exceed (according to the report of condition under the call referred to) $20,000,000, and its deposits are $113,632,559. In 1901 the institution increased its capital from $500,000 to $10,000,000, declaring for the purpose the unusual dividend of 1900% on its capital.

—Seth M. Milliken, who consented temporarily to accept the presidency of the Mercantile National Bank of this city last October, after the elimination of the Heinze-Morse-Thomas interests, has resigned as President and director on account of the calls upon his time by the business of his firm of Deering, Milliken & Co. Mr. Milliken had been a director of the bank since 1880; it is understood that while he retires from active participa ion in its affairs, he still retains his stock-holdings in the institution. Under his guidance, assumed during a critical period, the restoration of the bank to a substantial footing has been accomplished. The retiring President is quoted as saying that during the recent panic the bank was obliged to borrow $4,000,000 to tide it over its difficulties, and has succeeded in repaying the entire amount. The Clearing House, he states, advanced $3,200,000, the firm of Deering, Milliken & Co. lent $500,000 and the Irving National Exchange provided the remainder of the amount.

At the adjourned annual meeting yesterday the directors elected as the new President of the Mercantile Willis G. Nash, who resigns as Cashier of the New York State National Bank of Albany. Miles M. O'Brien was re-elected First Vice-President, and William Skinner, who became a Vice-President in October, was likewise re-elected. William H. Taylor (Vice-President of the Bowling Green Trust Co.) was also elected a Vice-President of the bank. He succeeds Gerrish H. Milliken, who resigns as Vice-President and director. Emil Klein has been re-elected Cashier. The following new directors have been elected to the board: William N. Laws, A. J. Trussell, E. D. Street and L. H. Cutter. Two of these take the places of George H. Sergeant and John F. Kehoe, resigned. The board now consists of the following members: William F. Carlton, Robert C. Clowry, William Nelson Cromwell, L. H. Cutter, Edwin Gould, Harold A. Hatch, Edward T. Jeffery, E. D. Street, William M. Laws, Benjamin Nicoll, Willis G. Nash, Miles M. O'Brien, Charles E. Perkins, Dick S. Ramsay, William Skinner, William H. Taylor, A. J. Trussell and Warner Van Norden. The election of Mr. Nash and the present board of directors indicates a complete change in the management of the affairs of the bank, which, it is stated, has passed under the control of entirely new and independent interests.

—The $500,000 additional capital of the Second National Bank of this city authorized by the shareholders on Jan. 14,

has been listed on the New York Stock Exchange, making the total amount listed $1,000,000. The increase in capital was effected through the declaration of a special equalizing dividend af 100%, declared from the surplus fund, payable in cash on Jan. 20, this dividend being applied to the payment of subscriptions to the new stock. The balance sheet of the bank for Jan. 20, when the increase in capital to $1,000,000 became effective, shows surplus and undivided profits of $1,638,280. The aggregate resources are $15,326,515.

—Edward R. Thomas and Orlando F. Thomas were indicted on the 27th inst. by the Special Grand Jury which has been investigating financial affairs, on charges alleging violations of the insurance laws while they were in control of the Provident Savings Life Assurance Society. It is understood that there are two indictments against E. R. Thomas and one against O. F. Thomas. Bail was fixed at $5,000 on each indictment and furnished by the Fidelity & Deposit Co. of Maryland. One of the indictments against E. R. Thomas is said to deal with a loan made to him by the firm of Thomas, Maclay & Co. (predecessor of the failed firm of Robert Maclay & Co.), in which Herbert F. Thomas, son of O. F. Thomas, was a partner.

—The Greenwich Bank of this city has opened a branch in Herald Square at 35th Street and 6th Avenue. The main office of the bank is at 402 Hudson Street, and in addition to the quarters just opened it has branches at 135 William Street, 260 West Broadway and 874 Broadway. The Jan. 31 statement of the institution showed deposits of $7,702,976. The capital is $500,000 and the surplus and profits $718,858.

—The stockholders of the Hudson Trust Company of this city ratified on Wednesday the proposition to reduce the capital from $1,000,000 to $500,000; it was also decided to apply the $500,000 taken from capital to the surplus (increasing it to over $600,000), subject to the aprpoval of the Banking Department. Another meeting will be held next month to decide whether there will be a distribution of the surplus among the shareholders.

—Robert L. Smith, formerly an Assistant Secretary of the Trust Company of America, has become an Assistant Secretary of the Carnegie Trust Company.

—The increase in the business of the Liberty National Bank of New York (139 Broadway) has made it necessary to enlarge its banking room. The office in the building in the rear is to be added by establishing an arched connection, thereby giving larger and more commodious quarters.

The last official statement of the bank (Feb. 14) shows deposits of $14,910,010; the capital is $1,000,000, while surplus and undivided profits are reported at $2,394,000.

—Robert Olyphant, Frederick Potter and Sanford H. Steele, directors of the Title Guarantee & Trust Co. New York and Brooklyn, have been elected members of the institution's newly created Trust Department, to serve with President Kelsey, Vice-President Stanley, Bailey and Burdick. This addition to the company's organization is designed for the management of its fiduciary business, which has become of late quite a large feature. Its banking interests are in charge of a "Finance Committee" constituted as follows: Edward T. Bedford, Clarence H. Kelsey, Edgar L. Marston, William H. Nichols, James H. Oliphant, Charles A. Peabody, Jacob H. Schiff, James Speyer and Edward O. Stanley.

—Frank J. Parsons, Manager of the mortgage department of the United States Mortgage & Trust Co., has been elected an Assistant Secretary of the institution, and Henry L. Servoss, Manager of the 125th Street branch of the company, has been elected an Assistant Treasurer.

—Frederick H. Eaton, President of the American Car & Foundry Co., has been elected a director of the Seaboard National Bank of this city.

—The third payment (15%) to the depositors of the Hamilton Bank of this city, which was not to have been released until May 20, has been anticipated, and will become subject to the depositor's check on March 20. It is announced that the new officers of the bank have persistently followed up delinquent borrowers, with the result that a large cash surplus has been accumulated. By continuing this active policy of collecting slow loans, it is stated, the officers hope to be able to anticipate all future payments to depositors.

—The report of the condition of the Mechanics' & Traders' Bank of this city (which closed its doors on Jan. 29) submitted by the State Banking Department is said to show capital unimpaired and a surplus of $31,821, after charging off $585,000 of questionable assets. The bank has reduced its Clearing-House indebtedness from about $2,000,000 to $1,200,000, and its cash on hand has been increased from $504,296 on Jan. 29 to $1,200,000. It is stated that about 75% of the depositors have assented to the deferred-payment plan of reorganization.

—John E. Walker was elected a Vice-President of the National Commercial Bank of Albany, N. Y., at a meeting of the directors on the 21st inst. Mr. Walker will be the temporary head of the institution during the absence of President Robert C. Pruyn and Vice-President Grange Sard, both of whom are away from their desks for an extended period.

—Charles H. Dalton, a Vice-President and director of the New England Trust Co. of Boston died on the 23rd inst. He was eighty-two years of age. Mr. Dalton was formerly a member of the Boston Rapid Transit Commission and had otherwise been a prominent figure in the business affairs of the city.

—The consolidation of the Prescott National Bank of Lowell, Mass., capital $300,000, with the Union National Bank of that city, capital $350,000, consummated on the 10th inst., is to be formally ratified by the shareholders of the first-named institution on March 18. It is proposed to pay an initial dividend of 100% to the stockholders of the Prescott National Bank as soon as expedient after the special meeting, possibly on April 1, according to the circular issued by the bank. The book value of the stock is about $140, and it is stated that unless some loans now believed to be good should prove otherwise, the above sum ought to be realized when the final dividend is paid. There is to be no issue of new stock by the Union National Bank. Edward E. Sawyer, Cashier of the Prescott National, has been appointed Vice-President of the Union National and George R. Chandler has been appointed Assistant Cashier.

—The First National Bank of Gloucester, Mass. (capital $200,000), is to go into immediate liquidation, arrangements having been completed whereby its business is to be assumed and carried on by the Gloucester Safe Deposit & Trust Co. It is expected that an increase will be made in the latter's capital of $100,000.

—The First Mortgage Guarantee & Trust Co. of Philadelphia has notified its depositors of its decision to abandon the banking feature of its business. The change went into effect on the 24th inst. The company began business in March of last year and announced that its main feature would be the handling of first mortgages on guarantees. It is stated that it entered the banking field as an accommodation to its clients, but as this has not turned out to be a lucrative departure, its elimination was decided upon.

—Judge McCarrell of Harrisburg issued an order on the 20th inst. appointing J. Dennison Lyon receiver of the Iron City Trust Co. of Pittsburgh in place of W. L. Abbott and A. S. H. Stewart, who were appointed on Oct. 23. Mr. Lyon is directed to institute such proceedings in the United States Court as will procure the revocation of its decree, naming Messrs. Abbott and Stewart as receivers, and on this revocation take possession of the property, wind up its business and dispose of its assets. Messrs. Abbott and Stewart were named as receivers by Federal authorities, and it is stated that the action in securing the appointment of Mr. Lyon was in the nature of a test case, to settle the question as to whether the Federal authorities have the right to take charge of State banks or trust companies operating under State charters. Both Messrs. Abbott and Stewart will, it is understood, stand by the action of the Federal authorities until revoked by the proper court.

—J. H. McEwen, heretofore Cashier of the Mahoning National Bank of Youngstown, Ohio, has replaced W. Scott Bonnell as President of the institution, Mr. Bonnell having become Vice-President. Thomas A. Jacobs succeeds to the cashiership and W. J. Roberts is Assistant Cashier.

—The statement of the First National Bank of Chicago, submitted in response to the call of the Comptroller of the Currency for a statement of condition on Feb. 14, attracts particular attention by reason of the showing in the deposit line, which has reached $102,164,319—representing an increase of nearly 14 million dollars since Dec. 3, when the amount was $88,526,128. The First National's affiliated institution, the First Trust & Savings Bank, on Feb. 15 reports deposits of $30,528,104, the combined deposits of the two thus being $132,692,423. The assets of the First National under the new call are $125,759,142, while those of the First Trust are $34,004,680.

—The Commercial National Bank of Chicago also shows substantial gain in its item of deposits during the past two months, the amount now, at $41,287,311, comparing with $34,306,442 on Dec. 3. The bank has a capital and surplus of $3,000,000 each and undivided profits of $1,326,490, the last named comparing with $1,219,197 in the previous statement. Total resources have risen from $48,131,139 to $51,649,802.

—A dividend of $200 per share in liquidation has been declared by the directors of the National Live Stock Bank of Chicago. The institution, it will be recalled, was succeeded by the Live Stock Exchange National Bank on the 7th inst. It is stated that, after the payment of the dividend, there will remain assets of $739,000, out of which dividends of $50 a share additional will be paid. The bank had $1,000,000 capital.

—The payment of a 20% dividend by March 1 to the creditors of the Ravenswood Exchange Bank, Chicago, has been authorized. The bank suspended in November.

—The stockholders of the Union Commercial & Savings Bank of Superior, Wis., recently approved a proposition to increase the capital from $50,000 to $100,000.

—The State Bank of St. Paul, Minn., which closed its doors on Jan. 20, re-opened for business on Monday the 24th inst. The capital remains at $25,000. An assessment of 100%, levied on the stockholders, is said to have been paid in full. The stock formerly held by A. Z. Drew, who resigned the presidency shortly before the institution suspended, is reported to have been taken by other interests.

—The Citizens' Savings Bank of St. Paul, which also closed its doors on the 20th ult., and with which Mr. Drew had been identified, likewise resumed business on Monday. Its solvency, it is said, has never been questioned.

—The Capital State Bank of Boise, Idaho, which suspended on Jan. 21, is to be succeeded by the Capital National Bank, the Comptroller of the Currency having on the 18th inst. approved an application to organize the latter presented by interests identified with the closed institution. The new bank is to have a capital of $250,000.

—James B. Lozear, formerly National Bank Examiner, has been elected Second Vice-President of the Central National Bank of Denver, Colo. The institution began business during the past year.

—A. B. Butt, formerly Cashier of the suspended People's Bank of Portsmouth, Va., pleaded guilty on the 20th inst to three indictments against him, and was sentenced to three years in the penitentiary. In addition, a fine of $7,184 was imposed on the accused.

—At a meeting of the executive council of the Washington Bankers' Association held at Tacoma on the 15th inst., the invitation of the North Yakima bankers to hold the annual convention of the Association in that city on June 18, 19 and 20 was accepted. The bankers will endeavor to have the associations of Idaho and Oregon meet at the same time. The Aldrich Currency Bill was one of the topics discussed at the meeting and it is understood that the bankers are not in sympathy with the measure. It is contended by Secretary Kauffman that the bill, if passed, will not help the Western banks at all, for to secure the benefits of the emergency currency which it provides for, the banks could not loan out funds for the development of the country in which they are located, but would have to invest in long-time securities. Such investments, he declares, would practically tie the country down to a bond-secured currency, instead of adding any elasticity to the currency by the use of the live liquid assets of the banks. The general view of the members, he said, favors a central bank along the lines suggested by Comptroller Ridgely in his recent report to Congress. A resolution was adopted at the meeting endorsing the bill now before Congress for the establishment of a United States Sub-Treasury at Seattle. A circular has been issued to members by Secretary Kauffman seeking information which may lead to the obtaining of reduced rates for fidelity and burglary insurance.

—The Merchants' National Bank of Portland, Ore., resumed business on Monday the 17th inst.—three months after its suspension, which occurred on Nov. 12. Under the reorganization plan, it is reported, two-thirds of the deposits have been exchanged for time certificates of deposit, payable in six, twelve, eighteen and twenty-four months. The management of the bank remains the same as before its suspension, the officers being as follows: J. Frank Watson, President; R. L Durham, Vice-President; R. W. Hoyt, Cashier; George W. Hoyt and S. C. Catching, Assistant Cashiers. No increase has as yet been made in the capital, which stands at $250,000, but it is stated that it is the intention to later make the amount $500,000.

## Monetary and Commercial English News

(From our own Correspondent.)

*London, Saturday, Feb.* 15 1908.

Business has been quiet all through the week. At the beginning, indeed, there was a rather pessimistic feeling. It was feared that matters in the United States were worse than had been supposed. That trade was falling off severely everybody knew. But the stock markets at the beginning of this week suddenly wakened up to what had been plain enough before to close observers. Furthermore, there was an uncomfortable feeling all over the Continent. Germany has escaped a crisis which most observers expected to be imminent. But trade in Germany has received a check. The banks are carrying for customers an immense load of securities. As a consequence they are uncomfortably tied up. Taxation is heavy. Employment is scarce, wages are falling. It is feared, therefore, that while there will be no crisis there may be large and prolonged liquidation, and that failures, sometimes serious ones, will occur. There have been failures likewise in Denmark. There have been failures in the north of England. There have been failures, in fact, in most parts of Europe.

In addition to all this, a somewhat uncomfortable feeling has been created by the sudden announcement last week of the Austro-Hungarian Foreign Minister that he had obtained from the Porte an irade for the survey of the Novi Bazar Railway, and that he was in negotiation in regard to other railway matters. In Russia this is regarded as a distinct breach of the understanding between Russia and Austria-Hungary. It was settled that neither State should do anything to disturb the existing condition of things. The Austrian Foreign Minister maintains that this had reference only to politics, but that he was perfectly free to do what he could to improve the business interests of his compatriots. Russia maintains, on the other hand, that to obtain railway advantages is a distinct breach of the arrangement. Naturally this has given rise to the fear that the understanding will come to an end, that Russia and Austria will again be competitors in the east of Europe, and that adverse political consequences will follow. Moreover, it is suspected that the German Government has been at the bottom of the affair. It is generally taken for granted that the irade would not have been issued were it not that the German Government used its influence. But why Germany should endeavor to sow dissension between Austria and Russia is not very plain. However, all these things—political, Stock Exchange and financial—combined to make feeling here pessimistic at the beginning of the week. Gradually, however, there has been an improvement. Now the impression is growing that the "bears," not only in the United States but here at home, have been too aggressive, that there will soon be a recovery, and that business will become decidedly more active before long.

Money is comparatively dear and scarce. At this time of the year the revenue is being collected in exceptionally large amounts, and therefore unusually large sums are being transferred from the open market to the Bank of England. Consequently the Bank of England has control of the market and is in a position to make rates what it pleases. This will go on certainly until the middle of March and possibly may go on until the first week of April. In the second half of March the disbursements out of the Treasury are very large, but a large proportion of those disbursements goes into the interior and does not find its way into the London market until early in April. Probably, therefore, there will not be real ease until April, though money will certainly be less scarce after the middle of March. In April there is at this time every reason to expect easy money. In Paris the feeling has improved as the week has gone on. Trade is good. Invest-

ment is large, and a considerable number of new issues are in preparation. In Germany, as already said, business is very quiet. Money is scarce, rates are high, and in all reasonable probability will continue high for the greater part of the year.

The India Council offered for tender on Wednesday 40 lacs of its bills, and the applications exceeded 187 lacs, at prices ranging from 1s. 3 7/8d. to 1s. 3 15-16d. per rupee. Applicants for bills at 1s. 3 29-32d. per rupee were allotted about 37% of the amounts applied for.

For full explanation of the above table see the issue of Dec. 14 1901, page 1232, the first item in Financial Situation. The following shows the amount of each class of bonds held against national bank circulation and to secure public moneys in national bank depositories on Jan. 31.

| Bonds on Deposit January 31 1908. | U. S. Bonds Held January 31 to Secure— Bank Circulation. | Public Deposits in Banks. | Total Held. |
|---|---|---|---|
| 2 per cents, Panama Canal | $34,517,300 | $19,191,240 | $53,708,540 |
| 4 per cents, 1895, due 1925 | 17,308,600 | 5,430,100 | 22,738,700 |
| 3 per cents, 1908-1918 | 12,004,720 | 5,539,500 | 17,544,220 |
| 2 per cents, consols, 1930 | 567,561,700 | 36,908,750 | 604,470,450 |
| 3 per cents, certs. of indebtedness | 15,436,500 | - | 15,436,500 |
| 3.65s, District of Columbia, 1924 | - | 1,324,000 | 1,324,000 |
| State, city and railroad bonds | - | 198,540,425 | 198,540,425 |
| Hawaiian Islands bonds | - | 1,992,000 | 1,992,000 |
| Philippine loan | - | 9,038,000 | 9,038,000 |
| Porto Rico | - | 730,000 | 730,000 |
| Total on deposit Jan. 31 1908 | $646,828,820 | $278,694,015 | $925,522,835 |

The foregoing does not include the bonds held in the New York Sub-Treasury against deposits in banks.

The following shows the amount of national bank notes afloat and the amount of legal-tender deposits Jan. 1 and Feb. 1 and their increase or decrease during the month of January.

| | | |
|---|---|---|
| *National Bank Notes—Total Afloat—* | | |
| Amount afloat January 1 1908 | | $690,130,895 |
| Amount issued during January | $19,798,475 | |
| Amount retired during January | 14,526,608 | |
| | | 5,271,867 |
| Amount of bank notes afloat February 1 1908 | | $695,402,762 |
| *Legal-Tender Notes—* | | |
| Amount on deposit to redeem national bank notes January 1 1908 | | $46,670,996 |
| Amount deposited during January | $9,281,362 | |
| Amount of bank notes redeemable in January | 2,469,260 | |
| | | 6,812,102 |
| Amount on deposit to redeem national bank notes February 1 1908 | | $53,483,098 |

The portion of legal-tenders deposited (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation and (3) by banks reducing or retiring their circulation was as follows on the first of each of the last five months:

| Legal-Tenders. | Oct. 1. | Nov. 1. | Dec. 1. | Jan. 1. | Feb. 1. |
|---|---|---|---|---|---|
| *Deposits by—* | $ | $ | $ | $ | $ |
| Insolvent banks | 865,021 | 804,471 | 768,473 | 719,804 | 654,194 |
| Liquidating banks | 15,021,880 | 14,352,085 | 14,018,894 | 13,831,905 | 13,646,321 |
| Reducing under Act of 1874* | 31,998,884 | 32,096,296 | 31,274,821 | 32,119,287 | 39,182,583 |
| Total | 47,885,785 | 47,252,852 | 46,062,188 | 46,670,996 | 53,483,098 |

*Act of June 20 1874 and July 12 1882.

**Breadstuffs Figures Brought from Page 556.**—The statements below are prepared by us from figures collected by the New York Produce Exchange. The receipts at Western lake and river ports for the week ending last Saturday and since Aug. 1 for each of the last three years have been:

| Receipts at— | Flour. | Wheat. | Corn. | Oats. | Barley. | Rye. |
|---|---|---|---|---|---|---|
| | bbls.196lbs. | bush. 60 lbs. | bush. 56 lbs. | bush. 32 lbs. | bush.48lbs. | bu. 56 lbs. |
| Chicago | 175,461 | 176,200 | 756,802 | 1,255,388 | 287,100 | 28,000 |
| Milwaukee | 37,450 | 76,000 | 90,000 | 166,400 | 268,800 | 29,700 |
| Duluth | - | 337,142 | - | 78,004 | 25,083 | - |

## DIVIDENDS.

The following shows all the dividends announced for the future by all large or important corporations:

*Dividends announced this week are printed in italics.*

| Name of Company. | Per Cent. | When Payable. | Books Closed. Days Inclusive. |
|---|---|---|---|
| **Railroads (Steam).** | | | |
| *Atlantic Coast Line Company (quar.)* | 2 | Mch. 10 | Holders of rec. Feb. 29 |
| *Atlantic Coast Line RR., preferred* | 2½ | May 11 | April 4 to May 11 |
| **Baltimore & Ohio, common** | 3 | **Mch. 2** | **Holders of rec. Feb. 1** |
| **Preferred** | 2 | **Mch. 2** | **Holders of rec. Feb. 1** |
| *Boston & Albany (quar.)* | 2 | Mch. 31 | Holders of rec. Feb. 29 |
| Boston & Maine, com. (qu.) (No. 170) | 1¾ | April 1 | Holders of rec. Mch. 2 |
| Preferred (No. 36) | 3 | Mch. 2 | Holders of rec. Feb. 15 |
| Buffalo & Susq., pref. (quar.) (No. 23) | 1 | Mch. 2 | Holders of rec. Feb. 21 |
| Canadian Pacific, common | 3 | Mch. 31 | Mch. 11 to April 1 |
| Common (extra) | ½ | Mch. 31 | Mch. 11 to April 1 |
| Preferred | 2 | April 1 | Mch. 11 to April 1 |
| Chestnut Hill (quar.) | 1½ | Mch. 4 | Holders of rec. Feb. 20 |
| *Chic. Milw. & St. Paul, com. and pref.* | 3½ | April 20 | Holders of rec. Mch. 20 |
| Cin. N. O. & Texas Pac., pref. (quar.) | 1¾ | Mch. 2 | Feb. 16 to Mch. 1 |
| Cleve. Cin. Chic. & St. L., com. | 1 | Mch. 2 | Holders of rec. Feb. 7 |
| Cleve. Lorain & Wheeling, common | 2½ | Mch. 2 | Holders of rec. Feb. 1a |
| Cleve. & Pittsburgh, orig. guar. (quar.) | 1¾ | Mch. 2 | Holders of rec. Feb. 10 |
| Special guar. betterment (quar.) | 1 | Mch. 2 | Holders of rec. Feb. 10 |
| Delaware & Hudson Co. (quar.) | 2½ | Mch. 15 | Holders of rec. Feb. 21 |
| *Det. & Mack. Pittsburgh (quar.)* | 1¼ | Mch. 10 | |
| Great Northern Ore Certificates | $1 | Mch. 16 | Feb. 29 to Mch. 16 |
| Illinois Central | 3½ | Mch. 2 | Holders of rec. Feb. 1 |
| N. Y. Chicago & St. Louis, 1st pref. | 5 | Mch. 2 | Holders of rec. Feb. 7 |
| Second preferred | 5 | Mch. 2 | Holders of rec. Feb. 7 |
| Phila. Germantown & Norristown (qu.) | 3 | Mch. 4 | Holders of rec. Feb. 20 |
| Reading Company, first preferred | 2 | Mch. 9 | Holders of rec. Feb. 20 |
| Southern Pacific com. (quar.) (No. 6) | 1½ | April 1 | |
| Union Pacific, common (quar.) | 2½ | April 1 | Feb. 27 to Mch. 15 |
| 5% Preferred | 2 | April 1 | Feb. 27 to Mch. 15 |
| Utica & Black River | 3½ | Mch. 30 | Holders of rec. Mch. 15 |
| *West Jersey & Seashore* | 2 | Mch. 16 | Holders of rec. Feb. 28 |
| **Street Railways.** | | | |
| American Railways (quar.) | 1½ | Mch. 16 | Mch. 1 to Mch. 3 |
| Chicago City Ry. (quar.) | 1½ | Mch. 30 | Mch. 10 to Mch. 15 |
| Columbus (O.) Ry., common (quar.) | 1¼ | Mch. 2 | Holders of rec. Feb. 15 |
| *Galveston-Houston Elec. Co., pref. (No. 2)* | $3 | Mch. 16 | Holders of rec. Mch. 2 |
| Grand Rapids Ry., common (quar.) | 1 | Mch. 1 | Holders of rec. Feb. 15 |
| Kansas City Ry. & Light, pref. (quar.) | 1¼ | Mch. 2 | Feb. 20 to Mch. 2 |
| Northern Texas Elec. Co., pref. (No. 5) | 3 | Mch. 2 | Holders of rec. Feb. 20 |
| Philadelphia Company, pref. | 2½ | Mch. 2 | Holders of rec. Feb. 10 |
| Rochester Ry. & Light, pref. (quar.) | 1¼ | Mch. 2 | Holders of rec. Feb. 25 |
| Susquehanna Ry. Lt. & Power, pref. | 2½ | Mch. 1 | Feb. 19 to Feb. 29 |
| Terre Haute Traction & Light, pref. | 3 | Mch. 1 | Feb. 21 to Mch. 1 |
| Whatcom Co. Ry. & Light, pref. (No. 9) | 3 | Mch. 2 | Holders of rec. Feb. 20 |
| **Banks.** | | | |
| *Chemical National (bi-monthly)* | 2½ | Mch. 2 | Feb. 26 to Mch. 1 |

**Imports and Exports for the Week.**—The following are the imports at New York for the week ending Feb. 22; also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

| For the week. | 1908. | 1907. | 1906. | 1905. |
|---|---|---|---|---|
| Dry Goods | $2,935,347 | $4,248,589 | $2,909,838 | $2,807,803 |
| General Merchandise | 9,742,312 | 15,425,221 | 11,058,048 | 11,231,778 |
| Total | $12,677,659 | $19,673,810 | $13,967,886 | $14,039,581 |
| *Since January 1.* | | | | |
| Dry Goods | 24,978,657 | $32,427,563 | $28,855,176 | $25,698,134 |
| General Merchandise | 63,996,786 | 102,187,922 | 86,406,316 | 93,135,620 |
| Total 8 weeks | $88,975,443 | $134,615,485 | $115,261,492 | $118,833,754 |

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Feb. 22 and from Jan. 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

| | 1908. | 1907. | 1906. | 1905. |
|---|---|---|---|---|
| For the week | $16,704,813 | $11,683,861 | $10,163,592 | $9,255,094 |
| Previously reported | 112,717,085 | 86,168,109 | 89,562,720 | 69,166,787 |
| Total 8 weeks | $129,421,898 | $97,851,970 | $99,726,312 | $78,421,881 |

The following table shows the exports and imports of specie at the port of New York for the week ending Feb. 22 and since Jan. 1 1908, and for the corresponding periods in 1907 and 1906:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

| Gold. | Exports. Week. | Exports. Since Jan. 1 | Imports. Week. | Imports. Since Jan. 1 |
|---|---|---|---|---|
| Great Britain | ---- | ---- | ---- | $3,413,212 |
| France | ---- | ---- | ---- | 198,815 |
| Germany | ---- | ---- | $40 | 7,540 |
| West Indies | 40,180 | $155,605 | 55,817 | 1,543,464 |
| Mexico | ---- | ---- | 3,744 | 156,548 |
| South America | ---- | 504,475 | 39,898 | 458,065 |
| All other countries | ---- | ---- | 152,920 | 345,457 |
| Total 1908 | $40,180 | $660,080 | $252,419 | $6,123,101 |
| Total 1907 | 15,300 | 1,395,355 | 443,193 | 1,472,971 |
| Total 1906 | 625,000 | 3,633,375 | 110,472 | 385,338 |
| **Silver.** | | | | |
| Great Britain | $265,745 | $5,318,371 | $11,193 | $14,444 |
| France | 280,000 | 280,000 | 3,378 | 24,250 |
| Germany | ---- | ---- | 7,346 | 26,651 |
| West Indies | 12,560 | 127,877 | 605 | 37,727 |
| Mexico | ---- | ---- | 9,488 | 329,927 |
| South America | ---- | 3,000 | 2,918 | 179,167 |
| All other countries | ---- | 350 | ---- | 59,879 |
| Total 1908 | $558,305 | $5,729,598 | $34,928 | $672,045 |
| Total 1907 | 1,105,114 | 5,179,364 | 32,515 | 384,953 |
| Total 1906 | 778,087 | 10,169,935 | 35,222 | 374,362 |

Of the above imports for the week in 1908, $205,537 were American gold coin and $7,420 American silver coin. Of the exports during the same time $40,000 were American gold coin and $10,000 were American silver coin.

**Statement of New York City Clearing-House Banks.**—The detailed statement below shows the condition of the New York City Clearing-House banks for the week ending Feb. 21. The figures for the separate banks are the averages of the daily results. In the case of the totals, however, a departure was made with the statement for Feb. 8, so that in addition to the averages for the week the actual figures at the end of the week are now given.

*We omit two ciphers (00) in all cases.*

| Banks. 00s omitted. | Capital. | Surplus. | Loans. Average. | Specie. Average. | Legals. Average. | Deposits. Average. | Reserve. |

+Increase over last week. —Decrease from last week.
*a* Includes bank notes. *b* After eliminating the item "Due from reserve depositories and other banks and trust companies in New York City," deposits amount to $619,674,000, a decrease of $658,900 from last week's figures.

*Note.*—In the case of the Clearing-House banks the deposits are "net" both for the average and actual figures; in all other cases "gross" deposits are shown. The Clearing-House actual figures included U. S. deposits amounting to $59,229,800, a decrease of $8,722,700 from last week; averages included U. S. deposits of $59,329,100, a decrease of $166,200 from last week.

"Reserve on deposits" includes, for both trust companies and State banks, not only cash items but amounts due from reserve agents, and in the case of trust companies includes likewise municipal bonds. State banks in New York City are required by law to carry a reserve amounting to 15% of deposits, while outside of New York City only 10% is required, which reserve in both cases need not be more than one-half in cash. Trust companies in Greater New York are required to keep a reserve of 15%, of which only 5% need be in cash and 5% more may be in municipal bonds, while in the case of the trust companies in the rest of the State the required reserve is 10%, of which only 3% need be in cash and 3% more may be in municipal bonds.

The State Banking Department also furnishes the following report for State banks and trust companies outside of Greater New York.

STATE BANKS AND TRUST COMPANIES OUTSIDE OF NEW YORK CITY
*Week ending February 21 1908.*

| | Loans. | Deposits. | Reserve. | % o Res |

*Wall Street, Friday Night, Feb. 28 1908.*

**The Money Market and Financial Situation.**—A result which has been foreshadowed for some time past, and to which affairs in and out of Wall Street have contributed, has been the most prominent characteristic of the security markets throughout the week. We refer to the limited volume of business at the Stock Exchange, which is the smallest for the season in recent years and is paralleled only by the low record of a dull midsummer period. The transactions in stocks on Wednesday aggregated less than 216,000 shares, and for the entire week have averaged only a little over 270,000, as against over 1,100,000 shares for the corresponding week last year and a trifle less than 1,000,000 in 1906. The bond market has been relatively more active, chiefly, if not wholly, because a few issues have, for special reasons, been in demand or pressed for sale. Other evidences of the depression which has overtaken industrial affairs are seen in the accumulation of idle money at all the principal financial centres at home and abroad, and the passing of another railway system into the hands of a receiver.

At the same time, there is reported to be a little better demand for iron and steel products, especially for steel rails, and although this has been favorably commented on in some quarters, it probably signifies nothing more than that an effort is being made to keep the railroads in condition to handle what business is offered.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1½% to 2%. To-day's rates on call were 1¾@2%. Prime commercial paper quoted at 4½@5% for 60 to 90-day endorsements and 5½@6% for best single names.

The Bank of England's weekly statement on Thursday showed an increase in bullion of £579,585, and the percent of reserve to liabilities was 49.13, against 53.45 last week.

The discount rate remains at 4%, as fixed Jan. 23. The Bank of France shows an increase of 6,550,000 francs gold and 2,675,000 francs silver.

*Note.*—The Clearing House now issues a statement weekly showing the totals of the actual figures on Saturday morning. These figures, together with the returns of separate banks, also the summary issued by the State Banking Department showing the condition of State banks and trust companies not reporting to the Clearing House, appear on the preceding page.

**Foreign Exchange.**—The market was active and higher until Tuesday afternoon, when there was a recession in rates due to liberal offerings of bills, and the tone was generally heavy thereafter; the close was steady.

To-day's (Friday's) nominal rates for sterling exchange were 4 84½ for sixty day and 4 88 for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8360@4 8370 for long, 4 8660@4 8670 for short and 4 8710@4 8720 for cables. Commercial on banks 4 8315@4 8325 and documents for payment 4 82⅝@4 83⅜. Cotton for payment 4 82⅝@4 82¾, cotton for acceptance 4 8315@4 8325 and grain for payment 4 83¼@4 83⅜.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 19⅜@5 18¾*a* for long and 5 17½*d*@5 17½ for short. Germany bankers' marks were 94 7-16@94½ for long and 95 1-16*d*@95 1-16 for short. Amsterdam bankers' guilders were 40 20@40 22 for short.

Exchange at Paris on London to-day 25 fr. 19½c.; week's range 25 fr. 22c. high and 25 fr. 19½c. low.

The week's range for exchange rates follows:

| | Long | Short | Cables |
|---|---|---|---|
| *Sterling Actual* | | | |
| High | 4 8360 @ 4 8370 | 4 8685 @ 4 8690 | 4 8720 @ 4 8725 |
| Low | 4 8340 @ 4 8350 | 4 8660 @ 4 8670 | 4 8710 @ 4 8715 |
| *Paris Bankers' Francs* | | | |
| High | 5 19⅜ @ 5 18¾*a* | 5 17½*d* @ 5 17½ | |
| Low | 5 20*a* @ 5 20 | 5 17½*a* @ 5 17½*d* | |
| *Germany Bankers' Marks* | | | |
| High | 94 7-16 @ 94½ | 95 1-16*d* @ 95 1-16 | |
| Low | 94½ @ 94⅝ | 95 @ 95*x* | |
| *Amsterdam Bankers' Guilders* | | | |
| High | | 40 20 @ 40 22 | |
| Low | | 40⅛ @ 40 3-16 | |

Less: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus: *k* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah, buying, 50c. per $1,000 discount; selling, 75c. per $1,000 premium. Charleston, selling, $1 per $1,000 premium. New Orleans, bank, 25c. per $1,000 discount; commercial, 50c. per $1,000 discount. Chicago, 10c. per $1,000 premium. St. Louis, 60 @ 70c. per $1,000 premium. San Francisco, $1 75 per $1,000 premium.

**State and Railroad Bonds.**—Sales of State bonds at the Board are limited to $6,000 Virginia 6s deferred trust receipts at 24 to 24½.

A few bond issues have been active this week, but aside from these the market has been exceptionally dull and price movements without significance. The active features have been New York City 4½s, Interboro-Metropolitan 4½s and the Mexican Central issues. The former were irregular, selling down a point and recovering later to a fraction above last week's closing price. Interboro-Metropolitans steadily advanced during the early part of the week to 57¾, a gain of nearly 5 points, about half of which has been lost. The Mexican Central issues advanced an average of about 2 points on the prospect of consolidation with other systems under Government control. Some of the Rock Island issues have been notably strong.

**United States Bonds.**—Sales of Government bonds at the Board, $11,200 3s, coup., 1908-18 at 101½ to 101¾ and $5,000 4s coup., 1925, at 122½. Following are the daily closing quotations; *for yearly range see third page following.*

*This is the price bid at the morning board; no *sale* was made.

**Railroad and Miscellaneous Stocks.**—The most noteworthy feature of the stock market this week has been, as noted above, the small amount of business transacted. At the same time prices have, in most cases, fluctuated within a narrow range, and there has been practically no change in the tone or general tendency of the market from day to day. Of a list of 25 active stocks, 13 close higher and 10 lower than last week.

Among the exceptions is Delaware & Hudson, which declined 4 points on the announcement of an action to prevent the payment of a dividend, and recovered a large part of the decline. Missouri Pacific has covered a range of nearly 3 points and St. Paul, Great Northern, Canadian Pacific and Southern Pacific have been relatively strong—St. Paul advancing over 2 points to-day.

The copper shares have been strong on reports of a large reduction in the supply of metal on hand. General Electric is a point higher than at the close last week, and Sugar Refining nearly 2 points. National Lead was a strong feature in to-day's market and closes with a net gain for the week of almost 4 points.

*For daily volume of business see page 538.*

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

**Outside Market.**—What little interest has appeared in the market for unlisted securities this week has been mainly in the copper stocks, and even among these only a few show any material change in price. Trading has been of the same dull character as for some time past. Butte Coalition was the conspicuous feature, recording an advance from 17⅝ to 21⅛, with a recession towards the close to 20. The final transaction to-day was at 20¼. Boston Consolidated Copper from 15 sold down to 14¼, recovered to 15 and ends the week at 14⅞. Cumberland-Ely moved off from 7⅜ to 7⅛ but rose finally to 7⅝. Greene Cananea after a fractional decline to 7⅞ moved up to 8½ and closes to-day at 8⅜. Nevada Consolidated Copper declined from 9⅜ to 9, rose to 9½ and ends the week at the high figure. Nevada-Utah advanced from 4 to 4¼, dropped to 3⅞, the final quotation showing a recovery to 4⅛. Trinity continues to advance, a gain of 2½ points to 15½ being recorded this week. United Copper common sold down from 6⅛ to 5¾ and up to 6. Goldfield Consolidated was traded in between 4 11-16 and 5, and Nipissing between 6⅛ and 6⅜. The situation in the industrial department continues of the same dull and monotonous character. American Tobacco lost 5 points to 240. Bay State Gas moved up from 15-16 to 1 3-16. Standard Oil rose from 485 to 489, fell to 482, and closed to-day at 482½. Chicago Subway sold up from 16 to 16½ and on Thursday jumped to 17¼, with sales reported to-day at this figure. Consolidated Steamship 4s went down from 9¾ to 9½ and up to 10.

Outside quotations will be found on page 538.

# Investment and Railroad Intelligence.

## RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

| ROADS. | Latest Gross Earnings. | | | July 1 to Latest Date. | |

**Net Earnings Monthly to Latest Dates.**—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get a return of this character, and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say, about the 20th of the month. *Besides the companies furnishing monthly returns, we have added this time the roads which make quarterly returns.*

a Net earnings here given are after deducting taxes

b Net earnings here given are before deducting taxes

*c* Figures revised for previous year so as to accord with the new classification of earnings and expenses now required by the Inter-State Commerce Commission.

*d* The company now includes the earnings of the Denver Enid & Gulf RR., Pecos Valley system and Santa Fe Prescott & Phoenix Ry. in both years. For December, taxes and rentals amounted to $215,970, against $189,883 in 1906; after deducting which, net for December 1907 was $2,286,014, against $2,620,144 last year. For period from July 1 to Dec. 31, taxes and rentals were $1,418,486 in 1907, against $1,155,691 in 1906.

*e* No comparative figures are given, owing to new classification ordered by Inter-State Commerce Commission. For January taxes were $94,300 and for period from July 1 to Jan. 31 were $660,100.

*f* Figures here are on the old basis of accounting—not the new, or Inter-State Commerce Commission method, as the latter admits of no comparison with previous year.

*g* These results are in Mexican currency.

*h* For Jan. 1908 additional income was $291, against a deficit of $7,702 in 1907, and for period from July 1 to Jan. 31 was $33,110 in 1908, against $29,773 last year.

*k* For Jan. 1908 additional income was $15,746, against $20,370 in 1907 and for period from July 1 to Jan. 31 was $102,087 in 1908, against $154,462 last year.

*n* These figures represent 30% of gross earnings.

*o* By reason of the system of accounts required by the Inter State Commerce Commission, the gross earnings and expenses for the current periods do not include the operations of Street Rys., Steamboats and Grain Elevators. Under the new system, only the net results from operation of such properties is stated, and this is included in "Income from other sources." Furthermore, under the new method only a portion of the monthly balance due for use of equipment belonging to other roads in the interchange of traffic is charged to expenses, the larger part now appearing under "Other deductions from income," along with interest, rentals, taxes, &c

*p* For December additional income was $6,542, against $11,660 in 1906, and for period from July 1 to Dec. 31 was $52,583 in 1907, against $18,685 in 1906.

*r* For December 1907 net from Coal Department was $48,913, against $216,189 last year, and from Jan. 1 to Dec. 31 was $957,482 in 1907, against $1,049,497 last year.

*s* After allowing for miscellaneous income, which was a debit item for the Month of December, total net earnings were $262,799 in Dec. 1907, against $369,066 last year, and for period from July 1 to Dec. 31 were $2,066,186 this year, against $2,448,340.

*v* The operating expenses for 1907 contain $553,141 account depreciation of equipment as per new ruling of Inter-State Commerce Commission. No similar charge was made in 1906, hence for accurate comparison this amount should be added to the balance of $8,451,064, making net earnings $9,004,205 in 1907, against $10,024,906 in 1906.

*x* These figures are on the basis of accounting required by the Inter-State Commerce Commission.

*y* For Dec., additional income and net profits from coal, &c., were $41,644 this year, against $61,120 last year, and from July 1 to Dec. 31 were $383,410 this year, against $245,155 last year.

*z* Includes $85 other income for Jan. 1908, against $441 in 1907, and for period from July 1 to Jan. 31 includes $681 in 1908, against $3,245 last year; beginning July 1, the earnings of the Dublin & Southwestern RR. are included in both years.

**Interest Charges and Surplus.**—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below these charges.

b Included in fixed charges are expenditures for renewals, additions and improvements amounting to nil for January 1908, against $37,186 in 1907, and from July 1 to Jan. 31 were $712,431 in 1907.
c After allowing for miscellaneous charges and credits to income.
d These figures are after allowing for other income and for discount and exchange. The sum of $10,000 is deducted every month from surplus and placed to the credit of the Renewal Fund.
x After allowing for other income received.

### Delaware Lackawanna & Western RR. Co.

*(Report for Fiscal Year ending Dec. 31 1907.)*

President W. H. Truesdale says in part:

*Earnings.*—The earnings of the company for the year 1907 were the largest for any year in its history, all sources showing substantial increases. The various mining operations were run to their full capacity, and the company mined, transported and sold substantially more anthracite coal than in any previous year. The marked increase in earnings from transportation of coal was due to the suspension of mining operations for six weeks early in 1906 by reason of the mine employees quitting work. The average rates received per passenger mile and per ton mile show slight reductions.

The increase in cost of maintenance and operation was slightly larger in proportion than the increase in gross earnings. Very general and substantial increases in wages were made to nearly all classes of employees; also prices of all kinds of supplies and materials were abnormally high.

The cost of maintenance of way and structures was substantially the same as during the preceding year. This item covers betterments and additions of an important character, the aggregate cost of which was $2,003,764, the leading items being:

*Extraordinary Expenditures Aggregating* $2,003,765 *Included in Operating Expenses in* 1907.

| | |
|---|---|
| New passenger and freight stations, water tanks, roundhouses, coaling and ash-handling facilities, &c | $401,077 |
| Sundry improvements at Hoboken (yards, tracks, coach house, &c.) | 270,846 |
| New yards, new yard tracks, sidings and passing tracks | 400,798 |
| Bridges, trestles and culverts ($261,296) and track elevation at Buffalo ($93,607) | 354 903 |
| New third track ($104, 516); elimination of grade crossing ($17,108) | 121,624 |
| New interlocking and signal apparatus | 132,976 |
| Miscellaneous | 321,541 |

12,700 tons of new steel rails, with fastenings, were used during the year, being 2,068 tons less than in 1906. This company has made a contract for open-hearth rail for a portion of its 1908 requirements at a somewhat higher price than for Bessemer, with the expectation that it will get a rail of superior wearing qualities. 687,985 new ties were used, being 58,313 more than during 1906, and on a basis of 12 cents per tie higher than in any previous year.

The cost of new steel bridges and masonry was substantially less during 1907 than during any recent year, due to the important work done in previous years. The substantial increase in cost of road crossings, &c., was due to the elimination of several dangerous grade crossings of highways; expenditures of this character will continue from year to year.

*New Equipment—Renewal and Betterment Account.*—The expenditures for new equipment during the year show the following purchases, viz., 25 locomotives, 17 passenger train cars and 2,373 freight cars, cost of all of which, less value of old equipment sold or scrapped, was $2,507,528, being much less than during 1906, but more than sufficient to replace old and worn-out equipment.

*Analysis of Renewal and Betterment Account* ($3,820,088) *Year* 1907.

| | | | |
|---|---|---|---|
| New steel bridges | $231,051 | New floating equipment | $445,119 |
| New rolling stock | 2,507,528 | Kingsland shops | 230,260 |
| Scranton station, shops, &c | 360,924 | Miscellaneous | 45,206 |

Notwithstanding the large increase in the amount of freight traffic handled (about double) during the past nine years, the total number of freight cars now owned is about the same as at the beginning of the year 1900. The modern cars, however, are from 60 to 100 % greater capacity than those generally in use in 1900.

*Improvements, &c.*—The construction of the new passenger station at Hoboken, with appurtenant coach-yard facilities and track layout with interlocking plant, has progressed satisfactorily and is nearing completion. The work of increasing and modernizing the freight and water terminal facilities at Hoboken has been prosecuted vigorously and in part completed.

The construction of a second tunnel for two additional main tracks through Bergen Hill, Hoboken, has progressed satisfactorily, and it is expected that by the middle of 1908 the new tracks will be in operation, relieving congestion in train movements during the rush hours.

The completion of the third track up the west side of the Pocono Mountains, Moscow to Gouldsboro, has been delayed by legal proceedings which are now out of the way, and the work is progressing satisfactorily.

The building of the new locomotive shops, passenger station and office building at Scranton is well under way.

Further progress has been made in protecting different points with interlocking plants and block signals at a cost of $132,976, the most important portions of the lines being now equipped with these safety appliances.

Under an agreement made with the city of Buffalo some years ago, the company was obligated to elevate its tracks over certain streets in that city. This work was begun during the past year and for the most part completed, at an expenditure of $93,606.

Much was accomplished during the year in ballasting with rock the main tracks of the company, and this work will be prosecuted more vigorously than ever during the coming year.

*Coal Department.*—The demand for all sizes of coal produced was urgent throughout the year, and the company's stock of coal on hand at all points at the close of the year was about 13,000 tons less than at the beginning, notwithstanding that the total production during the year was greater by several million tons than in any previous year.

In this situation may be found, and no where else, all there is to the so-called "Anthracite Coal Trust," about which so much misinformation has been written and given to the public through various channels in recent years, as applied to the large anthracite coal-producing interests of the country.

For the reasons given in previous reports, the mining of anthracite coal becomes increasingly difficult and expensive each year. This company, moreover, is now making special efforts to mine every ton of coal that can be won at less than a prohibitive cost, including the thin surface veins of coal, some of the old abandoned workings, and more of the lower thin veins of coal than hitherto. During the year about 400,000 tons of coal have been mined from the surface veins and old workings, which, until very recently, it has never been thought available to mine.

[The extraordinary expenditures by the coal department for improvements, &c., during the year aggregated $783,912.—Ed.]

The entire anthracite industry is on a very stable, healthy basis. While all other staple commodities have of late years been advanced in price again and again, the price of anthracite coal remains as in 1902. The outlook for 1908 is promising. Thus far the anthracite industry is much less embarrassed by the financial troubles of the country than any other important industry.

*Financial.*—On Mar. 1 last the first consol. 7 % bonds of the Oswego & Syracuse RR. Co., $438,000, were paid off by this company at maturity, and they are now held among its treasury assets. Also on Sept. 1 our outstanding first mortgage bonds, $3,067,000, matured; only $15,000 remain unpaid. This company is thereby left in a most unusually unique position among the great transportation companies of this country as respects its capital obligations.

*General Remarks.*—At the close of the year 1907 the company's railway and properties generally were in most excellent condition, and the important improvement work in hand was well under way and being prosecuted to early completion.

A new cut-off line has been located between Slateford, Pa., and Port Morris, N. J., with reduced grades, light curvature, no tunnels and about 11½ miles shorter than the present route, which is both crooked and hilly, and the most congested portion of the main line. The Board of Managers has authorized preliminary steps to be taken by way of organizing a new company, the purchase or condemnation of right of way, &c., for the construction of this new line. It will require about three years to build it, and it is believed that the contracts for so doing can be let to advantage in the near future.

The present prospects for the transportation interests of the country are not at all satisfactory, and the outlook for 1908 as respects railway earnings, gross or net, are anything but encouraging. Whatever the cause, there can be no doubt there has been engendered a widespread distrust of the management and financial standing of all the railways of the country, whether good, bad or indifferent. It is plainly the plan and purpose of the politicians of the country to make the great railway interests and the large investments in them the pawns in their game of politics. The general and sweeping denunciation of managing authorities of all railways, whether so intended or not, has had the effect of weakening authority over their employees, and created a spirit of disaffection and disloyalty to the companies they serve that is most appalling to those having the responsibilities for the safe conduct of the transportation of the country.

No greater blow has been dealt the railway interests of the country, none that will react more quickly or with greater permanency on the public at large, than the legislation that has been enacted and other that is proposed and pending, the effect of which is to take from those in charge of the management of railways the reasonable and proper control of these properties, including especially the army of employees engaged in their service in various capacities.

The management of this company is pleased to state that only to a comparatively limited extent has any class of its employees apparently been affected by the conditions and tendencies described above. It has noted indication of these influences having had their effect in some degree with certain of its employees, and it cannot deplore this too greatly.

*Constitutional Rights.*—It is the desire of the management to conform to all reasonable regulations that have been made effective, either by national or State authorities, for the government of the carriers in the performance of their public responsibilities. It is deemed, however, the company's duty at all times to contest in the courts any questions arising from the passage of laws which involve rights of the company that are guaranteed by the fundamental law of the land, the Constitution of the United States.

## Chicago City Railway.

*(Report for Fiscal Year ending Dec. 31 1907.)*

President T. E. Mitten at the annual meeting said in substance:

*General Results.*—The settlement ordinance passed by the City Council Feb. 11 1907, and ratified by a vote of the people April 2 1907, was by its terms made effective as of Feb. 1 1907. The result obtained from the operation of your property for the year 1907 is, therefore, composed of eleven months' operation under the partnership arrangement, as contained in the ordinance, and one month (January) for individual account.

The passenger earnings for the year were $8,087,001—an increase of 4.1 %.

With an increase of 3.99 % in passengers paying fare, there was a slight decrease in the per cent of passengers using transfers. The statistics show that but 59.83 % of passengers paying fare took advantage of transfers, as against 60.59 % for the preceding year; the average fare being unchanged, namely, 3.1 cent per passenger carried.

As the operating expenses for eleven months of the year were arbitrarily fixed at 70 %, to comply with the provisions of the ordinance, there is no opportunity for comparison as against the result of previous years.

*Additions and Improvements.*—Three hundred cars of the new "pay-as-you-enter" type have been purchased, 150 of which have been placed in service, resulting in almost entirely eliminating the large number of accidents brought about by passengers attempting to board or leave moving cars. The proportion of fares collected to passengers carried has also been materially increased, due to the collection of fares by conductor upon the rear platform.

The entire number of double-truck cars required to be supplied under the ordinance during the 3-year period has now been secured.

Thirty-one and one-half miles of new track has been reconstructed during the past year under the provisions of the settlement ordinance, of which approximately ten miles was in replacement of cable tracks removed.

Three new modern sub-stations, suitably located for the distribution of power, have been sufficiently completed to permit of their being put into service.

Two new car stations of large capacity and modern equipment are practically completed, which, when in use, will make possible the systematic and economical inspection and cleaning of cars.

*Ordinance.*—It is a source of gratification that, as the provisions of the settlement ordinance, by which the city participates in the net earnings of the company, become more generally understood, the public, as well as the city authorities, are showing an increasing willingness to co-operate with the management in removing obstructions to rapid transit and in such of its other undertakings as have clearly for their purpose the improvement of the service.

*INCOME ACCOUNT FOR CALENDAR YEAR 1907.*

[Including the 11 months ending Dec. 31, under terms of ordinance of 1907, with net income for month of January 1907 under individual operation prior to date when said ordinance took effect. The dividends, as here shown, include the "extra" 2¼ % declared payable Feb. 10 1908.]

| | |
|---|---|
| Passenger receipts (January excluded) | $7,460,635 |
| Receipts from other sources (January excluded) | 102,059 |
| Total receipts for 11 months under ordinance | $7,562,694 |
| Operating expenses, taxes, renewals and interest on capital investment, as approved by Board of Supervising Engineers | 6,410,272 |
| Net earnings for 11 months | $1,152,421 |

| 1900 | 5,506,314 | 5,543,180 | 1,680,301 | 12 | 12.80 |

* Including the "extra" 2¼ % paid in Feb. 1908, which we are informed came out of the earnings of 1907.—Ed.

*STATISTICS FOR 1906 AND 1907.*

| | 1907. | *Per Cent Inc.* | 1906. | *Per Cent Inc.* |
|---|---|---|---|---|
| Fare passengers | 162,422,148 | 3.99 | 156,177 363 | 7 34 |
| Transfer passengers | 97,171,371 | 2.69 | 94,623,106 | 7.63 |
| Fare and transfer passen'rs | 259,593,519 | 3.50 | 250,800,469 | 7.45 |

The company owns 805 double truck cars, 251 single-truck, making a total of 1,056.—V. 86, p. 475.

## Central Leather Co.

*(Report for Fiscal Year ending Dec. 31 1907.)*

President Edward C. Hoyt says:

On the basis (1) of the proportion of the stock of the United States Leather Co. held by it, (2) of the net earnings of that company for the year ended Dec. 31 1907 and (3) of the net earnings of the subsidiary companies of the Central Leather Co., the earnings of the Central Leather Co. for the year ended Dec. 31 1907 were $4,182,272 (against $6,533,994 in 1906).

*INCOME ACCOUNT.*

## GENERAL INVESTMENT NEWS.

### RAILROADS, INCLUDING STREET ROADS.

**American Railway Association.**—*Reduction of Demurrage Rate Ratified.*—The proposition to reduce the demurrage charge on foreign freight cars from 50 to 25 cents a day has been approved by the requisite number of roads and will go into effect on Sunday. The New York New Haven & Hartford will re-enter the Association on the condition that it be given due notice in case of any advance in the rate. —V. 86, p. 419.

**Atlantic Coast Line of Connecticut.**—*Dividend Reduced.*—The directors of this holding company on Feb. 20 declared a quarterly dividend of 2% on the $12,600,000 stock, payable March 10 on stock of record Feb. 29, thus reducing the annual rate from 10 to 8%.

*Cash Dividend Record (Per Cent).*

| '97. | '98. | '99. | '00. | '01. | '02. | '03. | '04. | '05. | '06. | 1907 | 1908 |
|---|---|---|---|---|---|---|---|---|---|---|---|
| 3½ | 4 | 4½ | 5 | 4½ | 6½ | 8 | 8 | 9 | 10 | 10 (2½ Q M). | Mar. 10, 2 % |

—V. 85, p. 1342.

**Buffalo Rochester & Pittsburgh Ry.**—*Listed.*—The New York Stock Exchange has listed $1,602,000 consolidated mortgage 4½% bonds, due 1957, with power to the committee to add from time to time, but prior to Jan. 1 1909, $1,398,000 additional on notice that they had been sold, making the total authorized to be listed $3,000,000, all issuable under the mortgage for "present corporate purposes." Compare V. 86, p. 336, 419.

**Canadian Pacific Ry.**—*Debenture Stock Sold in London.*—The company, it is announced, has sold in London at slightly above par £2,000,000 ($10,000,000) consolidated perpetual 4% debenture stock.—V. 86, p. 51.

**Chicago & Alton RR.**—*Called Bonds.*—Twenty ($20,000) Mississippi River Bridge Co. bonds will be paid April 1 1908 at the First National Bank, No. 2 Wall St., N. Y.—V. 86, p. 167.

**Chicago City Railway.**—*Report.*—See "Annual Reports".

*New Officers.*—Simon R. Flynn, President of the Live Stock Exchange National Bank, Chicago, has been elected director to succeed S. M. Felton, who resigned. R. B. Hamilton, formerly Secretary, was elected Vice-President, and Thomas F. Hoffman, Secretary and Treasurer.

*Bonds Sold.*—The company recently sold an additional $4,000,000 of the 5% first mortgage bonds to the syndicate which took the earlier issue, including the Harris Trust & Savings Bank and First Trust & Savings Bank of Chicago, making the total amount outstanding $11,000,000. The new bonds are being offered by the syndicate. The issue is currently quoted at 95½.—V. 86, p. 475.

**Chicago Railways.**—*Sale of $2,500,000 First Mortgage 5% Bonds.*—The National City Bank and N. W. Harris & Co., both of New York, and associated institutions in Chicago, have placed this week $2,500,000 first mortgage 5% gold bonds, dated Feb. 1 1907 and due Feb. 1 1927, but subject to call at par and interest on any interest date. Interest payable Feb. 1 and Aug. 1 at the office of the trustee, the Harris Trust & Savings Bank, Chicago, or at the office of N. W. Harris & Co., New York City, at holder's option. Denomination $1,000. Coupon or registered form. The remaining $2,500,000 bonds purchased by the same parties have not yet been offered.

*Abstract of Letter from Chairman Henry A. Blair, Chicago, Feb. 20 1908.*

The company was organized under the laws of Illinois with a nominal capital stock of $100,000 for the purpose of taking over the systems of street railways formerly operated by the West Chicago Street RR. and North Chicago Street RR. companies. It owns and operates, without surface competition, 303 miles, measured as single track, on the north and west sides of the city. Under the terms of the franchise below mentioned, these properties will be reconstructed, re-equipped and maintained in a manner which will give to the 1,580,000 people in the territory served the best possible service.

*Capitalization of the Company.*

| | |
|---|---|
| Capital stock which has been made the basis of an issue of four series of "participation certificates" which will be issued to the stockholders of the old companies (per plan in V. 85, p. 1269, 1576) | $100,000 |
| First mortgage bonds which will be issued during 1908 | 5,000,000 |
| Consolidated mortgage bonds, series A, B and C, issued to meet the cash requirements of organization and in exchange for bonds, floating debt and other obligations of the old companies (of series A included in this $37,500,000, $6,767,200 have been deposited as security for an issue of not exceeding $8,000,000 5-year 5% collateral notes) | 37,500,000 |

*Earnings and Expenses Year ended Dec. 31 1907.*

| | |
|---|---|
| Gross earnings | $10,538,822 |
| Operating expenses, including taxes | 7,654,419 |
| Net earnings | $2,884,402 |

It will be noted that the net earnings are more than eleven times the interest charges on $5,000,000 first mortgage bonds. In view of the extensive improvements to be made immediately to the property and opportunities for future development, largely increased earnings are confidently expected.

The entire proceeds of the first mortgage bonds (including the proceeds of the $5,000,000, the estimated amount which will be issued during 1908) will be used to reimburse the company for reconstructing, re-equipping and extending the properties under the supervision of the Board of Supervising Engineers, as required by the franchise. The valuation of the existing properties recognized by the ordinance (approximately $30,500,000) will, therefore, remain as a minimum continuing equity behind the first mortgage bonds. The authorized issue of the bonds is limited to the aggregate of the amounts approved from time to time by the Board of Supervising Engineers, and there will be endorsed on each bond a certificate of the City Comptroller identifying the bond as being entitled to the first lien authorized by the ordinance, which provides that "as against the city and any licensee of the city and any and all other persons having or claiming to have any interest or benefit under this ordinance, the liens securing said bonds and obligations shall at all times be deemed and recognized to be a first lien upon the entire street railway system hereby authorized, including all rights granted to the company by this ordinance."

Under the division of surplus earnings provided for in the ordinance, the city is an active partner of the company, at least equally interested in increasing its earnings. The first mortgage bonds are, therefore, in effect, quasi-municipal securities.

*Franchise.*—An ordinance dated Feb. 11 1907 (V. 84, p. 1123), approved by the electors of the city on April 2 1907, granted the company a 25-year franchise. Under the ordinance the property as of Feb. 1 1907 is recognized as approximately $30,500,000 on an appraisal by the city's engineers. The ordinance grants the city an option to purchase all of the property forthwith, owned and operated at any time during the life of the franchise at a price equal to the above-mentioned valuation, plus all expenditures since Feb. 1 1907 for reconstruction and extensions, including any amounts advanced to the city for the construction of subways in the down-town business district.

In case the property is not purchased prior to the expiration of the present franchise, the city covenants that it will not thereafter grant to any other corporation a new operating system unless such corporation shall purchase the property of said company at said price. The city at any time prior to 1927 may also sell the company to sell its property to any other licensee corporation determined by the city, or may purchase the property itself for municipal ownership with no requirements as to municipal operation, but, in either such case, the price paid shall be 20% more than the price above mentioned.

The franchise provides for a straight 5 cent fare with universal transfers. The city is entitled to 55% of the surplus earnings, after first providing for all operating expenses, including taxes, maintenance and depreciation and 5% upon the value of the properties as increased from time to time.

*Management.*—The trust agreement under which the participation certificates of the company are issued provides for the control of the company by the following trustees:

A. C. Bartlett, of Hibbard, Spencer, Bartlett & Co.; director The Northern Trust Co. and First National Bank of Chicago.
Charles H. Hulburd, President Elgin National Watch Co.; director Illinois Trust & Savings Bank.
Albert A. Sprague, director The Northern Trust Co. Commonwealth Edison Co., Chicago Telephone Co.
Chauncey Keep, trustee Estate of Marshall Field; Vice-President Illinois Trust & Savings Bank; formerly in Abrahams' Loan & Trust Co.
Charles G. Dawes, President Central Trust Co. of Illinois; formerly Comptroller of the Currency.

During the life of the first mortgage bonds a finance committee will have direct supervision of the finances of the company, vacancies in this committee to be filled only upon the written approval of the mortgage trustee. This committee is now as follows: Chauncey Keep, Henry A. Blair and B. A. Eckhart, director Continental National Bank and Illinois Trust & Savings Bank (the trustee under mortgage).

*Sale of Gold Notes.*—The $4,250,000 of 5-year 6% collateral gold notes dated Feb. 1 (authorized amount $5,000,000), issuable under the reorganization plan, underwritten by a syndicate of Chicago banks, were offered this week at 97¾ and interest, and practically all re-sold. The notes are subject to call on or after Feb. 1 1911 at par and interest.

The authorized issue of $5,000,000 is secured by deposit in trust of $6,767,200 consolidated mortgage Series A 5% gold bonds, or at the rate of $1,353.40 Series A bonds for each $1,000 note issuable. Consolidated "A" bonds are a part of the $21,600,000 Series B and C bonds authorized under the mortgage. The net income of the property for 1907 was equal to four times interest charges on the notes and the $9,132,800 consolidated mortgage Series A bonds outstanding.

*Estimated Earnings.*—A circular gives the following estimated earnings for 1908:

| Cal. Year. | Gross Earnings. | Net earn's Taxes. | Int. on 1st M. bds. | Int. on Coll. notes | Int. on Coll. A bds. | Bal. for Jun. Sec. |
|---|---|---|---|---|---|---|
| 1908 | $10,586,822 | $2,961,462 | $153,409 | $235,000 | $565,812 | $2,114,090 |

V. 86, p. 420, 284.

**Choctaw Railway & Lighting Co. of McAlester, Okla.**—*Increase of Stock.*—This company on Feb. 19 filed at Guthrie, Okla., a certificate of increase of capital stock from $500,000 to $1,000,000.—V. 81, p. 264.

**Columbus Delaware & Marion Ry.**—*Stock Increase.*—The shareholders will vote March 27 on increasing the capital stock from $2,500,000 to $3,000,000 or such other amount as may be fixed by said meeting.—V. 80, p. 117.

**Delaware & Hudson Co.**—*Temporary Injunction.*—Justice Platzek on Feb. 25 granted an order to show cause, returnable next Monday, why an injunction should not be granted restraining the payment of the quarterly dividend of 2¼% on March 16 next.

The application was made by former Justice Rufus B. Cowing on behalf of three holders of small amounts of the company's securities who allege that the assets have been impaired by the injudicious purchase of subsidiary companies at an excessive valuation, and that "if these properties were written down to their intrinsic worth on the books of the parent company, the Delaware & Hudson would have a deficit instead of a surplus." The same interests at the annual meeting in May last questioned the propriety of the investments referred to. Compare V. 84, p. 1182. The company on Wednesday announced that none of the three persons who obtained the injunction is an owner of record of either stock or bonds.—V. 86, p. 337, 285.

**Delaware Lackawanna & Western RR.**—*Report.*—See "Annual Reports."

*New Director.*—William Fahnestock of the banking firm of Fahnestock & Co., New York, has been elected to the board of managers to succeed Samuel Sloan, deceased.—V. 85, p. 1401.

**Des Moines (Ia.) City Ry.**—*Report.*—For calendar year 1907 as reported to city authorities:

| | | | | | |
|---|---|---|---|---|---|
| Gross earnings | $779,059 | Deduct | Taxes | | $21,596 |
| Operating expenses (incl $14,231 "extraordinary") | 559,550 | do | Int. on bonds | | 153,040 |
| | | do | Other interest | | 5,951 |
| Net earnings | $219,509 | Balance, surplus | | | $38,922 |

"This net income should be reduced $22,220 53 on account of depreciation. If this is done, the net income is $16,701." V. 84, p. 508.

**Duluth Rainy Lake & Winnipeg Ry.**—*Earnings, &c.*—We have received the following statement of earnings, &c.:

| *Calendar Year*— | 1907. | 1906. | *Increase.* |
|---|---|---|---|
| Gross earnings | $403,229 | $336,878 | $66,351 |
| Operating expenses | 255,232 | 200,616 | 54,616 |
| Net earnings | $147,997 | $136,262 | $11,735 |

On Aug. 1 1907 the company adopted the system of bookkeeping prescribed by the Inter-State Commerce Commission; consequently, $11,398 was charged against operating expenses and covered depreciation of equipment for the last five months of the year.

Although the entire road was practically completed Dec. 15 1907, the average main line mileage in operation for both 1906 and 1907 was only 48 miles.

The bridge over the Rainy River, making connection with the Canadian Northern RR., is now nearing completion, and through traffic between Winnipeg and Duluth will be inaugurated April 1. The line is now completed and in operation to the Canadian boundary.—V. 85, p. 1518.

**Detroit Toledo & Ironton Ry.**—*Receiver's Certificates.*—Judge Swan in the United States Circuit Court at Detroit on Feb. 25 authorized the issuing of $300,000 receiver's certificates, of which $100,000 will be put out at once. The proceeds will be used, it is said, to meet "interest on prior liens, taxes and operating expenses." The petition is quoted as stating that with a falling off of 50% in gross receipts, the loss in net income, owing to economies, was only 15%.

*Circular to Holders of Collateral 5% Notes, due Dec. 1 1908.*—Charles H. Gilman, of Portland, Me., and Edmund Seymour, 45 Wall Street, New York, have been elected members of the noteholders' committee to succeed Leopold Kleybolte and Newman Erb, resigned. The other members are Joseph Ramsey Jr., 100 Broadway, New York, Chairman; Hugh H. Harrison, New York; and Allen T. West, St. Louis. A circular dated Feb. 24 says in substance:

This committee was organized to protect the interests of holders of the collateral notes, at the request of those owning or controlling a majority of the aforesaid notes. Two members having resigned (V. 86, p. 480) the committee, after conference with note holders, elected Charles H. Gilman and Edmund Seymour to fill the vacancies. No member of this committee has the slightest interest in any of the securities of the company, or affiliation with any interest which is opposed to the full protection and final payment of the collateral notes.

We are of the opinion that the collateral for the notes, which includes $5,000,000 consolidated mortgage bonds of the company (a majority of the issue) and 30,010 shares preferred stock and 57,930 shares of common stock of the Ann Arbor RR., being three-fourths of the preferred and two-thirds of the common stock of that company, have an intrinsic value which will, if properly conserved, result in a settlement of the notes satisfactory to all holders.

The consolidated mortgage bonds, of which $2,775,400 have been sold, $5,000,000 pledged as collateral to your notes, and the balance as collateral to various loans, would, under foreclosure sale, carry the equities in the D. T. & I. Ry. Co., subject to $8,748,000 of underlying bonds, and statements made to the committee show that the company can earn the fixed charges on these underlying bonds.

The sale of the Ann Arbor stock will give the purchaser control of a railroad whose surplus net earnings for the year ending June 30 1907, after deducting all charges, taxes, improvements, &c., were $377,000, which is equal to 5% on preferred and common stocks and for the year 1906 were over $400,000.

A large number of notes has already been deposited and pledged with this committee. We request the support of every noteholder and the early deposit of their notes with The New York Trust Co., New York, or its agents for this purpose—The St. Louis Union Trust Co., St. Louis, Mo., and The Northern Trust Co., Philadelphia, Pa. All communications for the committee should be addressed to Walter L. Worrall, Secretary, 30 Broad Street, New York City; telephone address, 1484 Broad, New York.—V. 86, p. 480, 337.

**Dry Dock East Broadway & Battery RR., New York.**—*Receivers' Certificates Authorized.*—See Third Ave. RR. below.—V. 86, p. 337.

**Easton & South Bethlehem Transit Co.**—*Guaranteed Bonds Offered.*—Edward B. Smith & Co., Philadelphia and New York, and Bioren & Co., Philadelphia, are offering at par and interest the remainder of the authorized issue of $500,000 first mortgage 5% bonds, guaranteed, principal and interest, by the Easton Consolidated Electric Co. Compare V. 84, p. 1307.

**Erie RR.**—*No Dividend Action.*—The directors took no action this week on the dividend question and it is generally believed that the declaration has been indefinitely postponed. See official statement in last week's "Chronicle."

*Equipment Trust Agreement.*—The company has filed an equipment trust agreement dated Oct. 1 1907 to secure an issue of $3,040,000 5% gold equipment notes, Series N, due in semi-annual installments of $152,000 each from April 1 1908 to Oct. 1 1917, both inclusive. Denomination $1,000. The American Car & Foundry Co. is the vendor and the Columbia Trust Co. of New York the trustee. The trust equipment consists of 3,000 steel under-frame 40-ton box cars costing $3,480,700, of which $440,700 was paid in cash and the remainder is represented by these certificates. Interest on the certificates is payable April 1 and Oct. 1 at First National Bank, New York.

*Tunnel Connection into New York.*—President Underwood is quoted as saying:

The contract between the Erie RR. and the Hudson (Tunnel) Companies has already been signed and we can make connections with the new tunnel within a few months. The Erie will positively connect with the new tunnel. Compare "Hudson Companies" below.—V. 86, p. 480, 228.

**Forty-Second Street Manhattanville & St. Nicholas Ave. RR., New York.**—*Receivers' Certificates Authorized.*—See Third Ave. RR. below.—V. 86, p. 337.

**Gulf & Ship Island RR.**—*Offering of Short-Term Mortgage Bonds.*—Fisk & Robinson, New York, Boston and Chicago, are offering on a basis to yield 6¾% on the investment, $750,000 of the authorized issue of $1,000,000 "mortgage coupon gold 6% bonds of 1909-1911," dated Feb. 1 1908 and due $250,000 April 1 1909, $250,000 April 1 1910 and $500,000 April 1 1911. Interest payable April 1 and Oct. 1. Coupon No. 1 will be for a period of two months. Metropolitan Trust Co. of New York, trustee. A circular says:

The total authorized issue under the mortgage of 1909-1911 is $1,000,000. The above bonds will be secured upon the entire property, subject only to the lien of the "first refunding and terminal mortgage." By the terms of the company's charter, its indebtedness is limited to $20,000 per mile of road. The total authorized issue of bonds under the "first refunding and terminal mortgage" is $5,000,000, of which about $200,000 is held in the sinking fund, which amounts to about $60,000 annually.

The "mortgage coupon gold bonds" of 1909 1911 are issued for the purpose of paying for the cost of construction of 60 miles of road, completed within the past two years, against which no securities have heretofore been issued. Including the above mileage, the company owns and operates 307 miles of standard-gauge railroad. The main line extends from a connection with the Illinois Central RR. at Jackson, the capital of Mississippi, to Gulfport, Miss., one of the most important ports located on the Gulf of Mexico.

*Earnings for Years ending June 30 and Five Months ending Nov. 30.*

| | Gross. | Net. | Other Inc. | Charges. | Balance. |
|---|---|---|---|---|---|
| 1906-07, year | $2,485,989 | $601,991 | $24,564 | $309,083 | $317,472 |
| 1905-06, year | 2,138,779 | 681,668 | 25,392 | 305,784 | 401,275 |
| 1907, 5 months | $1,029,070 | $232,156 | $9,515 | $138,987 | $102,684 |
| 1906, 5 months | 974,396 | 232,747 | 12,037 | 146,995 | 97,789 |

The amount required for interest on the "mortgage coupon gold bonds" of 1909-1911 is $60,000. The company has paid dividends of 4% per annum on its outstanding capital stock ($5,000,000 to 1904, $5,500,000 in 1905, $6,000,000 thereafter) for the past five years.

The retirement of the "mortgage coupon gold bonds" as they mature is provided for by the sale to the stockholders of an equivalent amount of capital stock at par, to be taken up and paid for on the dates at which the bonds are payable.

Upon the issue of the "mortgage coupon gold bonds" of 1909 1911, the company will have no floating debt; its current assets will be in excess of its current liabilities, and, in addition, the company will have about $200,000 on hand in materials and supplies.

The company operates under a special charter which enables it to fix rates irrespective of the Railroad Commission of the State, provided the same are not in excess of the maximum rate allowed by its charter. At all times the company's rates have been below the maximum rates permitted. This question has been directly raised and passed on by the Supreme Court of the State and the charter has been fully sustained by the decision of that court.

*Sale of Stock to Provide for Redemption of Bonds.*—See above bond offering.—V. 86, p. 285.

**Havana Electric Ry.**—*Report.*—For year 1907:

| Cal. Year. | Gross Earnings. | Net Earn. | N. Y. Lgrns. Stages, &c. | Fixed Chgs. | Dividend on Pref'rd Stock | Balance Surp. |
|---|---|---|---|---|---|---|
| 1907 | $1,810,488 | $846,756 | $78,796 | $553,877 | (5%) $225,760 | $91,975 |
| 1906 | 1,570,302 | 642,501 | | | (4%) 200,000 | |

The gross earnings, including those from Stages, aggregated $2,143,122 in 1907, against $1,919,103 in 1906.—V. 85, p. 40.

**Hocking Valley Ry.**—*Offering of New Equipment Notes.*—William Salomon & Co., New York, are offering by advertisement on aonther page, at a price to net the investor 6% per annum, a block of this company's 4% equipment gold notes of $1,000 each (c*), dated Feb. 15 1908, interest Feb. 15 and Aug. 15. Authorized and outstanding, $500,000. Principal due in twenty semi-annual installments of $25,000 each, from Aug. 15 1908 to Feb. 15 1918 inclusive. Interest payable at office of Standard Trust Co. of New York, trustee. The Hocking Valley is controlled through ownership of a majority of its common stock by Pennsylvania and Vanderbilt interests. The Ohio Savings Bank & Trust Co., as agent, is offering the issue in Toledo. A circular says:

These notes were issued for the purchase of 500 steel underframe drop-bottom coal cars having a capacity of 100,000 lbs. each, now being constructed by the Ralston Steel Car Co. of Columbus, Ohio, at a cost of $617,470. Of this amount $117,470, or 19%, is to be paid by the Railway Company, partly in cash and partly in material at cost value, giving a margin of 23.5% on the par value of the notes. Title to the equipment remains with the trustee until all of the notes are paid.—V. 86, p. 229.

**Hudson Companies, Tunnel Railroads Connecting New York, Hoboken and Jersey City.**—*First Section of Tunnel Opened.*—President Roosevelt at Washington, D. C., on Tuesday touched the electric button that set in motion the passenger service on the first section of the company's tunnels, namely, the twin tube from Hoboken, N. J., to Morton St., New York, and thence northeasterly to 6th Ave. and 19th St., nearly three miles in all. A map of the system will be found on page 69 of the "Railway and Industrial" Section.

The tunnel was opened to regular traffic at 12:01 a. m. on Feb. 26 and is doing a large business.

*Uptown Terminal Building.*—The company or interests identified therewith are said to contemplate the construction of a 30-story hotel on 6th Ave., N. Y., between 32d and 33d streets, as part of the company's uptown terminal.

*Convertible Dollar for Dollar—Offering of "6% Secured Gold Notes" Convertible at Option of Holder into First Mortgage 4½% Bonds of Hudson & Manhattan RR. at par, and Secured Thereby on Basis of $1,500 Bonds for $1,000 Note.*—Harvey Fisk & Sons, as stated last week, are offering a block of the company's 6% secured gold notes at 98½ and interest, yielding over 6½% per annum on the investment. These notes are convertible at option of holder into first mortgage bonds of the Hudson & Manhattan RR. at par and are secured thereby on basis of $1,500 bonds for $1,000 note. The omission in our side-heading last week of the words "at par and secured thereby" caused a perversion of the facts.—V. 86, p. 480.

**Hudson & Manhattan RR.**—*Opening of Road, &c.*—See Hudson Companies above.—V. 86, p. 480.

**Idle Car Equipment.**—*Comparative Statement.*—The statistics compiled by the American Railway Association, it is stated, show the number of idle cars as follows:

*NUMBER OF IDLE CARS.*

| | 1908 | | | 1907 | | | |
|---|---|---|---|---|---|---|---|
| | Feb. 5. | Jan. 22. | Jan. 8. | Dec. 24. | Dec. 11. | Nov. 27. | Nov. 13. | Oct. 30. |
| No. of cars | 343,217 | 342,580 | 341,763 | 209,310 | 119,339 | 40,348 | 12,201 | 3,946 |
| No. of roads | 155 | 161 | 163 | 158 | 153 | 160 | 164 | 161 |

In the table above, as of Feb. 5 1908, 13,376 cars belonged to three Canadian lines.

**Illinois Central RR.**—*Suit to Enjoin Union Pacific Interests Withdrawn.*—Judge Ball on Monday, on motion of counsel for Stuyvesant Fish, dismissed the suit of the latter to enjoin the Railroad Securities Co. and the Union Pacific from voting on the $28,123,100 Illinois Central stock at the approaching annual meeting.

Mr. Fish issued a statement announcing the withdrawal of the suit on the ground that before the appeal could be presented to the court of last resort the terms of the directors to be elected by the Union Pacific interests will have expired. Compare V. 86, p. 480, 420.

**International & Great Northern RR.**—*Receivership.*—Owing to the inability of the company to meet the coupons due March 1 1908 on its $10,391,000 second mortgage 5% bonds dated 1881 and on $2,966,052 third mortgage 4% bonds dated 1892, Judge McCormick, in the United States Circuit Court at Dallas, Tex., on Feb. 26, upon application of the Mercantile Trust Co. of New York, as trustee, of the third mortgage, appointed J. F. Freeman, General Attorney for the Gould Southwestern system, as receiver for the property.

The company's notice to the New York Stock Exchange says that, while the coupons presented due Sept. 1 1907 and previously on the first and second mortgage bonds have all been paid, this is not the case in regard to the third mortgage coupons. A large amount of interest due September last and prior thereto on third mortgage bonds held by insiders and their friends has been allowed to accumulate, and until recently has not been pressed for payment. The interest on the third mortgage bonds held by the general public has, however, been paid to date.

Judge Freeman, the receiver, made substantially the following statement:

The suit was instituted by the Mercantile Trust Co. of New York, as trustee of the first mortgage, to foreclose the mortgage on account of default of the payment of a large amount of accrued and unpaid interest. The company and the owners of its stock decided that a receiver was necessary and acceded to my appointment.

In addition to defaulting in the payment of interest, the company owes a large amount of indebtedness, much of which is unsecured and past due.

Large improvements have been asked for by the State Railroad Commission, which, if carried out, would require a large outlay of cash, which it was impossible to raise at the present time and meet the accrued and accruing indebtedness.

As to current rumors of a contemplated receivership for the Texas & Pacific Railroad, they are absolutely without foundation in fact. There is nothing unusual, in my judgment, in the recent depreciation in Wall Street of the securities of what are commonly known as Gould railway and auxiliary properties. It is but the result of the present general financial condition. The same condition applies to the securities of all other railway interests.

Although the railway interests in the United States made a showing in their various reports to State and Inter-State commissions of large increased gross earnings, and apparent surpluses for the fiscal year ended June 30, still, owing to the fact that the operating expenses continued to increase, on account of the high prices of labor, material and general supplies, by the end of the calendar year, Dec. 31, the apparent surplus in June was wiped out, and in most instances a deficit shown. Earnings are daily decreasing, while fixed charges and operating expenses are practically as they were one year ago.

President George J. Gould adds the following:

The receivership is due to conditions and reasons almost entirely local.

While there has been an almost unprecedented falling off in revenues, due to the business depression prevailing in Texas and elsewhere, and affecting every branch of industry, this alone would not have caused the action now taken. At a time when revenues are the leanest and business at the lowest ebb, the company is called upon by the State Commission to make additions and improvements to its fixed and rolling plant and revisions of its property, involving the expenditure of several millions of dollars, and to proceed in these expenditures upon a schedule prescribed by the Commission without regard to current revenues or the ability of the company to secure funds to meet the expenditure.

These orders have come on top of a decrease in gross earnings for the last four months of $989,060, or a decrease at the rate of nearly $3,000,000 a year. It has been impossible to reduce expenses anywhere near proportionately. Even were the earnings as large as formerly, they would not provide for these extensive and immediate outlays, and the laws of Texas do not admit, even if financial markets did, of the issue and sale of securities to do the work required of the company.

What I have said is not intended as any criticism of the Texas authorities or of their action. I merely state the situation, and I have every confidence that the best results will be accomplished, and that the interests of the public and security holders will be fairly adjusted and properly and permanently protected by the course that has been pursued.—V. 85, p. 1518.

**Lackawanna & Wyoming Valley Rapid Transit Co.**—*Bonds Pledged.*—See Security Investment Co. under "Industrials" below.—V. 85, p. 1646.

**Market Street Elevated Passenger Railway, Philadelphia.**—*Offering of First Mortgage 4% Guaranteed Gold Bonds.*—Edward B. Smith & Co., Philadelphia and New York, have published an 8-page folder, with diagram, describing the property of the Market Street Elevated Passenger Railway Co. (elevated and subway) and its $10,000,000 4% first mortgage bonds, which are guaranteed by the Philadelphia Rapid Transit Co. The bonds are sold at a price that will net the investor about 4⅜%.

The circular says in part:

The Market Street Elevated Passenger Ry., when completed in the fall of this year, will, according to an official estimate, receive fully $1,500,000 in cash fares per annum. The only interest charge is $500,000, which is to be on the first mortgage bonds. Operating expenses are expected to be under 50%. This would leave a margin of more than $500,000 above the interest. The western part of the system has been in operation for more than a year, and is now carrying daily at 45,000 passengers daily. The earnings are not published separately, being included in those of the Rapid Transit Company.

The Market Street elevated and subway railroad is regarded as one of the best modern structures of its kind in this country. It constitutes a direct line through the centre of the entire width of Philadelphia, 7.57 miles, of which 5.50 are elevated and 2.07 underground.

The elevated road runs directly from a point near 69th St. and West Chester Pike, in Delaware County, the full length of Market St., Philadelphia, to the Schuylkill River; here a new four-track bridge, accommodating both elevated and surface cars, is crossed, and trains curve from it into the subway, which proceeds around both sides of the City Hall at Broad St., forming a loop, and extends to within a short distance of the Delaware River. The cars then pass to an elevated structure, which takes a northerly course to Arch St., curves around south and passes in front of the Market St., Chestnut St. and South St. ferries, the latter being the eastern terminal. There is a handsome terminal property at 69th St. (just over the border line of Philadelphia), which accommodates the tracks of several important suburban railways. The road is four-track on the Schuylkill bridge and in the western end of the subway, and is double-track throughout the rest of the system.

There are direct entrances to the Pennsylvania and Reading RR. stations from the subway and to the Pennsylvania RR. station from the Elevated at 32d St.; also to the principal department stores from the subway. The cost of the entire system will be approximately $20,000,000. The railway could stand independently as a valuable system, with the present power house at Laurel St. and Delaware Ave., which now supplies 12,000 kilowatts. It owns 80 modern passenger cars of the easy-access type and uses the third-rail electric system, the rails being covered. As a part of the Philadelphia Rapid Transit Company's system, it becomes the heart of the city scheme of transportation.—V. 84, p. 749.

**Metropolitan Street Ry., New York.**—*Additional Foreclosure Suit.*—The Guaranty Trust Co. of New York, as trustee of the general collateral trust mortgage of 1897, under which $12,500,000 bonds are outstanding on which the February 1908 coupons are in default, has brought foreclosure suit in the United States Circuit Court for the Southern District of New York.—V. 86, p. 337.

**Mexican Central Ry.**—*Merger Plan Completed.*—The final details of the merger of this company with the National RR. Co. of Mexico and the International and the Interoceanic roads have been completed and the papers formally signed, making the merger effective under the provisions of the plan which has already been outlined. A call for the deposit of securities will shortly be made. (Compare V. 85, p. 99.) —V. 86, p. 480.

**Midland Valley RR.**—*Authorized to Restore 3-Cent Passenger Rate.*—The company announces that, by a decision of the Corporation Commission of Oklahoma, it is authorized to reestablish the rate of 3 cents a mile for passengers. Under the provisions of the State Constitution, which the Corporation Commission has a right to revise, it had been reduced to 2 cents a mile.—V. 85, p. 1462.

**National RR. of Mexico.**—*Merger Plan.*—See Mexican Central Ry. above.—V. 86, p. 481.

**New Jersey Short Line RR.**—*Receivership.*—See New York-Philadelphia Co. below.

**New Orleans Railway & Light Co.**—*New Chairman.*—Hugh McCloskey of New Orleans was on Feb. 20 unanimously elected Chairman of the board of directors.—V. 86, p. 338, 168.

**New York-Philadelphia Co.**—*Receivership of Co. and Additional Controlled Properties.*—Judge Lanning in the United States Circuit Court on Feb. 21, on application of Stern & Silverman of Philadelphia, as holders of notes of the three companies, appointed J. Kearney Rice of New Brunswick, N. J., as receiver of the New York-Philadelphia Co. and David F. Carver of Newark receiver of the Trenton & New Brunswick and New Jersey Short Line railroads. A rule to show cause was issued, returnable March 2, why the receiverships should not be made permanent. A receiver for the Camden & Trenton RR., another controlled property, was ordered on Feb. 18. Compare V. 86, p. 479.

The complaint alleges that Feb. 1903 coupons on the $1,000,000 N. Y.-Phila. Co. 5% bonds remain unpaid and that the company owes $80,161 on demand notes for money loaned and $4,049 for State taxes due Feb. 1 1907 and $5,064 for taxes due Feb. 1 last.

*Protective Measures.*—Holders of Camden & Trenton 5% bonds of 1935, Trenton & New Brunswick 5s of 1932 and New York-Philadelphia Co. 5s of 1935 are requested, to communicate with A. A. Lisman & Co., 25 Broad St., this city. —V. 86, p. 481, 229.

**New York New Haven & Hartford RR.**—*Demurrage Charge.*—See American Railway Association above.

*Traffic Agreement Extended.*—The company's traffic agreement with the Central RR. of New Jersey, the Reading and the Baltimore & Ohio railroads has been extended from March 31 until May 1. Compare V. 85, p. 1647.—V. 86, p. 421, 229.

**New York & Queens County Ry.**—*Proposed Lease of Tunnel—Single Five-Cent Fare to Be Charged.*—See New York & Long Island RR. above.—V. 84, p. 804.

**Norfolk & Western Railway.**—*Equipment Trusts—Further Facts.*—Regarding the equipment trust issues mentioned last week (page 481), Secretary E. H. Ogden, under date of Feb. 24, writes:

I have your favor of the 20th inst., with reference to information as to the equipment trust agreements, series "L," "M," "N," and "O."

These agreements have been executed to take care of equipment purchased some time ago, and the certificates are at present held in the treasury of the company. The series are for $1,000,000 each, bearing interest at the rate of 4% per annum, and maturing annually in series of $100,000 each:

Series "L" is dated Dec. 3 1906 and matures annually from Dec. 1 1907 to Dec. 1 1916, inclusive.

Series "M" is dated March 4 1907 and matures annually from March 1 1908 to March 1 1917, inclusive.

Series "N" is dated April 4 1907 and matures annually from April 1 1908 to April 1 1917 inclusive.

Series "O" is dated June 4 1907 and matures annually from June 1 1908 to June 1 1917, inclusive.—V. 86, p. 481, 286.

**Oregon Railroad & Navigation Co.**—*Reported Dividend Described as Bookkeeping Transaction.*—Press reports say that either this company or the Oregon Short Line Co., both subsidiaries of the Union Pacific RR., has declared an extra dividend of $75 a share. The report cannot be confirmed, but an officer of the Union Pacific is quoted as saying that if declared the dividend would be merely a bookkeeping matter. The U. P. owns practically the entire share capital of both companies. In 1906 the Oregon Short Line declared a dividend of 50%.—V. 80, p. 1913.

**Pere Marquette RR.**—*Exchange of Eastern Equipment Co. 5% Bonds Due March 1 1908 for 6% Secured Notes.*—The reorganized company having arranged with the larger holders of the $2,600,000 equipment bonds of the Eastern Equipment Co., due March 1 1908, to accept equipment notes of the railroad company in exchange therefor, recently offered to make a like exchange with any of the other holders, giving 6% secured notes as follows:

*Notes Exchanged at Par, Less Commission Allowed Holder of Bond Surrendered*

Notes due March 1 1909 at par (no commission allowed the bondholder).
Notes due March 1 1910 at par, less ¼ commission.
Notes due March 1 1911 at par, less ½ commission.
Notes due March 1 1912 at par, less ¾ commission.

Any of the new notes not used in exchange have been taken by a syndicate and will be offered to the public at par. Holders desiring to accept the above offer were required to deposit their bonds with the First Trust & Savings Bank, Chicago, or J. P. Morgan & Co., New York, before Feb. 24.

*Description of the Aforesaid 6% Notes, Series A and B, Due 1909 to 1912.*

The reorganized company acquired a contract made in 1903 whereby the Eastern Equipment Co. leased to the railroad sundry equipment which cost $5,503,996, all of which the company has paid with the exception of $2,600,000, which it now proposes to pay—in four installments of $650,000 each by giving its notes, due March 1 1909, 1910, 1911 and 1912, dated March 1 1908, with interest at the rate of 6% per annum, payable semi-annually at the office of J. P. Morgan & Co. in New York City, in two series, securing the same by the above-referred-to equipment, and also by the deposit with the trustee of $500,000 of Pere Marquette RR. Co. refunding mortgage 4% bonds. These notes are certified by and the security lodged with the First Trust & Savings Bank, Chicago, as trustee.

*Equipment Held as Security (Along with $500,000 Refunding Mortgage 4s.*

For Series "A" $1,000,000.

| | | | |
|---|---|---|---|
| 3 car ferries, costing | $1,024,500 | 32 caboose cars | $30,245 |
| 65 locomotives | 1,047,041 | 1 wrecking crane | 11,600 |

For Series "B" $1,600,000.

| | | | |
|---|---|---|---|
| 3,650 box cars, costing | $2,593,010 | 900 coal cars | $616,100 |
| 250 stock cars | 181,500 | | |

All of this equipment was new in 1903 and 1904, and has been kept in good repair; it is insured for $2,745,000.—V. 86, p. 230.

**Quebec Bridge & Railway Co.**—*Finances.*—The "Monetary Times" of Montreal for Feb. 22 had the following:

Replying to a question in the House with regard to the financing of the Quebec Bridge Co., Hon. W. S. Fielding, Minister of Finance, said that the bonds of the company guaranteed by the Government had not been sold. Money was raised by the company on the pledge of the bonds with the Bank of Montreal at the interest rate of 5% per annum. The amount due the Bank of Montreal by the Bridge Company for such advances and interest on June 30 1907 was $5,561,507.

(An Act of the Canadian Parliament assented to April 27 1907 authorized the Governor in Council to advance to the company not exceeding $6,678,200 at 3% per annum on the security of its bonds to provide for construction and for the payment of bank loans obtained on pledge of a part of the $6,678,200 bonds issued under mortgage dated Feb. 1 1904 (Royal Trust Co., trustee), which were authorized to be guaranteed by the Government. Compare V. 83, p. 222, 347. On March 1 1907 the company's capital stock, fully paid up, was $265,000. Subsidies paid to date by Dominion Government, $374,353; by Province of Quebec, $250,000; by city of Quebec, $290,817; total, $915,170. The total cost of the bridge to April 1 1907, it is said, was $4,415,600.—Ed. "Chronicle.")

The bridge, which in 1904 was expected to cost in all about $8,000,000, fell Aug. 29 1907, but the shareholders passed resolutions that the work should go on. Construction however has not as yet been resumed.—V. 85, p. 531.

**Rio de Janeiro Tramway, Light & Power Co., Ltd.**—*Application to London Stock Exchange.*—The London Stock Exchange has been requested to list $25,000,000 stock in shares of $100 each; and $23,926,900 first mortgage 30-year 5% gold bonds, Nos. 1 to 5,000, of $1,000; 5,001 to 29,261 of $500; A-1 to 34,964, A-35,001 to 53,000 and A-58,001 to 73,000 of $100 each.—V. 84, p. 997.

**Seaboard Air Line Ry.**—*Foreclosure Decree.*—Judge William M. Lanning, in the United States Circuit Court at Trenton, N. J., on Feb. 26, signed an order for the foreclosure of the $75,000,000 mortgage dated 1900, Continental Trust Co. Baltimore, trustee.

*Payment of Coupons.*—The receivers announce by advertisement the payment of coupons as follows:

| Coupons on— | Due. | To be Paid on and After |
|---|---|---|
| Seaboard Air Line Ry. three year 5% collateral trust bonds due 1911 | March 1 1908 | March 2 at New York Trust Co |
| Seaboard Air Line Ry. car trust certificates, series "H," due March 1 1908 | March 1 1908 | March 2 at New York Trust Co. |
| Seaboard & Roanoke first mortgage 5% bonds, interest due Jan. 1 1908 | Jan. 1 1908 | Feb. 27 at Blair & Co., N. Y. |

Coupons on above three year 5% collateral trust bonds will also be paid by the Continental Trust Co., Baltimore, Md., as agent.

*Rates.*—Official announcement was made Feb. 27 that, commencing with April 1 next, the road will take independent action in the matter of rates for passengers traveling over the line in parties of ten or more people together. A flat rate of two cents a mile per capita will be charged. —V. 86, p. 481, 230.

**Third Avenue RR.**—*Receivers' Certificates on Subsidiary Lines.*—Judge Lacombe in the United States Circuit Court in this city has authorized Receiver Frederick W. Whitridge to issue $100,000 receivers' certificates of the Dry Dock East Broadway & Battery RR. and $200,000 of the Forty-second Street Manhattanville & St. Nicholas Ave. RR. to pay for 25 and 50 new cars respectively and taxes on both roads. The certificates bear 6% interest and mature one year from the date of issue.—V. 86, p. 481.

**Trenton & New Brunswick Electric RR.**—*Receivership.*—See New York-Philadelphia Co. above.—V. 86, p. 230.

**Underground Electric Railways of London.**—*Earnings of Controlled Tube Companies, &c.*—The reports of the three

new tubes, subsidiary companies of the Underground Electric Railways Co. of London, Ltd., for the six months ended Dec. 31 last, show that, in comparison with the first half of that year, satisfactory progress was made. We give the facts in tabular form below in connection with the following:

One of the most promising subsidiary lines thus far is the Great Northern Piccadilly & Brompton. In fact, it is declared that the popularity of this line has increased daily since the opening in Dec. 1906.

In the case of the Baker Street & Waterloo Company, which carried during the half-year ended Dec. 31 1907 10,662,876 passengers, as compared with 6,799,895 during the corresponding period of 1906, the gross receipts show a gain of £24,669, or more than 55% over the corresponding period of 1906. The figures further disclose that, after making provision for interest and rentals, there remains a balance of £17,670 available for dividends.

The third tube, the Charing Cross Eustion & Hampstead Railway, was only opened on June 22 1907, and from July 1 to Dec. 31 carried 9,881,357 passengers, with gross receipts of £74,328.

The companies controlled by the Underground Electric Railways Co. of London, Ltd., viz., the three tubes named above, the Metropolitan District Railway Co. and the London United Tramways Co., carried during the second half of 1907 almost 100,000,000 passengers.

The earnings for the first six weeks of 1908 show continued growing increases on the three tubes, the tramways of the District lines.

*EARNINGS OF TUBE, ETC., COMPANIES—HALF-YEARS ENDING JUNE 30 1907 AND DEC. 31 1907.*

| | Portion of Year. | Total Passeng's. | Gross Receipts. | Net Receipts. |
|---|---|---|---|---|
| Great Northern Piccadilly & Brompton | 1st Half | 11,953,759 | £106,570 | £30,776 |
| | 2d Half | 13,914,779 | 119,271 | 48,518 |
| Baker Street & Waterloo Company | 1st Half | 9,936,995 | £63,452 | £21,324 |
| | 2d Half | 10,662,876 | 69,249 | 25,324 |
| Charing Cross Euston & Hampstead Ry. Co | ——Opened June 22 1907—— | | | |
| | July 1 to Dec 31 | 9,881,357 | £74,328 | £12,975 |
| Metropolitan District Railway | 1st Half | 25,427,000 | £220,628 | £76 692 |
| | 2d Half | 25,809,000 | 224,463 | 68,394 |

While most of the other London transportation lines show a considerable falling off in their traffic, the "tubes" show an increase in the number of passengers carried.

*New Securities for Leased Line.*—The Metropolitan District Ry., a leased line a majority of whose share capital is owned by the Underground Electric Rys., has applied to Parliament for authority to issue £750,000 prior lien stock.

Of the amount named it is proposed to issue £550,000 forthwith to improve surplus lands with the object of increasing the rentals from this source from £26,000 to £38,000 a year, and for other purposes. The line is probably the least profitable portion of the system, the deficit from the operations for the late half-year, after payment of debenture interest and 1¾% on the guaranteed stock, being £45,328.—V. 86, p. 53.

**Union Pacific RR.**—*Reported Dividend.*—See Oregon RR. & Navigation Co. above.—V. 86, p. 481, 338.

**United Railways & Electric Co., Baltimore.**—*Time for Deposits Limited.*—The Fidelity Trust Co. of Baltimore notifies the holders of common stock that the time in which deposits of stock may be made under the new stockholders' agreement, of which Alexander Brown, H. Crawford Black and Frank A. Furst are trustees, is limited to the close of business Feb. 29 1908. Compare V. 86, p. 422.

**West End Street Ry., Boston.**—*Stock Sold at Auction.*—The company sold at auction in Boston on Feb. 26 the portion of the new issue of 20,218 shares not taken by the shareholders. The block was bid in by Towle & Fitzgerald of Boston at $80 75 and accrued dividend a share; par $50. (Compare V. 86, p. 53, 482.)—V. 86, p. 482, 422.

**West Jersey & Seashore RR.**—*Dividend Reduced.*—A semi-annual dividend of 2% has been declared on the $9,641,600 common stock, payable March 16 on stock of record Feb. 28, comparing with 3% semi-annually as paid from Sept. 1905 to Sept. 1907, both inclusive, and 2½% from Sept. 1896 to March 1905, inclusive.—V. 85, p. 162.

## INDUSTRIAL, GAS AND MISCELLANEOUS.

**American Gas & Electric Co., New York.**—See Muncie Electric Light Co. in V. 86. p. 484.—V. 85, p. 1403.

**American Screw Co., Providence, R. I.**—*Report.*—For calendar year 1907:

| Total Surplus Jan. 1 1907. | Increase. | Jan. 1 1908. | Dividends Paid in 1907. | Stock Outstanding. |
|---|---|---|---|---|
| $1,281,849 | $162,640 | $1,444,489 | (9¼%) $300,625 | $3,250,000 |

The quarterly dividend paid in December 1907 was only 1¾%, contrasting with 2½% each three months from Sept. 1906 to Sept. 1907, both inclusive. No bonds or mortgage.—V. 85, p. 1578.

**American Smelting & Refining Co.**—*Conservative Policy as to Dividends on Common Stock.*—Action upon the April dividend on the common stock is scheduled for Monday next. President Daniel Guggenheim, in an interview which appeared yesterday in the New York daily papers, while declining to express an opinion as to the probable amount of the distribution, said in substance:

Dividends should be paid out of earnings and surpluses in times like these should be kept intact to protect the holders of preferred securities. Holders of common stock should expect to receive lower returns in backward business periods for the same reason that they receive larger profits when business is at high pressure.—V. 86, p. 110.

**American Writing Paper Co.**—*New Director.*—William Goodnow, of R. L. Day & Co., has been elected a director to fill a vacancy.—V. 86, p. 478.

**Associated Merchants' Co., New York.**—*Extra Dividend Omitted.*—The regular quarterly dividend at the rate of 7% per annum is announced by advertisement, payable March 2 to holders of the $6,134,600 common stock of record Feb. 28. The extra quarterly distribution is omitted; from Dec. 1904 to June 1905 this was ¼ of 1% and thereafter to and including Dec. 1907 ½ of 1%.—V. 85, p. 526.

**Central Leather Co.**—*New Directors.*—Robert E. Paine and Van A. Wallin have been elected directors to succeed Paul M. Warburg, resigned, and C. S. Horton, deceased.—V. 85, p. 1404.

*Report.*—See a preceding page of this issue.

**Cuyahoga Telephone Co.**—*Report.*—For year 1907.

| Cal. Year. | Gross Earns. | Net Earns. | Re-s'ves. | Bond Interest | Div.on Pf.stk. | Div.on Com.stk. | Balance, Surp. |
|---|---|---|---|---|---|---|---|
| 1907 | $781,586 | $383,679 | $21,464 | $135,000 | $86,222 | $45,000 | $95,993 |
| 1906 | 716,157 | 327,240 | 20,000 | 135,000 | 81,103 | 45,000 | 46,137 |

—V. 85, p. 1648.

**Federal Mining & Smelting Co.**—*Dividend on Common Stock Omitted.*—The directors on Monday declared the regular quarterly dividend of 1¾% on the $12,000,000 non-voting preferred stock, payable March 16, but omitted the dividend on the $6,000,000 common stock. The American Smelters' Securities Co. owns a majority of the common shares (V. 80, p. 1974).

*Dividend Record of Common Stock by Calendar Years.*

| | 1904. | 1905. | 1906. | 1907. |
|---|---|---|---|---|
| June 1904 to Dec. 16 1907, inclusive—Quarterly divs. of 1½% each, with extras, making in all | 4½% | 10% | 17% | 14½% |

—V. 85, p. 1404.

**First Security Company, New York.**—*Company with $10,000,000 Capital Stock to Take Over Real Estate and Security Holdings of First National Bank of New York—Proposed 100% Stock Dividend.*—See items about Banks and Bankers on a preceding page.

**Follansbee Brothers Co.**—*Tin Plate Manufacturer—Description of Plant.*—See "Iron Age" of New York for Feb. 20 1908.—V. 79, p. 1333.

**Hudson Navigation Co.**—*New Mortgage Filed.*—The company has filed for record its new mortgage made to the Union Trust Co. of Albany, as trustee, to secure $4,000,000 of 30-year 6% gold bonds of $1,000 each, due in 1938. Of the new issue a certain amount is reserved to retire existing bonds of the company and of the New Jersey Steamboat Co., and to acquire other securities, notes, &c. The New Jersey Steamboat Co. has transferred an interest in Pier No. 32, North River, to the parent company.—V. 86, p. 483, 339.

**International Smokeless Powder & Chemical Co.**—*Dividends Resumed on Common Stock, but Period Changed from Quarterly to Semi-Annual.*—A quarterly dividend of ¾ of 1% (37½ cents per share) has been declared on the $9,000,000 common stock, payable April 1 to stock of record March 20. The last dividend, paid June 29 1907, was for the same amount, but it was a "quarterly" distribution. No dividend was paid last fall. Philadelphia papers say that if conditions are favorable an extra distribution may be made at the end of the year.

*Annual Dividend Record (Per Cent) on Common Stock.*

Compare V. 85, p. 796.—V. 86, p. 423.

**Kings County Electric Light & Power Co., Brooklyn N. Y.**—*Report.*—For calendar years, including the Edison Electric Illuminating Co. of Brooklyn:

| Cal. year. | Gross earnings. | Net earnings. | Depreciation. | Bond discount. | Bond interest. | Divid's (8%). | Balance surplus. |
|---|---|---|---|---|---|---|---|
| 1907 | $3,471,740 | $1,685,345 | $242,932 | $50,000 | $606,560 | $764,000 | $21,853 |
| 1906 | 2,897,272 | 1,385,585 | 100,000 | 50,000 | 606,560 | 592,000 | 37,025 |

—V. 84, p. 393.

**Lehigh Coal & Navigation Co.**—*Resolution Adopted.*—At the annual meeting on Feb. 25 the following resolution, prepared by a shareholder (J. L. Clawson) without the knowledge of the management, was passed:

*Resolved*, That it is the sense of the stockholders here assembled in person that the incoming board of directors be, and they are hereby, requested to give consideration to the advisability of issuing a $1,000,000 stock dividend on account of various extensive improvements.—V. 86, p. 483.

**Massachusetts Gas Companies, Boston.**—*Earnings of Controlled Companies.*—The net earnings of the subsidiary companies for January and the seven months ending Jan. 31 1908 were:

| | January | | 7 Mos. end. Jan. 31 | |
|---|---|---|---|---|
| | 1908. | 1907. | 1907-08. | 1906-07. |
| Boston Consolidated Gas | $139,842 | $154,853 | $586,589 | $627,097 |
| New England Gas & Coke | 40,124 | 47,072 | 359,399 | 312,645 |
| Chelsea Gas | 6,262 | 6,011 | 38,831 | 33,015 |
| East Boston Gas | 5,843 | 2,762 | 26,250 | 20 568 |
| Citizens' Co. of Quincy | def. 916 | def. 266 | def. 4,279 | def. 3,723 |
| Total | $191,155 | $210,432 | $1,006,790 | $989,602 |

*Increase in Gas Output of the Boston Consolidated Gas Cos.*

| | 1908. | 1907. | 1906. | Seven months ending Jan. 31 | 1908. | 1907. |
|---|---|---|---|---|---|---|
| January | 6.45% | 15.00% | 4.10% | | 10.26% | 11.22% |

—V. 85, p. 1003.

**Missouri & Kansas (Bell) Telephone Co.**—*Report.*—For calendar year:

| Year. | Gross. | Net. | Interest. | Divid'd. | Maint. res. | Balance. |
|---|---|---|---|---|---|---|
| 1907 | $2,428,893 | $688,821 | $659,697 | | $28,705 | sur. $419 |
| 1906 | 2,035,421 | 390,109 | 510,767 | $163,231 | -- | def. 283,888 |
| 1905 | 1,503,884 | 234,718 | 211,866 | 212,817 | ------ | def. 189,965 |

Total number of Bell stations Dec. 31 1907, including sub licensees, 223,663, against 175,481; increase, 27.5%.—V. 84, p. 1485.

**Montreal Light, Heat & Power Co.**—*Bonds Offered.*—The Bank of Montreal in London recently received subscriptions on behalf of the contractors for $400,000 4½% first mortgage bonds at 96½%, or, at par of exchange, £198 5s. 9d. per $1,000 bond, payable £10 on application, £30 on allotment and £158 5s. 9d. on March 23 1908. Payment in full may be made on allotment under discount at 3% per annum.

The bonds offered form part of an authorized issue of $7,500,000, of which $5,940,000 (including those so offered) have already been issued and $939,000 are held in reserve for exchange against bonds of subsidiary companies, leaving still unissued $621,000. Additional bonds may be issued only for the purpose of exchange as aforesaid, or for the payment upon prescribed conditions of 75% of the cash cost of additions and extensions. On Jan. 1 1912 or any subsequent interest date they may, at the option of the company be redeemed at 105%.—V. 85, p. 164.

**New England Watch Co. of Waterbury, Conn.**—*New Stock.*—The shareholders voted Feb. 24 to issue $250,000 7% cumulative preferred stock, the same to be offered to shareholders at par ($25 per share). The present stock is $750,000, all common. Compare V. 84, p. 1185; V. 86, p. 484.

**Quincy Mining Co.**—*Report.*—The results for the calendar year were:

| Year. | Gross. | Net. | Oth.Inc. | Construc. | Dividends. | Balance. |
|---|---|---|---|---|---|---|
| 1907. | $3,717,501 | $1,485,851 | $21,521 | $210,700 | (54)$1,455,000 | df 5188,328 |
| 1906. | 3,159,011 | 1,334,134 | 27,411 | 138,560 | (50) 1,250,000 | def. 27,015 |
| 1905. | 2,98[illegible] 21 | 1,075,198 | 29,286 | 138,733 | (24) 600,000 | sur. 365,751 |

Total surplus Dec. 31 1907 was $1,032,204. A quarterly dividend of $1 50 per share (6%) will be paid March 23. See V. 86, p. 424.

**Royal Baking Powder Co., New York.**—*Acquisition.*—This company has purchased a majority of the share capital of the Western Glucose Co. of Roby, Ind., on a basis reported as $1,250,000 for the plant, and will use the output in the manufacture of starch, of which its annual production is said to be between 15,000,000 and 20,000,000 pounds.

The Western Glucose Co. was incorporated under the laws of Maine in August 1906 (V. 83, p. 635) with $2,400,000 capital stock, of which $1,200,000 was 7% cumulative preferred, and has recently completed and placed in operation at Roby, Ind., a glucose plant with a grinding capacity of 12,000 bushels of corn daily. To provide working capital the stock, it is stated, will now be increased to $3,000,000, of which one-half will be preferred.—V. 72, p. 679.

**Schwarzschild & Sulzberger Co., New York.**—*Annual Meeting.*—The following has been given out regarding the annual meeting which was held on Feb. 25:

This meeting was entirely harmonious, the old board of directors being unanimously elected for the ensuing year. The President made a statement to the meeting to the effect that the business of the company had again increased in volume over the previous year. He stated that the number of live stock killed by the company during the year 1907 was 2,579,579, or about 150,000 in excess of the number killed during the year 1906.—V. 86, p. 424.

**Security Investment Co., Pittsburgh, Pa.**—*Offering of Securities.*—Megargel & Co., 5 Nassau St., New York, are offering for sale at 80 and interest the unsold portion of "bond purchase certificates"; total authorized issue $300,000, 5% dated April 1 1907 and due April 1 1910. Interest payable Oct. 1 and April 1; Standard Trust Co. of New York, trustee. Denomination $1,000. The notes are secured by pledge of $300,000 "first lien 5% consolidated mortgage" gold bonds of the Lackawanna & Wyoming Valley Rapid Transit Co., now on deposit with the Standard Trust Co., New York City. The firm says:

The Security Investment Co. of Pittsburgh has agreed to procure the sale of said bonds for the sum of $300,000, or to itself purchase said bonds before April 1 1910 and to pay interest at the rate of 5% per annum on Oct. 1 and April 1.

The capital stock of the Security Investment Co. is $6,000,000. Par of shares $50.—V. 85, p. 103, 1649.

**Topeka (Kan.) Edison Co.**—*New Officer.*—Willard N. Hall of Topeka was recently elected a director to succeed E. A. Potter of Chicago and Vice-President in place of E. W. Wilson.—V. 85, p. 1085.

**United Box Board & Paper Co.**—*Earnings.*—In connection with the annual report published last week (page 477) the following comparative statement of earnings for four years, including subsidiary companies, will be of interest.

| | 1907. | 1906. | 1905. | 1904. |
|---|---|---|---|---|
| Gross profits | $1,178,901 | $1,055,477 | $912 804 | $1,153,785 |
| Total charges | 470,263 | 597,566 | 838,626 | 925,970 |
| Net profits | $707,739 | $457,911 | $74,078 | $257,815 |

V. 86, p. 477, 233.

**United States Telephone Co.**—*Report.*—For year 1907.

| Cal. Year. | Gross Earns. | Net Earns. | Other Inc. | Bond Interest | Div.on Pf.stk. | Div.on Com.stk. | Balance, Surp. |
|---|---|---|---|---|---|---|---|
| 1907 | $435 013 | $241,801 | $34,965 | $107,800 | $51,150 | $69 750 | $48,066 |
| 1906 | 402,052 | 229,697 | 18,162 | 107,800 | 27 631 | 53,250 | 58,518 |
| 1905 | 348,717 | 164,731 | | 103,198 | 19,515 | | 42,017 |

—V. 86, p. 55.

**Western Glucose Co.**—*Control Sold.*—See Royal Baking Powder Co. above.—V. 83, p. 635.

**Western Sugar & Land Co., Colorado Springs, Colo.**—*New Stock.*—This company, it is stated, has increased its capital stock from $1,000,000 to $2,000,000 to take up old bonds and make improvements. Compare V. 80, p. 1862.

**Westinghouse Electric & Manufacturing Co.**—*Large Deposits—Time Extended.*—The readjustment committee gives notice to the holders of convertible sinking fund 5% gold bonds, 5% debt certificates, 3-year 6% collateral notes and floating debt, that a large amount of each of the classes of obligations and claims having already been deposited under the plan of Jan. 20 (V. 86, p. 233), the committee has extended the period of limitation for the deposit of obligations and claims to and including March 31.

*Meeting to Authorize New Securities.*—The shareholders will meet April 29 to vote on issuing the new bonds and stock issues called for by the readjustment plan (V. 86, p. 233).—V. 86, p. 340.

**Westinghouse Machine Co., Pittsburgh.**—*Plan Approved.*—The following announcement was made on Feb. 27:

Creditors representing 99% of the $7,000,000 liabilities have assented to the proposed financing plan, by which creditors are to take in payment of their claims five year notes, to be retired in annual installments out of earnings. In ordinary years the company has shown net earnings of over $800,000, so that in five years the company should be able to retire close to $4,000,000 notes. The balance would then be funded into permanent form.—V. 86, p. 113, 106.

**Wilkes-Barre (Pa.) Gas & Electric Co.**—*Quarterly Dividend.*—A dividend of 1% has been declared on the $1,500,000 stock, payable April 1 to stock of record March 24. The payment is announced to be quarterly, in accordance with the desire of the stockholders for quarterly instead of semi-annual distributions, as heretofore. The previous dividends were 1% in March and 2% in Sept. 1907, making 3% for the year.—V. 85, p. 165.

**York (Pa.) Water Co.**—*New Stock.*—This company, it is stated, has filed in Pennsylvania a certificate of increase of capital stock from $1,300,000 to $3,000,000.—V. 73, p. 240.

---

—Corporations desiring fidelity bonds for their officers and employees are referred to the annual statements for 1907 of The Guarantee Company of North America and of the United States Guarantee Co., presented in our advertising columns to-day. The surplus of each company has been accumulated wholly from earnings—no part of it having been contributed by stockholders. Both companies are under practically the same management, being that which introduced fidelity insurance on this continent over forty years ago. Each company avoids the transaction of a "surety" business, which so often involves large and hazardous risks, upon court, contractors' and depository bonds.

—March 1 the old Chicago and New York banking and brokerage house of Bartlett, Frazier & Carrington is going out of the bond and stock business and will confine their attention to dealing in grain and provisions on the Chicago Board of Trade. Their New York office, 25 Broad St., has been leased to C. D. Barney & Co., and their Chicago branch office, in the Auditorium Annex, to S. B. Chapin & Co. Messrs. Grier & Zeller, the New York partners, retire from the firm. Hart Taylor, who for nine years has been manager of the stock and bond department of this firm, becomes associated with S. B. Chapin & Co. in their Chicago office in the Rookery.

—Messrs. M. H. Cutter and J. F. May, until recently associated with and representing the Chicago branch of O'Connor & Kahler, bankers, New York, have organized a bond house under the firm name of Cutter, May & Co. They will continue to handle the Western business of O'Connor & Kahler, retaining their present offices in The Rookery. The firm will deal in a general line of investment securities.

—Harry Markoe Jr., Robert Morison and H. L. Bloodgood have formed the new firm of Markoe & Morison, with offices at 115 Broadway. Mr. Markoe, the New York Stock Exchange member, was formerly a partner in Dick Bros. & Co. of New York, and Hamlin, Nickerson & Co. of Boston. Markoe & Morison will conduct a general banking and brokerage business.

—R. W. Morrison, recently with the H. P. Wright Investment Co., announces the organization of the firm of R. W. Morrison & Co. of Kansas City, Mo. The firm will deal in municipal and corporation bonds and stocks. Temporarily its offices are 200 New England Bank Building; after March 15, 306 Bank of Commerce Building.

—Charles A. Peeling & Co., bankers, at 20 Broad St., this city, announce the opening on March 2 of an office at 35 Congress St., Boston, under the management of William Edmunds, formerly with Adams & Co. The New York office remains under the management of Edw. L. Dame, formerly with Wilmerding, Morgan & Co.

—Babcock, Rushton & Louderback, members of the New York and Chicago stockexchanges, with offices at No. 18 Wall St., have prepared a pamphlet giving a review of the earnings and deductions of the United States Steel Corporation since its organization. This interesting pamphlet may be obtained on application.

—The seventh number of their book on banks and trust companies of New York and Brooklyn has been issued by Ackermann & Coles, 20 Broad Street. The tasteful style adopted in the former numbers has been continued, the information contained therein having been brought down to date.

—William R. Compton, of the Wm. R. Compton Bond & Mortgage Co., was the guest of honor at a banquet held at the Commercial Club at Macon, Mo., on Feb. 11. The event signalized the removal of the headquarters of Mr. Compton's business from Macon to St. Louis.

—The 64th annual statement of the New England Mutual Life Insurance Co., Boston, Mass., Benjamin F. Stevens, President, is advertised in to-day's issue on another page. The actual market values of the company's assets and liabilities are given for Dec. 31 1907.

—Mr. Oliver E. Hurd has severed his connection with the house of E. H. Gay & Co., with whom he has been associated for the past fifteen years and for whom he has acted as manager at the Montreal office since the beginning of 1900.

—Arthur S. Leland & Co., bankers and brokers, 40 Exchange Place, New York, N. Y., and 10 Post Office Square, Boston, Mass., have issued a convenient "Pocket Manual of Dividends" for the year 1907.

—Mr. Arthur Batty has severed his connection with Meadows, Williams & Co., Buffalo, to take charge of the bond department of W. H. Trumbull & Co., 35 Congress Street, Boston.

—Welsh Brothers, 328 Chestnut St., Philadelphia, announce the dissolution of the firm and the formation of the firm of Welsh & Smart, to take effect March 1.

# The Commercial Times.

## COMMERCIAL EPITOME.

*Friday Night, Feb.* 28 1908.

The spirit of caution which has so long predominated is still a very noticeable feature of business in this country, and transactions are on a very moderate scale. Prices on the whole have undergone little change. There have been some slight indications of firmer quotations in the metal trade.

LARD on the spot has been firmer, owing to a stronger tone in the future market at the West, light offerings and the advance in the grain markets. These factors have more than offset the continued quietness of trade. The buying is still confined to small lots for immediate needs. City 6¾ @6⅞c. and Western 7.35@7.45c. Refined lard has also been stronger, owing to the same influences as mentioned above. Trade has been quiet and mainly of a jobbing character. Refined, Continent 8c., South America 8.50c., and Brazil, in kegs, 9.75c. The speculation in lard futures at the West has been more active. Commission house business has been larger. Prominent packers have bought freely at times and there has been less disposition to sell after the recent decline.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

| | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. |
|---|---|---|---|---|---|---|
| May delivery | | 7.37½ | 7.50 | 7.45 | 7.55 | 7.55 |
| July delivery | Holi | 7.57½ | 7.72½ | 7.67½ | 7.75 | 7.75 |
| September delivery | day. | 7.77½ | 7.92½ | 7.90 | 7.97½ | 7.97½ |

PORK on the spot has ruled steady with some increase in the demand at times, though in the main the buying has been confined to local jobbers. Mess $13 75@$14 25, clear $14 75 @$16 and family $16 50. Beef has been steady with a fair demand, partly for export. Stocks continue light. Mess $10 50@$11, packet $11@$12, flank $11 25@$11 75, family $14@$14 50 and extra India mess $21@$21 50. Cut meats have been quiet and steady; pickled hams 8½@9c. and pickled bellies, 14@10 lbs., 7@7¾c. Tallow has been steady with a small demand for local and domestic account; City 5¼c. Stearines have been dull and steady; oleo 7¼c. and lard 8¼@8½c. Butter has been quiet and easier; creamery extras 30c. Cheese has been quiet and steady; State, f. c., small, colored or white, fancy, 15¾c. Eggs have been quiet and easier; Western firsts 23c.

OIL.—Cottonseed has been firm and in better demand; prime summer yellow 38@38½c. Linseed has been steady with a moderately active demand, though mainly for small lots. City, raw, American seed, 43@44c.; boiled 44@45c. and Calcutta, raw, 70c. Lard has been quiet, with prime easier at 67@69c. and No. 1 extra steady at 52@54c. Cocoanut has been dull but firm on small supplies and offerings. Cochin 8@8½c. and Ceylon 6¾@7½c. Olive has been quiet and steady; yellow 65@75c. Peanut has been quiet and steady; yellow 65@80c. Cod has been quiet and steady; domestic 42@43c. and Newfoundland 44@45c.

COFFEE on the spot has been quiet and steady. Rio No. 7, 6¼c. West India growths have been quiet and steady; fair to good Cucuta 9⅝@10¾c. The speculation in future contracts has shown more activity at times, but fluctuations have continued to be confined within narrow limits. On the whole the tone has been steady. There has been scattered liquidation by tired holders and Europe has sent selling orders at times. But prominent local dealers have given support whenever it was needed. On Wednesday, the 26th inst., March notices of delivery to the amount of some 60,000 were issued, but were taken care of by roasters and dealers, and they had no effect on prices.

The closing prices were as follows:

| | | | | | | |
|---|---|---|---|---|---|---|
| February | 5.85c. | June | 5.95c. | October | 6.10c. | |
| March | 5.85c. | July | 6.00c. | November | 6.15c. | |
| April | 5.90c. | August | 6.05c. | December | 6.20c. | |
| May | 5.95c. | September | 6.10c. | January | 6.20c. | |

SUGAR.—Raw has been quiet but firmer. Centrifugal, 96-degrees test, 3.885c.; muscovado, 89-degrees test, 3.385c., and molasses, 89-degrees test, 3.135c. Refined has been quiet and firmer; granulated 4.70@4.80c. Teas and spices have been moderately active and steady. Hops have been quiet and steady.

PETROLEUM has been active and firm. Refined, barrels, 8.75c.; bulk 5c. and cases 10.90c. Gasoline has been in good demand and firm; 86 degrees in 100-gallon drums 22c.; drums $8 50 extra. Naphtha has been moderately active and firm; 73@76 degrees in 100-gallon drums 19c.; drums $8 50 extra. Spirits of turpentine has been quiet but firmer at 53½c. Rosin has been quiet and steady; common to good strained $3 75.

TOBACCO.—A somewhat larger demand for leaf has been reported, manufacturers in some cases being disposed to replenish supplies. In the main, however, trade has continued quiet. Prices have been generally steady. Unfavorable reports have been in circulation of late regarding the quality of the new crop. Havana and Sumatra have been quiet and firm.

COPPER has been dull and firmer; lake 12⅝@12¾c. and electrolytic 12½@12⅝c. Lead has been quiet and firmer at 3.70@3.75c. Spelter has been dull and easier at 4.70@ 4.75c. Tin has been more active and firmer; Straits 28.70c. Iron has been quiet and steady. No. 1 Northern $18 50@ $18 75 and No. 2 Southern $16 75@$17.

## COTTON.

*Friday Night, Feb.* 28 1908.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 117,984 bales, against 134,208 bales last week and 180,092 bales the previous week, making the total receipts since the 1st of September 1907, 6,829,996 bales, against 8,170,529 bales for the same period of 1906-07, showing a decrease since Sept. 1 1907 of 1,340,533 bales.

Speculation in cotton for future delivery has been on a somewhat larger scale, though still far from active, and while prices have latterly rallied, they show a small net decline for the week. Foremost among the depressing factors have been the dulness of trade, stagnation of speculation and weakness in foreign markets, notably in Liverpool and Alexandria, Egypt. Some monetary disturbances have been reported at Alexandria, together with a decline in prices for cotton. It further appears that Egypt and the Continent have been selling at times in Liverpool. English selling orders were also at one time something of a feature here. Moreover, the New England mills have decided to continue for an indefinite period the curtailment of production which began three months ago, and this decision had a noticeable effect here. Of late, too, the Amoskeag Mills have reduced their prices 10%, and it is inferred that other mills will sooner or later take similar action. Disturbed stock markets have also contributed in a measure to the depression in cotton prices. So have rumors from time to time that spot markets at the South were giving way and predictions that the farmer would be forced to sell his old cotton in order to provide means with which to prepare for another crop. Local sentiment has been decidedly bearish, and selling for the decline, though not on a very large scale, has been persistent. Also there has been a steady dribbling out of "long" cotton, which has not been without its effect. With both trade and speculation dull, the consensus of opinion here is that the general drift of prices must be downward, even though the declining trend be interrupted from time to time by rallies at the expense of the short interest. Yet it is to be remarked that this short interest, in the estimation of not a few, has grown to such large proportions and the decline since January has been so great, that of late prices have shown a tendency towards at least a temporary upturn. A large and well-known operator has been issuing bullish literature, and this, with his more or less aggressive buying, has had a certain effect, especially as the Liverpool market has of late become stronger, and has been a buyer here. Continental spinners have bought July cotton here. Moreover, the receipts have continued light, so light, indeed, as to suggest to some the possibility at least that the Government crop estimate of Dec. 10 1907 of 11,678,000 bales, exclusive of linters, may not be reached, even including linters—that is, on the basis of the commercial crop. And whatever wavering there may have been from time to time in individual cases at the South, the spot markets on the whole seem to have remained firm. To-day prices advanced early, mainly owing to the prompt stopping of March notices for 25,000 to 30,000 bales, a stronger Liverpool market than had been expected, some buying by Liverpool people here, buying also by leading bull interests and considerable covering of shorts. Later the advance was lost, owing to general realizing, in which some prominent interests are supposed to have taken part. Spot cotton here has been dull. Middling uplands closed at 11.35c.

The official quotation for middling upland cotton in the New York market each day for the past week has been:

| Feb. 22 to Feb. 28 | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. |
|---|---|---|---|---|---|---|
| Middling uplands | H. | 11.50 | 11.35 | 11.45 | 11.45 | 11.35 |

## NEW YORK QUOTATIONS FOR 32 YEARS.

Continental imports for the past week have been 160,000 bales.

The above figures for 1908 show a decrease from last week of 86,751 bales, a loss of 771,565 bales from 1907, a decrease of 396,215 bales from 1906, and a gain of 525,674 bales over 1905.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

| Towns. | Movement to February 28 1908. | | | | Movement to March 1 1907. | | | |

The above totals show that the interior stocks have *decreased* during the week 2,954 bales and are to-night 65,455 bales less than at the same time last year. The receipts at all the towns has been 73,680 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

| February 28— | 1907-08 | | 1906-07 | |
|---|---|---|---|---|
| Shipped— | Week. | Since Sept. 1. | Week. | Since Sept. 1. |
| Via St. Louis | 15,931 | 294,273 | 17,288 | 587,289 |
| Via Cairo | 4,103 | 134,101 | 4,514 | 174,441 |
| Via Rock Island | 1,561 | 21,277 | 3,361 | 53,276 |
| Via Louisville | 968 | 38,884 | 3,888 | 59,598 |
| Via Cincinnati | 988 | 29,124 | 1,342 | 39,609 |
| Via Virginia points | 4,327 | 65,165 | 7,508 | 93,464 |
| Via other routes, &c | 6,284 | 176,635 | 4,766 | 203,070 |
| Total gross overland | 34,162 | 759,459 | 42,667 | 1,210,747 |
| *Deduct shipments* | | | | |
| Overland to N. Y., Boston, &c | 5,833 | 73,713 | 6,994 | 113,888 |
| Between interior towns | 562 | 56,120 | 8,596 | 45,391 |
| Inland, &c., from South | 1,164 | 44,822 | 3,504 | 36,765 |
| Total to be deducted | 7,559 | 174,655 | 19,094 | 196,044 |
| Leaving total net overland * | 26,603 | 584,804 | 23,573 | 1,014,703 |

* Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 26,603 bales, against 23,573 bales for the week last year, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 429,899 bales.

| In Sight and Spinners' Takings. | 1907-08 | | 1906-07 | |
|---|---|---|---|---|
| | Week. | Since Sept. 1. | Week. | Since Sept. 1. |
| Receipts at ports to Feb. 28 | 117,984 | 6,829,996 | 190,892 | 8,170,529 |
| Net overland to Feb. 28 | 26,603 | 584,804 | 23,573 | 1,014,703 |
| Southern consumption to Feb. 28 | 45,000 | 1,238,000 | 48,000 | 1,226,000 |
| Total marketed | 189,587 | 8,652,800 | 262,465 | 10,411,232 |
| Interior stocks in excess | *2,954 | 434,478 | 2,798 | 484,240 |
| Came into sight during week | 186,633 | | 265,263 | |
| Total in sight Feb. 28 | | 9,087,278 | | 10,895,472 |
| North. spinners' takings to Feb. 28 | 46,290 | 1,172,234 | 79,293 | 1,924,289 |

* Decrease during week.

WEATHER REPORTS BY TELEGRAPH.—Reports to us by telegraph from the South this evening indicate that the weather has been more favorable during the week. While rain has been quite general, the precipitation has been moderate or light in most sections. Our Mobile correspondent states that bottom lands along the Tombigbee have been flooded, and from Helena we are advised that land outside the levee is overflowed. Farm work is claimed to be making slow progress at most points.

*Galveston, Texas.*—There has been rain on one day the past week, the rainfall being thirty-six hundredths of an inch. The thermometer has averaged 54, the highest being 62 and the lowest 46.

*Abilene, Texas.*—There has been rain on one day the past week, the rainfall reaching one hundredth of an inch. The thermometer has averaged 50, ranging from 30 to 70.

*Corpus Christi, Texas.*—We have had rain on two days during the week, the rainfall being six hundredths of an inch. The thermometer has ranged from 48 to 74, averaging 61.

*Fort Worth, Texas.*—We have had rain on one day of the week, the precipitation being six hundredths of an inch. Average thermometer 50, highest 68, lowest 32.

*Palestine, Texas.*—There has been rain on one day during the week, the precipitation being eight hundredths of an inch. The thermometer has averaged 54, the highest being 70 and the lowest 38.

*San Antonio, Texas.*—There has been rain on one day the past week, the rainfall reaching twenty-eight hundredths of an inch. The thermometer has averaged 58, ranging from 42 to 74.

*New Orleans, Louisiana.*—There has been rain on one day the past week, the rainfall being twenty-two hundredths of an inch. The thermometer has averaged 56.

*Shreveport, Louisiana.*—There has been rain on two days during the week, the precipitation being seventy-five hundredths of an inch. The thermometer has averaged 52, ranging from 35 to 68.

*Leland, Mississippi.*—Rain has fallen during the week, the precipitation being seventy-six hundredths of an inch. Average thermometer 47.1, highest 64, lowest 27.

*Vicksburg, Mississippi.*—There has been rain on one day the past week, the rainfall being forty-eight hundredths of an inch. The thermometer has averaged 51, the highest being 65 and the lowest 38.

*Little Rock, Arkansas.*—Owing to rains during this month, farm work has been somewhat retarded, but conditions are now more favorable. We have had rain on two days of the week, the precipitation being forty-eight hundredths of an inch. Average thermometer 47, highest 60, lowest 34.

*Helena, Arkansas.*—Not much farm work done. The river continues to overflow outside the levee. We have had rain on one day the past week, the precipitation reaching seventy-five hundredths of an inch. The thermometer has ranged from 31 to 59, averaging 45.

*Nashville, Tennessee.*—There has been rain the past week, the rainfall reaching forty-seven hundredths of an inch. The thermometer has averaged 40, ranging from 22 to 57.

*Memphis, Tennessee.*—It has rained on one day of the week, the rainfall reaching ninety hundredths of an inch. The thermometer has averaged 43.7, the highest being 57.3 and the lowest 30.

*Mobile, Alabama.*—Heavy rain in the interior middle of the week. Farm work is making slow progress. The Tombigbee River bottom lands are flooded. We have had rain on one day during the week, the rainfall being forty-three hundredths of an inch. The thermometer has ranged from 33 to 68, averaging 52.

*Montgomery, Alabama.*—There has been rain on one day of the week, the rainfall being fifty-two hundredths of an inch. Average thermometer 46, highest 63, lowest 29.

*Madison, Florida.*—There has been rain on two days the past week, the rainfall reaching forty hundredths of an inch. The thermometer has averaged 51, ranging from 32 to 70.

*Augusta, Georgia.*—There has been rain on one day during the week, the precipitation reaching twenty-six hundredths of an inch. The thermometer has ranged from 27 to 59, averaging 44.

*Savannah, Georgia.*—We have had rain on two days of the week, the rainfall reaching five hundredths of an inch. Average thermometer 48, highest 63 and lowest 31.

*Charleston, South Carolina.*—We have had only a trace of rain during the week. The thermometer has averaged 40, the highest being 62 and the lowest 30.

*Greenwood, South Carolina.*—Rain has fallen on one day during the week, the rainfall being ten hundredths of an inch. The thermometer has averaged 39, ranging from 31 to 48.

*Stateburg, South Carolina.*—There has been rain on one day during the week, to the extent of twenty-two hundredths of an inch. The thermometer has ranged from 27 to 60, averaging 43.

*Charlotte, North Carolina.*—We have had rain on two days of the week, the rainfall reaching thirty hundredths of an inch. Average thermometer 38, highest 55, lowest 21.

The following statement we have also received by telegraph, showing the height of rivers at the points named at 8 a. m. of the dates given:

| | | *Feb.* 28 1908. | *March* 1 1907 |
|---|---|---|---|
| | | *Feet.* | *Feet.* |
| New Orleans | Above zero of gauge | 14.4 | 18.1 |
| Memphis | Above zero of gauge | 34.1 | 20.5 |
| Nashville | Above zero of gauge | 12.1 | 33.2 |
| Shreveport | Above zero of gauge | 10.3 | 4.6 |
| Vicksburg | Above zero of gauge | 39.9 | 38.5 |

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

| *Week ending* | *Receipts at the Ports.* | | | *Stock at Interior Towns.* | | | *Receipts from Plantat'ns.* | | |

| " 21 | 134,208 | 245,649 | 136,015 | 518,015 | 577,718 | 658,131 | 123,713 | 225,033 | 119,556 |
| " 28 | 117,984 | 190,892 | 101,945 | 515,061 | 580,516 | 622,016 | 115,030 | 193,690 | 65,830 |

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1 1907 are 7,264,474 bales; in 1906-07 were 8,654,769 bales; in 1905-06 were 6,720,085 bales.

2.—That although the receipts at the outports the past week were 117,984 bales, the actual movement from plantations was 115,030 bales, the balance being taken from stocks at interior towns. Last year receipts from the plantations for the week were 193,690 bales and for 1906 they were 65,830 bales.

JUTE BUTTS, BAGGING, ETC.—The market for jute bagging has continued dull during the week under review, at the following prices: 2-lb. domestic bagging, 7¼ cents per yard and re-woven and inferior foreign 6½ cents per yard. Jute butts dull at 2@3 cents per lb. for bagging quality.

NATIONAL ASSOCIATION OF COTTON MANUFACTURERS.—*Annual Convention in April.*—The National Association of Cotton Manufacturers will hold its 84th annual meeting at Huntington Hall of the Massachusetts Institute of Technology, Boston, Mass., on Thursday and Friday, April 16 and 17.

Among the subjects already arranged for this meeting will be the following:

Arts of weaving and spinning, cotton cultivation in West Africa, cotton mill stocks as investments, Egyptian cotton, improvements in the cotton fibre from storage of seed cotton, lubrication tests in cotton mills, need and advantages of a cotton exchange in New England, Sea Island cotton, steadying power of consolidation, steam turbines, what a manufacturer should know about coal, yarn testing.

WORLD'S SUPPLY AND TAKINGS OF COTTON.—The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Sept. 1, for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amount gone out of sight, for the like period.

| Cotton Takings. Week and Season. | 1907-08. | | 1906-07. | |
|---|---|---|---|---|
| | *Week.* | *Season* | *Week.* | *Season.* |
| Visible supply Feb. 21 | 4,836,686 | | 5,675,510 | |
| Visible supply Sept. 1 | | 5,230,344 | | 7,784,156 |

According to the foregoing, Bombay appears to show a *decrease* compared with last year in the week's receipts of 22,000 bales. Exports from all India ports record a loss of 44,000 bales during the week and since Sept. 1 show a *decrease* of 248,000 bales.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—Through arrangements made with Messrs. Choremi, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

| *Alexandria, Egypt, February* 26. | 1907-08. | 1906-07. | 1905-06. |
|---|---|---|---|
| *Receipts* (cantars)— | | | |
| This week | 175,000 | 135,000 | 160,000 |
| Since Sept. 1 | 8,146,989 | 6,403,515 | 5,347,802 |

| *Exports* (bales)— | *This week.* | *Since Sept.* 1. | *This week.* | *Since Sept.* 1. | *This week.* | *Since Sept.* 1. |
|---|---|---|---|---|---|---|
| To Liverpool | 2,250 | 165,462 | 1,250 | 160,269 | 5,500 | 165,085 |
| To Manchester | | 144,396 | 6,000 | 153,301 | 4,500 | 126,858 |
| To Continent | 6,000 | 227,369 | 7,250 | 240,607 | 8,500 | 210,899 |
| To America | 750 | 44,076 | 2,500 | 83,691 | 2,000 | 56,582 |
| Total exports | 9,000 | 581,303 | 17,000 | 637,868 | 20,500 | 559,424 |

*Note.*—A cantar is 99 lbs. Egyptian bales weigh about 750 lbs.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is quiet for both yarns and shirtings. The demand for both India and China is poor. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

| | 1908. | | | 1907. | | |

## BREADSTUFFS.

*Friday, Feb. 28 1908.*

Prices for wheat flour have been firmer in the main, owing to the advance in wheat quotations. At times buyers have shown greater interest in the local market, but actual sales have not increased materially, the demand still being mostly for small lots to satisfy immediate needs. Export trade has been stagnant. At some of the larger markets of the Northwest and the Southwest a somewhat better demand has been reported at times, partly for export. On the whole, however, the condition of the trade leaves much to be desired. Rye flour has been more active and firm. Corn meal has been quiet and firmer.

Wheat, largely under the influence of domestic conditions rather than anything else, has advanced sharply. In other words, American markets have cut loose from Argentine. They have risen under the stimulus of a good cash demand, dwindling receipts and stocks, and a belief in some quarters that American supplies are to fall to a very low ebb before the end of the season, with the inevitable concommitant, if this proves true, of some advance in prices. The American position, moreover, has been encouraged at times by rising markets in Europe, where the rally in prices has not been impeded even by the continuance of large world's shipments, including important shipments from Argentina. During the past week the Argentine shipments have been not very far from double those for the corresponding week last year. It is a fact, too, that the Russian crop outlook has apparently improved, and the same is true over pretty much the rest of Europe. In this country the crop outlook is favorable, owing to more general snows at the West; and as for export business, it has fallen practically to the vanishing point. But, on the other hand, it seems to be a fact that Europe has become somewhat nervous over the American wheat situation—nervous, that is, over prospective supplies in this country. Argentine shipments are bound to fall off, it is contended, in the near future, and then what? Last week the total world's shipments to Europe were nearly 2,000,000 bushels smaller than in the previous week and only about 400,000 bushels larger than in the corresponding week last year. Argentine shipments last week were, after all, half a million bushels smaller than in the previous week. The supposition is that Europe still needs a very large quantity of wheat during the time that must elapse before the next harvest. Some estimates run as high as 250,000,000 bushels. With Argentine shipments gradually decreasing and American shipments also falling off—last week they were about 700,000 bushels smaller than in the previous week—the question arises: "How is this large quantity of wheat to be obtained?" It may yet prove to be readily obtainable, but, as already stated, there is a certain amount of nervousness in regard to the matter. Others lay more stress on the idea that at least a temporary rally in prices would be no more than natural after the recent severe decline. During the past week they have risen 4 to 5 cents. To-day prices advanced early on strong cables, but reacted later on general realizing.

| September delivery in elevator | | 86⅜ | 87¼ | 87½ | 90 | 89¼ |

Indian corn futures have advanced, owing to the strength of wheat, unfavorable weather in many sections and small receipts. At times, too, the cash demand has been more active, partly for export account. The movement of the crop is much smaller than at this time last year, and the stock of contract corn at Chicago remains small. Commission houses have bought and support has been given by strong Chicago interests who are believed to hold a considerable line of long corn. Nervous shorts have covered. At times setbacks have occurred, owing to realizing, but the fear of manipulation has kept short selling down to a minimum. To-day prices opened firm on small receipts, but weakened later on liquidation.

| September delivery in elevator | day. | 57⅞ | 58⅛ | 58¼ | 59 | 58¾ |

Oats for future delivery in the Western market have advanced, with the trading on a somewhat larger scale. Stimulating factors have been the advance in wheat and corn, small receipts at the West, light offerings and coverings of shorts. Cash interests have bought at times, and there has been some buying attributed to prominent Chicago people who are supposed to be friendly to the long side. Commission-house business, however, has continued quiet, many in the trade considering the price too high to warrant purchases, while the fear of bull manipulation tends to check short selling, in spite of increasing stocks of contract grade at Chicago. To-day prices closed lower on realizing.

## THE DRY GOODS TRADE.

*New York, Friday Night, Feb.* 28 1908.

While conditions still continue very quiet in the primary cotton goods market, the slight improvement noted last week has generally been maintained. Buying has been confined for the most part to goods for quick delivery and orders have only been for small quantities; but it is evident that stocks are getting low and a certain scarcity has developed in some directions. The feature of the week has been the opening of napped goods by the largest manufacturer at unexpectedly low prices. In some quarters it had been anticipated that a slight advance over last year's figures would have been justified, owing to the increased cost of production, but the prices named show a reduction of about 10%. It is evidently the policy to name at the outset a value that will not only prove attractive to the buyer, but one that will assure him that there will be no further reductions and therefore give him more confidence in the placing of orders ahead. The wage question is assuming larger proportions in the South, and reductions are confidently expected in the near future as a result of the changed commercial conditions; with the low level at which goods are now selling and the comparatively high cost of the raw material, a reduction in wages would seem te be inevitable if manufacturing is to be carried on without an actual loss. Export business has continued during the week, but on a smaller scale, and the inquiries that have come into the market are mostly at prices that manufacturers have not yet seen their way to accept. An item of interest is the failure of the Associated Merchants' Company to declare an extra dividend on its common stock, this being the first time since 1904 that stockholders have had to be content with the regular 1¾%. In the woolen and worsted goods market business has been very quiet throughout the week.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Feb. 22 were 5,646 packages, valued at $295,684, their destination being to the points specified in the table below:

| | 1908 | | 1907 | |
|---|---|---|---|---|
| *New York to Feb. 22* | *Week.* | *Since Jan. 1.* | *Week.* | *Since Jan. 1.* |
| Great Britain | 28 | 77 | 4 | 463 |
| Other European | 13 | 95 | 12 | 94 |
| China | 1,253 | 3,733 | | 3,079 |
| India | 1,129 | 2,832 | | 2,856 |
| Arabia | 1,323 | 3,781 | | 10,576 |
| Africa | 254 | 925 | | 2,078 |
| West Indies | 348 | 3,000 | 661 | 4,052 |
| Mexico | 34 | 277 | 51 | 352 |
| Central America | 202 | 2,247 | 285 | 2,812 |
| South America | 915 | 7,275 | 916 | 7,122 |
| Other countries | 147 | 2,493 | 876 | 8,929 |
| Total | 5,646 | 26,735 | 2,795 | 42,363 |

The value of these New York exports since Jan. 1 has been $1,749,745 in 1908, against $2,591,666 in 1907.

The demand for heavy brown drills and sheetings has fallen away to practically nothing, and it is evident that buyers are in no hurry to enter the market. Medium and lightweight sheetings have been inquired for, particularly for export, but the prices offered have been very low. Some inquiries have been received from India, and China is still in the market for goods when prices are sufficiently attractive. Lower prices have again been named on the lesser known lines of bleached goods, and the slowness of the demand is indicated by the pressure to sell. Wide sheetings, sheets and pillow cases are in poor request, but prices are maintained. Coarse, colored cotton goods are easier, and stocks awaiting shipping orders are large. The buying of napped goods, following the opening of these at unexpectedly low prices, has been good, and when all lines have been shown, it is expected that the policy of manufacturers will prove to have been wise. Linings are likely to be reduced shortly, as a result of the weakness in the gray goods market. Staple prints are moving slowly, but fancy prints have sold fairly well. Ginghams are quiet. Print cloth regulars have been reduced 3/8c. to 3 5/8c. and both wide and narrow goods have been lowered accordingly. Business has been very small.

WOOLEN GOODS.—From the volume of business placed during the initial buying period of men's wear heavy-weight woolen and worsted goods, it is evident that curtailment of production will be even more drastic in the near future than it is at present; what that will mean is evident from the statement of the President of the largest interest that they already have 65% of their machinery idle. It is quite expected that after mills have got out their sample pieces they will shut down until duplicate orders are received, for few are likely to run the risk of anticipating this demand. In spite of this, there is a slightly better feeling in the trade, and it is generally felt that the re-ordering season will both commence earlier than usual and will be more active. Sellers are convinced that buyers have not placed orders for anything like their requirements, and this belief has been strengthened by the appearance of some large buyers in the market for a second time, after it had been supposed that they had placed all the orders they intended to. While cancellations are likely to be few, revisions will probably be numerous, as it is believed that not more than 60% of the styles shown will be run. In contrast to the men's wear market, dress goods have experienced a fairly active sale, both for immediate and future delivery. For fall, the greatest interest so far is being shown in staples, and broadcloths are in particularly good demand. For goods required at once, buyers are willing to pay advances if they can secure what they want.

FOREIGN DRY GOODS.—Imported woolen and worsted dress goods are quieter, but the prospects for a satisfactory season are good. Silks and ribbons are quiet and unchanged. Lower prices are talked of for linens. Burlaps are steady.

**Importations and Warehouse Withdrawals of Dry Goods.**

The importations and warehouse withdrawals of dry goods at this port for the week ending Feb. 22 1908 and since Jan. 1 1908, and for the corresponding periods of last year, are as follows:

# STATE AND CITY DEPARTMENT.

## News Items.

**Massachusetts.**—*Changes in Savings Bank Law Recommended by Special Committee.*—Pierre Jay, Savings Bank Commissioner, Arthur B. Chapin, State Treasurer and Receiver General, and W. D. I. Trefry, Commissioner of Corporations, appointed a committee under Chapter 24 of the Acts of 1907, to make an examination of the general laws relating to savings banks, filed their report with the General Court at Springfield on Feb. 17. According to the Boston "Evening Transcript," the committee reports its changes in the form of a bill embracing the provisions of all the existing laws affecting savings banks, and the subject has been treated under the five main headings, namely: (1) Supervision, (2) Incorporation, (3) Management, (4) Deposits and (5) Investments. Under the last-named heading the report says:

The committee has given special attention to the subject of investments authorized for savings banks. The present investment law is a gradual development. . . . The committee has decided not to recommend any change in the policy of the Commonwealth in regard to either the kind of investments which may be made or the proportion of deposits which may be invested in each. It has reached this conclusion after a careful study of the situation and an examination of the results of the various classes of investments during the past fifteen years.

Considering each of these classes of investments separately:

(1) Public Funds—The investments in public funds have no losses to the banks, and the committee have recommended but two changes, one which limits the bonds of water districts in the New England States outside of Massachusetts to districts having within their limits more than 5,000 inhabitants, in order to provide that such districts shall have a substantial population, and the second to raise the relation of indebtedness to assessed valuation in cities of 200,000 inhabitants and over in the States, as municipal bonds are authorized, from 5 to 7%. This is considered a perfectly safe increase and a necessary one in order to take legal the bonds of some of the larger cities which, requiring more extensive municipal improvements than the smaller cities, are frequently obliged to incur indebtedness in excess of 5% of their assessed valuation.

The committee has also recommended that the net indebtedness of a city outside of Massachusetts shall be based strictly upon the standard contemplated by the law, and that legislative enactment relative to such a city, permitting it to incur indebtedness, shall be of no effect when deciding if its bonds comply with the Massachusetts standard.

(2) Railroad Bonds—With the exception of certain general laws for railroads incorporated in Massachusetts and New England, all the railroads whose bonds are now legal are mentioned specifically in the law.

The committee feels that such special legislation is not desirable in principle and fails to provide, without more special legislation, for the bonds of other railroads, which in the future shall become sufficiently secure to warrant their purchase by savings banks. They have therefore completely re-drafted the paragraph relating to railroad bonds in three divisions, all of which are entirely general in their terms, viz.: (1) Massachusetts railroads, (2) New England railroads, (3) other railroads.

The divisions legalizing the bonds of Massachusetts and New England railroads follow, in general, the present general provisions relating to such railroads; but the length of time during which dividends shall have been paid before the bonds may become legal is lengthened from two and three years in the case of Massachusetts and New England roads, respectively, to five years for both.

The third division, providing for the admission of the bonds of railroads operating in any other sections of the United States, has been a difficult one to draft. Strict requirements have been made as to the character both of the corporation and of the bond.

The committee has deferred its admission to the savings banks until five years from the date of their issue in the belief that if any considerable amount of bonds on unproductive extensions is issued, they will, before the five-year period of probation has expired, have upset the required relation of five to one between gross earnings and interest charges, and so automatically prevent their becoming legal. This period of probation will also have the tendency of making the railroads finance their new lines through large general mortgages secured on the main line as well as on the extensions.

The committee has recommended that the Bank Commissioner should be required once in each year to publish a list of the railroad bonds legal for investments, feeling that in the case of a general law the savings banks and others, who either do or are obliged to invest under its provisions, are entitled to an official interpretation of it.

(3) Bank Stocks—While most of the bank stocks held by the banks have proved a valuable and profitable investment, some of them have proved the reverse and have occasioned considerable losses to the savings banks holding them, through the fact of their liability to assessment thereon. The amount invested in bank stocks is decreasing every year, and the general tendency of the banks is to dispose of their bank stocks. If the committee were constructing a new law to-day, there is little doubt that bank stocks would not be included as an authorized investment for savings banks. Inasmuch, however, as, since the passage of the first law in 1834 they have been permitted to invest in them, and as the banks are generally disposing of them, the committee does not feel disposed to recommend their discontinuance as a legal investment; but it considers the present policy of the banks a wise one, and believes that it should be followed until eventually all bank stocks are eliminated from the investments of our savings banks.

(4) Street Railway Bonds—The committee has recommended but little change in the clause relating to investments in street railway bonds. In conformity with the plan followed under the clause relating to railroad bonds, they have eliminated the name of the West End Street Railway from the present law, and have provided in general terms for the situation therein mentioned.

**Santo Domingo.**—*Fiscal Agent Appointed for Adjustment of Debt.*—The following announcement has been made in connection with the adjustment of the debt of the Republic of Santo Domingo:

The Morton Trust Company has been appointed by the Republic of Santo Domingo as its fiscal agent for the service of the $20,000,000 5% loan which the Republic has issued in connection with the adjustment of its debt. Under the terms of the convention between the United States and the Dominican Republic there will be deposited with the Morton Trust Company every month a sum sufficient to cover the interest on bonds as it matures and to take care of the sinking fund requirements for the payment of the principal of the bonds. The Morton Trust Company has also been appointed by the Dominican Government depositary for the adjustment of the debt, and all payments under such adjustment will be made through the Trust Company. The principal creditors have already accepted the terms of settlement, and Senor Velasquez, the Financial Minister of the Domincan Republic, having completed all the important features of the settlement, returned to Santo Domingo last week.

## Bond Calls and Redemptions.

**Bellows Falls, Windham County, Vt.**—*Bond Call.*—Water improvement bonds dated July 1 1895 and numbered from 41 to 56 inclusive are called for payment April 1 at the First National Bank of Boston or at the Village Treasurer's office in Bellows Falls.

**Camp Branch Township, Cass County, Mo.**—*Bond Call.*—On Feb. 15 call was made for payment of 5% bonds Nos. 5, 7, 8, 9, 12, 13, 14, 32, 33 and 34 for $1,000 each. Bonds are dated Nov. 19 1887.

**Cass County (P. O. Harrisonville), Mo.**—*Bond Call.*—The following bonds were called for payment Feb. 15:

Nos. 1, 6, 7 and 8 for $500 each. Nos. 3, 14, 15, 16, 17 and 18 for $100 each. Nos. 1 to 18 inclusive and Nos. 19 to 29 inclusive, 64 to 83 inclusive and 136 for $1,000 each.

The above bonds bear 4% interest and are dated Jan. 1 1893.

**Cincinnati School District (P. O. Cincinnati), Ohio.**—*Bond Call.*—The Board of Education, Charles P. Taft, President, calls for payment April 1 at the American Exchange National Bank of New York City or at the Third National Bank of Cincinnati 4% bonds numbered from 261 to 285 inclusive. Securities are in denomination of $500 each and are dated Oct. 1 1891. Maturity Oct. 1 1911, subject to call after Oct. 1 1901.

**Clark County (P. O. Kahoka), Mo.**—*Bond Call.*—This county called for payment Feb. 17 railroad refunding bonds Nos. 57 to 100 inclusive. Denomination $500. Bonds are dated Jan. 1 1885.

**Weaubleau School District, Hickory County, Mo.**—*Bond Call.*—On March 1 bond No. 4 for $200, dated June 1 1903, will be redeemed.

## Bond Proposals and Negotiations this week have been as follows:

**Albany, Dougherty County, Ga.**—*Bond Offering.*—Further details are at hand relative to the offering on March 10 of the following bonds mentioned in V. 86, p. 432:

$15,000 5% gold bonds for the extension of the water mains and the sewerage system.
15,000 5% gold bonds for the improvement of the surface-drainage system.
30,000 5% gold City-hall construction bonds.
10,000 5% gold Broad Street paving bonds.
5,000 Davis Street improvement bonds.

Proposals for these bonds will be received until 12 m. on that day by Y. C. Rust, Council Clerk. Authority, election held Sept. 23 1907. Denomination $1,000. Date, day of issue. Interest annually at the National City Bank in New York City. Maturity $5,000 every two years from date of issue. Certified check for $1,000 required. Purchaser to pay the cost of lithographing.

**Adams County (P. O. Natchez), Miss.**—*Bonds Authorized.*—The Board of County Supervisors has authorized the issuance of $18,500 6% gold coupon road and bridge-construction bonds. Denomination $500. Date March 2 1908. Interest annually at the County Treasurer's office. Maturity $2,500 yearly on March 2 from 1916 to 1922 inclusive and $1,000 on March 2 1923.

**Alpine Independent School District (P. O. Alpine), Brewster County, Texas.**—*Bonds Not Yet Sold.*—This district has not yet disposed of the $20,000 5% coupon school bonds, mention of which was made in V. 85, p. 1658.

**Arlington Heights (P. O. Cincinnati), Ohio.**—*Bond Offering.*—Proposals will be received until 12 m., March 10, by J. W. Evans, Village Clerk, for $1,052 75 5% Railroad Street improvement bonds. Authority, Sections 70 to 75,

inclusive, Municipal Code. Denomination $210 55. Date Jan. 1 1908. Interest annual. Maturity $210 55 yearly on Jan. 1 from 1909 to 1913 inclusive. Certified check for 5% of bonds bid for, payable to the Village Treasurer, is required. Purchaser to pay accrued interest. Bonds to be delivered within ten days from time of award.

**Baltimore, Md.**—*Bond Offering.*—Further details are at hand relative to the offering on March 16 of the $1,000,000 4% registered Park Loan, dated Nov. 1 1907 and due May 1 1955, and the $1,000,000 4% registered Annex Loan dated Dec. 1 1907 and due June 1 1954. See V. 86, p. 495. Proposals for these securities will be received until 12 m. on that day by John M. Littig, President of the Board of Commissioners of Finance. Date April 1 1908. Interest semi-annually at some designated Baltimore bank. Bonds are exempt from city taxes. Successful bidder will be required to deposit a certified check for 2% of bid. Stock will be ready for delivery on April 1 1908. The city does not tax any of its issues of stock, and also pays the State tax thereon for which the holder is legally liable.

**Barboursville, Cabell County, W. Va.**—*Bond Offering.*—Proposals will be received until 12 m. March 23 by J. M. Skinner, City Recorder, for $15,000 5% coupon water-works and sewerage bonds. Denomination $100. Date March 23 1908. Interest is payable at First State Bank of Barboursville. Maturity March 23 1938, subject to call after ten years.

**Bayonne, N. J.**—*Bond Sale.*—We are advised that this city recently disposed of $390,000 funding and $160,000 school 5% 20-year gold coupon (with privilege of registration) bonds as follows: $160,000 of the first-named issue to the Mechanics' Trust Co. of Bayonne and the remaining $230,000, together with the $160,000 school bonds, to John D. Everitt & Co. of New York City. Denomination $1,000. Date Jan. 1 1908. Interest is payable in Bayonne. Bonds have been certified to as to their genuineness by the Columbia Trust Co. of New York City and their legality approved by Delafield & Longfellow of New York City. These securities take the place of the three issues of 5% bonds, aggregating $434,000, recently awarded (V. 86, p. 240), the sale of which was never consummated.

**Beaumont, Jefferson County, Tex.**—*Bids Rejected.*—*Bond Offering.*—All bids received on Feb. 18 for the $20,000 Main Street market-house and $10,000 brick-fire-station 5% bonds described in V. 86, p. 299, were rejected. Proposals are again asked for these bonds and will be received this time until March 17.

**Benton County School District No. 7, Wash.**—*Bond Sale.*—On Feb. 20 the $5,000 20-year coupon school-building bonds described in V. 86, p. 433, were disposed of to the State of Washington at par for 6s. This was the only bid received.

**Benton Harbor, Berrien County, Mich.**—*Bonds Authorized.*—On Feb. 4 an ordinance was passed providing for the issuance of $30,000 4½% coupon bonds for the purpose of paying this city's portion of the cost of constructing a bridge across the St. Joseph River between the cities of St. Joseph and Benton Harbor. These bonds were voted at an election June 3 1907. Denomination $1,000. Date Feb. 1 1908. Interest Jan. 1 and July 1 at the Farmers' & Merchants' Bank in Benton Harbor. Maturity Feb. 1 1938.

**Berea, Cuyahoga County, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. March 9 by O. R. Stone, Village Clerk, for $1,670 5% coupon East Bagley Road improvement (village's portion) bonds. Authority Sec. 100 Municipal Code. Denominations two bonds of $500 each and one bond of $670. Date Jan. 1 1908. Interest April 1 and Oct. 1. Maturity $500 on April 1 in each of the years 1910 and 1913 and $670 on April 1 1915. Certified check for 5% of bonds bid for, payable to the Village Treasurer, is required. Accrued interest to be paid by purchaser. Interest payable at the Bank of the Berea Co.

In addition to the above, proposals will also be received at the same time and place by O. R. Stone, Village Clerk, for the following bonds:

$11,160 5% coupon Seminary Street improvement assessment bonds. Denomination $500, except one bond of $660. Maturity $500 each six months from April 1 1909 to Oct. 1 1914 inclusive; $500 on April 1 in each of the years 1915, 1916, 1917 and 1918. $1,000 on Oct. 1 in each of the years 1916 and 1917 and $1,160 on Oct. 1 1918.

5,010 5% coupon East Bagley Road improvement assessment bonds. Denomination $500, except one bond of $510. Maturity $500 yearly on April 1 from 1909 to 1914 inclusive; $500 on April 1 1916; $1,000 on April 1 1917 and $1,010 on April 1 1918.

3,720 5% coupon Seminary Street improvement (village's portion) bonds. Denomination $500, except one bond of $720. Maturity $500 yearly on Oct. 1 from 1909 to 1914 inclusive and $720 on Oct. 1 1915.

Authority, Section 100, Municipal Code. Date Jan. 1 1 08. Interest April 1 and Oct. 1 at the Bank of The Berea Co. in Berea. Bonds are tax-exempt. Certified check for 5%, payable at the Village Treasurer, is required.

**Berne, Albany County, N. Y.**—*Bond Sale.*—We are advised by Wallace A. Peasley, Town Supervisor, under date of Feb. 24, that the $10,000 5% coupon road bonds, described in V. 86, p. 122, have been disposed of. Maturity $1,000 yearly on Feb. 1 from 1912 to 1921 inclusive.

**Bluefield School District (P. O. Bluefield), Mercer County, W. Va.**—*Bonds Voted.*—By a vote of 1,109 to 509 this district on Feb. 11 authorized the issuance of $150,000 6% bonds, to mature March 1 1928.

**Bradford School District (P. O. Bradford), Ohio.**—*Bond Sale.*—On Feb. 19 the $40,000 5% coupon school-house bonds described in V. 86, p. 433, were awarded to Otis & Hough of Cleveland. Maturity $1,000 yearly on Sept. 1 from 1910 to 1929 inclusive and $2,000 yearly on Sept. 1 from 1930 to 1939 inclusive.

**Bristol County (P. O. Taunton), Mass.**—*Temporary Loan.*—Reports state that a loan of $40,000, maturing Oct. 2, was recently negotiated with Bond & Goodwin & Boston at 4.67% discount.

**Caldwell County (P. O. Lockhart), Texas.**—*Bond Election.*—The Commissioners' Court has ordered an election to be held March 28 for the purpose of voting on the question of issuing $25,000 jail-construction bonds.

**Canton, Ohio, Union School District.**—*Bond Sale.*—On Feb. 27 the $30,000 4% 20-year public-school-property improvement bonds described in V. 86, p. 495, were awarded, it is stated, to the Western German Bank of Cincinnati for $30,165 50, the price thus being 100.551—a basis of about 3.96%.

**Champaign Township (P. O. Champaign), Champaign County, Ill.**—*Bond Election.*—The question of issuing $33,000 refunding bonds at not exceeding 5% interest will be submitted to a vote of the people on April 7. Maturity $3,000 on July 1 1910 and $5,000 yearly on July 1 from 1911 to 1916 inclusive.

**Chelsea, Mass.**—*Temporary Loan.*—This city has borrowed $150,000 from Bond & Goodwin of Boston. The loan was negotiated at 4.75% discount and matures in one year.

**Chico, Butte County, Cal.**—*Bond Election Proposed.*—The City Clerk advises us that there is talk of calling an election to vote on the question of issuing $150,000 bonds.

**Clarksville, Clinton County, Ohio.**—*Bond Offering.*—Proposals will be received until 2 p. m. March 10 by Gus. J. Miller, Mayor, for $1,000 6% coupon refunding bonds. Denomination $200. Interest is payable at the Mayor's office. Maturity $200 yearly on March 10 from 1911 to 1915 inclusive.

**Coeur d'Alene, Kootenai County, Idaho.**—*Bond Sale.*—On Feb. 17 Mason, Lewis & Co. of Chicago purchased the $40,000 10-20-year (optional) coupon city-hall-construction bonds described in V. 86, p. 361, at 101.50 and accrued interest for 6s. The following bids were received for bonds carrying 6% interest.

Mason, Lewis & Co., Chicago *a*$40,600 | Otis & Hough, Cleveland *a*$40,200
John Nuveen & Co., Chicago 40,440 | E. H. Rollins & Sons, Chic. *a*40,068

*a* And accrued interest.

Bonds are dated Jan. 1 1908.

**Cohoes, Albany County, N. Y.**—*Bonds Not Sold.*—No bids were received on Feb. 15 for the $30,617 98 4% registered local-improvement bonds and the $18,000 1-10-year (serial) bonds for the construction of the first branch of the Mohawk River Ontario Street Bridge, offered on that day. See V. 86, p. 299.

**Collinwood School District (P. O. Collinwood), Cuyahoga County, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. March 6 by J. S. Bauder, Clerk Board of Education, for $35,000 4% coupon school-building bonds. Authority vote of 143 "for" to 89 "against" at election held Feb. 6; also Sections 3991 and 3992, Revised Statutes. Denomination $1,000. Interest semi-annually at the Collinwood Branch of the Cleveland Trust Company at Collinwood. Maturity $1,000 yearly on April 1 from 1909 to 1943 inclusive. Certified check for 1% of the amount of bonds bid for, payable to D. R. King, Treasurer, is required. Purchaser to pay the expense of printing the bonds.

**Cornelia, Habersham County, Ga.**—*Bond Offering.*—Proposals will be received by the Mayor and City Council for the $10,000 5% municipal school-house bonds voted Oct. 18 1907 (V. 85, p. 1353). Denomination $1,000. Interest Jan. 1 and July 1. Maturity thirty years. Bonded debt at present, $3,300. Assessed valuation $294,000.

**Crocus Plain School District No. 1818 (P. O. Lang), Sask.**—*Debenture Offering.*—Proposals will be received until April 1 by J. J. Howard, Secretary-Treasurer, for $2,000 8% registered school-building debentures. Date June 1 1908. Interest annually in February in Lang. Maturity part yearly on Feb. 1. Debentures are tax-exempt. Total debt, this issue.

**Crosby, Williams County, N. D.**—*Bond Offering.*—Further details are at hand relative to the offering on March 5 of the $2,000 8% coupon water supply and fire-equipment bonds mentioned in V. 86, p. 496. Proposals for these securities will be received until 8 p. m. on that day by J. C. Rousseau. Denomination $100. Date March 5 1908. Interest annually at the Village Treasurer's office. Maturity March 5 1913. Bonded debt, this issue. Floating debt, $200.

**Defiance, Defiance County, Ohio.**—*Bonds Authorized.*—It is reported that at the meeting of the City Council Feb. 4 ordinances were passed providing for the issuance of $61,500 bonds to pay the judgment secured against the city by the Defiance Water Co. for hydrant rental that is due and $3,000 bonds for the construction of a sewer on Bouton Avenue.

**De Kalb School District No. 64 (P. O. De Kalb), De Kalb County, Ill.**—*Bond Offering.*—Proposals will be received

until March 2 by the Board of Education, D. E. Moon, Secretary, for the $30,000 4% school-building bonds mentioned in V. 85, p. 819. Authority, vote of 72 to 0 at election July 6 1907. Denomination $1,000. Date Oct. 1 1907. Interest annually on July 1. Maturity $1,000 yearly on July 1 from 1910 to 1919 inclusive, $2,000 on July 1 in each of the years 1920, 1921, 1922 and 1927, and $3,000 yearly on July 1 from 1923 to 1926 inclusive. Bonded debt, including this issue, $58,000. Assessed valuation, $1,184,866. Real value (estimated), $5,924,330. Official circular states that there has never been any default in the payment of principal or interest.

**Delhi, Hamilton County, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. March 28 by Frank R. Torrey, Village Clerk, for $1,920 72 (the amount of bonds to be issued may be reduced by the amount of assessments paid in cash prior to the date of sale), 5% Lincoln Avenue improvement assessment bonds. Authority Section 50, Municipal Code. Date Jan. 27 1908. Interest semi-annually at the Hamilton County National Bank in Cleves. Maturity one-tenth of issue yearly on Jan. 27 from 1909 to 1918 inclusive. Certified check for 5% of bid, payable to the Village Treasurer, is required. Purchaser to pay accrued interest.

**Del Rio Independent School District (P. O. Del Rio), Valverde County, Tex.**—*Bond Offering.*—Proposals will be received by Dr. F. M. Rose, President School Board, for the $30,000 5% school-house bonds registered by the State Comptroller (V. 86, p. 123) on Dec. 23 1907. Denomination $500. Date Nov. 1 1907. Maturity Nov. 1 1947, subject to call after ten years.

**Denver, Col.**—*Bond Offering.*—Proposals will be received until 11 a. m. March 5 at the office of Board of Public Works for the following bonds:

$5,000 6% East Denver Improvement District No. 2 bonds dated July 1 1905. Denomination $500.

| S. A. Kean, Chicago | a50,025 | | |

a Also furnish blank bonds.

**Kimball County (P. O. Kimball), Neb.**—*Bond Election Proposed.*—A petition requesting that the County Commissioners call an election to submit to the voters the question of issuing the $5,000 5-year high-school building bonds at "about 6%" interest, mention of which was made in V. 85, p. 960, is being circulated throughout the county.

**Knoxville, Tenn.**—*Bonds Offered by Bankers.*—Albert Kleybolte & Co. of Cincinnati have purchased and are offering for sale (see advertisement on a preceding page) $180,000 4½% funding, improvement and sewer bonds. Denomination $1,000. Date Dec. 2 1907. Interest semi-annually at the Hanover National Bank in New York City. Maturity Dec. 2 1937. The legality of this issue has been approved by Hon. C. B. Wood of Chicago and by the Court of Appeals of Tennessee.

*Bonds Authorized.*—An ordinance was passed on Feb. 21 by the Mayor and Board of Aldermen providing for the issuance of $60,000 6% coupon street-improvement (city's portion) bonds. Denomination $500. Date April 1 1908. Interest semi-annually in Knoxville. Maturity $20,000 on Oct. 1 in each of the year's 1908, 1909 and 1910.

**Lancaster, Erie County, N. Y.**—*Bonds Not Sold.*—No sale was made on Feb. 17 of the $150,000 coupon sewerage-disposal and construction bonds described in V. 86, p. 361. These securities will, we are advised, be re-offered early in March.

**Leduc, Alberta.**—*Debenture Offering.*—Proposals will be received by C. E. A. Simonds, Secretary-Treasurer, for $10,000 fire-protection and $5,000 park-improvement 5% coupon debentures. Denomination $1,000. Date Oct. 1 1906. Interest annually at the Merchants' Bank of Canada in Leduc. Maturity part yearly for twenty years. Total debt at present, $4,300. Assessed valuation $344,042. These debentures were offered without success on Oct. 1 1907.

**Lewiston, Nez Perce County, Idaho.**—*Bond Sale.*—We are advised that the $57,300 5% gold coupon water-system bonds originally advertised to be offered March 16 (V. 86, p. 301) were awarded on Feb. 10 to E. H. Rollins & Sons of Denver. Denomination $1,000. Date Dec. 1 1907. Interest January and July. Maturity Dec. 1 1927, subject to call after Dec. 1 1917. Bonds are exempt from taxation.

**Lexington, Fayette County, Ky.**—*Bonds Awarded in Part.*—No satisfactory bids were received on Feb. 10 for the $25,000 4% 40-year coupon sewer bonds described in V. 86, p. 301. We are advised, however, that $12,000 of these bonds were subsequently awarded to a local bank at par and accrued interest.

**Lidgerwood, Richland County, N. D.**—*Bonds Voted.*—*Bond Offering.*—The election held Jan. 14 resulted in favor of the proposition to issue the $7,500 5% 20-year water-works-system-improvement bonds mentioned in V. 86, p. 124. The vote was 110 to 17. These bonds are now being offered for sale. F. W. Masbek is City Auditor.

**Linneus, Linn County, Mo.**—*Bonds Voted.*—An election held Feb. 17 resulted in favor of a proposition to issue $3,500 5% 5-20-year (optional) electric-light-plant re-building and equipment bonds. The vote was 175 "for" to 2 "against." These bonds will probably be offered at private sale about March 15.

**London Graded School District (P. O. London), Laurel County, Ky.**—*Bonds Voted.*—It is stated in Louisville papers that this district, by a vote of 216 to 32, recently authorized the issuance of bonds for a new school.

**Long Branch, Monmouth County, N. J.**—*Bonds Awarded in Part.*—We are informed under date of Feb. 20 that $20,000 of the $100,000 4½% 30-year gold ocean-front-improvement bonds, mentioned in V. 85, p. 1659, have been disposed of.

**Lore City School District (P. O. Lore City), Guernsey County, Ohio.**—*Bond Election.*—An election is to be held in this district March 10 to vote on the question of issuing $6,000 school-building construction bonds.

**McCulloch County (P. O. Brady), Tex.**—*Bond Election Proposed.*—It is stated that a petition is being circulated requesting the county officials to call an election in order that the people might vote on the issuance of bonds for the building of a jail.

**Madison County (P. O. Jackson), Tenn.**—*Bond Offering.*—Proposals will be received until 12 m. March 26 by Hu. C. Anderson, President of the Good Roads Trustees, at the People's Savings Bank in Jackson for $200,000 4% good roads bonds. Authority vote cast at election held May 25 1907. Denomination $500. Date May 1 1908. Interest semi-annually at the People's Savings Bank in Jackson. Maturity forty years, subject to call after thirty years. Bonds are exempt from taxation.

**Madisonville School District (P. O. Madisonville), Hamilton County, Ohio.**—*Bond Offering.*—Proposals will be received until 6 p. m. March 14 by J. F. Klein, Clerk Board af Education, for $50,000 4% coupon school-building construction and equipment bonds. Denomination $500. Date March 14 1908. Interest semi-annually at the Fourth National Bank in Cincinnati. Maturity March 14 1938.

**Marion, Marion County, Ohio.**—*Bond Offerings.*—Proposals will be received until 12 m. March 2 by Harry S. Elliott, City Auditor, for the following bonds:

$3,050 4% street-paving and sewer-construction (city's portion) bonds. Authority an Act of the General Assembly passed April 29 1902 and amendments thereto. Denomination $500, except one bond of $50. Date Dec. 1 1907. Maturity four and three-fourths years from date. Certified check for $100 is required.

7,500 4½% storm-water-sewer-construction bonds. Authority an Act of the General Assembly passed April 29 1907 and amendments thereto. Denomination $500. Date Jan. 1 1908. Maturity eight and two-thirds years from date. Certified check for $200 is required.

Interest semi-annual. Bids to be made on each issue separately. Certified check in the above amounts must be made payable to the City Treasurer.

Proposals will also be received until 12 m. March 11 by Harry S. Elliott, City Auditor, for $71,500 4% coupon bonds for the purpose of refunding short-time notes. Authority Section 2701, Revised Statutes. Denomination $500. Date March 1 1908. Interest semi-annually at the City Treasurer's office. Maturity $2,500 Sept. 1 1908, $4,500 March 1 1909, $5,000 Sept. 1 1909, $4,500 March 1 1910, $5,000 each six months from Sept. 1 1910 to Sept. 1 1912 inclusive and $2,500 on March 1 and $2,500 on Sept. 1 each year from 1913 to 1918 inclusive. Bonds are exempt from taxation. Certified check for $1,500, payable to the City Treasurer, is required.

*Bond Election.*—The City Council has ordered an election to be held April 6 to vote on propositions to issue bonds for the following purposes: $150,000 for a city building, $15,000 for a central fire department and $10,000 for a market house.

**Marion County (P. O. Indianapolis), Ind.**—*Bonds Authorized.*—Local papers report that the County Council on Jan. 25 authorized the issuance of $200,000 refunding court-house and $400,000 bridge-construction bonds.

*Note Offering.*—Proposals will be received until 12 m. March 12 by Albert Sahm, County Auditor, for a temporary loan of $30,000 carrying 5% interest. Loan to mature not later than June 15 1908.

**Marion County (P. O. Palmyra), Mo.**—*Bond Election.*—We are advised that the election to vote on the question of issuing the $75,000 infirmary bonds, mentioned in V. 86, p. 436, will be held April 21.

**Martinsburg School District (P. O. Martinsburg), Berkeley County, W. Va.**—*Bond Sale.*—On Feb. 17 the $50,000 5% 10-30-year (optional) coupon school-building bonds described in V. 86, p. 301, were awarded to N. W. Harris & Co. of New York City.

**Massachusetts.**—*Temporary Loan.*—This Commonwealth recently negotiated a loan of $1,000,000 in anticipation of taxes.

**Menominee County (P. O. Menominee), Mich.**—*Bonds Not Yet Sold.*—A letter from the County Treasurer dated Jan. 30 states that he has not yet disposed of the $13,000 bonds, the unsold portion of the $20,000 4½% gold coupon agricultural-school-building bonds mentioned in V. 85, p. 1660.

**Miami County, (P. O. Troy), Ohio.**—*Bond Sale.*—On Feb. 20 the Tipp National Bank of Tippecanoe City was awarded the twenty-one issues of 5% coupon ditch bonds, aggregating $25,500, described in V. 86, p. 436, at 101.96 and accrued interest. The following bids were received:

| | | | |
|---|---|---|---|
| Tipp Nat. Bk., Tippecanoe | $26,000 | New 1st Nat. Bk., Colum. | $25,591 50 |
| Piqua National Bank, Piqua | 25,745 | Security Savings Bank & Trust Co., Toledo | 25,520 00 |
| Troy National Bank, Troy | 25,601 | | |

**Middletown, Butler County, Ohio.**—*Bond Sale.*—On Feb. 25 the $4,079 40 5% 1-10-year (serial) street-improvement assessment bonds described in V. 86, p. 498, and the $2,041 29 5% 1-10-year (serial) sewer-construction assessment bonds described in V. 86, p. 301, were awarded, it is stated, to the Provident Savings Bank & Trust Co. of Cincinnati.

**Milwaukee, Wis.**—*Bond Election.*—We are informed that the election to vote on the question of issuing the $60,000 4% bath-house bonds mentioned in V. 86, p. 124, will be held April 17. Interest semi-annual. Maturity part yearly for twenty years.

On the same day the citizens will also vote upon the question of building a municipal lighting-plant.

**Mobile, Ala.**—*Bonds Authorized.*—The issuance of $145,000 5% coupon or registered paving and drainage bonds has been authorized. Denomination $500. Interest payable in Mobile or New York. Maturity ten years, subject to call one-tenth "or more" each year. Bonds are exempt from city taxes.

**Monongahela School District (P. O. Monongahela), Washington County, Pa.**—*Bond Offering.*—Proposals will be received until 8 p. m. March 3 by John P. Norman, Secretary, for $52,000 4½% coupon school building bonds. Denomination $1,000. Date Dec. 1 1907. Interest semi-annual. Maturity $2,000 yearly on Dec. 1 from 1910 to 1935 inclusive. Certified check for $500 required. The district has no debt at present.

**Mount Vernon, Westchester County, N. Y.**—*Bond Offering.*—Proposals will be received until 8 p. m. March 17 by the Common Council for the following bonds:

$60,000 5% tax-relief bonds numbered from 1,126 to 1,185 inclusive. Authority Section 142, Chapter 182, Laws of 1892.

Y.**—*Temporary Loan.*—On Feb. 26 the $300,000 5-months' notes mentioned in V. 86, p. 501, were awarded as follows: $100,000 at 4.97% interest to the Monroe County Savings Bank of Rochester; $50,000 at 5% interest to the Security Trust Co.; and $150,000 at 5.125% interest to Goldman, Sachs & Co. of New York City.

**Rolling Meadow School District No. 1907, Sask.**—*Purchaser of Debentures.*—Wood, Gundy & Co. of Toronto were the purchasers, we are informed, of the $1,000 8% 10-year school-building debentures disposed of (V. 86, p. 501) on Feb. 4. The price paid was par. Date Jan. 15 1908. Interest annual.

**Roswell, Chaves County, N. M.**—*Bonds Voted.*—We are informed by Fred. J. Beck, City Clerk, that the following vote was polled at the special election held Feb. 20 on the four issues of bonds mentioned in V. 86, p. 438:

$120,000 water works bonds—Vote of 640 "for" to 27 "against."
35,000 sewer bonds—Vote of 626 "for" to 33 "against."
10,000 street improvement bonds—Vote of 636 "for" to 24 "against."
5,000 fire department bonds—Vote of 634 "for" to 28 "against."

**Royse, Tex.**—*Bonds Registered.*—An issue of $15,000 5% water-works bonds was registered by the State Comptroller on Feb. 15. Maturity Feb. 1 1948, subject to call after ten years.

**Rusk County Common School District, Tex.**—*Bonds Registered.*—On Jan. 13 $1,000 5% school-house bonds maturing Oct. 1 1927 were registered by the State Comptroller.

**Rye, Westchester County, N. Y.**—*Bond Offering.*—Proposals will be received until 8:15 p. m. March 4 by George L. Henderson, Village Clerk, for the following bonds:

$300,000 registered sewer bonds. Denominations $1,000 and $538 46. Maturity part yearly on March 10 from 1913 to 1938 inclusive.
40,000 registered fire-house bonds. Denominations $1,000 and $538 46. Maturity part yearly on March 10 from 1913 to 1938 inclusive.
125,000 registered street-improvement bonds. Denominations $1,000 and $807 69. Maturity part yearly on March 10 from 1913 to 1938 inclusive.
15,000 registered dock bonds. Denomination $600. Maturity $600 yearly on March 10 from 1913 to 1937 inclusive.

The above bonds are issued pursuant to Chapters 4, 5, 6 and 7, Laws of 1908, and are dated March 10 1908. Interest (rate not to exceed 5%) payable semi-annually at the Central Trust Co. of New York City. Certified check for 3% of each issue bid upon, payable to the "Treasurer of the Village of Rye, N. Y.," is required. The validity of these securities will be approved by Delafield & Longfellow of New York City, whose opinion will be furnished to purchaser. These bonds were offered on Nov. 6 1907, but no satisfactory bids were received on that day. See V. 85, p. 1230.

**Sag Harbor Union School District No. 11 of the Town of Southampton (P. O. Sag Harbor), Suffolk County, N. Y.**—*Bond Sale.*—The $30,000 5% registered school-building bonds described in V. 86, p. 501, have been sold to N. W. Harris & Co. of New York City at 101.30. Maturity $3,000 yearly on Nov. 1 from 1911 to 1920 inclusive.

**San Francisco, Cal.**—*Bond Election Proposed.*—The Public Utilities Committee of the Board of Supervisors proposes to call an election to submit to the voters the question of issuing bonds for various improvements as follows: $5,200,000 for an auxiliary water system for fire protection; $1,000,000 for buildings to be used for fire houses and for the Department of Electricity; $4,000,000 for a sewer system; $1,600,000 for repaving streets; $5,000,000 for a city hall; $5,000,000 for school houses; $1,200,000 for a library; $2,000,000 for hospitals; $1,000,000 for a Hall of Justice and a jail, $800,000 for garbage plants and $1,500,000 for parks. In addition to the above amounts, propositions to issue bonds for playgrounds, the purchase of land at Sacramento and East streets for ferry traffic, and the purchase of lands for widening Montgomery Avenue's outlet, will also be voted upon. The cost of the last-mentioned improvements, however, have not yet been decided.

**Sault Ste Marie, Chippewa County, Mich.**—*Bonds Not to Be Re-Offered at Present.*—The $15,000 4% 20-year fire-department bonds offered but not sold on Sept. 9 1907 (V. 85, p. 822) will not be re-offered, we are advised, until the latter part of next summer.

**Scurry County Common School District No. 4, Tex.**—*Description of Bonds.*—The $1,000 5% 10-year school bonds registered by the State Comptroller on Dec. 13 1907 (V. 85, p. 1662) are dated Aug. 13 1907. Denomination $1,000. Interest annually on April 10.

**Seattle School District No. 1 (P. O. Seattle), King County, Wash.**—*Bond Offering.*—Proposals will be received until 11 a. m., April 11, by Matt H. Gormley, County Treasurer, for the $500,000 coupon school-building and site-purchase bonds mentioned in V. 86, p. 125. Authority, election held Dec. 7 1907. Denomination $1,000. Date May 1 1908. Interest (rate not to exceed 6%) payable semi-annually at the County Treasurer's office in Seattle or at the fiscal agency of the State of Washington in New York City. Maturity May 1 1928. Certified check for 1% of the amount of bonds bid for is required.

**Seneca Falls, Seneca County, N. Y.**—*Bond Sale.*—On Feb. 25 the $49,500 1-30-year (serial) sewerage-system completion bonds described in V. 86, p. 501, were awarded to W. N. Coler & Co. of New York City at 100.042 and accrued interest for 4.70s. Purchaser to pay cost of printing bonds. Following is a list of the bids received:

W. N. Coler & Co., New York City—100.042 and accrued interest for 4.70s. Printing free.
W. J. Hayes & Son, Cleveland—100.11 for 4.70s.
A. B. Leach & Co., New York City—100.052 for 4.70s.
N. W. Harris & Co., New York City—100.185 for 4.70s and blank bonds.
First National Bank, Cleveland—100.050 for 4.85s.
Otis & Hough, Cleveland—102.747 for 5s.
George M. Hahn, New York—101.13 for 5s.
Isaac Sherrill, Poughkeepsie—101.08 for 5s.
Perry, Coffin & Burr, New York—100.055 for 5s.

**Shawnee School District (P. O. Shawnee), Okla.**—*Bond Election.*—We learn that at the general election next April a proposition to issue $23,000 school-building and site-purchase bonds will be voted upon.

**Shenandoah, Schuylkill County, Pa.**—*Description of Bonds.*—We are advised that the $40,000 bonds recently voted (V. 86, p. 501) will bear 4% interest and will be issued to redeem temporary loans now outstanding. Maturity thirty years.

**Slayton School District (P. O. Slayton), Murray County, Minn.**—*Loan Authorized.*—By a vote of 168 to 108 the issuance of $15,000 building bonds was authorized at an election held Feb. 3. We are advised that the money will be borrowed from the State of Minnesota.

**South Bend, St. Joseph County, Ind.**—*Bids Rejected.*—All bids received on Feb. 25 for $60,000 4% refunding bonds offered on that day were rejected. The highest bid received was one of $60,950. The bonds will be offered again some time in June or July.

**South Omaha, Douglas County, Neb.**—*Bond Offering.*—Proposals will be received until March 9, according to local papers, for the following bonds:

$48,000 West Q Street paving bonds. These bonds take the place of those awarded last October to Emery, Anderson & Co. of Cleveland (V. 85, p. 1165), which sale was never consummated.
48,500 Twenty-fifth Street paving bonds.
50,000 deficiency sewer bonds.
30,000 intersection bonds.

**Spalding County (P. O. Griffin), Ga.**—*Bond Election Proposed.*—A petition is being circulated requesting the Board of County Commissioners to call an election to vote on the question of issuing bonds to macadamize all the first-class roads in the county.

**Springfield School District (P. O. Springfield), Greene County, Mo.**—*Bond Election.*—On April 6 the question of issuing bonds for building purposes will be submitted to a vote.

**Spring Independent School District (P. O. Spring), Harris County, Tex.**—*Bonds Registered.*—The State Comptroller registered $2,000 5% school-house bonds on Feb. 3. Maturity Feb. 1 1918, subject to call after five years.

**Stamford, Fairfield County, Conn.**—*Bond Offering.*—Proposals will be received until 12 m. March 20 by William N. Travis, City Treasurer, at the Stamford National Bank, for $55,000 4% public-park bonds. Date April 1 1908. Interest semi-annually in New York. Maturity April 1 1938. Bonds are exempt from taxation. Certified check for 2% of the bonds bid for is required.

*The official notice of this bond offering will be found among the advertisements elsewhere in this Department.*

**Staples, Todd County, Minn.**—*Certificate Sale.*—This city on Feb. 18 awarded the following certificates of indebtedness to O. F. Doyle, St. Cloud, at par:

$10,000 6% sewer-construction certificates maturing part yearly from three to five years from date.
2,000 6% water and light-plant improvement certificates maturing Feb. 1 1909. Date Feb. 1 1908.

Denomination $500. Interest semi-annual.

**Struthers, Ohio.**—*Bond Sale.*—On Feb. 15 the $5,000 6% 2-11-year (serial) coupon bonds for the purchase of a city building, a description of which was given in V. 86, p. 303, were awarded to the Struthers Savings & Banking Co. of Struthers at 106.50 and accrued interest—a basis of about 4.823%. The bids received were as follows:

| | | | |
|---|---|---|---|
| Struthers Savings & Banking Co., Struthers | 5,325 | Security Savings Bank & Tr. Co., Toledo | *a*$5,279 |
| First Nat. Bank, Cleveland | *a*5,410 | A. Kleybolte & Co., Cincin | *a*5,275 |
| W. J. Hayes & Sons, Cleve | *a*5,396 | W. R. Todd & Co., Cincin | *a*5,265 |
| Otis & Hough, Cleveland | *a*5,392 | Well, Roth & Co., Cincinnati | *a*5,181 |
| New 1st Nat. Bk., Columb | *a*5,365 | First Nat. Bk., Barnesville | *a*5,101 |

*a* These bids, we are informed, did not comply with the terms of the advertisement and therefore were not considered.

**Tifton, Tift County, Ga.**—*Bond Sale.*—On Feb. 15 the $30,000 5% gold coupon water and sewer bonds offered but not sold on Dec. 30 1907 (V. 86, p. 245) were awarded, it is stated, at par to W. C. Wardlaw, representing John W. Dickey of Augusta.

**Tipton County (P. O. Tipton), Ind.**—*Bonds Not Yet Sold.*—This county will entertain bids at any time for the $307,000 4½% gravel-road bonds offered but not sold last August. See V. 85, p. 681.

**Troy, N. Y.**—*Offering of Certificates of Indebtedness.*—Proposals will be received until to-day (Feb. 29) for $150,000 5% certificates of indebtedness. Maturity Oct. 29 1908. Hiram W. Gordinier is City Comptroller and Chas. F. McLindon is Deputy Comptroller.

**Underwood, Pottawattamie County, Iowa.**—*Proposition to Build Water-Works Defeated.*—The election held here Jan. 20 to vote on the question of installing a water-works system (V. 86, p. 126) resulted in the defeat of that proposition. The vote was 39 "for" to 36 "against"—a two-thirds majority being necessary.

**Urbanna, Middlesex County, Va.**—*Bonds Proposed.*—Reports state that the Town Council, in pursuance of a resolution passed by the Business Men's Association of Urbanna, requesting that a system of water-works be constructed, proposes to issue $8,000 30-year bonds for that purpose.

**Vanderbilt School District (P. O. Vanderbilt), Fayette County, Pa.**—*Bond Offering.*—Proposals will be received until 7 p. m., March 2, by C. B. Arison, Secretary Board of Education, for $5,000 5% school-building bonds. Denomination $500. Date Sept. 2 1907. Interest semi-annually at the First National Bank in Vanderbilt. Maturity Sept. 2 1920. Bonds are exempt from taxation. Certified check for $100, payable to the Secretary Board of Education, is required. These bonds were offered but not awarded on Feb. 20. Assessed valuation for 1907, $195,595.

**Vonda, Sask.**—*Debenture Offering.*—We are informed by A. F. Totzke, Secretary-Treasurer, that proposals for the $15,000 6% water-works-installation debentures described in V. 86, p. 502, will be received up to April 1.

**Walkerville, Ont.**—*Debenture Sale.*—This town, we are informed, has awarded $40,003 78 5% coupon debentures to the Dominion Securities Corporation, Ltd., of Toronto. Interest annual. Maturity part yearly for ten years.

**Waterbury, New Haven County, Conn.**—*Bond Sale.*—On Feb. 24 the $150,000 4½% 30-year coupon or registered street-improvement bonds described in V. 86, p. 304, were awarded to Blodgett, Merritt & Co. of Boston at 108.18 and accrued interest—a basis of about 4.029%. The following bids were received:

| | | | |
|---|---|---|---|
| Blodgett, Merritt & Co., Bos. | $162,270 | O'Connor & Kahler, N. Y. | $160,590 |
| Estabrook & Co., Boston | 161 325 | Parkinson & Burr, Boston | 159,855 |
| Chas. A. Peeling & Co. | 161,270 | R. Kleybolte & Co., N. Y. | 159,825 |
| Dennison & Farnsworth, Cleveland and Boston | 160,965 | Perry, Coffin & Burr, Boston | 159,255 |
| A. B. Leach & Co., N. Y. | 160,905 | N. W. Harris & Co., N. Y. | 158,660 |
| Kountze Bros., New York | 160,845 | Colonial Trust Co. of Waterbury | 153,050 |
| Merrill, Oldham & Co., Bos. | 160,788 | Hincks Bros. Co. | 153,015 |
| Blake Bros. & Co., Boston | 160,560 | | |

**Wauseon, Fulton County, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. March 20 by L. H. Deyo, Village Clerk, for the following bonds:

$3,499 26 5% Depot Street paving assessment bonds. Denomination $170, except one bond of $269 26. Maturity $269 26 on March 1 1909 and $170 each six months from Sept. 1 1909 to Sept. 1 1918, inclusive.

4,000 00 5% Commercial Street paving assessment bonds. Denomination $200. Maturity $200 each six months from March 1 1909 to Sept. 1 1918, inclusive.

Authority, Section 2835, Revised Statutes. Date March 1 1908. Interest semi-annually at the Village Treasurer's office. Certified check for 5% of bonds bid for, payable to the Village Treasurer, is required. Purchaser to pay accrued interest.

**Wayne County (P. O. Wooster), Ohio.**—*Bond Sale.*—On Feb. 24 the $9,500 4½% coupon ditch-construction bonds described in V. 86, p. 502, were awarded as follows:

$1,000 Kiser Ditch No. 160 bond maturing Jan. 1 1909 awarded to A. A. Mowery of Wooster at 100.675.

1,000 Kiser Ditch No. 160 bond maturing Jan. 1 1914 awarded to A. A. Mowery of Wooster at 101.60.

500 Kiser Ditch No. 160 bond maturing Jan. 1 1915 awarded to Price Russel of Creston at 101.50.

1,500 Kiser Ditch No. 160 bonds maturing $1,000 on Jan. 1 1917 and $500 on Jan. 1 1918 awarded to Price Russel of Creston at 101.025.

1,000 Kiser Ditch No. 160 bonds maturing Jan. 1 1916 awarded to David Thomas of Wooster at 101.60.

2,000 Kiser Ditch No. 160 bonds maturing on Jan. 1 as follows: $500 in the year 1918, $1,000 in 1919 and $500 in the year 1920; and a $500 Fetters Ditch No. 170 bond maturing Jan. 1 1909 awarded to the Citizens' National Bank of Wooster at par and accrued interest.

**Waynesboro, Wayne County, Miss.**—*Bonds Voted.*—A proposition to issue $12,000 bonds for the construction and operation of a municipal electric-light-plant carried, it is stated, at a recent election.

**Webb City, Jasper County, Mo.**—*Bond Sale.*—An issue of $15,300 4½% 10-20-year (optional) judgment-funding bonds was awarded on Feb. 17 to the Harris Trust & Savings Bank

BOSTON
CLEVELAND and PHILADELPHIA

of Chicago at par and accrued interest. Denomination $500. Date Feb. 1 1908. Interest semi-annual.

**Wessington Springs, Jerauld County, S. D.**—*Bonds Voted.*—An election held here on Feb. 18 resulted in favor of a proposition to issue $23,000 5% 20-year water-works-improvement bonds. The vote was 119 "for" to 17 "against.

**Wheeling School District (P. O. Wheeling), Ohio County, W. Va.**—*Bond Offering.*—Further details are at hand relative to the offering on March 2 of the $200,000 4½% gold coupon high-school-building and site-purchase bonds described in V. 86, p. 502. Proposals for these bonds will be received by the National Bank of West Virginia at Wheeling, which is acting as agent for this district. Authority, election held July 16 1907; also Chapter 7, Acts of the Legislature at its extra session in 1907. Denomination $1,000. Date Nov. 1 1907. Interest semi-annually at the National Bank of West Virginia at Wheeling or at the Importers' & Traders' National Bank in New York City at option of purchaser. Maturity $10,000 yearly on Nov. 1 from 1912 to 1931 inclusive. Certified check for 1% of bid, payable to the National Bank of West Virginia, at Wheeling, is required. Accrued interest to be paid by purchaser.

**White County (P. O. Monticello), Ind.**—*Bonds Not Sold.*—No bids were received on Feb. 24 for the $4,800 coupon gravel-road bonds described in V. 86, p. 439.

*Bond Sale.*—Reports state that $18,000 bonds have been awarded to the City National Bank of Lafayette for $18,110 25, the price thus being 100.612.

**Wichita, Kan.**—*Bond Election Proposed.*—It is stated locally that the Mayor and City Council have under consideration the question of calling an election to vote on the issuance of $75,000 auditorium-construction bonds.

**Wilmington, Los Angeles County, Cal.**—*Bonds Proposed.*—This city is contemplating the issuance of bonds to pay for the dredging of a ship canal to the foot of Canal Street. We are advised, under date of Jan. 14, that "nothing definite will be done for sixty or ninety days."

**Wilmington, Newcastle County, Del.**—*Bonds Proposed.*—We learn from Horace Wilson, Mayor, that this city contemplates the issuance of park bonds. No definite action, however, has yet been taken in the matter.

**Winthrop (P. O. Station Boston), Mass.**—*Bond Sale.*—We are advised that this town on Jan. 28 sold $139,000 (not $140,000 as reported in last week's issue) 4% water-loan bonds to Merrill, Oldham & Co. of Boston at 100.02. Denomination $1,000. Date Jan. 1 1908. Interest semi-annual. Maturity part yearly for thirty years.

**Yonkers, N. Y.**—*Bond Sale.*—On Feb. 27 the $100,000 5% 1-40-year (serial) registered water bonds offered on that day (V. 86, p. 503) were awarded to N. W. Harris & Co. of New York City at 109.788—a basis of about 4.279%. Following are the bids:

| | |
|---|---|
| N. W. Harris & Co., N. Y.--109.788 | George M. Hahn, New York-105.29 |
| Kountze Bros., New York--106.77 | Rhoades & Co., New York--105.115 |
| Adams & Co., New York----106.277 | A. B. Leach & Co., N. Y.---104.3755 |
| Grannis & Lawrence, N. Y.-106.117 | N. W. Halsey & Co., N. Y.--104.277 |
| W. J. Hayes & Sons, Cleve.-105.945 | Dominick & Dominick, N.Y-103.27 |
| Ferris & White, New York-105.711 | Wadsworth & Wright, N. Y-101.50 |

Interest semi-annual.

**Young County (P. O. Graham), Texas.**—*Bond Offering.*—Among the advertisements elsewhere in this Department will be found the official notice of the offering of the $40,000 4% coupon Brazos River bridge-construction bonds, mention of which was made in V. 86, p. 186. Proposals are asked for by R. L. Stennis, County Judge. Denomination $1,000. Maturity twenty years, subject to call after ten years.

**Youngstown, Ohio.**—*Bond Sale.*—On Feb. 24 the five issues of 5% public-improvement bonds described in V. 86, p. 304, were awarded to the New First National Bank of Columbus for $8,232 (101.82) and accrued interest. Other bids received were:

| | $430 Bonds. | $800 Bonds. | $1,140 Bonds. | $4,060 Bonds. | $1,655 Bonds. |
|---|---|---|---|---|---|
| First Nat. Bk., Cleveland | $434 50 | $808 00 | $1,151 40 | $4,101 00 | $1,671 75 |
| Firemen's Pension Fund, Youngstown | 435 00 | 800 00 | 1,155 00 | ------- | 1,675 00 |

All bidders offered accrued interest in addition to their bids. Maturity part yearly on Oct. 1 from 1909 to 1913 inclusive.

☞ Table Clearings by Telegraph and Canadian Clearings on Page 580

## *THE FINANCIAL SITUATION.*

Decay in the health conditions of a community, whether it be of trade or of the population, is marked not alone by the death rate which prevails, but also just as assuredly by the impairment of credit and vigor of the individual workers, and by the decrease of the capital the community possesses. Strange to say, every one of these deteriorating phases is seen in more active operation, according to public experience in the United States, to-day than has been visible before in the country's history at any one time. On some occasions we have had one or two of these evidences of decline in progress, but never have they come altogether as one force, engaged as active, destructive agents.

An easy way to turn these events off as of little moment is to charge them directly over to our panic as just now is often being done. That outburst was but a single incident in the panorama of distinctive events which are day by day transpiring. Besides, the panic had but a brief existence. It came and it passed, and so did the acute strain in money which preceded it pass. But as yet, since the panic, no real creative process has begun or has been even temporarily in operation. Instead of that the progress measured by weeks has been all the time from a low to a lower deep, with perhaps now and then a momentary ray of hope speedily appearing and as speedily extinguished; the failures have been increasing from month to month; money is called easy at the Stock Exchange, yet every merchant or manufacturer or other business man who must borrow, either finds it impossible to do so and is forced to the wall; or, if he has available collateral left, he is compelled to pay such high charges for the loan ,as to make his venture speedily exhaustive. Again, our clearing compilations show immense losses in transactions. Everywhere, in all sorts of business, the country appears to be in a moribund state.

What does all this mean? It means that there never was a time in the country's history when our industrial affairs were in such a tangle and were going down hill as rapildy as they are to-day. Take note also of our railroads. We stated last week that the accumulated capital in the United States in that,our largest industry,was fourteen billion five hundred and seventy million dollars. These billions of money are the hard earnings and still harder savings of a live, industrious, wide-awake, venturesome people; since 1829 they have been continuously forging their way from the shores of the Atlantic to the Pacific, over hill and dale, through wild forests and fertile prairies, over and through mountains, and over and under rivers, and over every other kind of obstacle that happened to be in the way of the undaunted and unsubdued spirits that kept this movement in progress, until it had reached and accomplished an extent and condition which was the wonder of the world. In those days, too, and very naturally, all our people gloried in the achievement. We were able to boast that we had more mileage than all of Europe. Suddenly a change occurred. What had been the country's ideal fascinated it no longer. Railroads fell into disfavor. Ever since our latest ruler took the reins, no treatment has been too hostile. Moreover—we state it with bated breath—

"He was so very pure within
He burst his outward shell of sin,
And hatched himself a Cherubim."

At that particular point this embodiment of righteousness, this intense iconoclast, ascended the seat of chief authority at Washington. Never since the days of Gideon has a greater or more powerful or more self-conscious being walked the earth. Without a semblance of lowliness of mind or modesty of spirit, he began to issue his edicts of destruction, striving to strike down and destroy the highest and most successful enterprises at the moment advancing and being carried towards completion in the land; more likely than not, they were just at their critical stage. He not only crippled the enterprises, but, so far as he could, those individuals who were foremost in such work and hence were strained to their utmost in getting funds for their ventures.

We will not stop to show how maimed, inefficient and weakened our railroads have become under this sort of treatment. That we all know by the very large decreases in earnings and the numerous losses in dividends that are incidents of the day. With the railroad corporations thus burdened, a law has just gone into force this week, the fourth of March, limiting the hours of labor for railroad employees. It is estimated that from 6,000 to 8,000 additional telegraph operators will have to be employed by the railroads to conform to the requisites of the law. If it was an era of prosperity for the carrying trade, it could be borne with for a time until economies could be introduced that would lighten the new burden. For the workmen should remember that this kind of a device is the last straw on the camel's back; that the politicians who force such a step do it simply to catch votes. They do not care a fig for the workman; they know full well that the law in its final result will only end in a greater volume of railroad business, heretofore done by telegraph, being done by letter and telephone, and the telegraphers be deprived of their permanent jobs.

---

A Berlin cable on Saturday of last week stated that a reduction in the rate of discount by the Imperial Bank of Germany on Tuesday to 5% was regarded as probable, such change, however, depending upon the final return of the Bank for the month, which was expected to be favorable to such reduction. That this would be the character of the return seemed to be indicated by the recent gains in cash and contraction in circulation, as shown in the "Chronicle" last week. When the weekly figures of the bank were made public on Tuesday the disclosure of a loss of the equivalent of nearly 4 millions sterling in cash instead of the expected gain, and of an increase of 4 4-5 millions sterling in circulation, caused much surprise, and the more so because no explanation was given for the loss of cash. Had it occurred at or toward the end of a quarter, it could have been readily accounted for; at such times the changes in cash and in circulation are often important, as is shown by the fact that at the end of the first quarter last year there was a loss of upwards of 7 millions sterling in cash. As the result of this week's unfavorable statement of the Bank, the Governors deferred action upon the official discount rate, and no change was made therein. This course was disappointingly reflected in all the European markets,

for the lowering of the German Bank rate would probably foreshadow a reduction in that of the Bank of England, which has been apparently held in abeyance for some time awaiting the action of the Reischsbank. It was regarded as probable, though, that the German Bank rate would not long be maintained at its present level, for the tendency of open market discounts everywhere in Europe was distinctly toward ease. On Thursday, notwithstanding the decrease in bullion shown in the statement, the Governors of the Bank of England reduced the official rate of discount to 3½%; the rate, it was thought probable, would be further reduced after the end of the quarter.

---

The security markets at almost every commercial centre have this week been in a state bordering on inertia. Here in New York the daily transactions on the Stock Exchange have averaged scarcely more than those on a midsummer half-holiday; the London Stock Exchange has been dull and uninteresting and the markets at Paris and at Berlin have lacked vitality; though there was a faint spasm of activity on Wednesday at Paris, on a rumor, which, however, was discredited, of a 20 million dollar loan issue by the municipality of St. Petersburg. The inertia in our market is due to the various propositions pending in Congress hostile to business. London seems to reflect, in the American branch of its market, the paralyzing influence of these propositions; in Paris speculation in our securities is limited, the French Bourse indicating a reflection of conditions in London, while at Berlin there is similar reflection, depression resulting from the situation at Paris and at the British capital. Moreover, not only is there partial paralysis in Americans on the bourses abroad, but such a condition appears to affect the international exchange business by limiting arbitrage transactions. Investors who might be attracted by low prices ruling for substantial Americans refrain from buying, expecting still lower quotations, and speculators sell for a like reason.

---

Exhibits of commercial failures continue to reflect in no uncertain way the decidedly adverse condition of industrial affairs. From all sections of the country —North, South, East and West—but in varying degree, a greater business mortality is reported week by week and month by month than during the corresponding periods of the previous year, or in fact of any recent year. Moreover, embarrassment of banking institutions is still a feature of the situation, tending to keep alive the spirit of distrust or lack of confidence which is so inimical to any healthy or sustained revival of activity in commercial or industrial affairs. It is true that borrowings on call are low, but borrowers find it very difficult to negotiate loans, and can only secure them at high rates and on best security.

Turning to the statement of failures for the month of February, as compiled by Messrs. R. G. Dun & Co., we find that the aggregate is given as 1,621 in number and $27,064,571 in amount of indebtedness, which compares with only 924 in number with liabilities of $10,283,770 in the same period last year. Insolvencies among manufacturers were greatest in amount of liabilities involved, being placed at $12,011,375, or almost three times what they were in the month of 1907. Almost every branch in this division seems to have seriously felt the strain, although the greatest sufferers appear to have been in lines having to do with building construction—lumber, carpenters, &c. machinery and tools, and paints and oils. A noticeably large mortality, however, is reported in "printing and engraving." Trading failures, while large in number, were relatively small in amount of liabilities, having been 1,170, with defaults of $8,672,143, against 1,473 and $13,484,007 in January, and 688 with $5,452,969 in February 1907. A very noticeable increase in the liabilities of failed brokers and transporters is reported by Messrs. Dun & Co., the amount involved having been $6,381,053, against only $460,918 in the month last year. One local insurance company, it is explained, accounts for 5 millions of the current year's total. As regards banks or kindred institutions, the situation in February appears to have been more favorable than in the month a year ago, the thirteen suspensions reported this year involving only $1,654,824, whereas six failures last year covered $4,496,000.

The failures reported for the month of January were almost identical with those for February in amount of liabilities. It follows, therefore, that for the two months of 1908 the commercial insolvencies reached $54,164,085, a record business mortality greater than for the same period in any year since 1878, and exceeding the defaults of the two months of 1907 by more than 30 millions of dollars. Bank suspensions for the period this year covered $63,221,259, against $4,614,000 last year.

---

Cotton manufacturers on the Continent, so far as the reports submitted by various corporations in Germany are a safe criterion to go by, must have during 1907 enjoyed a period of very satisfactory profits. In this respect they occupied no unique position, but rather were in accord with the large majority of cotton manufacturers the world over. As regards the German mills, we have been unable to secure any compilation covering a large number of establishments; consequently, our reports are of individual mills, which furnish the basis for our conclusions. Those reports seem to indicate in each instance larger profit in 1907 than in 1906, and in some cases the exhibit is conspicuously satisfactory. This is particularly true of establishments in Bavaria. Among the leading companies in that section may be mentioned the Bamberg Spinning & Weaving Co., which increased its net profit from 1,034,000 marks ($258,500) in 1906 to 1,540,000 marks ($385,000) in 1907, its dividend from 20% to 27½%, and added 66,000 marks ($16,500) to its pension and benevolent fund. The Kempsten Spinning & Weaving Co., the Erlangen Spinning Co. and the Augsburg Spinning & Weaving Co., also located in Bavaria, made large gains in profits and appreciably increased their rates of dividends. Reports of similar import have been issued by corporations in Dusseldorf, Wurtemburg, Saxony and Thuringen. All information bearing upon cotton manufacturing in Germany in 1907 issued since the close of the year seems to fully confirm the reports current at the time of the International Cotton Conference that not only in that country but quite well over the Continent the industry was on a highly prosperous plane, with machinery well engaged ahead.

---

In sharp contrast with the foregoing, and with conditions that prevailed in most branches of the cotton

industry in Great Britain throughout 1907, is the exhibit made by .the Calico Printers' Association of Great Britain for the half-year ended Dec. 31 last. The report of the Association for the year ending June 30 1907, to which we made reference in these columns on Sept. 28 last, disclosed the most satisfactory twelve-months' period since its organization in 1899. The net profit for the year was shown to have been £424,041, enabling the Association to pay dividends of 5% on the £3,000,000 of preference stock and 6¼% on the £2,000,000 ordinary shares, and carry £149,041 to the credit of profit and loss. Of that profit £181,757 resulted from operations for the last six months of 1906, leaving £242,284 as the net return for the first half of 1907. A decidedly less favorable exhibit is made by the report for the last half of the year. After making the usual deductions for depreciation, maintenance, &c., and debenture interest, there remained net profit of only £61,907, or less than one-quarter of what was obtained in the first six months, barely one-third of that secured in the corresponding period of 1906 and £110,000 less than accrued during July-December 1905. How unsatisfactory that half-year's result turned out to be is apparent from the fact that the net profit was insufficient to meet a half-year's dividend (on a 5% per annum basis) on the preference stock, much less give anything to the ordinary shares. The failure of operations to meet anywhere near the expectations the return for the first half of the year had given rise to is, due, without doubt, to the abrupt falling off in demand which came in the early fall. Ordinarily there would be good reason to expect a better business in the last half of the fiscal year 1907-08 than the results of the earlier portion. But with the general trade promise as it is, there is not much to encourage sanguine hopes in that direction.

———

The volume of business passing, whether of a strictly commercial description or in the nature of financial operations, such as stock transactions, &c., continues on a plane much below the corresponding period of either 1907 or 1906. This statement is based upon, and seems fully warranted, by our compilation of bank clearings for February and the two elapsed months of 1908, that appears on the first page of this issue. By reference to that statement one cannot fail to observe that losses comparing with the month of last year are very general, only 23 of the 114 cities represented recording any gains, and those as a rule unimportant, and due either to some locally operating cause or to the fact that February this year included one more business day than in 1907. The January statement was an unfavorable one, exhibiting in the aggregate a decline of 24.5% from the same period of the preceding year; that for February is more unfavorable; notwithstanding the extra day already referred to the loss is seen to have been 25.9%.

At points where transactions in stocks or bonds are an important element in the making of bank exchanges, conspicuous losses are shown as a result of the comparative dulness prevailing on the stock exchanges. For while it is true that the demand for bonds of the better class has been greater thus far this year than in 1907, dealings in stocks show a decided falling off generally. On the New York Stock Exchange the February transactions reached a total of but 9,839,706 shares, and for the two months of 1908 were 26,434,601 shares; in 1907 the result for the month was 16,470,972 shares and for the two months 39,173,732 shares; comparison with 1906 or 1905 is even less favorable. At Boston 628,992 shares represents the activity, or lack of it, in February this year, as contrasted with 1,453,310 shares in 1907. These two exchanges, the leading ones of the country, will well serve as an example of the moderate proportions to which operations in share properties have declined in the various cities, and account in part for the decrease in clearings totals. But the fact that almost everywhere the volume of clearings from period to period is less than last year is evidence conclusive of lessened business activity, even were not reports to that effect from mercantile sources available from all sections.

As stated above, the total of clearings for the whole country for February shows a decrease of 25.9% from the month of 1907, and compared with the similar period of 1906 the loss is even greater—29.9%. For the two months this year's aggregate falls behind last by 25.2%, and the decline from two years ago is 30.5%. Outside of New York the exhibit is not quite so unfavorable, but at the same time the loss recorded, as contrasted with 1907, is 14.1% for the month and 14.5% for the two months, with the decreases from 1906 reaching 7.1% and 8.4% respectively. Analyzing the returns by groups, we find the greatest percentages of loss from 1907 for both the month and since Jan. 1 to be in the middle sections, where all the large cities exhibited conspicuous declines. The New England group recorded a decrease of 19.7% for the month and 21.5% for the two months, the falling off on the Pacific Slope was 28.9% and 28.1% respectively and at the South the loss for February was 9.6%. and for the period since Jan. 1 reached 10.7%. The Middle Western group makes a better showing, the falling off being moderate, and the "Other Western" section is conspicuous as exhibiting a gain.

———

One phase of the annual report of the Pennsylvania Railroad Co. made public this week is of particular interest. We refer to the carefully compiled figures relating to receipts from passenger traffic. It appears that the average gross earnings per passenger per mile last year were 1.918 cents, which is the lowest average since a record has been kept, and this record runs back to the year 1864. These figures relate only to the business on the lines directly operated east of Pittsburgh and Erie. The two-cent-fare law of the State of Pennsylvania was only in force about three months of the year 1907, but during that brief period it was apparently the cause of pulling down the average receipts per passenger per mile from 2.014 cents, which was obtained in 1906 and 1905, to 1.918 cents. The average expenses per passenger per mile last year advanced (in part as the result of a more accurate distribution of expenses as between freight and passenger traffic) from 1.587 cents for the preceding year to 1.791 cents, this latter being the highest average since the year 1875.

The consequence of this, of course, is that the net earnings per passenger per mile were reduced to the lowest point since the beginning of the record, forty-three years ago, the net earnings last year being at an average of 0.127 cent, compared with 0.427 cent for the year 1906. Since the two-cent-fare law, according

to this showing, was so effective in reducing revenues during the three months of its operation last year, the railroad company is to be congratulated that the Supreme Court of Pennsylvania has declared the low-fare act to be invalid so far as it applied to the Pennsylvania Railroad.

The tables presented in the annual report go further into details, showing that upon two divisions, the Erie Division, which is wholly within the State of Pennsylvania, and the Buffalo & Allegheny Valley Division, which is chiefly within that State, each sustained a loss from their passenger business last year, the loss per mile of road on the Erie Division being $421 90, which compares with a profit of $340 58 for the year 1906, while the loss on the other division was even greater, being $517 50, compared with a profit of $71 69 for the year 1906. The net earnings per mile of road on all of the lines in the East last year was but $576 10, a decrease of $1,061 09, compared with the preceding year.

---

The Bank of England rate of discount was reduced on Thursday to 3½%. With this exception there was no change in official rates of discount by any of the European banks; the official or open market rates were easy at all the chief centres. The failure of the Bank of Commerce of Rio de Janeiro caused some slight flurry in London.

The most striking feature of last week's bank statement was an increase of 17 millions in loans; this was supposed to reflect operations incident to the recent negotiation of New York City municipal bonds. Circulation decreased 2 millions, the result of the retirement of bank notes which appears to be actively in progress, and United States deposits decreased nearly 4 millions, due to surrenders thereof to the Treasury because of the requisition therefor by the Secretary. General deposits increased 21 1-3 millions, while cash decreased about 2 millions; consequently, reserves were reduced 3 millions, to 29¼ millions surplus.

The February statement of revenues and expenditures of the Treasury indicates a deficit of 27¼ millions for eight months of the fiscal year. Inasmuch as revenues are decreasing and expenses are being steadily augmented, it seems probable that the deficit will show important increases in the remaining months of the fiscal year, necessitating a resort to the extension of the Spanish War bonds of 1908, which will be redeemable Aug. 1, or possibly to the redemption of a part and the extension of the remainder. It now seems unlikely that even partial redemption can be effected without the recall of public funds from the national bank depositories, in addition to the 35 millions that have already been called and that will be surrendered by March 23. In view of such possible disturbance of these deposits, and also of continued retirements of national bank notes at the rate of 9 millions per month, it seems desirable that the Secretary shall, as soon as convenient, announce his policy with respect to the disposition that he will make of the maturing bonds.

---

The market for call money this week was without new feature, rates being uniformly quoted at the same figures each day; though the offerings were greatly in excess of requirements because of the partial inertia on the Stock Exchange, there did not appear to be any disposition to force a quotation of a lower than the minimum rate, and large balances were daily left unemployed at the close of business. Time money was in only moderate request, and one feature this week was, as reported, the entire absence of business for two or more days in succession. Lenders are indisposed to make concessions, even where there is compliance with their requirements for absolutely high-grade collateral. There has been good buying of commercial paper for foreign account this week. This is a new feature of this branch of the market, and though there have been occasions, at this season of the year, when bankers dealing in mercantile notes, and having foreign connections, have placed such obligations abroad, negotiations of this character in late years have been infrequent. Ruling rates for choice paper are more attractive to foreign buyers than are those for loans on stock collateral for corresponding periods; the notes have the endorsement of the banker negotiating them, which increases their security, and there is opportunity offered to the banker for a profit in the transaction through his conduct of the exchange operation incident to the negotiation.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 2% and at 1¾%, averaging 2%; banks loaned at 1¾% as the minimum, while trust companies were practically out of the market, leaving their balances undisturbed with their bank depositories. Time loans on good mixed Stock Exchange collateral were quoted at 3½% for sixty and 3¾% for ninety days, 4% for four, 4¼% for five and 4¼@4½% for six months and 5% for the remainder of the year. Commercial paper was in good demand, especially by local trust companies, which have recently not bought largely; but they gave preference to short maturities, as do other buyers who were not in the market during the panic, and therefore have no maturing notes; rates are 5½@6% for sixty to ninety day endorsed bills receivable and for choice four to six months' single names.

---

The Bank of England discount rate was reduced to 3½% from 4%, at which it had stood since Jan. 23. The cable reports discounts of sixty to ninety day bank bills in London 3%. The open market rate at Paris is 2¼@2⅜% and at Berlin and Frankfort it is 4⅜@4½%. According to our special cable from London, the Bank of England lost £41,143 bullion during the week and held £39,279,574 at the close of the week. Our correspondent further advises us that the loss was due to shipments to the interior of Great Britain. The details of the movement into and out of the Bank were as follows Imports, £736,000 (of which £275,000 from Egypt, £30,000 from Australia and £431,000 bar gold bought); exports, £150,000 (wholly to South America), and shipments of £627,000 *net* to the interior of Great Britain.

---

The foreign exchange market was exceedingly quiet this week and the fluctuations were within a narrow range. After the demand for the Bremen and Liverpool mails had been satisfied, the market became almost stagnant with apparently little inquiry, because of a disposition to wait for to-day's (Saturday's) mail. The inactivity early in the week was attributed to the uncertainty regarding the action of the Bank

of England in the matter of the discount rate, the maintenance by the Bank of Germany of its 6% rate seeming to make a change by the English Bank improbable; even on Wednesday, when there were somewhat positive indications of a reduction therein, and also on Thursday, when the rate was lowered, there was no revival of business. One feature was a steady tone for continental bills, owing to a fall in French and German exchange on London; sterling was, however, generally heavy in the absence of demand. Commercial bills continue scarce because of comparatively small exports of cotton and of a moderate movement of wheat, and bankers' drafts are by no means abundant. The inquiry for remittance was chiefly on account of sales of American stocks abroad; this was partly supplied by bills against securities that had been placed in Europe, including, it is reported, New York municipal bonds. The sales to Europe of commercial paper, as above noted, were not in sufficient volume to make an impression on the market. The easier discounts in London contributed to a demand for long sterling, which was exceptionally firm, while at the same time short and cables were fractionally lower.

Compared with Friday of last week, rates on Saturday were 10 points lower at 4 8350@4 8360, short 5 points at 4 8670@4 8675, while cables were 10 points higher at 4 8720@4 8725. On Monday long recovered 20 points to 4 8370@4 8375, short fell 5 points to 4 8665@4 8670, and cables 20 points to 4 87@4 8705. On Tuesday long declined 10 points to 4 8360@4 8365, short advanced 10 points to 4 8675@4 8680 and cables 5 points to 4 87@4 8710. On Wednesday long rose 5 points to 4 8360@4 8370, short fell 10 points to 4 8665@4 8670 and cables 10 points to 4 8695@4 87. On Thursday long rose 10 points to 4 8370@4 8385 on the news of the reduction in the Bank rate, while short fell 10 points to 4 8650@4 8660 and cables 20 points to 4 8675@4 8685. On Friday, long and short fell 20 and cables 15 points.

The following shows daily posted rates for sterling exchange by some of the leading drawers

| | | *Frl., Feb. 28.* | *Mon., Mch. 2.* | *Tues., Mch. 3.* | *Wed., Mch. 4.* | *Thurs., Mch. 5.* | *Frl., Mch. 6.* |

| | Sight | 4 88 | 88 | 88 | 88 | 88 | 88 |

The market closed on Friday at 4 8355@4 8365 for long, 4 8635@4 8640 for short and 4 8660@4 8670 for cables. Commercial on banks 4 83@4 83¼ and documents for payment 4 82¼@4 83¼. Cotton for payment 4 82¼@4 82½, cotton for acceptance 4 83@4 83¼ and grain for payment 4 83@4 83¼.

The following gives the week's movement of money to and from the interior by the New York banks.

| *Week ending Mch. 6 1908.* | *Received by N. Y. Banks.* | *Shipped by N. Y. Banks.* | *Net Interior Movement.* |
|---|---|---|---|
| Currency | $7,939,000 | $5,796,000 | Gain $2,143,000 |
| Gold | 1,822,000 | 607,000 | Gain 1,215,000 |
| Total gold and legal tenders | $9,761,000 | $6,403,000 | Gain $3,358,000 |

With the Sub-Treasury operations the result is as follows.

| *Week ending Mch. 6 1908.* | *Into Banks.* | *Out of Banks.* | *Net Change in Bank Holdings.* |
|---|---|---|---|
| Banks' interior movement, as above | $9,761,000 | $6,403,000 | Gain $3,358,000 |
| Sub-Treasury operations | 31,300,000 | 30,800,000 | Gain 500,000 |
| Total gold and legal tenders | $41,061,000 | $37,203,000 | Gain $3,858,000 |

The following table indicates the amount of bullion in the principal European banks.

| *Banks of* | *March 5 1908.* | | | *March 7 1907.* | | |

a The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

b The Austro-Hungarian Bank Statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Gulden to have the value of 80 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

d The total of gold in the Bank of Russia includes the balance held abroad—that is, the amount held for Russian account in other Continental banks. The proportion so held, and consequently duplicated in the above statement, is about one-quarter of the total.

## *THE ATTACK ON STOCK EXCHANGE OPERATIONS.*

Agitation of the sort commonly described as "anti-option" has almost invariably followed in our legislative history a severe financial panic. The reason, so far as we can see, lies in the fact that people of limited experience and business training are always more disposed to lay the responsibility for any unpleasant economic event on some visible organization or institution, than to look honestly and frankly for the larger causes. The man who makes an unwise investment on the Stock Exchange, and whose capital is impaired by a subsequent decline in values, is traditionally apt to complain of the Stock Exchange itself. The only alternative explanation is one which would admit his own folly, which he is usually reluctant to do. So, also, in the case of unwise purchases of commodities—the disposition always is to lay the blame for the resultant depreciation on the markets for such commodities, and not on the judgment of the individual. After the panic of 1893, when the salient phenomenon of the day was the decline in agricultural prices, anti-option agitation naturally took the form of complaint about operators who sold wheat short. They were alleged to have caused a decline which would not otherwise have occurred. In the present case, where prices of the great staples have not been affected in such a way as to call for this sort of recrimination, and where the shrinkage in financial values is the principal phenomenon, the chorus of denunciation is loudest against the Stock Exchange and the people who operate in it.

This is our explanation for the extraordinary bill which Congressman Hepburn, of railway rate law distinction, has proposed this week. Mr. Hepburn's bill undertakes to impose on all sales of stocks a tax of fifty cents per $100 share. His theory seems to be that the small investor, parting with his holdings, wil not be troubled by this tax, but that the large operator, on borrowed money, who has either closed out a transaction for the rise or is selling short with a view to a subsequent decline in the market, would be mulcted

in an amount which would be practically prohibitive. So far as concerns the Stock Exchange, to which the law would apply, this would probably be the result of it. How harsh the imposition is may be judged from the fact that the New York State Transfer Tax Law of 1905, a purely revenue measure, was deemed to have gone to the reasonable limit in imposing a tax of two cents per $100 share on each transaction. Mr. Hepburn would fix a tax twenty-five times as great.

What is the assigned ground for so drastic a measure? It might possibly be imagined that the public revenue was considered in some degree. But the author of the bill frankly admits that his purpose is not to obtain a contribution from a given occupation to the public treasury, but to destroy that occupation, root and branch. We believe that a measure framed on such lines and for such a purpose would in any case be of the most doubtful constitutionality. Use of the taxing power for purposes of destruction is certainly not granted to the legislative department of government in any part of our Constitution, and it is not at all difficult to see with what dangers such a grant would have surrounded legislation. The case of the 10% tax on State bank notes imposed at the inauguration of the national banking system was not fairly analagous, the situation with which the measure dealt and its ultimate purpose—the regulation of a power conferred by Government—being radically different from the present instance. The almost uniform practice of our Government and courts has been to require first a showing that a certain practice was a public evil. This done, the machinery of Government, within certain limitations, is invoked to arrest or destroy it. Mr. Hepburn does not approach the problem from that point of view but resorts to an unquestionable subterfuge.

Let us, however, consider the question from the larger point of view. It is frankly admitted that the purpose of the law is aimed primarily and exclusively at "speculation on a margin." To destroy outright the purchase and sale of large quantities of stocks on the basis of borrowed money procured through the pledging of the securities concerned is avowed as the end to be attained. Now, we presume that no one will deny that evils have constantly arisen in connection with stock speculation. The question is whether the way to cure such practices is through total abolition of the system itself.

What is a margin transaction? In substance it is simply this—that the buyer of stocks, whether he procures them for the sake of the income they will yield, or in expectation of a future larger income or of a higher price, borrows the greater part of the money necessary to make the purchase. It should first be observed that precisely the same thing is true of the great bulk of purchases in the field of merchandise and of real estate. A merchants' note is indirectly, if not directly, guaranteed by the pledge of the merchandise which he is buying. Still more directly, the purchaser of land, whether improved or unimproved, who effects such purchase through the placing of a 60 or 70% mortgage on the property, is trading on a margin as obviously as is the dealer in Stock Exchange securities. We have, then, to begin with, a transaction which is not, as people like Mr. Hepburn seem to imagine, an isolated practice in the world of finance, but which, on the contrary, is conducted on the precise lines employed for the development of all other industries.

This might be so, and still conceivably the evils of the system in a given case might outweigh its advantages. Let us see if this is true. Popular denunciation is at present directing itself against sales for the decline rather than against purchases for the rise. To understand the exact nature of the so-called "future transaction," reference is usually made to contracts for future delivery in the ordinary operations of such industries as steel or cotton goods. This phase of the matter was abundantly thrashed out in the anti-option agitation, in the wheat and cotton markets, during the later nineties. The inquiry then brought to light the absolute necessity of what are known as "short sales" of commodities in the cotton and flour-manufacturing industries, the manufacturer being virtually compelled to protect himself, through such operations in the market for his raw material, against a possible loss in price before he could put his finished products upon the markets.

Looking at a stock exchange speculation in the broader sense, some still more important considerations come at once to view. There is, first, the consideration that use of borrowed money, in the same way and on the same scale as it is employed in other industries, broadens the investment market, makes possible the distribution of securities as it certainly would not be possible under other conditions, and provides at all times a visible index to the price at which the would-be investor can buy or the actual holder of securities can sell.

Nor is this all. Picture for a moment a market upon which all speculation had been eliminated. There will necessarily be presented a market of constant uncertainty and of fluctuations violent in the extreme. It has often been pointed out in economic discussion to what extent the absence of a fully developed speculative interest, both for the rise and the fall of values, added to the severity of such episodes as the collapse of the South Sea bubble of 1720. A community had gone wild that year (as our own did for a season in the early months of 1901) and had accumulated the stock in question at an expansion in values which seemed at times to have no limit whatever. In 1720 no machinery for short sales existed; the result was that, when once the realizing process had begun, there was no support to withstand the wreck of values. In the case of 1901, on the other hand, large sales of borrowed stocks, increasing as the public frenzy carried prices to unreasonable heights, not only withstood the influences making toward inflation, but, through the necessary sequel of "covering purchases" on the decline in values, created a positive and definite support at a time when the market seemed to have no other sustaining influence to count upon. Similarly, short sales of stocks at the time when values reached their speculative heights in the closing months of 1906 were of the greatest imaginable use in restraining the market's excesses of that day, and in providing, again, through the necessary covering purchases, a powerful support at the time of the crumbling markets some months afterwards, and in last October's actual panic.

We have reviewed thus in detail the arguments grounded on experience and bearing on the general question; our purpose being to make clear the real principles which underlie this much misunderstood question. When it comes to discussing the actual sig-

nificance and prospects of the Hepburn bill, we are quite unable to take the measure seriously. Aside from doubts as to the constitutionality of the bill, we have no idea that Congress will undertake to deal a deliberate blow at the fundamentals of practical finance when the only argument for doing so is that the facilities of that market may be misused by weak-minded people. Germany has in the past few years tried a more or less similar experiment. Its only consequence was to drive the larger stock exchange transactions out of Berlin and into such markets as Brussels and London. We do not imagine that our legislators will care to repeat that experiment, which even to-day Germany is taking steps to re-consider. The fifty cents per $100 tax proposed for Stock Exchange sales is, in our opinion, merely a specimen of what used to be called "the play to the galleries" on the eve of a Presidential election.

## *INDIFFERENCE TO POLITICAL ASSAULTS HAZARDOUS.*

Contrary to the expectations so generally entertained after the panic of last autumn, political assaults, instead of decreasing, as everyone had a right to suppose would be the case, appear actually to be increasing. Quite as surprising, however, as the multiplication and renewal of these attacks is the fact that they are eliciting little, if any, protest on the part of our merchants and business men. The extent of the suffering everywhere being entailed through the destruction of railroad credit and the inability of the railroads to go on with the development work so essential for their own benefit and the benefit of the country at large can hardly be exaggerated. The results are seen in the depression of the iron and steel industry and all allied trades, the loss in business and in profits by the manufacturer and producer everywhere, and the throwing out of employment of hundreds of thousands of workmen, followed now by threats of the reduction of the wages of those still retained at work. Considering all this, a popular uprising against the political methods and actions responsible for these distressing circumstances would seem in order. But nothing of the kind has taken place or appears in prospect.

Whatever the reason for the apparent apathy, the course being pursued is fraught with great danger. There is sure to be a moral and an economic awakening, but in the meantime no one can tell how far the movement will go or how frightful the consequences and hardships entailed thereby before sanity and reason shall again assume sway. Great changes in political thought and political tendencies have been in progress in recent years, and we are inclined to think that the average business man is not fully cognizant how far these changes concern himself personally. He may not at all be in sympathy with the policy of antagonism to railroad interests adopted by State and nation, or the hostility being manifested against public utility corporations—street railways, gas, electric-light and power agencies—and yet he is apt to feel that the matters involved have no direct bearing upon his own affairs. He is not in the railroad business or a partner in public service enterprises, holding perhaps little or none of their securities, and accordingly he feels that, after all, little harm is likely to result to his personal interests. In the West and South particularly, where the new political tendencies are most strongly manifested, such a mental attitude is likely to be in evidence, since the capital at stake in railway and lighting and power enterprises is that of the investment classes of other parts of the country; only a relatively insignificant portion of the obligations of such enterprises being held by the local people who enjoy the advantages conferred by the same. These local people may think it all wrong that capital thus invested should be unfairly treated, but there is a certain amount of inertia which prevents active effort to check or restrain the movement on the idea that the extent of the harm to be personally and directly suffered must be insignificant.

We warn our business men that they are risking much when they fail to oppose actively, vigorously and unrelentingly the political tendencies that are fast destroying all business enterprises. Socialism and paternalism in various guises are insidiously spreading in all directions. To-day it may be the railroad and the public utility concern that is the subject of regulative, restrictive and prohibitory legislation, to-morrow it will be the bank and other fiscal institutions, and the next day it will be business of all kinds and character. Individual effort and initiative are gradually being displaced for Government regulation and control, and so accustomed are we getting to the movement that almost unconsciously our public men, even the soundest of them, drop into the line of thought and employ the species of reasoning and argument which form the stock-in-trade of those who, day in and day out, are advocating paternal doctrines or outright Socialism.

Such an all-pervading movement is not likely to stop with public carriers. It is sure to extend in the end to all business enterprises. It therefore behooves the business man not to maintain an attitude of unconcern. Business in this country is now conducted on so large a scale that the greater part of it is carried on in the corporate form. But the corporation gets its charter from the Government—that is, being incorporated, gets charter privileges. From this it follows, according to the view of the day, that it is amenable to Government regulation. Taxes in many States are already graded according to the size of the profits, and it would be no very long step to go further and limit the size of the profits themselves. President Roosevelt has repeatedly declared himself in favor of the regulation of all corporations engaged in inter-State commerce—not merely the carriers of that commerce, but the concerns that own or ship the goods and products that make it up—and he has also taken pains to point out that practically every corporation is engaged in inter-State trade, and would hence come under the immediate regulative control of the Federal Government. Federal incorporation or a Federal license, with certain conditions attached, has been suggested as a means by which Federal regulation could be attained. One of those conditions might be that profits should be limited in order that the "swollen fortunes" might not be swollen still further. In that contingency the business man would find that the political policy which he supposed related and applied only to railroads was becoming of deep concern to himself. He should exert himself in time and prevent such a result before the movement gets beyond control.

The Employers' Liability Law is a notable case in point. The ordinary business man imagines that that has no bearing upon his business. He may be a manufacturer employing extensive machinery and which requires skilful handling on the part of his employees to prevent damage to life and plant; but of course he imagines that that is a totally different thing from railroad accidents caused by the negligence or carelessness of the train hands. In its present form the Employers' Liability Law, which the U. S. Supreme Court declared unconstitutional in January, and which it is now sought to revise to meet the objections of the Court, applies solely to employees of public carriers; but for about a year President Roosevelt has been strenuously advocating that the same principle should apply to employees of all kinds, in all lines of business.

The doctrine for which he demands recognition is that the old law of master and servant shall be changed, and that the employee should get damages for all accidents in which he is injured, even if such accidents result from his own carelessness and negligence, or the carelessness of fellow employees. In one of the speeches he made last June at the Jamestown Exposition he made it clear that he did not mean to restrict the application of the principle to employes in the railroad service, but that he meant to broaden and extend its scope so that laborers and employees in all trades and all lines of business could invoke its aid and influence. He asserted that the great increase in mechanical and manufacturing operations meant a corresponding increase in the number of accidents to the wage workers employed therein, these including both preventable and inevitable accidents. He argued that "there is no sound economic reason or distinction between accidents caused by negligence and those which are unavoidable," adding that "the law should be such that the payment for these accidents would become automatic instead of being a matter for a law suit. Workmen should receive a certain definite and limited compensation for all accidents in industry irrespective of negligence." In the special message which he sent to Congress somewhat over a month ago, he reiterated these views.

Thus it will be seen that the matter is not one which concerns simply the railroads. It is a matter which has a direct bearing upon the every-day affairs of every business man. And we may be sure that if a substantial sum could be recovered for a broken limb, the lazy employee would not fail to avail of the opportunity.

And so we might multiply the illustrations to show that the policy which now prevails in our legislative halls is not limited in its application or effects to carriers and public service concerns, but, as the movement through the activities of its advocates is being broadened and extended, it is a matter of vital interest and concern to the business man everywhere. The latter, therefore, should not rest in fancied security under the mistaken notion that he is to remain exempt from harmful legislation in his own particular field. If the treatment which is being extended to the railroads can be justified, then there is equal justification for similar treatment of other industries, until finally Government becomes the regulating agency in every line of business and every walk of life. It behooves our business men, our merchants, our manufacturers, our producers and laboring classes (the latter of whom would find such conditions especially intolerable) to take notice and bestir themselves in time. Enlightened self-interest should induce all to combine in common defence to ward off the dangers that threaten the very foundations of popular institutions.

## *THE PENNSYLVANIA RAILROAD REPORT.*

As in previous years, the report of the Pennsylvania Railroad Co. for the calendar year is a marvelous exhibit of growth and strength and reveals operations of extraordinary magnitude—characteristics long observable. The panic and business revulsion came too late in the year to change the general character of the results, though a heavy falling off in traffic and revenues in December served to cut down the volume of gain for the twelve months.

Ordinarily these annual statements of this important railroad system, which in point of earnings far excels every other system in the country, are useful as an indication of the further expansion to be expected in coming periods—that is, past growth is accepted as an evidence of future growth. The present time, however, the situation has so completely changed that the results for the year under review furnish no guide whatever to the prospects for the new year. They suggest, rather, reflections as to what a misfortune it is to be obliged to exchange such a situation for one of retrogression and depression—where instead of advancing, which is the normal state in this country, we are moving backward, to the detriment alike of our railroads and the vast industrial interests upon which they rest and which they in turn serve. The particular matter for regret is that this reversal of the normal course is largely our own fault in having failed to curb the politicians, State and national, in their assaults upon railroad and other corporations and upon capital and wealth. The movement has been going on for some years, and has finally scared both investors and capitalists so that they refuse further contributions of funds for the development of the country's vast resources, thereby putting a check upon all enterprise.

The Pennsylvania report is interesting not only as revealing further growth in traffic and gross revenues, but as furnishing an insight into the hard and trying conditions under which railroad operations were conducted even before the advent of the panic. We have reference to the tremendous increase in operating cost against which the railroads have been struggling, and under which a position was reached where even very large gains in gross revenues were entirely offset by a great augmentation in expenses. President Roosevelt in his letter to the Inter-State Commerce Commission last month broadly intimated that reductions in the number of men employed by the railroads and in their wages could not be regarded as the outgrowth of a legitimate need, but must be ascribed to past misdeeds or misconduct for which the carriers were now obliged to take the consequences. If the President is not yet convinced of the need for retrenchment, we invite his attention to the report of this magnificent railroad property, admitted by all to possess a management of a very superior order.

A summary statement in the report gives the aggregate traffic and revenues for all the lines in the system, whether owned, operated or controlled, and comprising altogether at the end of 1907 no less than 11,175 miles

of road. On this mileage the gross revenues in 1907 for the first time reached and passed the 300 million mark, the total amounting to no less than $326,-785,526. This is a figure of imposing size, and it affords an idea of the magnitude of the company's income. This total was reached notwithstanding the large loss in income experienced in December. At $326,785,526 comparison is with gross of $295,898,165 in 1906, showing therefore an addition for the twelve months of $30,887,361.

With such an increase in gross revenues, what does the reader suppose was the gain in the net earnings? There was no gain at all. Expenses increased faster than the gross revenues, and as a consequence net earnings actually fell off in amount of $722,954, being only $83,631,445, as against $84,354,399 in 1906. The number of tons of freight moved one mile increased by 4,755,791,218 and the number of passengers increased by 350,495,721, and yet as the net result of this great increase in transportation service rendered the company finds itself with net earnings about three-quarters of a million dollars less than in the year preceding. What a commentary this is on the situation. Moreover, all the leading divisions of the system have a closely similar record, the great majority of them reporting losses in net in face of very large gains in the gross, indicating that the condition was a general one. Moreover, the Pennsylvania Railroad in this respect is typical of United States railroads as a whole. They have practically all fared alike. The causes are familiar to our readers and were beyond the control of the officials of the roads. The higher operating cost followed from increases in wages, from the decreased efficiency of labor notwithstanding the enhanced wages, from the extra outlays imposed upon the roads as a result of legislative and governmental regulations, and from the augmented cost of fuel, materials, supplies, and the other things entering into the operations and accounts of the roads.

This was the state of things when business was yet active and railroad receipts and traffic still increasing. Now comes a period when instead of further gains in gross we have frightful losses. Imagine what would happen if retrenchment were not enforced, but the old tendency towards steadily augmenting expenses allowed to continue unchecked. On such a system as the Pennsylvania the losses now are naturally proportioned to the previous gains. The monthly returns of the company do not show the results for all the lines owned, operated and controlled, but taking the lines directly operated east and west of Pittsburgh and Erie, there was a decrease in gross earnings for December in the sum of $2,489,100. As it was not possible to practice curtailment of expenditures to any great extent thus early, the decrease in expenses was relatively small, and as a consequence the loss in net for that month reached $1,767,500. The return for January has just been published, and shows an even larger falling off in gross, the loss for the month reaching $3,673,200. This, it will be observed, is at the rate of over 44 million dollars a year. If no effort were made to offset this enormous reduction by economies of management and decreases in expenditures, disaster would be the inevitable outcome. Fortunately, the management succeeded in getting better control of the expense accounts in January, the expenditures being cut down to the extent of $2,424,700. This still left a loss in net in the sum of $1,248,500, which is very considerable, and yet is at the rate of only 15 million dollars a year, as against the 44 million dollars decrease in the gross.

The further gain in gross in the calendar year 1907, notwithstanding the loss in December, was the largest in amount of any year in the company's history. This is the more noteworthy as the previous years were likewise distinguished for large gains in gross. Altogether, the Pennsylvania's expansion in revenues in recent years has been a marvelous one. Here are the figures for ten years. It will be observed that during the last six years alone—from 1901 to 1907—the gross earnings rose from $198,626,878 to $326,785,526.

| | *Gross Earnings.* | *Expenses.* | *Net.* | *Miles of Road.* |
|---|---|---|---|---|
| 1907 | $326,785,526 | $243,154,081 | $83,631,445 | 11,176 |
| 1906 | 295,898,165 | 211,543,766 | 84,354,399 | 11,081 |
| 1905 | 266,069,597 | 192,100,348 | 73,969,249 | 11,011 |
| 1904 | 237,216,420 | 171,513,460 | 65,702,960 | 10,918 |
| 1903 | 242,517,758 | 175,379,438 | 67,138,320 | 10,914 |
| 1902 | 220,079,230 | 152,539,719 | 67,539,511 | 10,783 |
| 1901 | 198,626,878 | 133,713,386 | 64,913,492 | 10,485 |
| 1900 | 175,236,353 | 120,498,276 | 54,738,077 | 10,217 |
| 1899 | 152,399,088 | 106,723,376 | 45,675,712 | 9,237 |
| 1898 | 136,130,271 | 94,670,856 | 41,459,415 | 9,036 |

The gains in traffic have been even more marvelous. From the following table it will be seen that in 1907 no less than 37,674,511,903 tons of freight were moved one mile, as against 21,929,565,519 tons in 1901 and 16,329,379,632 tons in 1898. This is an addition of 21 billions to the freight movement in the short period of nine years. Owing to the doings of our politicians, that phenomenal record of growth and advance has now been exchanged for a condition where we are going downhill as fast as previously we were going uphill.

| | *Freight Movement* | | *Passenger Movement* | |
|---|---|---|---|---|
| | *Tons Moved.* | *Tons 1 Mile.* | *No. Carried.* | *No. 1 Mile.* |
| 1907 | 435,064,136 | 37,674,511,903 | 153,047,046 | 3,826,141,991 |
| 1906 | 363,955,827 | 32,918,720,685 | 140,513,364 | 3,475,646,270 |
| 1905 | 325,976,889 | 29,503,147,362 | 126,003,539 | 3,075,402,826 |
| 1904 | 284,819,940 | 25,133,253,756 | 120,416,218 | 2,959,991,896 |
| 1903 | 295,120,398 | 25,712,964,290 | 123,632,203 | 2,857,341,164 |
| 1902 | 269,512,879 | 23,827,005,334 | 115,848,841 | 2,667,215,343 |
| 1901 | 243,463,980 | 21,929,565,519 | 105,427,321 | 2,399,937,055 |
| 1900 | 219,076,377 | 20,364,663,756 | 83,676,446 | 1,987,816,698 |
| 1899 | 210,101,653 | 19,615,029,998 | 76,769,080 | 1,801,597,048 |
| 1898 | 175,565,406 | 16,329,379,632 | 71,814,642 | 1,642,715,043 |

All the above figures deal with the operations of the whole system. The Pennsylvania's own income statement is based simply on the lines directly operated east of Pittsburgh and Erie. Its interest in the remaining lines of the system appears in the dividends and interest it receives on its stock and bond holdings in these companies. Briefly stated, on these Eastern lines there was an increase in the gross earnings in 1907 of $16,572,943 but a loss in net earnings of $1,492,891. Income from investments and other sources was larger, but on the other hand fixed charges increased heavily, mainly, it would seem, because of the issue of the $60,-000,000 3-year collateral notes. The final result was net income above charges of $33,575,056, against $35,674,300 for 1906. The call for dividends was over 2 million dollars larger, 7% coming out of the earnings of 1907, as against 6½% out of those for 1906. Nevertheless, as against net income of $33,575,056, the dividend requirements were no more than $21,908,435. The contributions out of surplus earnings to the funds for extraordinary expenditures were, however, reduced. In 1907, $9,315,197 was contributed for this purpose and towards sinking fund payments, whereas in 1906 the similar contribution was $15,804,640. But in 1906 the whole surplus revenue was exhausted by such contributions, whereas in 1907 $2,352,424 of the surplus remained to be carried forward to the credit of profit and loss account.

President James McCrea discusses the year's events in an interesting way. After adverting to the fact that the prosperity which had existed for a number of

years in all branches of industry, and which had so exceptionally increased traffic, met with a severe check in November last, he notes that the change is now largely affecting the revenues of the system. He says that, while a number of causes seriously disturbed public confidence, and thus brought on the financial panic from which all business interests are now suffering, an important one undoubtedly was the fear that, as the result of recent Federal and State legislation, the regulation of the railways had approached so nearly to an effort to control their management and revenues that the investments therein were not assured of that protection to which they are justly entitled. Eventually it may be assumed, he argues, the questions that arise will be fairly adjusted, but in the meantime the railways have to face the loss of revenue consequent upon the enforced idleness of a large portion of their equipment, while to a proportionate number of their employees this has necessarily brought about either an entire loss of employment or a material reduction in their hours of labor.

He notes that the capital outlays during 1907 were confined almost exclusively to the completion of work actually under way. Similarly, the expenditures for 1908 are to be confined to finishing the work now in progress on the main line, and to the Tunnel Extension into and through New York and the Terminal Station at this point. With reference to the Tunnel Extension, he points out that the amount charged on account of the same on the books up to Dec. 31 was $39,541,414. But this does not embrace the sums charged off from time to time against income and against profit and loss. These latter sums aggregated 23 million dollars prior to 1907, while in 1907 7 million dollars more was marked off, making the total charges to date against income and against profit and loss 30 million dollars. Adding this to the $39,541,414 charged to capital account, we get a total outlay to date for the Tunnel Extension in the neighborhood of 70 million dollars.

Through the issue of the 60 million dollars 3-year collateral notes early in 1907, and some lesser financing, the company has been kept in easy financial condition. The proceeds of the notes went in large part to pay off the $50,000,000 4½% notes of the Pennsylvania Co., which fell due Nov. 1 1907. Thus it happens that on Dec. 31 1907 the company held almost as much cash as on Dec. 31 1906, when the amount was $43,170,123. In other words, it had $37,385,673 of cash on hand or in bank at the end of 1907. This amount is independent of $5,848,702 cash held by the Pennsylvania *Company*, $1,910,553 held by the Pittsburgh Cincinnati Chicago & St. Louis Ry., and larger or smaller amounts held by the various other companies. We observe that the item of $15,492,685 due the company on the sale of its holdings of Norfolk & Western and Chesapeake & Ohio stocks still appears in the balance sheet.

## *THE DECADENCE OF NATIONS.*

*To the Editor of the "Financial Chronicle":*

In a recent number you discussed Mr. Balfour's lecture upon the reasons for national decay, and after reviewing the various explanations which are given for this phenomenon, you said "We imagine that the practical thinker will sweep aside all this special pleading and arrive at the conclusion that the adaptability of a given State to the needs of civilization at a given time is what constitutes, and will alone preserve, its title to international power and prestige."

You point out with accuracy the part which certain nations have played in the past, with the suggestion that when that service was rendered there was, perhaps, little more for them to do, or at least that they did not find any new and distinctive work. It remains to be asked why this was so? The statement of the fact hardly explains the cause. On the contrary, it would seem that when any nation has made a notable contribution to the history of civilization, as Greece did in preserving the ancient culture, and Rome in the establishment of civic law, it had so far justified its right to continue that it would survive any competition with less distinguished rivals.

As a contribution to the main question, which is one of very considerable importance, will you allow me to make the following suggestion?

One chief reason, if not the main one, why nations that have achieved greatness in the past have not continued, is to be found in the size of their population as related to their habitable area. That is, so long as a nation has free scope in which to grow and develop itself, finding sufficient opportunity for the industries of its people and ample sources of food supply within its own proper bounds, it has continued in undiminished strength. But when these conditions fail, it has inevitably entered upon that decadence which in many instances has resulted in final destruction.

The Greek States, for example, in spite of their mutual rivalry and the evil of their internecine wars, remained vigorous so long as they had ample room to grow on the eastern shore of the Mediterranean, and in Sicily and in Southern Italy at the west. When, with the growth of other nations, the day came in which they were deprived of this privilege, and found themselves compressed within the narrow confines of their own immediate territory, the struggle for existence became so fierce that their internal contests were fateful, and before long so reduced their power as to make them the easy prey of nations more favorably circumstanced. The history of their rivals, the great Asiatic nations of Babylonia, Assyria and Persia—tell the same story. It was an incessant struggle for territory, with the victory always for the one who could hold the ground long enough to accommodate national expansion.

This is the key to modern history and largely to the situation of the great nations to-day. It explains Japan's relations to Korea and the Asiatic foreshore. Her own population, rapidly growing as the effect of the adoption of modern machinery and modern methods of industry, must have room in which to settle, and which the narrow limits of her own islands do not afford. Russia has found such room in the vas expanse of Siberia and Central Asia which she has recently opened for any future growth of her great population. India has doubled in population under English administration, and the political situation has become acute, not so much because of the difference between the European and the native, deep and vital as that difference is, as because of the growing difficulty to find room in the Indian Peninsula for this vast increase of the human occupancy. What will be the measure of the pressure that will arise in China for an outlet, with free access to new territory, when that country, the most populous in the world, so long

asleep, comes under the influence of modern life and begins to increase, as every community does with quickened thought and improved facilities for producing the means of living, no man can venture to estimate. As it is, the pressure in China has been so great that in spite of the national traditions and governmental restraint, the Chinese have flowed in a steady stream along the entire Asiatic Coast, and have reached to India, South Africa, Australia, the Sandwich Islands, Mexico and our own country. Everywhere more or less resistance has been opposed to them, but the pressure at home is fast becoming tremendous and will be the determining factor in shaping the immediate future of the Orient, especially now that the pressure of Japan and of Russia has become definite on her inland frontiers.

With all England's ability of administration and of domestic thrift, can any one question that her history in modern times would have been very different if she had not been able to secure at the west and at the east the broad areas of comparatively unoccupied territory into which her growing and ambitious population could freely overflow?

France seems to be an exception in her power to preserve national vigor with no outlet for her population. The explanation may be in the fact that her population is not increasing; but it is in a condition of instability which cannot long maintain, and which has been recognized by the French Government in their various and distinctly aggressive attempts to open up new and extensive colonies in both Africa and Asia.

Germany is the most notable illustration among the European nations of the need, and its recognition in the policy of the Government. The German population, which is rapidly increasing, must be provided for. Therefore, the Government is persistently seeking larger territorial area, though it is doing it in the clumsy and heavy-handed manner which is so often characteristic of German diplomacy. But the need is insistent, and in some way or another it must be met.

Spain and Portugal may seem to be exceptions. There was a day when they both found the opportunity and the invitation to spread themselves over unoccupied lands. Those were the days of Spanish and Portuguese greatness. Whether they ever will return is an unanswerable problem. That the opportunity which those days gave has gone by for the present is manifest, and the need also seems to have disappeared, because the nations have not been growing, and apparently have accepted the condition of decadence which corresponds with the lack of opportunity. But a new life seems to be coming to Spain, and it is inevitable that with that new life will come both an increase in native population and native wealth and native energy, and, on the other hand, the need of more room. Whether the Government will be able to satisfy that need when it arises will, of course, be the problem of the future.

As for ourselves, no one, I think, will fail to recognize that after all has been said about the genius of the American people, the fact remains that but for the vast unoccupied territory lying at our doors into which our rapidly growing population could freely pour, finding boundless arable land, with mineral wealth of every kind waiting for excavation, our history would have been very different. As it is, thoughtful men are beginning to ask what is before us when the day comes when there is no more land to be occupied, and no more room within our own borders for the free movement of our people who have become so accustomed to this freedom and to whom it is already so essential a part of their common life?

In short, though it is true, as you say, that "it is easier to assign causes for the events of the past centuries than to show what causes are at work at the present time, and what they foreshadow for the future," here is a cause that has been clearly at work in all the past and which has lost none of its validity in the present, and the operation of which there is every reason to anticipate in the future. Other causes, like that of a mistaken industrial policy, the growth of false ideas of international duty, or the development of internal forces of decay, doubtless play their part. They are to be weighed and estimated according to their varying strength. But when all has been said in these directions, I think it will be seen that the mere question of room to expand is the vital one in the history of every vigorous race. It has gone far to determine the great migrations which have been characteristic of human history in all time. It has challenged the vigor of the repressed and led them to break all bounds and go forth to find a new home with the larger scope, for which they felt such supreme need. And it has gone far to determine the permanency of the races that have migrated, as it has shaped the character of the civilization which they have founded or developed.

There is this reason why the bloodiest and bitterest contests of history have been for the possession of territory. Whether the military chieftains have recognized this or not, it has been the sustaining power behind them, even though often a sort of blind impulse drives men on to struggle and to endure when they do not always clearly know the real nature of the propelling impulse. When this fact is recognized, the question of immigration, whether it shall be encouraged or restrained, gains a new significance, and the generous policy which our Government has always pursued in opening its lands to all-comers, inviting and promoting settlement as rapidly as possible, justified as it is by our history in the past, inevitably raises questions for the near future which will involve issues far more serious than any we have ever confronted. The purchase of Alaska was manifestly so wise that we wonder that the opportunity ever came to us, while on the other hand our expansion in Porto Rico, the Sandwich Islands and the Philippines will so inevitably increase the local population as the result of better administration and improved facilities of commerce and of industry, that the superfluous territory in those sections will quickly be more than filled by the natural growth of their native or resident populations. Where else the United States can look for more room it is difficult to say, but for the present our freedom from anxiety and our prosperity should be recognized as due in very great extent to the unusual privilege that has been ours of free development in a vast territory within our own natural bounds. So long as that condition exists, we have only incidental reason for fear of decadence.

Henry A. Stimson.

New York March 5th 1908.

## ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

—The public sales of bank stocks this week aggregate 202 shares, of which 125 shares were sold at the Stock Exchange and 77 shares at auction. The transactions in trust company stock reach a total of 90 shares. One hundred shares of stock of the Second National Bank were sold at the Stock Exchange at 350, this being the first public sale of the bank's stock since the commencement of our record in 1898.

| *Shares.* | BANKS—*New York.* | *Low.* | *High.* | *Close.* | *Last previous sale.* | |
|---|---|---|---|---|---|---|
| *25 | Commerce, Nat. Bank of | 149½ | 150 | 149½ | Feb. 1908 | 150 |

* Sold at the Stock Exchange.

—A New York Stock Exchange membership was transferred this week for $52,000, an advance of $1,000 over the last previous sale.

—The Comptroller of the Currency on Feb. 28 designated Topeka, Kan., as a reserve city under the Act of March 3 1887, as amended by the Act of March 3 1903. The application was presented by Senator Charles Curtis on behalf of the three national banks of the city—the Merchants, the Central and Capital national banks.

—A bill to tax stock sales was introduced in the House of Representatives on Monday by Representative William P. Hepburn, and has attracted much attention. It provides for a tax of 50 cents on each share of stock sold, of the face value of $100 or under. Mr. Hepburn is quoted as saying that the bill does not seek to impose a tax upon any agreement evidencing the deposit of stock certificates as collateral security for money loaned, which stock certificates are not actually sold, nor upon such stock certificates so deposited. Section 1 of the bill is in part as follows:

That there is hereby imposed and there shall immediately accrue and be collected a tax as herein provided on all sales or agreements to sell, or memoranda of sales or deliveries or transfers of shares or certificates of stock in any association, company or corporation, made after the 30th day of June 1908, whether made upon or shown by the books of the association, company or corporation, or by any assignment in blank, or by any delivery or by any paper or agreement or memorandum or other evidence of transfer or sale, whether entitling the holder in any manner to the benefit of such stock or to secure the future payment of money or the future transfer of any stock, on each share of one hundred dollars of face value or fraction thereof of fifty cents.

The bill provides that the payment of the tax shall be denoted by stamps, to be affixed as follows:

In a case where the evidence of transfer is shown only by the books of the company the stamps shall be placed upon such books; and where the change of ownership is by transfer of a certificate, the stamps shall be placed upon the certificate; and in cases of an agreement to sell or where the transfer is by delivery of the certificates assigned in blank, there shall be made and delivered by the seller to the buyer a bill or memorandum of such sale to which the stamp provided for by this Act shall be affixed; and every bill or memorandum of sale or agreement to sell before mentioned shall show the date thereof, the name of the seller, the amount of the sale and the matter or thing to which it refers; and no further tax is hereby imposed upon the delivery of the certificate of stock or upon the actual issue of new certificates when the original certificate of stock is accompanied by the duly stamped memorandum of sale.

Violations of the proposed law are to be punishable by a fine of not less than $500 nor more than $1,000, or a term of imprisonment of not more than six months, or both. The law in operation in New York State affecting stock transfers imposes a tax of but 2 cents a share on stock sales.

—At a meeting of the New York Chamber of Commerce on Thursday James G. Cannon, Vice-President of the Fourth National Bank, was elected Chairman of the committee on finance and currency to succeed William A. Nash, resigned.

—The Minneapolis Clearing-House Association at a meeting on Feb. 28 placed itself on record as heartily commending Senator Knute Nelson of Minnesota on his opposition to the Aldrich Bill as originally introduced. The Association, however, expressed itself as absolutely opposed to the two amendments to the bill presented by Mr. Nelson, the first providing for a governmental guaranty of deposits and the second stipulating that national banks shall keep their entire legal reserve in cash in their own vaults. In taking issue with the Senator, the Association states that his public utterances have heretofore been characterized by good judgment and sound common sense, but that in this instance it believes him to have been misled by certain fallacies which ought to be corrected. The objection of the Clearing House to the holding of the entire legal reserves in a bank's own vaults at all times is based upon the fact that this requirement would place the country banks and the banks of the smaller reserve cities, such as the Twin Cities, in an impossible position, especially during the period of crop moving. This, it states, would mean for the Minneapolis banks the carrying of from 50 to 60% of their deposits on hand in available funds. The Association in its statement adds that the daily deposits of its banks are largely made up of credit items, local checks and drafts on points throughout the country, and that the banks are called upon daily for large shipments of currency to the country. During this active period the banks usually carry in available funds about 40% of their deposits, and even then, it is noted, it is very difficult to maintain the legal cash reserve at 12½% in their vaults. The adoption of any such law as advocated by Mr. Nelson would, in the opinion of the Association, revolutionize the banking business in its section of the country, and would greatly lessen the ability of the banks to assist in the movement of commerce. Reference is also made by the Association to the remark reported to have been made by Mr. Nelson, namely: "It was not until the banks of New York, Chicago and other reserve centres had tied up over $30,000,000 of the reserve of Minnesota national banks that our local banks were forced to follow suit." The principal difficulty with the statment, it is claimed by the Clearing House, is that it is not true. Had it been true, the Association states, every bank in the State of Minnesota would have closed its doors forthwith. The Association adds that during November and December the Minneapolis banks shipped to the country over $2,000,000, and in every case currency was sent where it was really needed by the country banks.

—A change has been made in the method of examination of State banks in Kansas by State Bank Commissioner John Q. Royce. The last Legislature increased the number of examiners from three to eight. The Commissioner has now determined to assign the examiners to separate territories over the State, one for each Congressional District. The result is that where formerly each of the three examiners was responsible for 275 banks, now each examiner is charged with the supervision of only about 90 banks. This will make it possible to have two complete examinations of all the banking institutions in the State during the year.

—The Los Angeles Clearing House Association has taken steps toward surrounding its banking institutions with additional safeguards. On Feb. 26 a resolution was adopted providing that after Sept. 1 1908 no bank in the city shall either clear for or receive an account from any bank or trust company doing a banking business in the city which has a paid-up or unimpaired capital of less than $200,000. It is expected that many of the institutions affected by the resolution (in all some twenty or more) will increase their capital or merge their business with another institution in order to meet the requirements of the new rule. The Association has also decided to put into practice the plan adopted by several of the other clearing houses throughout the country of employing a special bank examiner for the purpose of investigating from time to time the affairs of institutions enjoying clearing-house privileges.

—The bill introduced by Assemblyman Hamm amending Section 100 of the insurance law of New York State so as to permit life insurance corporations to become parties to reorganization or protective agreements was signed by Gov Hughes on Feb. 28. As our readers know, the particular object in view in amending the law was to cover the case of the Third Avenue Railroad Co. of this city, now in receiver's hands. The New York Life Insurance Co., the Mutual Life, and the Equitable Life Assurance Society hold, it is said, about $5,000,000 in bonds of the railroad company. We give herewith the bill as enacted into law, showing the new matter in italics.

AN ACT

To amend the insurance law, in relation to life insurance corporations becoming parties to reorganization or protective agreements.

*The People of the State of New York, represented in Senate and Assembly, do enact as follows:*

SECTION 1. Section 100 of Chapter 690 of the Laws of 1892, entitled "An Act in relation to insurance corporations, constituting Chapter 38 of the general laws," as amended by Chapter 326 of the Laws of 1906, is hereby amended to read as follows:

SECTION 100. *Investments.*—No domestic life insurance corporation, whether incorporated by special Act or under a general law, shall, after the the first day of June, nineteen hundred and six, invest in or loan upon any shares of stock of any corporation, other than a municipal corporation, nor, excepting Government, State or municipal securities, shall it invest in, or loan upon, any bonds or obligations which shall not be secured by adequate collateral security, or where more than one-third of the total value of the collateral security therefor shall consist of shares of stock. Every such corporation which on the first day of June, nineteen hundred and six, shall own any shares of stock other than public stocks of municipal corporations, whenever the same shall have been acquired, or any bonds or obligations of the kinds above described, where said bonds or obligations shall have been acquired after the first day of March, 1906, shall dispose of the said shares of stock and of said bonds and obligations within five years from the 31st day of December 1906, and in each year prior to the expiration of said five years

shall make such reduction of its holdings of said securities as may be approved in writing by the Superintendent of Insurance. No investment or loan shall be made by any such life insurance corporation unless the same shall first have been authorized by the board of directors or by a committee thereof charged with the duty of supervising such investment or loan. No such corporation shall subscribe to or participate in any underwriting of the purchase or sale of securities or property, or enter into any transaction for such purchase or sale on account of said corporation jointly with any other person, firm or corporation; nor shall any such corporation enter into any agreement to withhold from sale any of its property, but the disposition of its property shall be at all times within the control of its board of directors. Any such corporation, in addition to other investments allowed by law, may invest any of its funds in any duly authorized bonds or evidences of debt of any city, county, town, village, school district, municipality or other civil division of any State, and may loan upon the security of improved unincumbered real property in any State worth fifty per centum more than the amount loaned thereon. *Provided, however, that nothing in this section contained shall be construed as prohibiting a life insurance company from entering into an agreement for the purpose of protecting the interests of the company in securities lawfully held by it, or for the purpose of reorganization of a corporation which issued securities so held, and from depositing such securities with a committee or depositaries appointed under such agreement; but such agreement and the deposit of securities thereunder must first be approved in writing by the Superintendent of Insurance with a statement of his reasons for such approval. Nor shall this section be construed as preventing such company from accepting corporate stock or bonds or other securities, which may be distributed pursuant to any such agreement approved as aforesaid or to any plan of reorganization approved in writing by the Superintendent of Insurance with a statement of his reason for such approval. But if any securities so received shall consist in whole or in part of stock in any corporation or of bonds or obligations which shall not be secured by adequate collateral security, or where more than one-third of the total value of the collateral security therefor shall consist of shares of stock, then any stock and any such bond or obligation so received shall be disposed of within five years from the time of their acquisition or before the expiration of such further period or periods of time as may be fixed in writing for that purpose by the Superintendent of Insurance.*

SECTION 2. This Act shall take effect immediately.

—The case of the American Bankers' Association against the American Express Co., brought under the Inter-State Commerce law, has been assigned by the Inter-State Commerce Commission for hearing in the Aldermanic Chambers, City Hall, this city, March 19 at 10 a. m.

—In response to the application of Attorney-General Jackson, J. Henry Haggerty and Joseph B. Ford were appointed temporary receivers for the Mechanics' & Traders' Bank of this city by Justice Platzek of the Supreme Court on Saturday last. Morgan J. O'Brien, stockholder and depositor of the bank (which closed its doors on Jan. 29), was named as counsel for the receivers. The question of making permanent the receivership will be argued on March 24. The following statement with reference to the placing of the bank in receivers' hands was issued immediately after their appointment by Paul Grout, counsel for the bank:

The appointment of receivers was without notice to me or the bank and was a complete surprise. It interrupts our plans for resumption. We have no desire, however, to criticize the manner of the appointments nor the appointments themselves, believing that an early resumption is possible, notwithstanding the fact that the bank is in the possession of temporary receivers, provided a sufficient number of the balance of the depositors sign the deferred-payment agreement.

Our plans for resumption had progressed to the extent of our having obtained the signatures to the deferred-payment agreement of depositors amounting to about 75 % of the deposits. The stockholders are to meet on Tuesday next for the purpose of reducing the capital stock of $2,000,000 to $1,000,000, thereby adding $1,000,000 to our surplus. The examination made by the examiners of the Banking Department showed the capital of $2,000,000 to be unimpaired, with a substantial surplus.

Arrangements are pending for turning over the main office in New York and the two branches in New York to a prominent banker uptown. Arrangements are also pending for getting money to pay off the Clearing House loan and provide additional cash to open as soon as 95 % of the deposits have come under the deferred-payment plan.

We believe that if the temporary receivers will co-operate with the bank, and a sufficient number of the depositors will sign the deferred-payment agreement, an early settlement can be brought about.

It was stated last week that the examination of the institution made by the State Banking Department showed capital unimpaired and surplus of $31,821 after charging off $585,000 of questionable assets. Under an order issued by Justice O'Gorman, modifying that of Justice Platzek, so as to permit the stockholders to exercise their corporate rights, the stockholders on Tuesday ratified the proposition to reduce the capital from $2,000,000 to $1,000,000. It was also voted unanimously to apply the $1,000,000 taken from capital toward the surplus. It has further been decided to make application to the court for permission to have the receivers pay immediately the Clearing House indebtedness, thus releasing, it is said, securities in which the bank has an equity of more than $4,000,000.

—It is announced that the City Chamberlain has made a deposit of $100,000 of the city's funds with the Trust Company of America of this city. This is the first amount placed in that designated depositary since the financial disturbances of last autumn, at which time the city reduced its deposit in this institution to practically nominal figures.

—The application of the directors of the Oriental Bank of this city to set aside the appointment of the Carnegie Trust Co. and Henry Schneider as temporary receivers of the bank was granted yesterday by Justice O Gorman. The receivers were named by Supreme Court Justice Platzek at the instance of Attorney-General Jackson on Friday last, the 28th ult., when arrangements were pending for the liquidation of the bank by the Metropolitan Trust Co. The fairness of this arrangement had been questioned by the Attorney-General. It is understood that an amended plan has been agreed upon between the directors of the bank and the trust company. In announcing his decision yesterday, Justice O Gorman said: "As I understand it, 93% of the depositors have consented to this amended plan; I am not going to go against their will. The Court now gives it approval."

—Willard V. King has resigned as Vice-President of the New York Trust Co. of this city, having been elected President of the Columbia Trust Co. He will assume his new duties on the 23d inst. Mr. King succeeds Robert S. Bradley of Boston, who has been President of the Columbia Trust since its inception, but has never been active in its management. Mr. Bradley remains a director of the company. Mr. King had been connected with the Continental Trust Co. from the beginning, and rose to the position of Vice-President, continuing in that capacity when the Continental and New York Security & Trust were consolidated. The Columbia Trust began business in December 1905; it was one of nine companies in Greater New York to show an increase in undivided profits account during 1907. It has a capital and surplus of $1,000,000 each, undivided profits of $130,000 and deposits of $5,000,000. Clark Williams was largely instrumental in organizing the company, and was Vice-President up to the time he became State Superintendent of Banks a few months ago.

—At the regular monthly meeting of the directors of the Carnegie Trust Co. of this city, held on Wednesday, Charles C. Dickinson, the Acting President, was elected President in place of Leslie M. Shaw, resigned; Fred. H. Parker, former Secretary of the company, was elected a Vice-President, and P. H. Sheridan was elected Treasurer.

—The stockholders of the Hudson Trust Co. of this city will meet on next Wednesday (the 11th inst.) for the purpose of determining how much of the surplus of the institution created by the reduction of its capital from $1,000,000 to $500,000 shall be returned to them.

—The motion to make permanent the temporary receivership of the Knickerbocker Trust Co. of this city comes up for hearing to-day. An inventory of the assets of the company filed on the 2d inst. gives the book value of the assets as $56,473,692 and the appraised value as $49,105,344. Justice Clark on the 28th ult. granted a petition filed by the temporary receivers of the institution for permission to substitute bonds and notes of the Barney Estates Co. (an organization formed to pay the debts of the late Charles T. Barney) for other forms of indebtedness which Mr. Barney had left with the trust company.

—Julius Heynan has been elected Secretary of the Maiden Lane Savings Bank of this city to succeed the late Maurice Maas. Louis Windmuller continues as President of the institution.

—The Citizens' Trust Co. of Brooklyn Borough will to-day discontinue its branch at 198 Montague Street, opened last August. The company announces that the business of the branch will be merged in its main office at Broadway and Sumner Avenue. It also states that it has arranged to send its messengers daily to the district in which its branch was located for the collection of deposits.

—Under a decision handed down by Justice Carr of the Supreme Court on Wednesday, the suit concerning the solvency of the Williamsburgh Trust Co. may now be tried in Kings County. The decision, according to the "Brooklyn Eagle," vacates the ex parte stay which had been obtained by Attorney-General Jackson from Justice Betts. On Feb. 7 Justice Howard had signed an order permitting a change of venue from Ulster County to Kings County, but an order obtained by the Attorney-General from Justice Betts stayed the proceedings. It is this stay that has now been vacated.

—The examination made by the State Banking Department into the affairs of the Home Bank of Brooklyn is said to show the capital of $100,000 unimpaired and a surplus on Jan. 31 of $21,432. Only $30,940, it is stated, was marked off as at all doubtful, and of this $10,000 has since been paid to the bank in cash, thereby increasing the surplus to $31,000. It is reported that Pres. W. C. Damron has expressed his intention to retire as soon as the rehabilitation of the bank is accomplished. Assents from 75% of the depositors to the deferred-payment plan, under which the reorganization will be effected, have, it is said, been received.

—Presiding Justice Sweetland has granted another two weeks' extension of time in the matter of the appointment of a permanent receiver for the Union Trust Co. of Providence, having given the receivers until March 14 to continue their efforts toward reorganization. It is understood that in order to avoid permanent receivership the creditors of the company must be practically unanimous in the temporary waiving of their claims against it. It is reported that all but about 1,000 of the 17,000 depositors (representing an aggregate of $17,762,038) have released their accounts, leaving unwaived claims amounting to about $1,000,000. The Town Council of Johnston, R. I., is among those who have recently assented to the plan. At a meeting held on Feb. 14 it voted its assent for the sinking and trust funds deposited by the town with the company, to the extent of about $20,000. The institution, it is reported, holds $60,000 of the town's notes, and arrangements are to be made for the reduction of the town indebtedness by the amount released to the company.

—A fourth dividend in liquidation, amounting to $5 per share, was declared payable March 5 to the stockholders of the National Bank of North America, of Providence, R. I. The three previous payments aggregated $125, making the total thus far $130. The bank was placed in voluntary liquidation in 1904.

—Judge Lowell, of the United States Circuit Court, appointed Arthur D. Hill receiver for the firm of James F. Shaw & Co., incorporated, of Boston, on the 2d inst., in response to the petition of John McLaughlin of Cumberland Hill, R. I. The firm has been prominent as promoters of street railway enterprises, one of the roads built by it being the Boston & Worcester Street Ry. The Boston "Herald" states that it is reported that the assignment will be only temporary, that one of the creditors of the company has given assurances of support, and that this house will stand behind Mr. Shaw until a settlement can be reached. The petition of the plaintiff, it is said, states that there are promissory notes outstanding amounting to $700,977. Of the entire indebtedness the "Herald" says, $133,102 is unsecured. Twenty-nine notes, amounting to $567,875, are secured in whole or in part by collateral consisting of shares of stock. The only assets, it is claimed, are equities in securities of an estimated value of $880,000. The firm of James F. Shaw & Co. was incorporated in March 1907 and was capitalized at $500,000; its directors at the time of incorporation were: James F. Shaw, Pres.; George A. Butman, Treas.; Edward P. Shaw (former State Treasurer) and Arthur U. Clapp. James F. Shaw resigned on Saturday last as President of the Boston & Worcester Electric Co. and the Boston & Worcester Street Ry., in order that the road might not be affected in any way by the receivership proceedings.

—It is reported that a dividend of 60% has been declared by Comptroller of the Currency William B. Ridgely to the depositors of the failed Jewelers' National Bank of North Attleborough, Mass. The stockholders were assessed 100%.

—Application for authority to establish a new national bank in North Attleborough, Mass., to take the place of the Jewelers' National has been sought. The institution is to be called the Manufacturers' National Bank, and is to have a capital of $100,000 and surplus of $25,000.

—According to dispatches in the daily papers, Receiver John H. Strawn of the failed Farmers' & Drovers' National Bank of Waynesburg, Pa., has notified the directors of the institution that they will have to contribute the sum of $1,500,000 as a result of the bank's suspension. The institution closed its doors Dec. 12 1906; there is said to be a shortage of $1,800,000.

—The change in the name of the Dime Savings & Banking Co. of Cleveland to the Commercial Savings & Trust Co. went into effect on the 2d inst., at which time the institution opened in its new quarters on the ground floor of the Williamson Building, at Euclid Ave. and Public Square.

—The Continental National Bank of Chicago completed its twenty-fifth year of existence on the 3d inst., having opened for business on March 3 1883. The bank on its anniversary shows deposits of over 70 millions of dollars and resources of over 80 millions. The marked growth in the business of the institution dates from the time President George M. Reynolds first became connected with it, on Jan. 1 1898. The capital was then but $2,000,000 and deposits but $13,000,000. Three years before—in 1895—the bank's deposits stood at but $9,000,000. In 1900 the deposits had advanced to $31,000,000, in 1905 to $51,000,000, while to-day they have, as already stated, grown to over $70,000,000. The capital, surplus and undivided profits now aggregate over $7,000,000.

—For a fortnight past the financial centre of Chicago has been rife with rumors of an important bank consolidation to wit, the merging of the Hibernian Banking Association with the American Trust & Savings Bank. This would make a banking institution of the first magnitude, ranking sixth in the city in point of resources. The joint deposits, according to the latest statements, would amount to 43½ millions and the combined capital and surplus to $4,500,000. It is true that such a combination has been seriously discussed by Presidents Potter and Clarke of the respective banks, but we are officially informed that no definite plan or agreement has been arrived at, and that it is highly probable none will be. Both institutions are prosperous and well managed and there is apparently no reason why either should efface itself.

—On Monday, March 9, the National Produce Bank of Chicago will be permanently located in its new and convenient quarters on the ground floor of the Ogden Building, southwest corner of Clark and Lake streets. This banking institution, which commenced business on Aug. 26 last, has pursued a conservative yet progressive policy under the administration of President Edwin L. Wagner; and, with a capital of $250,000 and surplus of $50,000, shows by its published statement of Feb. 14 deposits of considerably over half a million dollars.

—At a recent meeting of the directors of the Union Trust Co. of Detroit, Frank W. Blair was elected President of the institution, following his election as a director. As President Mr. Blair succeeds D. M. Ferry, whose death occurred last November. Henry B. Ledyard has been elected Chairman of the board of directors and of the executive committee. Ellwood T. Hance, First Vice-President of the company, committed suicide yesterday. A statement has been issued by the officers of the company in which it is declared that Mr. Hance's accounts with the institution are in excellent shape, and that the act could only have been occasioned by causes beyond their knowledge.

—James H. Jamison has been appointed permanent receiver of the First National Bank of Chariton, Iowa, which suspended last October.

—The First National Bank of Globe, Ariz., which was placed in charge of a receiver on Nov. 22 last, resumed business Feb. 29. It is stated that the bank reopens with a doubled capitalization of $100,000.

—It is reported that the State Savings Bank of Butte, Mont., which suspended on Oct. 17, resumed business on Feb. 15. At the time of its closing the institution was controlled by F. Augustus Heinze; it is understood that Mr. Heinze is no longer identified with the bank, his stock having been taken over by the Largey Brothers.

—The reorganization of the German-American Bank of St. Joseph, Mo., under the national system was perfected on the 24th ult. The management remains unchanged, the following officers continuing in charge: William Krug, President; Henry Krug Jr. and J. G. Schneider, Vice-Presidents; R. R. Calkins, Cashier, and A. H. Bansbach, Assistant Cashier. The bank was organized as a State institution in 1887, and has claimed the distinction of being the largest State bank in Missouri, Kansas and Nebraska outside of St. Louis. The capital of the bank is the same as before its conversion, namely, $200,000.

—An application to convert the City Bank of Memphis Tenn., into the City National Bank was approved by the Comptroller of the Currency on February 20. The capital of the bank, now $100,000, is to be increased with its conversion to $200,000. The institution began business two years ago.

—It is stated that the Inter-State Finance & Trust Co. of Big Stone Gap, Va., which closed its doors on Dec. 13, has

been reorganized and has resumed business. The officers under the reorganization are R. T. Irvine, President; W. T. Goodloe, Vice-President and Secretary; R. P. Barron, Treasurer, and H. H. Slemp, Assistant Treasurer

—The capital of the Wilmington Savings & Trust Co. of Wilmington, N. C., has been increased from $25,000 to $100,000, through the declaration on Feb. 1 of a stock dividend of 300%.

—It is announced that the Atlanta National Bank of Atlanta, Ga., plans to increase its capital from $500,000 to $1,000,000. One-half of the proposed $500,000 issue will go to the present shareholders and the remainder offered to new interests. The announcement of the intended addition to capital is accompanied by a statement that the bank has become sole owner of the Century Building, in which it is quartered. Under the latest call made by the Comptroller of the Currency (Feb. 14) the bank reports deposits of $4,946,381 and aggregate resources of $6,641,881. Its surplus fund is given as $500,000, besides which it has undivided profits of $194,900. Charles E. Currier is President of the bank.

—An order authorizing the payment of a 20% dividend to the creditors of the Neal Bank of Atlanta, Ga., was issued by Judge Ellis on the 20th ult. At the same time Judge Ellis ruled that the State of Georgia be given preference over the depositors and creditors of the institution for the recovery of $192,503 taxes on deposit with the bank at the time it closed, less $25,000, the amount of a note which the State owes the bank, leaving $167,503. The matter of $11,871, deposited by the Tax Collector of De Kalb County and claimed by the State, was reserved for further consideration. The bank was placed in charge of the State authorities on Dec. 23. The Central Bank & Trust Corporation is the receiver.

—J. K. Jackson has recently replaced Silvain Baum as Cashier of the Exchange National Bank of Montgomery, Ala.

—The Central Bank of Mississippi, at Jackson, Miss., was placed in the hands of a receiver on the 21st ult., Chancellor Lyell appointing E. E. Hindman to take charge of its affairs. The New Orleans "Picayune" states that it is understood that the embarrassed condition of the bank was brought about by reason of the financial stringency, and that the receivership is expected to be only temporary. The bank was organized last year; its authorized capital is said to be $500,000.

—The directors of the Spokane & Eastern Trust Co. of Spokane, Wash., have decided to increase the capital of their company from $100,000 to $300,000. The surplus and profits are to be left as at present, so that the institution, with its proposed addition to capital, will have a working capital of nearly $600,000. The present shareholders will be allowed to subscribe to the new stock at par, and it is expected that practically all of the issue will thus be taken up. An extra dividend of 10% has been paid by the company on its earnings for 1907. Regular dividends of 1½% quarterly, or 6% a year, are distributed by the institution, and at the close of the fiscal year, in December, an extra disbursement is made. As that date, however, in 1907 happened to occur in the middle of the crisis, it was decided to defer action until the situation had cleared. The institution is carrying a reserve of over 40%. The company was formed eighteen years ago by J. P. M. Richards, the President, who has been actively in charge of its affairs ever since. The annex building, now in course of erection by the trust company, is rapidy nearing completion. Its features include one of the largest vault systems on the Pacific Coast. It is reported that the interests controlling the Spokane & Eastern Trust Co. contemplate the organization of a national bank if a favorable currency law is enacted by Congress.

—The annual report of the Deutsche Bank, Berlin, for 1907, just submitted to the stockholders, shows that before declaring a dividend of 12% for the year, $738,000 was charged off from the account of the banking premises and the reserve fund was increased $428,000. The business turnover for the year 1907 amounted to $21,667,000,000, being an increase of $1,289,000,000 over the total business for the preceding year.

**Canadian Bank Clearings.**—The clearings of the Canadian banks for the month of February 1908 show a decrease from the same month of 1907 of 8.8%, and for the two months the loss reaches 8.1%.

**Clearings by Telegraph—Sales of Stocks, Bonds, &c.**—The subjoined table, covering clearings for the current week, usually appears on the first page of each issue, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that, as compared with the corresponding week of 1907, there is a decrease in the aggregate of 33.9%. So far as the individual cities are concerned, New York exhibits a loss of 45.1%; Boston, 23.5%; Philadelphia, 18.5%; New Orleans, 25.3%; Baltimore, 19.9%; St. Louis, 3.5%. Chicago records a gain of 2.7%.

| Clearings—Returns by Telegraph. Week ending March 7. | 1908. | 1907. | Per Ct. |

## Monetary and Commercial English News

(From our own Correspondent.)

*London, Saturday, February 22 1908.*

Business on the Stock Exchange has continued quiet during the week, but there is undoubtedly a better feeling and there is much greater inclination to engage in new enterprises of all kinds. During January the large operators here jumped to the conclusion that speculation would revive upon a considerable scale, and they bought, therefore, rather heavily. The same mistake was made in Paris, where the purchasing of Russian stocks more particularly was upon an enormous scale. Those operators recognized that in so trying a year the public would not be ready to embark in speculation, but thought that if they themselves set the example the public would be induced to follow. They soon found that their calculations were wrong. They consequently pulled up, and for a week or two there was a very uncomfortable feeling on the Stock Exchange.

Naturally, in the disappointment and miscalculation, people were prepared to believe almost any foolish alarmist report. The Austro-Hungarian Foreign Minister, having announced in one of his speeches to the Austrian Delegation that he had applied for an irade for the construction of the Novi Bazaar Railway, rumors started that Austria was being made use of by Germany for the purpose of breaking off the understanding between Austria and Russia. When, a day or two later, it was announced that the irade for the survey of the railway had been granted, people felt confirmed in the impression that the influence of Germany was used and a good deal of bad feeling was aroused, both in Russia and in France. Newspaper recriminations followed, and the world was gravely assured that there was danger of war. No danger of war has existed at any time. But the newspaper warfare alarmed the bourses and the stock exchanges and added to the setback in prices.

Since then there have been rumors that some kind of negotiations or pourparlers have been going on between Russia, Sweden and Germany, and that Russia has put forward the demand that Sweden should agree to the fortification by Russia of the Aland Islands. What the truth exactly is nobody knows. The story clearly is inaccurate as reported in the papers, for Sweden is not a party to the treaty which binds Russia not to fortify the islands, and therefore the consent of Sweden to their fortification is not necessary. But it is believed in some way or other the question has been raised, and this has added to the general uneasiness It is perfectly plain, however, that Russia at present can do nothing effectual, because she has no fleet to support any action she might take in the Baltic or elsewhere. Gradually the public here in London is coming to recognize that these and similar rumors, whatever may be the object of those who have set them afloat, are quite baseless, and the belief is once more abroad that we are now about to see a considerable revival of business upon the Stock Exchange.

The Bank of England is getting stronger and stronger every week and the Stock Exchange is getting impatient because the rate of discount is not reduced. The rate of discount of the Imperial Bank of Germany is however still 6%. The Imperial Bank greatly needs to strengthen its gold reserve, and yet the foreign exchanges are all against it. Therefore, there is a danger that if the Imperial Bank put down its rate gold would be withdrawn. The natural inference is that the rate will be kept very high for the greater part of the present year—probably throughout the whole year. Under these circumstances, the Bank of England has thus far been reluctant to decrease its rate.

The India Council offered for tender on Wednesday 40 lacs of its bills, and the applications amounted to 144 lacs, at prices ranging from 1s. 3 29-32d. to 1s. 3 15-16d. Applications for bills at 1s. 3 29-32d. were allotted about 40% of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years:

Messrs. Pixley & Abell write as follows under date of Feb. 20:

GOLD.—Of this week's arrivals the Bank secured about £250,000, the balance going to the Continent, to the same quarter that has been buying for the last five weeks. The week's movements are as follows: The Bank has received a total of £550,000, of which £370,000 is in bars and £175,000 in sovereigns from Egypt. £624,000 has been withdrawn, £508,000 of which has gone to South America. Next week we expect £554,000 from South Africa. Arrivals—Cape, £432,000; Bombay, £69,000; Australia, £10,000; West Africa, £8,000; total, £519,000. Shipments—Bombay, £95,700; Madras, £12,500; total, £108,200.

SILVER.—The market has lost most of last week's advance and is down to 25 15-16d. Business has been unimportant and has chiefly consisted of moderate buying orders from the Bazaars, where the feature has been a premium of three rupees on spot silver over forward, but this has since been reduced to two rupees. Amounts offered from America have been small, and there is no certain tendency in the market at present. Forward has fluctuated between 1-16d. and ⅛d. over cash. Price in India is Rs. 66½ per 100 Tolahs. Arrivals—New York, £130,000. Shipments—Bombay, £96,650; Adelaide (coin), £38,800; Singapore (coin), £47,556; Madras, £5,000; total, £188,006.

MEXICAN DOLLARS.—There is no business to report.

The quotations for bullion are reported as follows:

**Imports and Exports for the Week.**—The following are the imports at New York for the week ending Feb. 29; also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

| For the week. | 1908. | 1907. | 1906. | 1905. |
|---|---|---|---|---|
| Dry Goods | $3,055,297 | $4,259,769 | $4,267,248 | $3,844,016 |
| General Merchandise | 10,716,953 | 17,224,836 | 14,548,997 | 13,820,548 |
| Total | $13,772,250 | $21,484,605 | $18,816,245 | $17,664,564 |
| *Since January 1.* | | | | |
| Dry Goods | $28,033,954 | $36,687,332 | $33,122,424 | $29,542,150 |
| General Merchandise | 74,713,739 | 119,412,758 | 100,955,313 | 106,956,168 |
| Total 9 weeks | $102,747,693 | $156,100,090 | $134,077,737 | $136,498,318 |

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Feb. 29 and from Jan. 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

| | 1908. | 1907. | 1906. | 1905. |
|---|---|---|---|---|
| For the week | $20,352,462 | $13,557,202 | $12,342,472 | $11,416,256 |
| Previously reported | 129,421,898 | 97,851,970 | 99,726,312 | 78,421,881 |
| Total 9 weeks | $149,774,360 | $111,409,172 | $112,068,784 | $89,838,137 |

The following table shows the exports and imports of specie at the port of New York for the week ending Feb. 29 and since Jan. 1 1908, and for the corresponding periods in 1907 and 1906.

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

| Gold. | Exports. | | Imports. | |
|---|---|---|---|---|
| | Week. | Since Jan. 1 | Week. | Since Jan. 1 |
| Great Britain | -------- | -------- | -------- | $3,413,212 |
| France | -------- | -------- | -------- | 198,815 |
| Germany | -------- | -------- | -------- | 7,540 |
| West Indies | $42,000 | $197,605 | $35,000 | 1,578,464 |
| Mexico | -------- | -------- | 2,955 | 159,503 |
| South America | -------- | 504,475 | 153,980 | 612,045 |
| All other countries | -------- | -------- | 128,884 | 474,341 |
| Total 1908 | $42,000 | $702,080 | $320,819 | $6,443,920 |
| Total 1907 | 2,956 | 1,398,311 | 41,903 | 1,514,874 |
| Total 1906 | 15,000 | 3,648,375 | 64,638 | 449,976 |
| **Silver.** | | | | |
| Great Britain | $988,526 | $6,306,897 | -------- | $14,444 |
| France | 35,000 | 315,000 | -------- | 24,250 |
| Germany | -------- | -------- | -------- | 26,651 |
| West Indies | -------- | 127,877 | $1,049 | 38,776 |
| Mexico | -------- | -------- | 10,516 | 340,443 |
| South America | -------- | 3,000 | 50,288 | 229,455 |
| All other countries | -------- | 350 | 7,146 | 67,025 |
| Total 1908 | $1,023,526 | $6,753,124 | $ 68,999 | $741,044 |
| Total 1907 | 1,476,963 | 6,656,327 | 26,665 | 411,620 |
| Total 1906 | 1,000,810 | 11,170,745 | 102,220 | 476,582 |

Of the above imports for the week in 1908, $47,340 were American gold coin and $6,896 American silver coin. Of the exports during the same time $42,000 were American gold coin and ------ were American silver coin.

**Statement of New York City Clearing-House Banks.**—The detailed statement below shows the condition of the New York City Clearing-House banks for the week ending Feb. 29. The figures for the separate banks are the averages of the daily results. In the case of the totals, however, a departure was made with the statement for Feb. 8, so that in addition to the averages for the week the actual figures at the end of the week are now given.

*We omit two ciphers (00) in all cases.*

| Banks. 00s omitted. | Capital. | Surplus. | Loans. Average. | Specie. Average. | Legals. Average. | Deposits. Average. | Re-s've. |

| Actual figures this morning | | | 1166,988,4 | 263,011,8 | 58,981,9 | 1176,818,5 | 27.3 |

On the basis of averages "circulation" amounted to $64,133,600 and United States deposits (included in deposits), $55,350,100; actual figures Feb. 29, circulation, $62,944,300; United States deposits, $55,386,500.

The statements compiled by the State Banking Department, together with the totals for the Clearing-house banks, both the averages for the week and the actual figures at the end of the week, are shown in the following table. In the figures for State banks and trust companies all of these institutions in Greater New York are included.

NEW YORK CITY BANKS AND TRUST COMPANIES.
*Week ending February 29 1908.*

+Increase over last week. — Decrease from last week.
*a* Includes bank notes. *b* After eliminating the item "Due from reserve depositories and other banks and trust companies in New York City," deposits amount to $619,417,400, a decrease of $256,600 from last week's figures.

*Note.*—In the case of the Clearing-House banks the deposits are "net" both for the average and actual figures; in all other cases "gross" deposits are shown. The Clearing-House actual figures included U. S. deposits amounting to $55,386,500, a decrease of $3,843,300 from last week; averages included U. S. deposits of $53,350,100, a decrease of $3,979,000 from lastweek.

"Reserve on deposits" includes, for both trust companies and State banks, not only cash items but amounts due from reserve agents, and in the case of trust companies includes likewise municipal bonds. State banks in New York City are required by law to carry a reserve amounting to 15% of deposits, while outside of New York City only 10% is required, which reserve in both cases need not be more than one-half in cash. Trust companies in Greater New York are required to keep a reserve of 15%, of which only 5% need be in cash and 5% more may be in municipal bonds, while in the case of the trust companies in the rest of the State the required reserve is 10%, of which only 3% need be in cash and 3% more may be in municipal bonds.

The State Banking Department also furnishes the following report for State banks and trust companies outside of Greater New York.

STATE BANKS AND TRUST COMPANIES OUTSIDE OF NEW YORK CITY
*Week ending February 29 1908.*

| | Loans. | Deposits. | Reserve. | % of Res. |
|---|---|---|---|---|

# Bankers' Gazette.

*Wall Street, Friday Night, March 6 1908.*

**The Money Market and Financial Situation.**—There have been no developments this week of sufficient importance to affect the security markets or to create any enthusiasm in Wall Street, and therefore business here continues practically at a standstill. Reports of iron and steel production for the month of February show a slight increase over that of January, but the difference is so slight as to be almost wholly without significance, and the starting up of a few manufacturing plants in various localities is about offset by the shutting down of others. Moreover, the reports of railway earnings and other criteria show no improvement in the general business of the country.

The Western Maryland Railroad has passed into the hands of receivers, and thus the weekly record of such events, which has been maintained for some time past, is kept up.

The Bank of England's weekly statement shows that the large percentage of reserve recently reported is still held, and the minimum rate of discount of that institution was reduced from 4 to 3½%. The local money market is extremely dull, with practically no change in tone or rates.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1¾% to 2%. To-day's rates on call were 1¾@2%. Prime commercial paper quoted at 5½@6% for 60 to 90-day endorsements and 5½@6% for best single names.

The Bank of England's weekly statement on Thursday showed a decrease in bullion of £41,143, and the per cent of reserve to liabilities was 49.59, against 49.13 last week.

The rate of discount was reduced March 5 from 4%, as fixed Jan. 23, to 3½%. The Bank of France shows a decrease of 7,000,000 francs gold and 2,825,000 francs silver.

The New York City Clearing House banks in their statement of averages for the week ending February 29 showed an increase of $2,127,200 in reserve held and a surplus of $29,262,675 over the required reserve, against a surplus of $32,468,550 the previous week.

| | 1908. Averages for week ending Feb. 29. | Differences from previous week. | 1907. Averages for week ending March 2. | 1906. Averages for week ending March 3. |

| Surplus reserve | 29,262,675 | Dec. 3,205,875 | 3,858,650 | 5,008,750 |
| Surplus excluding U. S. deposits | 43,100,200 | Dec. 4,200,625 | 7,446,875 | 7,147,725 |

*Note.*—The Clearing House now issues a statement weekly showing the totals of the actual figures on Saturday morning. These figures, together with the returns of separate banks, also the summary issued by the State Banking Department showing the condition of State banks and trust companies not reporting to the Clearing House, appear on the preceding page.

**Foreign Exchange.**—The market was dull and irregular this week, with long firm, on easier discounts, and short and cables heavy because of a comparatively light demand; the Bank of England rate was reduced to 3½%.

To-day's (Friday's) nominal rates for sterling exchange were 4 84½ for sixty day and 4 87½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8355@4 8365 for long, 4 8635@4 8640 for short and 4 8660@4 8670 for cables. Commercial on banks 4 83@4 83¼ and documents for payment 4 82¼@4 83¼. Cotton for payment 4 82¼@4 82½, cotton for acceptance 4 83@4 83¼ and grain for payment 4 83@4 83¼.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 19⅜@5 18¾ for long and 5 17½*d*@5 17½ for short. Germany bankers' marks were 94 7-16@94½ for long and 95 1-16*d*@95 1-16 for short. Amsterdam bankers guilders were 40 20@40 22 for short.

Exchange at Paris on London to-day 25f. 18½c.; week's range 25f. 19½c. high and 25f. 18c. low.

The week's range for exchange rates follows:

| | Long | Short | Cables |
|---|---|---|---|
| *Sterling Actual—* | | | |
| High | 4 8370 @ 4 8385 | 4 8675 @ 4 8680 | 4 8720 @ 4 8725 |
| Low | 4 8350 @ 4 8360 | 4 8635 @ 4 8640 | 4 8660 @ 4 8670 |
| *Paris Bankers' Francs—* | | | |
| High | 5 19⅜ @ 5 18¾ | 5 17½*a* @ 5 17½ | |
| Low | 5 20⅝ @ 5 20 | 5 17½*d* @ 5 17½ | |
| *Germany Bankers' Marks—* | | | |
| High | 94 7-16 @ 94½ | 95 1-16*d* @ 95 1-16 | |
| Low | 94¾ @ 94¾ | 95 @ 95*x* | |
| *Amsterdam Bankers' Guilders—* | | | |
| High | | 40 3-16 @ 40¼ | |
| Low | | 40 20 @ 40 22 | |

Less: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus: *k* 1-16 of 1%. *x* 1-32 of 1%. *q* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah buying, 50c. per $1,000 discount; selling, 75c. per $1,000 premium. Charleston selling, $1 per $1,000 premium. New Orleans bank, 25c. per $1,000 discount; commercial, 50c. per $1,000 discount. Chicago, 15c. per $1,000 premium. St. Louis, 70c. per $1,000 premium. New Orleans, 25c. per $1,000 premium.

**State and Railroad Bonds.**—Sales of State bonds at the Board are limited to $5,000 Virginia fund. debt 1991 at 90.

On a greatly reduced volume of business the market for railway and industrial bonds has shown a decided tendency to weakness, although there have been a few exceptional features. Conspicuous among the latter are Pennsylvania conv. 3½s, Rock Island 4s, Northern Pacific 3s, the U. S. Steel 5s and American Tobacco issues, which show a fractional net gain, and Southern Railway 5s, which have declined 3 points within the week. The Mexican Central issues have lost a part of the advance noted last week. Interboro-Metropolitan 4½s have held steady at about last week's closing prices. Otherwise the active list is generally lower.

**United States Bonds.**—Sales of Government bonds at the Board include $7,000 2s reg., 1930, at 104, $10,000 3s reg., 1908-18, at 101¼ and $12,000 4s reg., 1925, at 122. The following are the daily closing quotations; *for yearly range see third page following.*

| | Interest Periods | Feb. 29 | Mch. 2 | Mch. 3 | Mch. 4 | Mch. 5 | Mch. 6 |

*This is the price bid at the morning board; no *sale* was made.

**Railroad and Miscellaneous Stocks.**—The stock market has continued dull, although the transactions aggregated somewhat larger than last week, and fluctuations have again been narrow. The general tone of the market remained unchanged throughout the week. A show of strength was recorded by a few issues during the early hours to-day, and of a list of 25 active shares, 17 are slightly higher, 6 lower and 2 are unchanged, as against 10 higher, 10 lower and 5 unchanged last night.

St. Paul has been a notably strong feature, advancing from 8½ on Monday to 12½ to-day, on a steady demand for the shares. New York Central, Delaware & Hudson, Pennsylvania and Reading have also been relatively strong.

The copper stocks have reversed the movement noted last week and declined on rather drastic dividend reductions. American Sugar Refining, on the other hand, recorded an advance of 1½ points, and National Lead covered a range of over 5 points, closing near the highest. Air Brake is nearly 2 points up and U. S. Steel, both common and preferred, is 1½ points higher.

*For daily volume of business see page 594.*

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

| STOCKS. Week ending Mch. 6. | Sales for Week. | Range for Week. Lowest. | Range for Week. Highest. | Range since Jan. 1. Lowest. | Range since Jan. 1. Highest. |

| Western Maryland | 1,600 | 8 Mch 3 | 8½ Mch 3 | 8 Mch | 13 Jan |

**Outside Market.**—The dulness in outside securities was even more pronounced this week, as evidenced by the small volume of business and the trifling changes in prices. The mining issues absorbed what little interest appeared in the trading. Nipissing was a prominent figure, jumping from 6⅛ to 7 and to-day to 7½. The close was at 7¼. Goldfield Consolidated was active, and from 4⅞ reached 5 5-16, the final quotation to-day being 5¼. Goldfield Daisy moved up from $1 08 to $1 15, reacting finally to $1 10. Transactions in copper stocks were light, the reductions in dividends on Calumet & Hecla and Wolverine mining companies being an adverse feature. Boston Consolidated Copper moved down from 14⅞ to 14¼. British Columbia Copper sold off from 4⅜ to 4⅛ and back to 4¼. Butte Coalition dropped a point to 19¼ and ends the week at 19¾. Cumberland-Ely receded from 7¾ to 7. Davis-Daly Estates advanced from 4 to 4⅜. Douglas Copper rose from 5¼ to 6. Greene Cananea moved up from 8⅜ to 8½, and back to-day to 8. Nevada Consolidated lost half a point to 9 and Nevada-Utah fell off from 4 to 3¾. United Copper common declined from 6⅛ to 5¾. Industrials are at a standstill. Havana Commercial preferred from 45 rose to 46¾, then dropped to 44½. To-day it sold up to 48, with the close at 47⅞. Standard Oil advanced from 482½ to 488, dropped to 485 and to-day reached 490. The close was at 486½. Chicago Subway moved down from 17¼ to 16 and up to 16¾. To-day it sold at 16½. Consolidated Steamship 4s fluctuated between 10 and 9⅞.

Outside quotations will be found on page 594.

# Investment and Railroad Intelligence.

## RAILROAD GROSS EARNINGS.

**The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period.** ***The returns of the street railways are brought together separately on a subsequent page.***

| Net decrease (16.78%) | | | | 1,611,648 |

For the month of February the returns of 31 roads show as follows:

| *Month of February.* | 1908. | 1907. | *Decrease.* | % |
|---|---|---|---|---|
| | $ | $ | $ | |
| Gross earnings (31 roads) | 26,887,870 | 30,529,687 | 3,641,817 | 11.93 |

It will be seen that there is a loss on the roads reporting in the amount of $3,641,817, or 11.93%.

**Net Earnings Monthly to Latest Dates.**—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of Feb. 29 1908. The next will appear in the issue of March 28.

a Net earnings here given are after deducting taxes.
b Net earnings here given are before deducting taxes.
*c* Figures revised for previous year so as to accord with the new classification of earnings and expenses now required by the Inter-State Commerce Commission.
*d* The company now includes the earnings of the Denver Enid & Gulf RR., Pecos Valley system and Santa Fe Prescott & Phoenix Ry. in both years. For January taxes and rentals amounted to $241,764, against $193,772 in 1907; after deducting which, net for January 1908 was $1,700,095, against $2,384,721 last year. For period from July 1 to Jan. 31 taxes and rentals were $1,660,251 in 1908, against $1,349,463 in 1907.
*g* These results are in Mexican currency.
*n* These figures represent 50% of gross earnings.
*r* For January 1908 net from Coal Department was $69,298 against $128,507 last year, and from July 1 to Jan 31 was $501,761 in 1908, against $682,899 last year.

**Interest Charges and Surplus.**—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below these charges.

a Figures for the month in both years include operations of the Scranton Ry., acquired Jan. 1 1906. c These figures are for consolidated company. d These are results for main line. f No earnings for Detroit Jackson & Chicago Ry. for Jan. 1907 included in these figures. h Decrease due to strike and boycott.

**Street Railway Net Earnings.**—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month we bring together all the roads reporting, as is done to-day.

## ANNUAL REPORTS.

**Annual Reports.**—An index to annual reports of steam railroads, street railways and miscellaneous companies which have been published during the preceding month will be given on the last Saturday of each month. This index will *not* include reports in the issue of the "Chronicle" in which it is published. The latest index will be found in the issue of Feb. 29. The next will appear in that of March 28.

### Pennsylvania Railroad.

(*Report for Fiscal Year ending Dec.* 31 1907.)

President James McCrea's remarks are published in full on subsequent pages.

Below are the income accounts of all transportation companies east and west of Pittsburgh and Eire owned, operated or controlled by or affiliated in interest with the Pennsylvania system.

| | 1907. | 1906. | 1905. |
|---|---|---|---|
| Miles operated | 11,176 | 11,081 | 11 011 |
| Gross earnings | $326 785,526 | $295 898,165 | $266,069,597 |
| Expenses | 243,154,081 | 211,543 766 | 192,100,348 |
| Net earnings | $83,631 445 | $84 354,399 | $73,969,249 |
| Other income | 28,980,689 | 25,035,834 | 21,821,289 |
| Gross income | $112,612,134 | $109,390,233 | $95,790,538 |
| Int., rent., div., extraor., &c | 108,588,762 | 107,845,373 | 94,647,720 |
| Surplus | $4.023,372 | $1,544,860 | $1,142,818 |

*TRAFFIC ON ALL LINES BOTH EAST AND WEST OF PITTSBURGH AND ERIE.*

| | 1907. | 1906. | 1905. |
|---|---|---|---|
| Passengers carried | 153,047,046 | 140 513,364 | 126 084,223 |
| Passengers carried 1 mile | 3,826,141,991 | 3,475 646,270 | 3,075,402,826 |
| Freight (tons) carried | 435,064,136 | 363,955,827 | 333,011,237 |
| Freight (tons) carried 1 mile | 37,674,511,903 | 32,918,720 685 | 29,502 147 362 |

Below are given the results on the lines east of Pittsburgh and Erie, comprising the Pennsylvania Railroad Division, the United Railroads of New Jersey Division (excluding the Delaware & Raritan Canal), the Philadelphia & Erie Division and Buffalo & Allegheny Valley Division:

*TRAFFIC ON LINES EAST OF PITTSBURGH AND ERIE.*

| | 1907. | 1906. | 1905. |
|---|---|---|---|
| Miles op., excl. D. & R. Canal | 3,858 | 3,820 | 3,764 |
| Passengers carried | 67,356 833 | 62,108,708 | 55,781,809 |
| Passengers carried 1 mile | 1,629,769,525 | 1,493 393,002 | 1,305,299,112 |
| Rate per passenger per mile | 1.918 cts. | 2.014 cts. | 2.014 cts. |
| Tons carried | b224,227,074 | 172,371,063 | 157,003,767 |
| Tons carried 1 mile | 21,482,507,314 | 18,488,402,534 | 16,896,171,154 |
| Rate per ton per mile | 0.577 cts. | 0.595 cts. | 0.593 cts. |
| Earns. per pass. train mile.a | $1.516 | $1.518 | $1.427 |

### Twin City Rapid Transit Co. (of New Jersey).

**Minneapolis, St. Paul, Stillwater, Lake Minnetonka, Minnesota.**

(*Report for Fiscal Year ending Dec.* 31 1907.)

President Lowry, Minneapolis, Jan. 17 1908, says:

*General Results.*—A comparison with 1906 shows the handsome increase in gross passenger earnings of $428,462. But for the financial crisis in the last quarter of the year, the increase would probably have aggregated $500,000. Operating expenses, for the reasons hereinafter mentioned, increased $305,056. Net earnings thus show an increase of $105,698.

As there were substantial increases in the amounts paid for taxes ($46,417), bond interest ($39,326) and common stock dividends ($52,500), the surplus, after providing for these, shows a decrease of $32,544. The

amount appropriated for renewal funds is $24,000 in excess of last year, due to the increased investment.

The car service has been considerably improved, the car mileage being increased 2,513,089 miles. The rates of wages paid to all employees have also been increased. The company is fortunate in having its relations to its employees and also to the traveling public on a most satisfactory basis.

*Renewal Fund.*—From the surplus earnings of the past year, $506,000 has been appropriated to the renewal fund. In addition, $17,500 interest has accrued on its investment. The renewals made during the year amounted to $258,029. These were charged to the fund, which thus stands at $855,920. The full amount, excepting $420 cash, is now invested in our 5% bonds by the purchase during this year at par of 492 bonds of $1,000 each.

*New Construction.*—New construction work was done to the amount of $1,657,154, distributed as follows:

| | |
|---|---|
| Additions to power plant ($232,776); buildings and fixtures ($21,896) | $254,672 |
| New shops at Midway ($340,948); car equipment ($353,136) | 694,084 |
| Track (Minneapolis, $91,313; St. Paul, $80,172; suburban, $76,492) | 247,977 |
| Selby tunnel | 265,607 |
| Big Island Park, Tonka Bay Hotel and steamboats | 194,814 |

*Insurance.*—The policy of building up an insurance fund was continued, $19,671 being added thereto. The fund now amounts to $84,743. Of this sum, $82,000 is invested in our 5% bonds held in trust for the fund by the Central Trust Co. of New York.

*Reserve Fund.*—In the past year a reserve fund for contingencies was set up by appropriating $250,000 from the surplus, to meet extraordinary outlays, such as discounts on bonds and legal expenses. On these accounts, $108,145 were expended during the year.

*Controversy.*—During the past year a controversy arose between the city of Minneapolis and the Minneapolis Street Ry. Co. as to the validity of an ordinance passed by the City Council requiring the Street Railway to sell six tickets for 25 cents The company brought an action in the United States Circuit Court to restrain the putting in effect of the ordinance and to have the same declared void. This case was tried before Hon. William A. Lochren, one of the Judges of said Court, who found in favor of the company upon every proposition and declared the ordinance illegal and void. The city has appealed to the Supreme Court of the United States from such judgment, but we are advised by our counsel that they have the utmost confidence that the judgment will be affirmed by the Supreme Court. (Compare V. 85, p. 532.—Ed.).

*Bonds.*—There were issued and sold to the public $800,000 consolidated 5% bonds due 1928. There were also issued and purchased by the company for the renewal and reserve funds $574,000, thus making a total issue during the year of $1,374,000. Of the 7% bonds of the Minneapolis Street Railway Co. $20,000 were redeemed on May 1 1907 and an equal amount of first consols may be issued in place of them.

*Dividends.*—During 1907 there have been paid four dividends of 1¼% each on the preferred stock and four dividends of 1¼% each on the common stock, amounting in all to $1,215,000.

*a* In 1906 figures $50,000 are added to item of injuries and damages as appearing in report of that year to cover estimated amount of deficiency in reserve in consequence of awards in court deicsions proving higher than anticipated, the surplus of the year being therefore reduced by that amount.

*b* In the report of 1905 this item appeared as $240,000 and the surplus as $257,933; but after it was published the directors appropriated an additional $100,000 for renewals out of the surplus, as stated in the report of the Pres.

*z* The 1904 accounts were rearranged in 1905, the renewal funds being withdrawn from various items in operating expenses and assembled in one item and the tax account adjusted, $4,808 underestimated.

## Dominion Coal Company.

(*Report for Fiscal Year ending Dec.* 31 1907.)

The report of President James Ross, accompanied by a statement of the results for the late calendar year and the comparative balance sheets of Dec. 31 1907 and 1906, will be found at length on subsequent pages of this issue of the "Chronicle."—V. 86, p. 172.

## American Woolen Company.

(*Report for Fiscal Year ending Dec.* 31 1907.)

President Wm. M. Wood says in substance:

The year 1907 began even more encouragingly than any previous year in the history of the company, and he outlook continued bright throughout the first quarter of the year, when the company's production was abreast of that of any previous quarter, while the sales were far in excess. Beginning with the second quarter, and continuing until September, there was a great scarcity of help. The mills were closed for two weeks in August to permit of a vacation.

The woolen mills as distinct from the worsted mills, suffered much throughout the year, the demand being for worsted rather than for woolen goods. With this exception, the mills were under full headway, with ample orders upon the books, when we were overtaken in the autumn by the financial panic. Many merchants who had orders upon our books declined to accept goods, and there were many others whose lines of credit were extended as far as the limits of safety allowed. To avoid the accumulation of goods and the further extension of credits, the company began a curtailment of its production which in the maximum amounted to 68%. This curtailment extended throughout the balance of the year, and up to the time of this annual meeting the company is pursuing the same policy. This, together with the fact that the inventories of the stock, raw, wrought and in process, and of supplies, were appraised at market value and are below cost, and the elimination from the accounts receivable of all those of a bad and doubtful nature, is reflected in the lower statement of earnings which the report shows.

The betterments upon the thirty plants amounted to $1,087,489. The directors thought it wise to purchase land and erect new tenement houses, principally at Lawrence, and have expended $179,161 to this end.

*New Stock.*—The $10,000,000 new preferred stock authorized at a special meeting in November 1906 has all been paid in cash. The preferred capital stock stands at $35,000 000, the common remaining as heretofore

*Wood Worsted Mills.*—Your directors have subscribed $2,500,000 to the capital stock of the Wood Worsted Mills, making the total capital stock of the Wood Worsted Mills $3,500,000, every share of which has been subscribed and paid for and is owned by your company, excepting one share to each director, as required by law. Ninety-five per cent of the machinery of the Wood Worsted Mills has been installed, and the concern is now equipped for business. The mill enjoys an excellent reputation in the trade, and its fabrics are sought for with the same appreciative distinction as is shown the longer established mills of the company. It is very gratifying to note that this mill has proved eminently successful.

*Shareholders.*—The number of shareholders has increased during the year 45% over that of a year ago.

*Outlook.*—The outlook for this year, while far from encouraging now, still leads us to hope that before the year closes we shall have done a fair volume of business, and we have no apprehension concerning the uninterrupted payment of the dividends on the preferred shares.

## Lackawanna Steel Company (and Subsidiary Companies).

(*Report for Fiscal Year ending Dec.* 31 1907.)

President E. A. S. Clarke, under date of West Seneca, Erie County, New York, Feb. 13 1908, says in substance:

*Status.*—It is with no small satisfaction that the directors report your company as being, in the period of acute depression marking the close of the year, in strong financial and physical condition. The first nine months of 1907 gave opportunity for operating all of your various properties to their full extent, but the last quarter saw them entirely closed down or operating on a greatly reduced basis.

*New Plants.*—The additional blast furnace at Buffalo mentioned in last year's report was completed and put in blast on Feb. 13 1907; it has since produced 156,305 gross tons of pig iron. Mill No. 8, which produces small billets and sheet bars, was completed and put in operation during October.

*Ellsworth Collieries Co.*—The Ellsworth Collieries Co., the entire capital stock of which is owned by your company, was organized (V. 84, p. 510, 393) to acquire the properties of the Ellsworth Coal Co., mention of which was made in last year's report. Considerable construction and improvement work, started by the previous owners, has been completed, and the property is now in satisfactory condition. The quality of the coal and coke produced has been eminently satisfactory. There was mined during the year 1,278,122 gross tons of coal, of which 299,401 gross tons were used in the production at Ellsworth of 162,158 gross tons of coke. The output of coal was less than expected, owing to a fire which resulted in closing collieries 3 and 4 for 3½ months; but without serious damage to the property.

*Production.*—Your company received during 1907 from mines which it owns or in which it is interested 1,941,376 gross tons of iron ore and produced a total of 788,784 gross tons of coke and 1,008,588 gross tons of pig iron and spiegeleisen. It also produced 852,055 gross tons of Bessemer ingots and 425,789 gross tons of open-hearth ingots, making a total of 1,277,844 tons of steel ingots.

*Shipments of Product, in Gross Tons.*

| | 1907. | 1906. | | 1907. | 1906. |
|---|---|---|---|---|---|
| Standard rails | 523,200 | 556,955 | Plates | 113,969 | 95,244 |
| Light rails | 48,777 | 47,868 | Merchant steel prod | 61.343 | 52,401 |
| Angle bars, fitt'gs, &c. | 33,510 | 43,639 | Slabs, billets & blooms | *61,157 | 17,078 |
| Structural shapes | 141,455 | 121,407 | Pig iron & miscel | 8,289 | 34,655 |
| Total | | | | 991,700 | 969,047 |

*Including 3,502 tons sheet bars and small billets.

As the total shipments for the last two months of 1907 amounted to only a little over 60,000 tons (barely two-thirds of one normal month's shipments), it will be seen that the increase in rate of production is very substantial.

*Orders.*—Orders on the books at the close of 1907 amounted to 203,741 gross tons, a decrease of 71.2% from the corresponding figure for 1906. Delivery on these orders has been largely suspended, pending improved financial conditions. The low-priced contracts mentioned in last year's report as having affected the earnings of the year 1906 have been, substantially, worked out; and the prices received during 1907 represent fairly the market conditions of that year.

*Steamship Line.*—During 1907 the Seneca Transportation Co. delivered by its vessels, over the Great Lakes, 135,444 tons of your company's products.

*Sale of Notes.*—On March 1 1907 your company issued and sold $5,000,000 of two-year 5% secured gold notes (compare V. 84, p. 394; V. 85, p. 349), from the proceeds of which $2,000,000 was used to pay floating debt, $1,500,000 for payment on account of purchase of the Ellsworth properties, and the balance in new construction at your Buffalo plant.

*General Results.*—The net surplus of income for the year, after all deductions, is practically 7% on the total capital stock, while the total surplus is over 13%. However, the earnings of the last quarter were, substantially, only sufficient to take care of interest and depreciation charges. Had your company been able to operate to full capacity during the last quarter, the income would have been materially greater.

It has seemed wise to the directors, owing to general financial and trade conditions, not to consider the declaration of any dividend on your stock, although the earnings would otherwise have warranted it.

*Accretions to Physical Property.*—No deduction has been made from income of 1907 for reduction of expenses during organization period. Since the company was formed there have been valuable accretions to its physical property which are not represented on its books, its property accounts as they now stand representing only the actual cost of the tangible properties acquired or constructed. The directors intend during 1908 to have a reasonable valuation placed on these accretions and to apply the credit so arising towards the extinguishment of organization expenses, discounts and commission on bonds, &c., now carried on the books; and to adopt a definite plan for disposing of the balance, if any, which may then remain in those accounts.

*RESULTS FOR YEAR ENDING DEC. 31.*

## Guggenheim Exploration Company.

*(Report for Fiscal Year ending Dec. 31 1907.)*

President Daniel Guggenheim under date of Dec. 31 says:

We believe the stockholders have every reason to feel gratified with this statement, considering that none of the properties came into the with the exception of Esperanza Limited, has been drawn a dividend bearing basis up to the present time. Now, however, in the opinion of our engineers, the development and equipment of the Utah Copper Co., Nevada Consolidated Copper Co., Cumberland-Ely Copper Co. and Yukon Gold Co. have progressed so far as to assure the earning of dividends during the year 1908.

The company on Jan. 2 1908 paid its 20th consecutive quarterly dividend of 2½%, the rate since and including Jan. 2 1907 being 10% yearly, and previously 7% per annum. Compare V. 85, p. 1521.

## Kings County Electric Light & Power Co., Brooklyn, N. Y.

*(Report for Fiscal Year ending Dec. 31 1907.)*

The report, signed by President A. N. Brady and W. W. Freeman, as Secretary of the board, says under date of Feb. 24:

The results of the year's operations and the condition of the company at the end of the year 1907 are presented herewith. As the entire capital stock of the Edison Electric Illuminating Co. of Brooklyn is owned by this company, the two companies are treated as one in reporting the results, thereby eliminating the corresponding cross entries that would appear in separate statements.

*General Results.*—The gross earnings have increased $574,468, or 19.8% over 1906, whereas the net earnings over operating expenses have increased 21.6%, and in amount, $299,759. This increase has been sufficient to meet dividends at the usual rate of 8% on the new stock issued early in the year and also to provide a substantial increase in depreciation charges.

At the beginning of the year the directors adopted the policy of charging to expenses a sum equal to one-half cent per kilowatt hour of current sold in each month for depreciation and replacements not provided for by repairs made and charged regularly to operating expenses. The aggregate sum so charged into expenses during the past year is $242,932 and the net credit to this fund at the end of the year, after deducting previous replacements, is $294,760.

The directors have also adopted the policy of charging off the discounts on bonds sold in prior years at less than par. This item, amounting to $775,000, was originally included in property account; $150,000 has been charged off in the past three years and the balance will be reduced regularly.

*Property and Franchises.*—The property account is presented at fair valuations, verified during the past year by disinterested experts. All the property is in first-class condition. The property includes two large and modern generating plants on valuable water-front land and ten sub-station plants on ground owned by the company; also seven sub-station equipments in buildings provided by large wholesale customers for more local requirements. The company has 1,338 miles of overhead circuits and 518 miles of underground circuits, all in conduits owned by it exclusively.

The franchises have not been capitalized. They are all perpetual and are valued by the State Tax Commission for purposes of taxation for the year 1907 at $10,100,000.

The item "license under Edison patents" represents the price paid originally by the Edison Company, in stock and bonds, for the exclusive right in Brooklyn to the use of the name and patents of the Edison Electric Light Co., since succeeded by the General Electric Co., and for valuable reciprocal trade arrangements as an Edison licensee company, which are in full effect to-day and return to the company regularly a large percentage on the investment involved.

*Insurance.*—The insurance investment fund represents the company's interest in the accumulation, aggregating more than $1,000,000, of an insurance fund under an arrangement whereby the company, in co-operation with other similar large companies, has been carrying its fire insurance for four years past at a substantial saving.

*Favorable Outcome of Dispute with City.*—The accounts receivable include $707,088 due by the city of New York for public lighting, which sum is less than the amount owed a year ago by $1,274,871. The difference represents payments made on account of the company's claims prior to Feb. 1906, which were contested by the city. For one year of the period in question the company's claims have been sustained in full, with interest, by the courts, and as a result a settlement of the entire matter has been effected within the past week which will promptly convert the full amount outstanding on the books into a cash asset. The company's charges for public lighting furnished since the date above mentioned have been paid regularly, and a renewal contract for the year 1908 has been promised within the present month.

*New Stock.*—The last issue of stock, on March 1 1907, enabled the company to liquidate its floating debt, and has provided for all capital expenditures to date. The company has therefore no floating debt, and the funds in hand and in sight will, in the opinion of the directors, provide fo such capital expenditures as are anticipated during the coming year, without the necessity of further financing or the issuance of obligations of any sort.

*Public Service Commission.*—The company's relations with the Commission have been cordial; there has been no criticism by the Commission of any of our policies or business methods.

*COMPARATIVE COMBINED EARNINGS YEARS 1907 AND 1906.*

## American Grass Twine Company.

*(Report for Fiscal Year ending Dec. 31 1907.)*

President J. M. Robinson says:

Although a general depression of business prevailed during the last three months of 1907, the sales made in that year show a substantial increase over those of 1906. The advertising which was done has produced satisfactory results, and a marked and steady growth of the popularity of our goods is reflected by the increased demand. The net profit for the year over all expenses was $141,377.

Our floating debt, amounting to $115,679, has been paid.

The first two months of 1908 show an increase over the corresponding months of 1907, which, considering business conditions, should be gratifying to the stockholders.

*BALANCE SHEET DECEMBER 31.*

## Union Gas & Electric Co., Cincinnati, O.

*(Report for 16 Months ending Dec. 31 1907.)*

President Norman G. Kenan, under date of 149 Broadway, New York, Feb. 10 1908, says in substance:

A brief summary of the operations of this company for the *first sixteen months* ending Dec. 31 1907 follows:

| | |
|---|---|
| Earnings after paying all charges as per terms of lease | $481,697 |
| 6% dividends paid on $5,000,000 of preferred stock for 16 months | 400,000 |
| Surplus earnings | $81,697 |

The company has carried on a much more extended campaign than had previously been considered and the full benefits from this work have not as yet been realized. However, the work has already resulted in a large increase in business.

*Additions During the 16 Months ending Dec. 31 1907 (With Increase as Compared with Previous Corresponding Period).*

14,984 gas meters, increase 22.05%. | 825 elec. motors, increase 24.56%.
3,069 electric meters, incr. 27.10%. | 3,459 motor h. p., increase 17.69%.
11,606 gas ranges, increase 51.08%. |

I feel that the future will show even greatly increased benefits and that the opportunities for additional output of both gas and electricity are very great.

The company has expended nearly $1,500,000 for extensions and betterment and now has a plant which is thoroughly up to date and in condition to supply the present and the needs of the near future. This expenditure covers the following principal items: Purchase of the Ohio Fuel Supply Co.'s plants, works and franchises (in Hamilton County); a 33 1-3% enlargement of the electric generating station; the purchase of a very desirable site for an additional electric generating station; a material extension of both gas and electric distributing systems, including the completion of the high-pressure gas distributing system with necessary regulating valves, &c.; also gas and electric meters and service connections for new consumers secured. We have shut down many plants using other forms of light, fuel and power and superseded them with service from our plants, including 16 gasoline plants, 44 steam power plants, 34 isolating lighting plants and 37 hydraulic elevators changed to electric.

We are to-day supplying about one-third of our customers with natural gas, the basis price being about 30 cents per thousand. The basis price of the artificial gas was approximately 67½ cents per thousand. Our output of natural gas is increasing each month and we expect within the next year to find that the net results to the company will be greater supplying natural gas than has been the case in supplying artificial gas.

The results seem gratifying, and even extraordinary, considering the following unprecedented difficulties: (1) Increased prices for materials, while our ordinance prevented our charging more for gas and electricity; (2) two disastrous floods, something heretofore unknown in Cincinnati, which materially reduced the earnings; (3) wages have increased about 25%, efficiency decreased and hours of labor decreased from 12 to 8 hours; (4) developing the market for natural gas has been temporarily a material drawback to the company's earnings.

No further difficulties are now apparent, and it is improbable that the company will again be confronted with such a large number of unusual conditions which have contributed as an obstacle to its earning power; and the condition of the property is such that no large or unusual expenditures will be necessary in the immediate future. I confidently predict that our expectations as originally considered will be fully realized.

[The company's authorized capital stock is $10,000,000, of which one-half is 6% cumulative preferred; amounts outstanding $5,000,000 preferred and (?) common (V. 82, p. 1274; V. 83, p. 277, 577, 912, 1234, 1360; V. 85, p. 473). Control of the company is held by the Columbia Gas & Electric Co. (organized in 1906 as the Columbia Corporation; V. 83, p. 1231; V. 84, p. 452), which also controls the People's Gas Light Co. and the Cleveland Gas Light & Coke Co., both of Cleveland. The Columbia Corporation is capitalized as follows: Authorized amount common stock, $50,000,000 (no preferred); first mortgage (and collateral trust) 5% bonds, $75,000,000. Outstanding amounts stock, entire $50,000,000; first mortgage 5% bonds (?). Compare V. 84, p. 452, 696, 1055, 1184, 1489; V. 85, p. 1404, 1521.—Ed.]—V. 85, p. 473.

# GENERAL INVESTMENT NEWS.

## RAILROADS, INCLUDING STREET ROADS.

**Alabama New Orleans Texas & Pacific Junction Railways Co., Ltd.**—*Earnings—First Dividend on "A" Preferred Shares.*—This English company reports as follows:

| *Cal. Year* | *Total Income.* | *Gen. Exp. & Tax.* | *Interest.* | *Deben. Sk. Fd.* | *S.F. to Ext Deb. Disc.* | *Pref. Div. (3½%)* | *Balance, Sur. or def.* |
|---|---|---|---|---|---|---|---|
| 1907 | £189,947 | £11,192 | £123,875 | £6,500 | | £49,875 | def. £1,795 |
| 1906 | 172,687 | 12,166 | 123,875 | 6,500 | | | sur. 30,146 |

Adding the surplus (£7,618) carried forward from 1906, the total surplus Dec. 31 1907 was £5,823. The increase in income here shown is due in part to the receipt of 6% (instead of 5%) on the stock held in New Orleans & North Eastern.

These results, which are based chiefly on the income derived from investments in the Queen and Crescent lines for the year ending June 30 1907 has permitted the company to pay a first dividend of 3½% on its £1,500,000 "A" pref. stock, which, less tax, called for £49,875.—V. 81, p. 1314.

**Anderson (S. C.) Traction Co.**—*Receivership.*—Judge Klugh, at Abbeville, S. C., on March 4 appointed Edwin W. Robertson of Columbia and Robert E. Ligon of Anderson as receivers of the property on application made by the Anderson Machine & Foundry Co.

Mr. Ligon succeeded Mr. Robertson as President six weeks ago. The company operates 18 miles of track. The total indebtedness is stated as about $200 000 including $163,000 secured by mortgage.—V. 84, p. 929.

**Bald Eagle Valley RR.**—*Sale Approved.*—The shareholders on Feb. 29 voted to accept the proposition of the Pennsylvania RR. Co. to purchase the franchises, property, rights and credits. Compare V. 85, p. 721; V. 86, p. 419.

**Baltimore & Ohio RR.**—*Acquisition—New Collateral Note Issue.*—The company has acquired nearly all of the minority stock of the Cleveland Lorain & Wheeling Railway Co., amounting to about 25% of the total $13,000,000, and in this connection has authorized an issue of $3,000,000 5% one-year notes, dated March 2 1908 and due March 2 1909, secured by deposit of stock of the C. L. & W., common and preferred, with the New York Trust Co. as trustee. Denomination $5,000 only. Interest payable September and March. The shareholders, it is stated, were offered cash or notes on a basis not made public. Charles D. Barney & Co., New York and Philadelphia, have placed at 99¼, yielding the investor 5¾%, the portion of the notes not issued in exchange.

*Increase in Passenger Rates.*—The company has given notice of an increase of passenger rates in Pennsylvania on March 15 to 2½ cents a mile.—V. 86, p. 479.

**Boston & Worcester Electric Companies.**—*New President* —See Boston & Worcester Street Ry. below.—V. 85, p. 1458.

**Boston & Worcester Street Ry.**—*New President.*—On Feb. 29 William M. Butler of Boston was elected President of this company to fill the vacancy caused by the resignation of James F. Shaw. Arthur E. Childs of Boston succeeded Mr. Shaw as President of the Boston & Electric Companies.

Mr. Shaw was head of the street railway building firm of James F. Shaw & Co., which on March 2 was placed in the hands of Arthur D. Hill of Boston as receiver, owing to inability to take care of its $700,976 outstanding notes.—V. 85, p. 1338.

**Camden (W. Va.) Inter-State Ry.**—*New Name, &c.*—The shareholders voted Feb. 14 to change the name of the company to the Ohio Valley Traction Co.; also to issue $400,000 of preferred stock which, it is rumored, will be used to acquire the Kanawha Valley Traction Co. of Charleston, W. Va. The common stock of the Ohio Valley Traction Co. is $2,000,000. W. C. Sproul of Chester, Pa., is President of both corporations.—V. 83, p. 491.

**Camden & Trenton Ry.**—*Notice to First Mortgage Bondholders.*—A committee has been organized in Philadelphia, consisting of Edward Powell, J. P. Eldridge, Robert Pearsall, Clarence L. Harper and Talcott Williams, to protect the first mortgage bonds, and urges the deposit of these bonds with the Union Trust Co., 715 Chestnut St., Philadelphia, at once, but not later than April 1.

Although default occurred Nov. 1 1907 in the payment of interest on the first mortgage bonds, the court appointed as sole receiver the nominee of the general creditors on the ground that the first mortgage bonds are abundantly secured. In view of these occurrences the committee, by circular dated Feb. 26, urges united action under a bondholders' agreement dated Feb. 20 1908. By this agreement the committee is authorized (1) at its discretion to foreclose the mortgage and by in the property; (2) to sell the bonds subject to the right of dissatisfied depositors to withdraw their holdings within 15 days and (3) to prepare a plan of reorganization which shall be effective in case a majority of the deposited bonds remain on deposit after 15 days' notice. The expenses of the committee, for which the depositors shall be liable, must not exceed 1% of the amount of the deposited bonds unless special authority therefor is obtained at a bondholders' meeting.—V. 86, p. 479, 228.

**Canadian Pacific Ry.**—*New Secretary.*—Walter R. Baker has been appointed Secretary, and also junior assistant to the President, with office at Montreal, Que., effective March 1 1908, to succeed Charles Drinkwater, who asked to be relieved from some of his duties. Mr. Drinkwater will hereafter act as senior assistant to the President, having charge of legislative, &c., matters.

*New Stock Nearly Half Paid for.*—We have confirmed the statement that of the subscriptions for the $24,366,000, nearly one-half have been paid in full.—V. 86, p. 545, 51.

**Chicago Great Western Ry.**—*Debenture Stock Deposits.*—The committee, William A. Read, Chairman, representing the 4% debenture stock gives notice that said stock must be deposited with Bankers' Trust Co. before the close of business on March 17 1908, after which date no stock will be received except upon such terms as the committee may determine.

*Official Statement.*—At the annual meeting held in London on Wednesday, President Stickney stated that it was too early to discuss the details of the financial plan, but intimated that it might be advisable to call an assessment upon the junior stock. The loss in earnings he attributes in part to the "intense consideration by employees of their rights to the exclusion of their duties." In his letter to the security holders, he adds:

It is my conviction that but for the strike gross earnings during the last half-year would have been practically as large as during the corresponding six months of the preceding year. During four months of the strike the average decrease was 15.5%. From the present other [illegible] in February will be little or nothing. In six months [illegible] December 1907 gross earnings decreased almost 12%, while ratio of expenses to earnings increased 12.57%.—V. 86, p. 336, 228.

**Chicago Milwaukee & Gary RR.**—*Merger.*—This company was incorporated at Springfield, Ill., on March 5 with $10,000,000 authorized capital stock, to merge the following lines, in which W. H. Seaman of Chicago is interested, including the Illinois Iowa & Minn., the Milwaukee Rockford & Eastern and the Illinois Indiana & Gary. See statement on page 42 and map on page 75 of "Railway and Industrial" Section.

President Seaman is quoted as saying:

The new company will include all the subsidiary companies of the Illinois Iowa & Minnesota. It is our intention to extend the present trackage north from Rockford, Ill., to Milwaukee by way of Beloit and Janesville Wis., and on the south from Momence, Ill., to Gary, Ind. The present operated lines extend from Rockford to Momence, passing through Dekalb, Aurora and Joliet. The extensions when completed will make the road one of the most comprehensive belt lines in the country.

**Chicago Railways.**—*Additional Block of First Mortgage 5s Offered.*—The National City Bank and N. W. Harris & Co., both of New York, referring to their recent sale of $2,500,000 first mortgage bonds, which were largely over-subscribed on the day of offering, advertise on another page of this issue, at 95½ and interest, yielding the investor 5⅜% per annum, temporary certificates representing $2,500,000 additional first mortgage bonds, the proceeds of which will be used to enable the company to make immediate further extensions and additions. See full details in official statement, V. 86, p. 545.

**Chicago Rock Island & Pacific Ry.**—*Extension of 4½% Notes at 6%.*—The company notifies holders of its $6,000,000 "2-year 4½% collateral trust gold notes" due April 1 1908 that it has arranged with Speyer & Co. for the extension of these notes for one year with interest at the rate of 6%, subject to redemption at the option of the company on 60 days' notice. (See description of notes below.)

Holders who desire to extend their notes must present them, ex the April 1 coupon, at the office of Speyer & Co., on or before March 23. A cash payment of $5 on each $1,000 note extended will be made to the holders availing themselves of this offer. Holders who do not desire to extend will receive par for their notes on April 1.

*Offering of Aforesaid 6% Notes.*—Speyer & Co. are offering at 99½ and interest, yielding 6½% per annum, the aforesaid 1-year 6% collateral trust coupon gold notes, total issue $6,000,000, maturing April 1 1909, but redeemable at option of the company at par and interest at any time on 60 days' notice. Denomination $1,000. Interest payable April 1 and Oct. 1 in New York. Central Trust Co. of New York, trustee. A circular says in substance:

These notes, which were originally issued in 1906 as "2-year 4½% notes," will be extended for one year, viz., until April 1 1909, at 6%, and will be secured under an extension agreement by the deposit with the trustee of $9,000,000 Rock Island Arkansas & Louisiana RR. Co. first mortgage 50-year 4% gold bonds, being the entire amount outstanding, and a first lien at $30,000 per mile on 308 miles of road and equipment. These notes are a legal investment for insurance companies in New York.

See advertisement on a preceding page.—V. 86, p. 420.

**Cleveland Electric Ry.**—*Meeting April 6 to Authorize Merger, Agreement with City and New Stock.*—A special dispatch to the "New York News Bureau" states that a special meeting of the stockholders has been called for April 6 for the purpose of considering:

(1) The surrender of all or some of the existing franchises of the company and the acceptance of a new or renewal franchise from the City of Cleveland; (2) the sale or lease of all the property and franchises of the company; (3) the adoption of an agreement between the Cleveland Electric Ry. Co. and the Forest City Ry. Co. for their consolidation; (4) the lease or purchase by the Cleveland Electric Ry. Co. of all the property and franchises of the Low-Fare Ry. Co. and the Forest City Ry. Co., or either of them, and (5) the increase of the capital stock of the company to such an amount as the stockholders shall determine.

See editorial in "Electric Railway" Section of Feb. 29 1908.—V. 85, p. 1461, 1269.

**Cleveland Lorain & Wheeling Ry.**—*Purchase of Minority Interest by Baltimore & Ohio RR.*—See that company above.—V. 86, p. 284.

**Detroit Toledo & Ironton Ry.**—*Coupon Paid.*—Coupons due March 1 1908 on the $4,495,000 Detroit Southern RR. (Ohio Southern Division) first mortgage bonds were paid March 2d at the Windsor Trust Co., 65 Cedar St., New York.

*Additional Committee for 5% Collateral Trust Notes.*—The following new committee (compare V. 86, p. 546) has been organized to represent holders of 5% collateral trust notes:

E. Rollins Morse, New York, Chairman; F. Lothrop Ames, Charles F. Ayer, Boston; P. G. Gossler, George W. Young and Henry A. Murray, New York City; C. D. Warren, Toronto, Canada. John F. Timmons, Secretary, 65 Cedar Street, New York; Wallace, Butler & Brown, 54 Wall Street, New York; and Thomas H. Tracy, Toledo, Counsel.

This committee, under date of March 2, makes by advertisement on another page the following announcement, calling for deposits at the Windsor Trust Co.:

The undersigned, at the request of the holders of a large amount of the collateral trust notes, have consented to serve as a committee, and will aid in the formation of plans intended to develop traffic for the two railroads in which the note-holders are interested, and also co-operate in the development of coal and timber lands in which some of the members of the committee are interested, the development of which will immediately give added tonnage to these roads. This proposed development will add greatly to the value of the notes.

You are therefore requested to co-operate by depositing your notes with the depositary, or by signing and depositing with the depositary an agreement authorizing the committee to act in your behalf. Forms of such agreement may be had upon application to the depositary, the Windsor Trust Co. No. 65 Cedar Street, New York City. Depositors may withdraw without expense of any kind in case they dissent from any plan proposed by the committee.

*Suit.*—Horton C. Rorick, of Spitzer & Co., bankers, of Toledo, has begun suit in the Michigan State courts to obtain an accounting for the benefit of the Det. Tol. & Ironton of the profits, alleged to be $1,281,500, of the syndicate which sold the Ann Arbor stock to the Det. Tol. & Ironton.

The plaintiff objects to the recognition by the last-named road of the $1,208,000 collateral trust notes pledged to secure the $820,000 loan recently taken over from the United States Mortgage & Trust Co. by H. B. Hollins & Co., except as an offset against the claim for the return of the said profits to the Det. Tol. & Ironton. Hollins & Co., it is said, had no interest either in the purchase of the Ann Arbor stock or the syndicate which handled the notes issued in payment.

*Status of Security Holders—Receivers' Certificates Not a First Lien.*—F. J. Lisman & Co., 30 Broad Street, New York, write to the "Chronicle" as follows:

As there seems to be considerable misunderstanding on the part of the security-holders as to the status of the property, we wish to call attention to the fact that the road was put into the hands of receivers under a default upon its consolidated mortgage, which is really a third lien on the property. The two prior liens are the Detroit Southern, Ohio Southern Division, mortgage, which is a lien on the middle part of the line, and the Detroit Toledo & Ironton "divisional and general lien" 4s, which are a first lien on the two terminal sections, that is, on the line from Ironton north for about 30 miles and from Detroit to Lima, Ohio, a distance of 125 miles.

The interest on the Ohio Southern Division bonds due on March 1st, and has been promptly paid, and the interest on the "divisional general lien" 4s due June 1, we have every reason to believe will also be promptly met. The reason for this is that the court has recently authorized an issue of ($300,000 6%) receivers' certificates, which are a lien with mortgage rights, but junior to the two issues above mentioned. These receivers' certificates were taken by parties largely interested on the consolidated 4½s, who were in fear that in case there was a default on either of the two prior lien issues their equity might be wiped out.

The order of court authorizing these certificates and the actions of these interests in taking them establishes the precedent that the interest on the bond issues must be promptly met and naturally that they cannot be disturbed or impaired in any way in the reorganization which will take place sooner or later.—V. 86, p. 546, 480.

**Easton (Pa.) Consolidated Electric Co.**—*Report.*—

| *Cal. year.* | *Gross earn. E.Tran* | *Net inc. E. Tr.Co.* | *Net inc. Ed.Ill.Co.* | *Total E.Con.El.* | *Oper. Exp.* | *Int. & Taxes.* | *Bal. for Div.* |
|---|---|---|---|---|---|---|---|
| 1907 | $350,168 | $77,727 | $26,270 | $103,997 | $8,229 | $59,525 | $36,242 |
| 1906 | 326,693 | 82,843 | 27,417 | 109,760 | 3,299 | 48,500 | 57,961 |

Dividends paid in 1907 $37,500 (5%), against $18,750 (2½%), leaving a deficit of $1,258 in 1907, against surplus of $39,211 in 1906.—V. 85, p. 1518.

**Erie RR.**—*Right to Issue Scrip Dividends Denied.*—The Public Service Commission (Second District) on March 1 denied the application of the company for authority to issue scrip due in 1917 for the 2% declared payable in Oct. 1907 on the first preferred stock and the 2% payable on the second preferred stock to holders of record Oct. 10 1907 and 2% to holders on April 10 1908. Compare V. 85, p. 530, 1338; V. 86, p. 480.

The opinion of Chairman Stevens, given at length in the "New York Tribune" and "Sun" states that in order to authorize the issue of stock, bonds or other evidence of indebtedness payable more than 12 months after the date thereof, pursuant to Section 55 of the Public Service Commissions Law, 3 conditions must be complied with:

(1) Capital must be secure by the issue. (2) The use of such capital must be necessary for one or more of the 4 purposes specified in Section 55, viz.: (*a*) acquisition of property; (*b*) construction, completion, extension or improvement of facilities; (*c*) improvement or maintenance of service; (*d*) discharge or refunding of obligations. (3) The amount authorized must be reasonably required for such purpose or purposes.

It is further held that dividends, under Section 23 of the stock corporations law, can be declared only from surplus profits, which belong to the corporation and not to the stockholders, until a dividend is declared, and that by the declaration of a dividend payable at a future time in warrants no capital is secured.—V. 86, p. 546, 480.

**Franklin & Megantic Ry.**—*Consolidation.*—See Sandy River & Rangeley Lakes RR. below.—V. 65, p. 1071.

**Grand Trunk Ry.**—*Earnings.*—For half-year (approximate in 1907):

| *Half-Year to Dec. 31—* | 1907. £ | 1906. £ | | 1907. £ | 1906. £ |
|---|---|---|---|---|---|
| Gross receipts | 3,763,200 | 3,584,847 | Bal. for half-year | 527,200 | 523,465 |
| Operating exp. | 2,710,900 | 2,561,497 | Brought in | 14,600 | 16,077 |
| Net receipts | 1,052,300 | 1,023,350 | Divisible bal. | 541,800 | 539,542 |

| Balance | 581,800 | 542,153 | 1st pref. div. | 85,400 | 85,420 |
| G.H.& Mil. sur. | 5,800 | 15,610 | 2d pref. div. | 63,200 | 63,210 |
| Can. Atl. *deficit* | 60,400 | 34,263 | 3d pref. div. | 215,000 | 214,939 |
| Bal. for half-yr | 527,200 | 523,465 | Bal. forward | 6,700 | 13,231 |

The dividend of 3% on the third preferred stock is the annual distribution. Compare V. 85, p. 405.

*Sale of 4% Guaranteed Stock.*—Subscriptions for £1,000,000 4% guaranteed stock at £92 10s. per £100 stock closed in London on Feb. 26. The issue, it is announced, was 50% over-subscribed. The proceeds will be applied to "general purposes."—V. 86, p. 285.

**Great Northern Ry.**—*Rebate Decision—Hepburn Act Amendatory of Elkins Act.*—The United States Supreme Court on Feb. 24 affirmed the decision of the Circuit Court of Appeals at Denver in September last holding the company guilty of giving rebates and imposing a fine of $15,000. Compare V. 85, p. 793.

The offenses were committed in 1905 before the enactment of the Hepburn law in 1906, which it was claimed repealed by implication at least the provisions of the Elkins law. Justice White, who writes the unanimous opinion of the Court, says that section 13 of the Revised Statutes which provides that the repeal of any statute should not have the effect to release or extinguish any penalty, forfeiture or liability incurred under such statute unless the repealing Act so expressly provides, and that while it had only the force of a statute, yet its provisions could not justify a disregard of the will of Congress as manifested by either expressed or by necessary implication in a subsequent enactment. The question was deemed to be of such importance that the attorneys of the Standard Oil Co. were allowed to file a brief in support of the views of the defendant, the point being one of those raised in the appeal from the $29,000,000 fine imposed on the Standard Oil Co. of Indiana.

*Venner Suit Dismissed.*—The Supreme Court on the same day dismissed the bill of Clarence H. Venner against the company and James J. Hill to recover about $10,000,000 alleged to have accrued to Mr. Hill and the syndicate which brought about the organization of the Northern Securities Co.

The only question before the Court, it is stated, was whether the lower court had jurisdiction, which was decided affirmatively.—V. 86, p. 480, 285.

**Greeley & Northern Railway & Utility Co.**—*Mortgage.*—The company, incorporated several years ago, whose proposed electric road between Greeley, Colo., and Evans, is partly constructed, has filed a mortgage to the public trustees of Weld County to secure an issue of $100,000 bonds, a majority of which, it is stated, has already been sold.

**Illinois Central RR.**—*Election Held—J. Ogden Armour to Succeed Mr. Fish.*—At the adjourned annual meeting on March 3, Joseph F. Titus, assistant to President Harahan, was elected a director to succeed ex-President Fish and A.G. Hackstaff (Vice-President and Secretary) was elected to the board to succeed the late John C. Welling. Mr. Titus, it is announced, will act as a director merely until J. Ogden Armour can have his stock holdings transferred into his own name, the transfer books being now closed. The Harriman interests cast 583,162 votes out of a total of 950,040. Mr. Fish was not present and the proxies held by him were not voted. For want, therefore, of a two-thirds vote the ratification of the purchase of the Kensington & Eastern and the Memphis & State Line RR. (see illustrated article in "Railway Age" of Chicago for Feb. 28) had to go over to a subsequent meeting.

*Financing.*—The management, it is stated, may conclude to finance the company's requirements through an issue of stock or stock and bonds, instead of temporarily through the use of $30,000,000 equipment bonds as collateral.

*New Line Operated.*—The Baton Rouge Hammond & Eastern Ry., just completed, extending from Baton Rouge to Covington, La., via Hammond, 67 miles, has been operated under lease since Feb. 24 as a part of the Yazoo & Mississippi Valley system. The new Haleyville branch, from Corinth, Miss., to Haleyville, Ala., 80 miles, was opened for traffic on Feb. 10, and it is expected that through service to Birmingham (total length 219 miles, including trackage) will be inaugurated about March 15. (V. 85, p. 798.)

*New Suit.*—Henry W. Leman, one of the counsel for Stuyvesant Fish in the suit recently abandoned, has begun a new action in the Superior Court in his own name, as holder of ten shares of stock, to test the right of the Railroad Securities Co. and Union Pacific to own Illinois Central stock.

The application for a temporary injunction to restrain the vote thereon at the annual meeting on March 2 was denied. Mr. Leman says he will carry the case to the United States Supreme Court in order to test the questions at issue.—V. 86, p. 547, 480.

**Interborough Rapid Transit Co., New York.**—*New Bond Issue to Enable Company to Refund or Extend* $15,000,000 *Notes Due May* 1 1908 *and for Other Purposes.*—The company on Thursday applied to the Public Service Commission for permission to execute a mortgage of all its real estate and power houses, its leasehold interest in the subway and other property to secure an issue of not to exceed $55,000,000 face value of 45-year gold mortgage bonds. The bonds are described as follows:

To be dated Nov. 1 1907, to be payable Nov. 1 1952, with interest at a rate to be fixed by the board of directors from time to time, payable May 1 and Nov. 1. Subject to purchase at 110 % and accrued interest through the operations of a sinking fund of $300,000 per annum, beginning Nov. 1 1910, and also subject to payment and cancellation at the option of the company on any interest day in amounts of not less than $1,000,000 face value at 110 % and accrued interest.

The mortgage securing the bonds will also secure equally with the bonds outstanding collateral gold notes as required by the trust agreements securing those notes. (V. 80, p. 1912; V. 84, p. 450, 390).

As no negotiations for the sale of the proposed bonds have been made, and it may be necessary to issue notes to raise the money needed at the present time, the company asks permission to issue promissory notes not to exceed $25,000,000, to be dated May 1 1908, to be payable in not to exceed three years, with interest not to exceed 6%, to secure which it will pledge not to exceed $30,000,000 of the proposed bond issue. The proceeds of these notes will enable the company to redeem the $15,000,000 4% gold notes due May 1 1908 and other obligations.

The outstanding indebtedness in addition to the $15,000,000 4% 3-year gold notes due May 1 1908 and the $10,000,000 3-year 5% gold notes due March 1 1910 includes: Time and demand loans, $5,120,172; accounts payable, $5,232,554; total, $10,352,726, which was incurred chiefly as follows:

| | |
|---|---|
| Equipment of the subway under contracts 1 and 2 | $7,727,816 |
| Excess cost of that part of the Brooklyn extension in operation Dec. 31 1907 | 2,624,910 |

The security for the new mortgage is as follows:

*Cash Cost of Properties Included in the Proposed Mortgage or the Actual Cash Advances Made to Companies Specified as of Dec.* 31 1907.

| | |
|---|---|
| Value of leases of subway taken at actual amount of cash expended for equipment, and the actual amount for construction, in excess of amount received from City of New York | $35,752,699 |
| Real estate not included in equipment | 196,814 |
| Capital stock of Rapid Transit Subway Construction Co. at par, being amount paid in cash | 6,000,000 |
| Stocks and bonds— | |
| Subway Realty Co | 2,106,266 |
| New York & Queens County Railway Co | 2,900,152 |
| New York & Long Island Traction Co | 744,558 |
| Long Island Electric Railway Co | 612,821 |
| Manhattan guaranty fund (which, by the agreement under which the gold notes maturing May 1 1908 were issued, is appropriated to the security of the gold notes) | 4,057,986 |
| Amounts due from companies whose stocks are included in the mortgage: New York & Queens County Railway Co. ($732,000), New York & Long Island Traction Co. ($50,000), Subway Realty Co. ($942,123) | 1,724,123 |
| Total | $54,095,419 |

*Note.*—The above statement does not include the capitalized value of the subway leases or the Manhattan Railway lease, or the amount invested in the New York & Long Island RR. (Steinway tunnel), about $7,500,000, or the amounts due from the city of New York on subway contracts Nos. 1 and 2, for materials and supplies and other current assets.

The shareholders will meet March 28 to authorize the new bond issue.

*Profit from Operation of Extension to Borough Hall, Brooklyn.*—It is stated on good authority that as a result of the opening of the Brooklyn tube the passenger travel on the subway has increased from 40,000 to 50,000 a day, producing an additional gross revenue of $2,000 to $2,500 daily; on the other hand, the increase in operating expenses is but $500 a day. Even better results are expected when the extension to Atlantic Avenue is completed.—V. 86, p. 108.

**International & Great Northern RR.**—*Default—Deposits Called for.*—The default foretold in last week's "Chronicle" occurred March 1 upon the coupons then due on the second mortgage and also on the third mortgage bonds.

In view of the default on the second mortgage bonds, Mark T. Cox and Edgar L. Marston, of New York, and John W. Hamer, of Philadelphia, have consented to act as a protective committee at the request of bondholders. Deposits of bonds are to be made with the Farmers' Loan & Trust Co., subject to a bondholders' agreement.

Thomas Denny & Co., New York, representing a number of the second mortgage bondholders, announced March 2 that they would receive the names of other holders for the purpose of mutual protection

Mr. Denny states that his firm expects to represent a large number of bonds. Believing that the present management of the road owns practically all of the third mortgage bonds and stocks, he thinks it to be to the interest of the second mortgage bondholders not to deposit their securities under the protection of any committee which may be affiliated with the present management. He is neither for nor against the present committee, and may or may not advise his customers, and such as care to place their bonds under his supervision, to deposit with the present committee, according to further information as to its affiliations with present management, proposed plans, amount of bonds which it expects to represent, &c.—V. 86, p. 547.

**Inter-State Commerce Commission.**—*Hours of Labor Law in Effect.*—The Inter-State Commerce Commission having denied the application of a number of roads, on account of the business depression, for an extension of time to comply with the provisions of the "hours of labor law," requiring the time of service of telegraphers to be reduced to 9 hours, the same went into effect on March 4.

Although on many roads telegraph service will be discontinued at a number of stations and the hours in which the offices will be open reduced at many others, a large number of additional operators will have to be employed, entailing an estimated additional expense for all the roads of the country, according to newspaper reports, of about $10,000,000 a year.

The law also provides that trainmen, engineers and firemen on other than wrecking and relief trains shall not, barring delay in completing a trip, be permitted to be continuously on duty for more than 16 hours in the aggregate in any 24-hour period, and after being on duty 16 consecutive hours must be relieved and not again permitted to resume duty without having been off duty 10 hours. If on duty less than 16 hours, 8 hours off duty is required. Compare editorial V. 83, p. 1560.—V 83, p. 492.

**Kingfield & Dead River Ry.**—*Consolidation.*—See Sandy River & Rangeley Lakes RR. below.

**Metropolitan Street Ry., New York.**—*Fire Destroys Second Avenue Car Barn.*—On Saturday night, Feb. 29, a fire, possibly incendiary, destroyed the old Second Avenue car barn, occupying the block between 96th and 97th streets and Second and First avenues, and some 225 cars, mostly summer equipment contained therein. The total loss is estimated at from $800,000 to $1,000,000, on which the insurance, it is stated, covers only 50 or 60% of the schedules. In the past two years the system has suffered severely several times from fires of this kind.

*Committee*—The full committee for the 5% collateral trust bonds due 1997 (compare V. 86, p. 337) is as follows:

Donald Mackay, of Mackay & Co.; Henry Evans, President of the Continental Fire Insurance Co.; Wm. T. Dixon; Edward H. Ladd Jr., of Ladd & Wood, and Alexander Hemphill, Vice-President of Guaranty Trust Co. of New York, Wm. P. Dixon and Henry Evans being added to the committee.

In view of the recent filing by the Guaranty Trust Co. of New York, trustee of the mortgage, of a bill to secure the segregation of the income derived from the properties covered by mortgage, the committee has decided to ask for a deposit of funds in order to co-operate with the trustee's action and to further protect the interests of bondholders. Holders of these bonds, on which the Feb. 1908 coupon is in default, are requested to deposit the same with the Guaranty Trust Co. of New York under a protective agreement, of which copies may be obtained from the depositary.—V. 86, p. 548, 337.

**Mexican Central Ry.**—*Bonds Called.*—Equipment and collateral 5% gold bonds due 1917, first series, to the amount of $38,000, will be paid at par and interest at either the Old Colony Trust Co. of Boston, Manhattan Trust Co., New York, or Glyn, Mills, Currie & Co., 67 Lombard St., London, E. C., on or after April 1 1908.—V. 86, p. 548, 480.

**Milwaukee Rockford & Eastern Ry.**—*Merger.*—See Chicago Milwaukee & Gary Ry. above.—V. 84, p. 508.

**Mobile & Ohio RR.**—*Gold Notes.*—The company has made an issue of $600,000 "first mort. 5% gold notes" of $1,000 each, dated Feb. 15 1908 and due Feb. 15 1911, but subject to call at company's option on any semi-annual interest day (Aug. 15 and Feb. 15) at par and interest, when drawn by lot.

The notes are secured by mortgage made to the Guaranty Trust Co. of New York as trustee by the Mobile & Ohio RR. Co. and its subsidiary, the Georgia Industrial Realty Co., covering the following:

| | |
|---|---|
| Warrior Southern Ry. 1st M. 4% gold bonds, dated 1903, guaranteed principal and interest by the Mobile & Ohio RR | $603,000 |
| Warrior Southern Ry. equipment trust notes dated 1902, covering 200 drop-bottom gondola cars (Nos. 200 to 399) | 145,493 |

Certain parcels of real estate in Mobile and Birmingham Ala., several of which are owned by the Georgia Industrial Realty Co., having been purchased by it in 1906 with funds belonging to the railroad company.

*Note.*—The Warrior Southern Ry. extends from Searcy, Ala., to Kellerman, Ala., 13.6 miles. The entire capital stock and also the entire funded debt, $603,000, is owned by the Mobile & Ohio. Compare V. 81, p. 1371; V. 83, p. 1166.

**Northern Pacific Ry.**—*Montana 16-Hour Labor Law Held Valid.*—The Supreme Court of Montana on Feb. 25 affirmed the imposition of a fine of $100 by Judge Clements of Lewis & Clark County for alleged violation of the State law limiting to 16 the number of consecutive hours during which railway employees concerned in the operation of trains may be kept at work. The decision is of general interest in view of the national labor law which went into effect on March 4. Compare editorial, V. 83, p. 1560.

The company contended that the subject was one exclusively within the power of Congress, but the court held that until the latter acted, the State had a right under its police powers to enforce such regulations.—V. 86, p. 169.

**Ohio Valley Traction Co.**—*New Name.*—See Camden Interstate Ry. above.

**Peoria & Pekin Union Ry.**—*New President.*—H. K. Pinkney is now President, having succeeded Curtiss Millard, resigned. J. F. Kiefer is Secretary, vice H. K. Pinkney.—V. 85, p. 1577.

**Rochester Syracuse & Eastern (Electric) Ry.**—*New Stock.*—A certificate of increase of capital stock from $6,000,000 to $8,500,000 was filed at Albany on March 5.—V. 84, p. 1429.

**San Diego Cuyamaca & Eastern RR.**—*Foreclosure.*—Suit was brought in the Superior Court at San Diego, Cal., on Feb. 27 to foreclose the first mortgage, securing $550,000 6% bonds, Mercantile Trust Co. of New York, trustee.

The road is a standard-gauge steam line extending from San Diego to Foster, Cal., 25 miles. For the year ending June 30 1906 the gross earnings were $67,514; net earnings, $20,065; payments, $34,553; balance, deficit,

$14,488. Total deficit to June 30 1906, $506,245. Capital stock, $769,000. There have recently been rumors that the ownership of the property would pass to the Southern Pacific interests.—V. 70, p. 77.

**Sandy River & Rangeley Lakes RR.**—*Consolidation of Narrow-Gauge Roads.*—This company was organized at Gardiner, Me., on Jan. 30 1908, and has taken over the following 2-foot gauge railroads, aggregating 54 miles in length, in the Rangeley region, namely, the Sandy River RR., the Franklin & Megantic Ry. (V. 65, p. 1071) and the Kingfield & Dead River Ry. It is said that the Phillips & Rangeley RR., now in receivers' hands, will also shortly be acquired, but there is no official information on that point. The officers of the new company are: President, Weston Lewis; Vice-President and General Manager, Josiah S. Maxcy; Secretary and Treasurer, George A. Farrington, all of Gardiner, Me. Messrs. Maxcy and Lewis own practically all the stock, which is $241,600. A mortgage has been placed on the property to retire the following old issues and to purchase the connecting roads; also to build additional mileage:

*Bonded Debt of Constituent Properties as of Feb.* 15 1908.

| | *Dated.* | *Due.* | *Author.* | *Outst'g* |
|---|---|---|---|---|
| Franklin & Megantic Ry. 1st M. 5s | 1901 | April 1 1901 | $50,000 | $50,000 |
| Sandy River RR. 1st M. 5s | 1885 | Sept. 1 1915 | 100,000 | 100,000 |
| Consol. mortgage 5s | 1896 | July 1 1921 | (?) | 200,000 |
| Kingfield & Dead River Ry. 1st M. 5s | 1900 | Oct. 1 1910 | 50,000 | 42,000 |

Interest on all four issues is payable semi-annually at office of Maine Trust & Banking Co., trustee, Gardiner, Me.

**Seaboard Air Line Ry.**—*Payment of Coupon.*—The receivers paid on March 2 at the New York Trust Co., New York, the coupon due March 1 (Sunday) on Atlanta & Birmingham Air Line Ry. first mort. 4% 30-year bonds.

*Receivers for Controlled Company.*—Judge Pardee in the United States Court in North Carolina, late last week appointed S. Davies Warfield and R. Lancaster Williams, two of the receivers of the Seaboard, as receivers for the Atlanta & Birmingham Air Line Ry., all of whose capital stock is owned by the Seaboard.—V. 86, p. 548, 481.

**South Side Elevated RR., Chicago.**—*Dividend Rate Reduced from* 4 *to* 3%.—The directors have declared a quarterly dividend of ¾ of 1% on the $10,323,800 capital stock, thus reducing the annual rate to 3%, contrasting with 4% yearly, from June 1901 to Dec. 1907, inclusive.

Previous to about July 1 last the interest on the $8,000,000 4½% new bonds had been charged to construction (V. 86, p. 334). The directors by letter say:

The company is in a healthy, growing condition and there is nothing to justify fear of the future. The directors wish to keep on hand the usual cash surplus, and also to provide for the purchase of more cars, and the like, without resorting to a floating debt or car-purchasing certificates. —V. 86, p. 338, 334.

**Wages.**—*Reductions.*—The following reductions in wages are announced:

*Norfolk & Western.*—The General Manager of the Norfolk & Western Railway Co. has addressed a letter to the chairmen of the various labor organizations in the system, proposing a reduction in wages of all employees in the different departments. It is reported that the reduction proposed is on a sliding scale, with the understanding that when the revenues of the road reach $2,500,000 a month wages are to be restored.

*New York New Haven & Hartford.*—Officers and clerks of the company having salaries of $2,000 and over have received notice of a reduction of 10% beginning, it is stated, on March 1; on salaries of $1,200 to $2,000 there will be a reduction of 5%. The total saving, it is stated, will be about $125,000 a year. Reductions in wages of trainmen will, it is reported, be avoided if possible.

*Southern Ry.*—President Finley on Feb. 25 made the following statement: "Our employees, working under contract, have declined our proposition in regard to a reduction of wages. We have stated to our employees that we will ask the mediation of the Chairman of the Inter State Commerce Commission and the Commissioner of Labor. We have requested mediation in the hope of arriving at an adjustment of all matters in controversy which will be cordially accepted by both interests involved." The request for mediation is made under the terms of the Erdman Act. As to reduction in salaries of general officers see V. 86, p. 230.

*Seaboard Air Line.*—See V. 86, p. 481.

*Baltimore & Ohio.*—See V. 86, p. 227.

*Boston & Maine.*—See V. 86, p. 479.

*Louisville & Nashville.*—The order reducing the pay of engineers and conductors 10%, which was to have gone into effect Mch. 1, was rescinded after the intervention of the Inter-State Commerce Commission. The conductors had previously accepted the cut. A similar reduction by the Nashville Chattanooga & St. Louis was also recalled. V. 84, p. 222.

**Warrior Southern Ry.**—*Securities Pledged.*—See Mobile & Ohio RR. above.

**Western Maryland RR.**—*Receivership.*—Judge Morris of the United States Circuit Court at Baltimore on March 5, upon application of the Bowling Green Trust Co. of New York, as trustee of the "general lien and convertible mortgage," the company assenting, appointed President B. F. Bush as receiver of the property. The earnings for the half-year ending Dec. 31 1907, it is pointed out, showed a surplus over all interest charges, but the company is unable to take care of the collateral loans, aggregating $3,776,750, which mature April 1, and also provide in full for its April interest requirements. The Hepburn Rate Law, which forbids railroad companies to carry their own coal after May 1 1908 (V. 86, p. 227), it is explained, also places the company in a serious dilemma.

The management announced yesterday that application would be made at once for authority to pay the April coupons on the first mortgage bonds promptly at maturity.

President Bush in a letter to the directors said in part:

The gross revenues of the railway for the six months ended Dec. 31 1907 increased $540,725, or 20.552%, and the net revenues increased $350,176, or 39.224%, over those of the corresponding period of the last fiscal year, with a surplus earnings over all fixed charges, including the abnormally high cost of temporary loans and renewals.

The company is not confronted with any failure of its revenues to cover its full fixed charges, and its business has maintained a steady growth with unmistakable assurance of continued development. It has, however, maturing obligations, arising out of its temporary provisions for capital expenditures, and it must at an early date encounter the problem presented by the commodity clause of the Federal rate law.

As you are aware, this company has outstanding loans maturing April 1 1908 to the amount of $3,776,750, secured by pledge of $5,037,000 of its first mortgage bonds. The market price of these bonds, originally in considerable excess over the loans, has, notwithstanding substantial increase in gross and net revenues, shrunk to a level below the face of the loans.

It has now become apparent that the company will be unable to meet these loans or to provide additional collateral to secure their extension. In this situation the company itself will, of course, be unable to borrow the money necessary to meet mortgage interest falling due on the first of April next.

This immediate inability to meet the April interest requirements will affect the first mortgage interest at most to the extent of but a brief delay.

The coal properties of this company are rightfully owned and operated under charter of the State of West Virginia. The coal lands are a material part of the security of the company's mortgages and the revenues from its coal business cannot be sacrificed without materially affecting income applicable to the junior securities. The law cannot be generally observed, in the extreme construction of which it is susceptible, without either a wholesale marketing of coal lands impracticable except at appalling loss to proprietary and mortgage interests, or a restriction of production to the fuel requirements of the roads, entailing vast loss of revenue to them and inevitable exactions from the public.

In the opinion of counsel there is substantial ground for the view that this feature of the rate bill, if constitutional, is not applicable to this company's situation, and that even if this be not so, it is practicable to so modify this situation, without materially affecting revenues, as to meet any just purpose of the law. But to make, even for a brief period, any mistaken forecast of the judgment of the courts involves the risk of incurring penalties in overwhelming accumulation. I think it clear that the law cannot be ignored until it has been declared invalid by the court; that it cannot safely be treated as inapplicable except with the sanction of the court, and that if valid, the relations of the company to its coal interests cannot be safely and conclusively remolded except with the approval of the court.

*Notice to Bondholders.*—Holders of "general lien and convertible" 4% gold bonds due 1952 are requested by advertisement to communicate with Sutro Bros. & Co., 44 Pine St., N. Y., stating name, address and amount of holdings.—V. 85, p. 1266.

**Winnipeg Electric Street Ry.**—*Earnings.*—For cal. year:

| *Year—* | *Gross.* | *Net.* | *1st Chges.* | *Dividends.* | *Bal., Sur.* | *Tot. Sur.* |
|---|---|---|---|---|---|---|
| 1907 | $1,722,197 | $946,676 | $586,667 | (8%) $373,137 | $186,872 | $806,311 |
| 1906 | 1,416,305 | 714,341 | 251,038 | (?%) 248,668 | 214,635 | 761,538 |
| 1905 | 1,119,768 | 544,021 | 149,570 | (5%) 200,000 | 194,451 | 546,052 |

Total surplus as above Dec. 31 1906 was $761,539, from which was deducted $142,100 for stock dividend, leaving $619,438; adding surplus from operations of 1907, $186,872, makes total surplus Dec. 31 1907, $806,311. Passengers carried, 20,846,317 in 1907, against 17,229,554 in 1906. Capital stock outstanding Dec. 31 1907, $5,320,950 (and $679,050 subscribed and in course of payment), against $4,375,200 Dec. 31 1906; bonds, $5,400,000; due Bank of Montreal, $701,329, against $334,912. Compare V. 85, p. 406, 223.

## INDUSTRIAL, GAS AND MISCELLANEOUS.

**Alabama Consolidated Coal & Iron Co., New York.**—*Plan to Issue New Bonds to Retire Preferred Stock and for Other Purposes.*—The shareholders will meet March 14 at 15 Exchange Place, Jersey City, to vote on making an issue of $1,750,000 third mortgage 5% bonds dated Feb. 1 1908, viz:

| | |
|---|---|
| To be exchanged, dollar for dollar, for the $1,250,000 preferred stock, provided the preferred stockholders subscribed for an amount of the bonds equal to 20% of their stock holdings at 70 | $1,250,000 |
| To be sold at 70 to preferred shareholders as above stated | 250,000 |
| To remain in treasury for future requirements | 250,000 |

*Note.*—The dividend due Feb. 1 1908 on the preferred shares, but deferred owing to poor collections, is to be paid, according to the plan, to preferred shareholders who accept the terms of exchange.—V. 85, p. 217.

**Amalgamated Copper Co.**—*Operations Resumed.*—Late on Feb. 29 Manager John D. Ryan announced that on Monday last all the mines of the Anaconda, Washoe, Butte & Boston, Parrot, Trenton, North Butte and the Butte Coalition mining companies, and also the Washoe smelter, would resume work. —V. 86, p. 170, 54.

**American Agricultural Chemical Co., New York.**—*Provission for Notes due March* 1.—Of the $2,500,000 4½% 3-year notes due March 1 1908 (V. 80, p. 653), about $500,000 have been exchanged for shorter term paper and the remainder, we are informed, will be carried as bank loans until the market improves sufficiently to permit of their being funded on a favorable basis into long-term securities.—V. 86, p. 287.

**American Car & Foundry Co.**—*Quarterly.*—For the 3 and 9 months ending Jan. 31:

| 3 *Mos.*— | *Net.* | *Pref. Dividend.* | *Com. Dividend.* | *Bal., Surp.* |
|---|---|---|---|---|
| 1907-08 | $1,772,000 | (1¾%) $525,000 | (1%) $300,000 | $947,000 |
| 1906-07 | 2,307,282 | (1¾%) 525,000 | (½%) 150,000 | 1,632,282 |
| 1905-06 | 1,008,111 | (1¾%) 525,000 | - - - - - - | 483,111 |
| 9 *Mos.*— | | | | |
| 1907-08 | $7,140,621 | (5¼%) $1,575,000 | (3%) $900,000 | $4,665,621 |
| 1906-07 | 5,744,219 | (5¼%) 1,575,000 | (1%) 300,000 | 3,869,219 |
| 1905-06 | 2,351,161 | (5¼%) 1,575,000 | - - - | 776,161 |

—V. 85, p. 1520.

**American Cigar Co.**—*Report.*—For calendar years:

| *Calendar year—* | *Net earnings.* | *Pref. dividend (6%).* | *Balance, surplus.* | *Total surplus.* |
|---|---|---|---|---|
| 1907 | $1,887,098 | $600,000 | $1,287,098 | $6,764,775 |
| 1906 | 2,332,379 | 600,000 | *1,732,379 | 5,477,677 |

*To this amount in 1906 was added $350,000 not necessary to be retained in provisions of previous years for advertising, &c., funds.—V. 85, p. 265.

**American Lead & Baryta Co.**—*Foreclosure Sale.*—This property was to be sold under foreclosure on March 4 at Potosi, Mo. Compare V. 84, p. 694.

**American Multigraph Co., Cleveland.**—*New Stock.*—The company has filed a certificate of increase of capital from $5,000,000 to $5,100,000.—V. 85, p. 347.

**American Radiator Co.**—*Report.*—The results for the year ending Jan. 31 were:

| *Year* | *Net profits.* | *Div. on preferred.* | *Div. on common.* | *Bal., sur.* |
|---|---|---|---|---|
| 1907-08 | $899,724 | (7%) $210,000 | (5%) $300,000 | $389,724 |
| 1906-07 | 864,281 | (7%) 210,000 | (4%) 200,000 | 454,281 |
| 1905-06 | 833,941 | (7%) 210,000 | (4%) 196,013 | 427,898 |

—V. 84, p. 625.

**American Smelting & Refining Co.**—*Dividend Rate of Common Stock Reduced from* 8% *to* 4%.—The directors on March 2 declared a quarterly dividend of 1% on the $50,000,000 common stock, payable April 15 to holders of record March 27. This places the issue on a basis of 4% per annum.

| *Annual Dividend (Per Cent) of Common Stock.* | | | | |
|---|---|---|---|---|
| 1904. | 1905 | 1906. | 1907. | 1908 |
| 5% | 5½ | 7 | 7½ | Jan., 2; Apr., 1 |

The $50,000,000 preferred shares receive their regular quarterly 1¾%.—V. 86, p. 549.

**American Snuff Co.**—*Report.*—For calendar years:

| Cal. Year— | Net. | Pref. Div. | Com. Div. | Surplus. |
|---|---|---|---|---|
| 1907 | $2,890,586 | (7%) $720,000 | (11%) $1,210,187 | $960,399 |
| 1906 | 2,781,867 | (7%) 720,000 | (10%) 1,100,170 | 961,697 |

*New Director.*—Charles W. Bumstead, of Helmetta, N. J., has been elected a director to succeed John W. Woodside, deceased.—V. 85, p. 602.

**American Steel Foundries.**—*Deposits of Stock Called for.*—A large majority of the stockholders having deposited their certificates with the Guaranty Trust Co. in accordance with the plan already fully described in this column (V. 86, p. 170), notice was given by advertisement in last week's "Chronicle" that all shareholders who desire to assent to the readjustment should deposit their holdings with the aforesaid depositary before the adjourned meeting, March 14.

The plan reduces the outstanding share capital from $32,993,250 of which $17,184,000 is preferred to $17,184,500, all of one class. There will also be issued $3,440,000 5% 5-year debentures. Each $100 share of the present common stock will be exchanged for $25 of the new stock, and for $100 of the present preferred will be given $77 new stock, $20 debentures and $3 cash, thus getting rid not only of a large amount of "water," but of the entire preferred stock issue and over 20% of accumulated dividends thereon. Compare V. 86, p. 482.

**American Tube & Stamping Co.**—*Bonds Called.*—Ten ($10,000) first mortgage bonds of 1902 have been called for redemption on April 1 1908 at 105 and interest at the Colonial Trust Co. (now the Trust Co. of America) of New York, trustee.—V. 85, p. 865.

**Associated Merchants' Co.**—*Report for Half-Year.*—For half-year ending Feb. 1:

| Half-Year. | Net Earns. | Div. on 1st pf. (2½%). | Div. on 2d pf. (3%) | Div. on com. (3½%). | Extra Divs. | Balance, Surplus. |
|---|---|---|---|---|---|---|
| 1907-08 | $677,546 | $150,940 | $152,214 | $214,433 | $116,823 | $43,136 |
| 1906-07 | 807,003 | 152,418 | 152,214 | 212,412 | 116,541 | 173,418 |

Extra dividends are ½ of 1% each on the first and second preferred stocks and 1% on common stock. Compare V. 86, p. 549.

**Associated Oil Co., San Francisco, Cal.**—*Report.*

| Calendar Year— | Gross Income. | Expenses and Taxes. | Interest on Bonds. | Deprec. Reserve. | Balance, Surplus. |
|---|---|---|---|---|---|
| 1907 | $10,245,711 | $8,043,363 | $144,354 | $455,292 | $1,602,702 |
| 1906 | 6,509,787 | 4,190,549 | 78,943 | 328,752 | 1,911,543 |

—V. 85, p. 281.

**Butler Brothers, Randolph St. Viaduct, Chicago.**—*Dividends.*—The company paid on its $4,500,000 capital stock on Feb. 1 1908 a regular dividend of 10% with an extra dividend of 2%, being the same amount as paid last year, and contrasting with 10% regular and 5% extra paid in 1906, when the capital was $3,000,000. No bonds.—V. 84, p. 273.

**Calumet & Hecla (Copper) Mining Co.**—*Dividend Further Reduced.*—The directors on Wednesday declared a quarterly dividend of 20% ($5 per share), payable March 31 to stockholders of record March 5. This contrasts with 40% ($10) last December, 60% ($15) in September and 80% ($20) each in March and June 1907 and December and Sept. 1906.

*Annual Dividend Record—Stock now $2,500,000 in $25 Shares.*

| | 1897. | 1898. | 1899. | 1900. | 1901. | 1902. | 1903. | 1904. | 1905. | 1906. | 1907. |
|---|---|---|---|---|---|---|---|---|---|---|---|

—V. 85, p. 1464.

**Central Fireworks Co., New York.**—*No Dividends this March.*—An official of the company announces that no dividend will be declared this March on either the $1,406,800 common or the $1,267,200 7% cumulative preferred stock. The preferred sharse have received their full semi-annual dividends at the rate of 7% per annum to Sept. 1 1907.

*Dividends (Per Cent) on Common Stock*

| Aug. 1900 to Aug. 1903. | 1904. | 1905. | 1906. | 1907. |
|---|---|---|---|---|
| 2% yearly. | ½% | 2% | 1½% | 1% (½% s. a.) |

—V. 82, p. 989.

**Consolidated Gas Co., Pittsburgh, Pa.**—*Plan Operative.*—The holders of 75% of the $2,000,000 preferred stock having accepted the proposition of the Philadelphia Company, the plan has been declared operative. See V. 86, p. 54.

**Consolidated Rubber Tire Co., New York.**—*Earnings for Calendar Year.*—No printed report is issued but the following figures have been published:

| Calendar Year— | Gross Sales. | Other Income | Total Income. | Net Earns. | Interest on Incomes. | Bal. Surp. |
|---|---|---|---|---|---|---|
| 907 | $1,133,213 | $70,653 | $1,203,866 | $57,010 | (2%) $57,010 | None |
| 1906 | 1,221,847 | 74,500 | 1,296,347 | 85,515 | (3%) 85,515 | None |

The aforesaid 2% on incomes will be paid April 1 1908. V. 86, p. 483.

**Consolidated Steamship Lines.**—*Foreclosure.*—The American Trust Co. of Boston, trustee under the $60,000,000 (collateral trust) mortgage, filed a bill in equity in the United States Circuit Court at Portland, Me., on March 4 for the foreclosure of the mortgage. See Metropolitan Steamship Co. below.—V. 86, p. 339, 288.

**Dominion Coal Co.**—*Report.*—See "Annual Reports."

*New Director.*—Graham Fraser has been elected a director.—V. 86, p. 172.

**Electrical Development Co., Toronto.**—*Change in Control—Preferred Stock.*—The shareholders at a meeting held on Feb. 26 voted to convert 50% of the outstanding stock ($6,000,000) into non-voting preferred shares, the remaining 50% of the common stock to be turned over to William Mackenzie, President of Toronto Ry., and associates, under the terms of an agreement by which they provide the company with funds to meet its pressing requirements, including the coupons due March 1 on the $8,000,000 bonds.

Press reports state that the new interests agreed to put up $3,000,000, of which $1,000,000 for new work and $2,000,000 for existing obligations, presumably receiving the $2,000,000 treasury bonds as part consideration. The preferred shares will be entitled to dividends of 5% per annum, non-cumulative until Jan. 1 1910, thereafter cumulative with a contingent right to an additional 1% per annum after the accumulation of a $100,000 surplus; vota preference also as to assets; but subject to redemption at any time at $110 per share and entitled to no voting power except in case of default on the first mortgage bonds.—V. 85, p. 13.

**Empire Steel & Iron Co.**—*Report.*—For calendar years:

| Cal Yr. | Net Earns. | Depre-c'n, &c. | Net Profits. | Preferred Dividends | Balance, Surplus. | Production, pig iron. |
|---|---|---|---|---|---|---|
| 1907 | $652,403 | $94,951 | $557,356 | (6%) $456,000 | $357,452 | 234,538 tons |
| 1906 | 376,941 | 70,246 | 306,695 | (4½%) [illegible] | 205,377 tons | |
| 1905 | 135,751 | 44,239 | 91,512 | (3%) 75,000 | 16,512 | 172,763 tons |

Total surplus Dec. 31 1907 was $1,132,651.—V. 85, p. 1341.

**General Electric Co.**—*Results for Late Year.*—The following from the "Electrical World" of March 7 is confirmed:

It is understood that the General Electric Company's production of apparatus for the year ended Jan. 31 reached the splendid total of $70,000,000, as compared with $60,000,000 in the previous year. While the report will not be due until May, these figures may be accepted as approximately correct. It is estimated, however, that the amount available for dividends was $9,869,000, as compared with $10,232,839 in 1906 on a gross of $56,685,000, or about one-half the product value. In other words, in spite of the tremendous advance in the value of the product, the per cent of profit to gross has fallen off in the period 1903-08 from 28 to 14%.—V. 86, p. 231.

**Granby Consolidated Mining, Smelting & Power Co.**—*Dividend Omitted.*—The company has omitted the quarterly dividend due this March as well as that which would ordinarily have been paid in Dec. 1907.

*Dividend Record (%)—Present Capital Stock $13,500,000 (par $100).*

| Dec. '03 | Jan. '06. | Mar. '06. | Sep. '06. | Dec. '06. | Mch. '07. | Jun. '07. | Sep. '07. |
|---|---|---|---|---|---|---|---|
| 1 | 3 | 3 | 3 | 3 | 3 | 3 | 3 |

These dividends included 2% regular and 1% extra.—V. 85, p. 1464.

**Guffey Petroleum Co., Pittsburgh, Pa.**—*Pipe Line to Coast.*—In connection with the statement below concerning the pipe line of the Texas Company, it is interesting to remember that the Gulf Pipe Line Co., which is controlled by the Guffey Petroleum Co., completed in August last its 415 miles of 8-inch pipe line extending from the Glenn pool, Okla., to Sour Lake, Tex., connecting there with the company's existing line to the Gulf refinery and docks at Port Arthur, Tex.—V. 84, p. 393.

**Havana Tobacco Co.**—*Report.*—For calendar years:

| | 1907. | 1906. | Changes. |
|---|---|---|---|
| Net earnings over oper. expenses, &c. | $233,749 | $128,994 | Inc. $104,755 |
| Deduct—Interest on 5% gold bonds | 375,000 | 375,000 | |
| Deficit for year | $141,251 | $246,006 | Dec. $104,755 |

*New Director.*—W. S. Luckett has been elected a director to succeed Grant B. Schley, resigned.—V. 85, p. 287.

**Hoster-Columbus Associated Breweries, Columbus, O.**—*Report.*—For calendar years:

| Cal. yrs. | Gross earnings. | Net earnings. | Bond interest. | Sinking fund. | Div. Paid. | Adjustments. | Balance, surplus. |
|---|---|---|---|---|---|---|---|
| 1907 | $790,862 | $423,372 | $309,000 | abt. $25,000 | $121,500 | (?) | def. $32,128 |
| 1906 | 913,164 | 559,227 | 312,000 | 50,000 | 40,500 | $8,387 | 148,340 |

There was charged to depreciation, &c., in 1907 $131,977, against $138,838 in 1906.—V. 84, p. 696.

**International Silver Co.**—*Report.*—For calendar years:

| Calendar Year— | Earnings for Year. | Interest on Bds. | Preferred Dividends. | Balance, Surplus. |
|---|---|---|---|---|
| 1907 | $933,291 | $327,945 | (7%) $460,817 | $144,529 |
| 1906 | 1,338,156 | 330,797 | (4%) 263,324 | 744,035 |

—V. 86, p. 483.

**Kansas Natural Gas Co.**—*Earnings.*—For calendar year:

| Calendar Year— | Gross Earnings. | Op. Ex., & Taxes. | Rents Int., rent. l'sed prop., &c | Suspense Items. | Balance, Surplus. |
|---|---|---|---|---|---|
| 1907 | $3,019,519 | $784,206 | $1,028,246 | $108,962 | $1,098,105 |
| 1906 | 1,999,313 | 1,233,811 | | 261,406 | 504,096 |

Total surplus Dec. 31 1907, $1,730,394. Number of consumers Dec. 31. 1907, 110,112, against 59,087 in 1906. Gas and oil lands leased, 254,170 acres; gas wells available, 311, against 301 in 1906; oil wells, 40.—V. 86, p. 173, 112.

**Metropolitan Steamship Co., Boston.**—*Foreclosure.*—The American Trust Co. of Boston, as trustee under the $3,000,000 mortgage (V. 82, p. 990; V. 86, p. 340), filed a suit in equity at Portland, Me., on March 4 for foreclosure

To protect the bondholders Judge Putnam at Portland on March 4 made an order consolidating the aforesaid suit with the action of the Berwind White Coal Mining Co. against the Metropolitan now pending in this court He also extended the powers of the receivers so that now they are in charge of all the property.—V. 86, p. 340, 288.

**Montreal Cotton Co.**—*Bond Issue.*—At the annual meeting held on Feb. 12 the shareholders authorized an issue of $2,000,000 bonds, of which it is intended to issue at present $1,000,000 to provide for the retirement of $350,000 old 4½% bonds due this year and for other purposes.

*Dividend Increased.*—A quarterly dividend of 2% has been declared payable March 15, thus increasing the annual rate from 7% to 8%.

The company's shares have been dealt in on the Montreal Stock Exchange for nine years or more. It has an authorized issue of $4,000,000 capital stock, of which $3,000,000 is outstanding; par of shares $100. Bonded debt $350,000 4½% bonds, due in 1908. The company owns mills at Valleyfield, P. Q., operated by hydro-electric power and containing 200,000 spindles and 5,000 looms. Quarterly dividends at the rate of 7% per annum were paid in 1907, 1906 and 1905 and 9% in 1904. The sales for the calendar year 1907 aggregated $2,942,000, contrasting with $2,615,000 in 1906 and $2,342,000 in 1905. The directors are: S. H. Ewing, President; H. M. Molson, Vice-President; Jacques Grenier, H. S. Holt, A. H. Gault, C. B. Gordon, Wm. Finley, Senator L. J. Forget, Jno. P. Black, F. Orr Lewis. Messrs. Holt, Black, Forget and Gordon are also directors of the Dominion Textile Co.

**National Glass Co., Pittsburgh, Pa.**—*New Receiver.*—W. H. Bell has been appointed receiver to succeed W. P. Knight, who resigned.—V. 85, p. 1579.

**National Packing Co., Chicago.**—*First Dividend.*—The company has declared an initial dividend of 1¾% on its $15,000,000 of stock, payable April 1.—V. 85, p. 408.

**National Water Supply Co., Newport News, Va.**—*Receivership.*—See Peninsula Pure Water Co. below.—V. 85, p. 408.

**New York & New Jersey Telephone Co.**—*New Officers.*—H. F. Thurber, formerly the General Manager, has been elected 2d Vice-President. Ford Huntington has been appointed Treasurer and Walter Brown Auditor.—V. 86, p. 484, 424.

**New York State Steel Co., Buffalo, N. Y.**—*Reorganization.*—A majority of the bondholders and creditors are said to have entered into an agreement under which the Buffalo Loan, Trust & Safe Deposit Co. acts as trustee, with a view to completing the plant and putting the company on its feet. All particulars are withheld.—V. 85, p. 1212.

**O'Gara Coal Co.**—*Bonds with Bonus.*—During February a small block of bonds was advertised for sale as follows:

First mortgage 5% sinking fund bonds dated Sept. 1 1905 and due Sept. 10 1955 (but subject to call at 105 after Sept. 1 1908.—Ed.). Interest March and September (at office of J. B. Russell & Co., New York). With bonus of 10 shares preferred and 10 shares common stock. Accrued interest from Sept. 1 last to be charged to the purchaser. Compare V. 81, p. 512; V. 86, p. 166.

**Peninsular Pure Water Co., Newport News, Va.**—*Receivership.*—Judge Waddill in the United States Circuit Court at Norfolk, Va., on Feb. 27, appointed Joseph J. De Kinder of Philadelphia and John B. Locke of Newport News as receivers for the National Water Supply Co. and the Peninsular Pure Water Co. on application filed by John A. Barham of Philadelphia (a contractor who built the greater part of the system), on the ground of insolvency, the companies joining in the petition.

The Peninsular Pure Water Co. was incorporated in 1901 with $500,000 authorized capital stock and a bond issue of $300,000 (V. 83, p. 441); the National Water Supply Co. was organized in 1906 with $250,000 stock and $1,000,000 of bonds authorized (V. 85, p. 408) to control the Peninsular Company. In September 1906 the Newport News Light & Water Co. obtained a temporary injunction (understood to be still pending) restraining the Peninsular Pure Water Co. from crossing the mains of the Newport Company (V. 83, p. 628). The receivership is attributed to this injunction, the insolvency of the Knickerbocker Trust Co., trustee under the mortgages, and the recent failure of A. N. Chandler & Co. of Philadelphia, who were promoting the enterprise.—V. 85, p. 408.

**Pittsburgh Coal Co.**—*Report.*—For calendar year:

| Cal. Year. | Net Profits. | Reserve for dep.&c. | Bond Interest. | Div'ds. (1 1-6%). | Special Adj'st's. | Balance, Surp. or Def. |
|---|---|---|---|---|---|---|
| 1907 | $5,731,983 | $1,690,746 | $1,082,644 | ------- | $59,001 | sur.$2,899,592 |
| 1906 | 5,297,123 | 1,937,115 | 1,167,241 | - | 2,272,935 | def.80,167 |
| 1905 | 3,255,358 | 1,423,346 | 1,207,087 | $343,272 | - - | sur.281,652 |

Production in 1907, 19,353,494 tons of coal and 456,933 tons of coke, against 19,591,200 tons of coal and 429,076 tons of coke in 1906.—V. 86, p. 424, 232.

**Procter & Gamble Co., Soap, Cincinnati.**—*New Plant on Staten Island, N. Y., in Operation.*—The company has completed and last week placed in operation its new $1,200,000 plant on Staten Island, N. Y., making the enterprise, it is said, the largest soap manufacturer in the world.—V. 84, p. 1000.

**Railway Steel Spring Co.**—*Report.*—For calendar years:

| Calendar Year— | Net Earnings. | Int. Latrobe bds. | Pref. div. (7%) | Com. div. (4%) | Balance Surplus |
|---|---|---|---|---|---|
| 1907 | $2,320,137 | $216,633 | $944,984 | $539,990 | $618,530 |
| 1906 | 2,341,120 | 215,587 | 944,979 | 539,988 | *640,566 |

* From the surplus in 1906 as above there was charged off for account of Latrobe plant purchase.—V. 84, p. 569, 577.

**Stillwater (Minn.) Waterworks Co.**—*Sale.*—A press dispatch to the "Pioneer Press" dated Feb. 15 says in substance:

A compromise of the litigation pending for seven years has been reached with H. C. Farmer under which the control of the property passes to the latter. The 30-year franchise of the company expires in April 1910, at about which time the bonded debt of $100,000 falls due. (The bonds are first mortgage 7s, $1,000 each, dated Jan. 1 1880, due Jan. 1 1910. Interest payable Jan. 1 and July 1 at Fifth Avenue Bank, New York. Trustee, James G. Cannon, New York. Capital stock $100,000, in $100 shares. President, E. W. Durant; Secretary and Manager, H. H. Harrison; Treasurer, R. S. Davies.

**Street's Western Stable Car Line, Chicago.**—*Bonds All Paid.*—President Herman Grossman announces that on Feb. 1 1908 the company paid the last $25,000 of an original issue of $1,000,000 of first mortgage bonds.

All of said bonds have now been paid and the mortgage securing the same released. The indebtedness for the "Hicks" and "Canda" cars purchased on March 1 1902 has also since that date been reduced $360,000.—V. 85 p. 867.

**(The) Texas Company, Oil, Houston, Texas.**—*New Stock Underwritten—Right to Subscribe.*—The Texas Company, with an authorized capital stock of $12,000,000, has issued and outstanding $10,000,000, par value, of its stock. It has decided to issue $1,000,000, par value, of its unissued stock. This $1,000,000 of stock, it is announced, has all been underwritten by a leading firm of bankers in New York City, but the company has arranged with the underwriters to allow Treasurer R. E. Brooks to offer a portion of this $1,000,000 issue for subscription in Texas, Oklahoma and Louisiana, where the principal activities of the company are located. Subscriptions will be received with first partial payment not later than March 10 1908. Par value of shares $100.

The subscriber agrees to buy from ——— ——— bankers, ——— shares of stock of The Texas Company, together with one-tenth of that number of shares of stock of Producers Oil Co., at the price and upon the terms following: The price is $137 50 per share of the stock of The Texas Company, and is to be paid as follows: 10% on delivery hereof not later than March 25 1908, 15% on March 25 1908, 15% on May 25 1908 and 10% on the 25th day of each of the following six months.

BALANCE SHEET OF THE TEXAS COMPANY MAY 1 1907.

| *Assets* ($13,612,586) | | *Liabilities* ($13,612,586) | |
|---|---|---|---|
| *Plant account | $6,974,778 | Accts. and bills payable | $1,521,630 |
| Other investments | 866,908 | Suspense acct. (for doubtful accounts) | 79,986 |
| Stocks of oil, crude and refined and in process | 1,347,131 | Insurance reserve fund | 250,000 |
| Unexpired insurance | 9,948 | Sinking fund and depreciation account | 1,260,970 |
| Bonds and mortgages | 1,000,000 | Capital stock | 8,000,000 |
| Accounts and bills receivable | 2,050,903 | Authorized $12,000,000 | |
| Cash on hand | 1,363,817 | Subscribed for 10,000,000 | |
| | | Paid in 8,000,000 | |
| | | Surplus | 2,500,000 |

*Plant account includes investments in real estate, leases, rights of way, pipe lines, cankage, refineries, ships, cars, terminals, distributing stations, producing properties, wells and equipment.

The seventeenth regular quarterly dividend of 3%, was paid Dec. 31 1907. The company's 8-inch oil pipe-line from Tulsa, I. T., to Port Arthur, Tex., via Dallas, Corsicana and Humble, Tex., a distance of about 560 miles, was put in regular operation on Feb. 7 1908. From Tulsa to Dallas, 275 miles, this pipe-line opened last September, at which time the "Oil Investors' Journal" of Beaumont said:

The Texas Company on Aug. 24 posted its first inter-State pipe-line tariff, fixing a rate of 25c. a barrel for the transportation of crude petroleum from the Glenn pool, I. T., to West Dallas and Eleanor, Tex., effective Sept. 1. The company has a 270-acre farm at West Dallas on which it will shortly have completed twelve 37,500-barrel steel tanks, affording storage for 450,000 barrels of oil, a refinery or separating plant, at which the heavy ingredients of Glenn crude will be run off and sold to fuel consumers, and a pumping station on the main 8-inch trunk line, which is to be extended south to Humble, where it will join the company's existing pipe-line system, leading to The Texas Company's refinery and docks at Port Arthur.

There will be nine pumping stations on the new line. Six of these, on the line between Tulsa and Dallas, are completed. They are located at Tulsa, Henryetta, Stuart and Armstrong, I. T., and at Sherman and West Dallas, Tex. A station will also be located at Corsicana, another about 60 miles south of Corsicana and the last one on the main line at Bobbin, in Montgomery County. The company now has a station at Humble, another at Dayton, another at Sour Lake, 50 miles east of Humble, and another at Garrison, south of Beaumont and opposite Spindletop. The company operates two refineries in southeast Texas, one at Port Neches, and the other at Port Arthur. The Port Neches plant is devoted largely to the manufacture of asphalt products from the heavy crudes of the Gulf Coast region.

On Sept. 24 1907 deeds were filed transferring, it was stated, substantially the entire Louisiana holdings of The Texas Company and also of the Phoenix Pipe Line Co. to the "Louisiana Company," the stock of which is presumably owned by The Texas Company. Early in the year real estate was purchased in Bayonne, N. J., as a site, it was said, for a large refinery. John W. Gates, now of Houston, Tex., is largely interested in the company.—V. 83, p. 1417, 973.

**Union Refrigerator Transit Co. of Wisconsin.**—*Bonds Offered.*—The bond department of the Fidelity Trust Co., Milwaukee, Wis., the mortgage trustee, is offering at par and int. the unsold portion of a total issue of $480,000 6% first mortgage gold bonds, dated May 1 1908 and due in semi-annual installments beginning on Nov. 1 1908—from 1908 to 1913, both inclusive $30,000 each six months and on May 1 1914 $150,000. Interest coupons payable May 1 and Nov. 1. Principal and interest payable at office of trustee. Denominations $500 and $1,000. A circular says in substance:

Secured by a first lien at $240 per car on 2,000 refrigerator cars, which cost originally $2,000,000 and were recently appraised by J. J. Hennessey, master car builder of the Chicago Milwaukee & St. Paul Ry. Co. at $650 per car, or $1,300,000. This valuation is very conservative, and adds nothing for the company's established business and reputation. The cars are all in good condition, as the mortgage requires, the company owning extensive shops in Milwaukee. The company is a member of the Master Car Builders' Association, according to the rules of which lessees and railroads are responsible for any damage by fire or accident.

The cars are used by and carry practically all of the shipments of the following concerns: Jos. Schlitz Brewing Co., Fred Miller Brewing Co. and the Val. Blatz Brewing Co. (of Milwaukee); White Rock and Arcadian Mineral Spring companies of Waukesha, Wis.; Borden's Condensed Milk Co. of Chicago and New York. A contract with the Gould system of railways gives it access to the perishable freight business whenever the cars are not required by the aforesaid shippers.

*Statement of Earnings for Years ending Sept. 1 1903 to 1907.*

| Year— | Gross. | Net. | Year— | Gross. | Net. |
|---|---|---|---|---|---|
| 1903-04 | $368,636 | $183,062 | 1905-06 | $390,133 | $180,441 |
| 1904-05 | 358,238 | 101,872 | 1906 07 | 381,492 | 158,200 |

**United Missouri River Power Co.**—*Earnings.*—We have received the following:

*Results for Year ending Jan. 31 1908.*

| | | | |
|---|---|---|---|
| Gross earnings | $726,942 | Interest, taxes, &c | $257,381 |
| Net (after oper. exp.) | 582,403 | Depreciation | 25,000 |
| Balance, surplus for year | | | $300,022 |

For Jan. 1908 the gross earnings were $63,739; operating expenses and depreciation, $13,550; net earnings, $50,189; interest charges, $32,886; balance, surplus, $17,303.—V. 86, p. 112.

**United States Rubber Co.**—*Offering of Notes Replacing $8,000,000 5% Notes Due March 15 1908.*—Blair & Co. and the First National Bank, New York, and Kidder, Peabody & Co., Boston, Mass., are offering at 97¼ and interest, yielding 7% on the investment, $8,000,000 collateral funding 5% gold (coupon) notes of $5,000 each, due Sept. 15 1909 but redeemable at par on any interest payment date. Interest payable March 15 and Sept. 15. A circular says:

These notes are issued to refund a like amount of notes maturing March 15 1908, and are secured by the deposit with the trustee of notes of the subsidiary companies aggregating $12,000,000. The trust agreement provides that the company shall not create any mortgage debt while these notes remain outstanding and that the net cash assets shall at no time be of less value than $15,000,000 over and above all indebtedness, except the funding notes. The Treasurer states that "as of Dec. 31 1907, the net cash assets of the United States Rubber and subsidiary companies, including its proportion of the net cash assets of the Rubber Goods Manufacturing Co., were $24,296,000 over all liabilities, other than the funding notes.

"The net earnings of the company for the year ending March 31 1907 over all interest charges were $1,590,382, including only $389,308 of the Rubber Goods Manufacturing Co.'s profits of $2,004,484. For the nine months ending Dec 31 1907, the net earnings of the United States Rubber Co. and its proportion of the net earnings of the Rubber Goods Manufacturing Co. were over $4,000,000, after the payment of all interest charges."

So far as possible, holders of the outstanding funding notes maturing March 15 will be given the preferential opportunity of subscribing to the new notes.—V. 86, p. 55.

**Utica (N. Y.) Gas & Electric Co.**—*Bonds Offered.*—N. W. Harris & Co., New York and Boston, and Perry, Coffin & Burr, Boston, are offering for sale $1,000,000 "refunding and extension mortgage" 5% bonds, dated July 1 1907 and due July 1 1957.

These bonds are part of an authorized issue of $5,000,000, of which $2,000,000 is outstanding and $3,000,000 is reserved either to retire certain underlying bonds (the total of all such bonds is $2,390,000) or to provide for permanent extensions, additions, &c., up to 75% of the cash cost thereof, but only when the net earnings for the preceding 12 months have been equal to at least 9% on all bonds then issued or about to be issued. The company has "the ownership and control of the entire gas business and practically the entire electric light and power business in Utica, Little Falls, Herkimer, Mohawk, Ilion, Frankfort and other municipalities in the Mohawk Valley, the total population served being in excess of 130,000."

*Earnings for Calendar Year 1907.*

| | | | |
|---|---|---|---|
| Gross earnings | $772 729 | Interest on old bonds | $119,500 |
| Net (after taxes) | 399,595 | Int. on $2,000,000 ref. &ex. 5s | 100,000 |
| Balance, surplus for year | | | $180,095 |

# Reports and Documents.

## THE PENNSYLVANIA RAILROAD COMPANY.

### SIXTY-FIRST ANNUAL REPORT—FOR THE YEAR ENDING DECEMBER 31 1907.

*General Office, Broad Street Station, Philadelphia, 26th February* 1908.

The Board of Directors submit herewith to the Stockholders of The Pennsylvania Railroad Company a synopsis of their Annual Report for the year 1907:

| | | |
|---|---|---|
| The gross earnings of all lines directly operated were | | $164,812,825 64 |
| Operating expenses excluding taxes | $119,607,348 28 | |
| Taxes on Pennsylvania Railroad and leased lines | 3,979,164 21 | |
| Operating expenses, including taxes | | 123,586,512 49 |
| Net earnings from operation | | $41,226,313 15 |
| Deduct rentals paid roads operated on basis of net earnings | | 4,877,065 33 |
| Net operating earnings of The Pennsylvania Railroad Co. | | $36,349,247 82 |
| To which add: | | |
| Interest from investments | $10,675,427 21 | |
| Hire of equipment, interest General Account, and other items | 3,118,679 11 | |
| | | 13,794,106 32 |
| Gross income | | $50,143,354 14 |
| Deduct: | | |
| Fixed rentals of leased roads | $4,249,169 28 | |
| Interest on bonded debt | 10,412,487 18 | |
| Interest on mortgages and ground rents, interest on car trusts, &c | 1,906,641 44 | |
| | | 16,568,297 90 |
| Net income | | $33,575,056 24 |
| From this amount the following deductions have been made: | | |
| Payments account Sinking and Trust Funds and principal of Car Trusts | $3,554,545 33 | |
| Extraordinary expenditures | 3,260,651 42 | |
| Amount transferred to Extraordinary Expenditure Fund | 2,500,000 00 | |
| | | 9,315,196 75 |
| | | $24,259,859 49 |
| Dividends aggregating 7 per cent | | 21,908,435 50 |
| Balance transferred to Profit and Loss | | $2,351,423 99 |
| Amount to credit of Profit and Loss December 31st 1906 | $24,725,484 36 | |
| Add profit from Northern Central Railway stock dividend, adjustment of value of securities owned in roads absorbed, and settlements of sundry accounts | 4,648,576 01 | |
| | $29,374,060 37 | |
| Deduct amount applied toward construction of New York Tunnel Line | 7,000,000 00 | |
| | | 22,374,060 37 |
| Amount to credit of Profit and Loss December 31st 1907 | | $24,725,484 36 |

GENERAL BALANCE SHEET (Condensed).
*December 31st* 1907.

| | | |
|---|---|---|
| *Assets—* | | |

| Funded debt (including mortgages and ground rents) | | 270,974,645 13 |
| Guaranteed stock and bonds of the Harrisburg Portsmouth Mt. Joy & Lancaster RR. Co | | 1,882,550 00 |
| Securities received with the lease of the U. N. J. RR. & C. Co. | | 3,283,460 25 |
| Car Trust Principal and Taxes charged out and awaiting settlement | | 4,448,067 80 |
| Pennsylvania Company Deposit Account | | 2,290,897 09 |
| Extraordinary Expenditure Fund | | 2,500,000 00 |
| *Current Liabilities—* | | |
| Pay rolls, vouchers and net traffic balances | $20,702,079 98 | |
| Due controlled companies other than traffic balances | 9,461,819 48 | |
| Due Saving, Relief and Insurance Funds, etc. | 1,258,704 06 | |
| Interest accrued, matured and uncollected, and dividends uncollected | 2,875,981 94 | |
| Miscellaneous liabilities | 3,491,079 23 | |
| | | 37,789,664 69 |
| Sinking Funds and Trust Fund | | 9,815,955 68 |
| Profit and loss | | 24,725,484 36 |
| Total | | $672,305,375 00 |

FUNDED DEBT.

The amount of funded debt, including real estate mortgages and ground rents, December 31st, 1907, was $270,974,645 13, being an increase of $79,413,374 31. This was due to the issue of $60,000,000 of three-year collateral notes, and to the taking upon your Balance Sheet of the bonded debt of the Philadelphia & Erie Railroad, $19,823,000, as a result of the absorption of that property, as against which were credited the redemptions of various securities and the reduction in real estate mortgages and ground rents.

SECURITIES OF OTHER CORPORATIONS.

The cost of the securities of other corporations held by your Company December 31st 1907 was $219,989,663 17, and the direct revenue received therefrom during the year was $10,440,955 21, being 4.75 per cent upon the cost thereof. The increase in the cost thereof is due to the acquisition of the stock of the Bald Eagle Valley Railroad, to further investments in the securities of lines embraced in your system, and to increased holdings of Car Trust and Water Trust Certificates.

CAR TRUSTS.

The issues of Car Trust securities during the year consisted of $2,782,000 00 of Pennsylvania General Freight Equipment Certificates of 1906, embracing a balance of $782,000 00 of Series W and $1,000,000 00 each of the Certificates of Series X and Y, and $9,118,000 00 of like Certificates of 1907, embracing $1,000,000 00 each of Series A, B, C, D, E, F, G, H and I and $188,000 00 of Series J, an aggregate of $11,900,000 00. There were thus furnished for the Pennsylvania Railroad Company 1,000 steel long coke gondola cars; 5,918 steel hopper gondola cars; 476 steel underframe box cars and 334 steel underframe refrigerator cars; for the Pennsylvania Company 1,294 steel hopper gondola cars and 565 steel underframe box cars, and for the Cleveland Akron & Columbus Railway Company 335 steel underframe box cars, 76 steel flat cars, 200 steel long gondola cars, and 70 steel underframe stock cars; an aggregate of 10,268 cars.

The total number of Car Trust cars now in service is 105,142, and the Car Trust certificates outstanding December 31st 1907 aggregate $72,818,000 00.

TRAFFIC.

The number of tons of freight moved on the five grand divisions east of Pittsburgh and Erie in 1907 was 224,227,074, an increase of 51,856,011, or 30.08 per cent; the number of passengers was 67,356,833, an increase of 5,248,125, or 8.45 per cent.

The other Railroad Companies east of Pittsburgh and Erie in which your Company is interested show satisfactory results. Detailed statements of their operations will be found in their respective annual reports, as well as in the full report of your Company.

CAPITAL STOCK AND FUNDED DEBT—LINES WEST OF PITTSBURGH.

The fifty millions of Pennsylvania Company eighteen months 4½ per cent Collateral Improvement notes, which were issued May 1 1906, as stated in your last report, and which were guaranteed, principal and interest, by your Company, were paid at maturity, November 1 1907.

In order to provide for construction expenditures, underlying liens and other corporate purposes, the Pittsburgh Cincinnati Chicago & St. Louis Railway Company authorized the creation of ten millions of bonds under its consolidated mortgage, to be known as series G, to bear date November 1 1907, to run for fifty years, and to bear a rate of interest not exceeding four per cent. Of these bonds, $6,000,000 have been sold to the Pennsylvania Company, and the proceeds used in payment of construction expenditures heretofore made, and for other corporate purposes.

CAPITAL EXPENDITURES.

The amount of Capital Expenditures during the year on the Lines west of Pittsburgh for construction, equipment and real estate was $7,008,945 42.

In these expenditures were included large outlays upon track elevation in Chicago and Allegheny City; upon the revision of line and construction of second and third tracks on the Pittsburgh Cincinnati Chicago & St. Louis Railway; the improvement of yards, docks and other terminal facilities, the increase of sidings, the purchase of additional real estate and right of way, and especially upon additional motive power and equipment for both your Northwestern and Southwestern systems.

TRAFFIC.

The number of tons of freight moved on the lines west of Pittsburgh was 155,900,426, an increase of 13,530,327. The number of passengers carried was 33,001,393, an increase of 2,587,833.

The gross earnings of all lines east and west of Pittsburgh for the year 1907 were $326,785,525 96, operating expenses, $243,154,080 72, and net earnings, $83,631,445 24, an increase in gross earnings, compared with 1906, of $30,887,360 72 and a decrease in net earnings of $722,953 97. There were 435,064,136 tons of freight moved on the entire system, being an increase of 71,108,309 tons, and 153,047,046 passengers carried, an increase of 12,533,682.

GENERAL REMARKS.

In pursuance of the power conferred by the Shareholders at the last meeting and for the purpose of meeting your capital requirements, an issue was made March 15th 1907, under the terms of an agreement with the Fidelity Trust Company as Trustee, of $60,000,000, three-year five per cent collateral notes. This course was adopted by reason of the fact that, under the financial conditions then existing, long-term securities could not be placed on a satisfactory basis.

There was a heavy increase in the volume of freight traffic until the month of December, the tonnage and ton mileage for the year showing a large gain and the revenue an increase of more than twelve and a half per cent over the previous year; but there was a material reduction in the gross and net earnings per ton per mile. While the increase in the passenger traffic was much below the percentage shown in 1906 over 1905, being but nine and thirteen one-hundredths per cent as against fourteen and forty-one one-hundredths per cent, the gross revenue therefrom increased barely four and one-half per cent, as compared with a gain in 1906 of fourteen per cent over the preceding year. The expenses, also, were largely increased, the cost per passenger per mile showing an increased percentage of nearly thirteen per cent and the cost per train mile an increase of nearly seventeen per cent. As a result there was a reduction of nearly one-third in the net earnings per passenger train mile; and while this was due in part to a more accurate distribution of expenses as between freight and passenger traffic, it was clearly shown that the lower fares which prevailed during a portion of the year had not stimulated traffic to the extent necessary to offset the loss of revenue and the higher cost of operation due to the increase in wages and cost of supplies. It may be noted here that the average rate received upon the entire system during the year was less than two cents per mile.

There was a further increase in taxes, the amount paid upon your own property and upon that of the lines operated by your Company for the year aggregating $3,979,164 21, as against $3,715,033 82 for the preceding year.

After meeting all liabilities and paying dividends aggregating seven per cent, and $3,150,693 72 on account of the maturing principal of Car Trusts, there was a surplus of $8,112,075 41, of which $3,260,651 42 was applied toward the Extraordinary Expenditures of the year, $2,500,000 00 transferred to the Extraordinary Expenditure Fund and $2,351,423 99 credited to your Profit and Loss Account.

The heaviest outlays during the year between Pittsburgh and Jersey City were upon the extension of the four-track system on your Main Line, the revision of the low-grade freight line along the Conemaugh River, formerly known as the Western Pennsylvania Railroad, the extension and improvement of yards and terminal facilities at various points, the purchase of right of way in connection with the construction of further relief freight lines and the perfecting of your permanent water supply.

The aggregate expenditures for construction, equipment and real estate during the year upon your Main Line between New York and Pittsburgh, including $6,150,693 72 on account of the principal of Car Trusts and $500,000 on account of the principal of Water Trust Certificates, were $19,812,-455 98, of which $9,110,780 57 was charged to capital account, $5,530,826 75 against the income of the year, and $5,170,848 66 against the Extraordinary Expenditure Fund theretofore existing. There was also charged against the income for the year the amount of $880,518 39 advanced to the Western New York & Pennsylvania Railway and other subsidiary companies.

The capital expenditure on the branch lines, which was met out of their own resources, aggregated $1,462,321 21.

In pursuance of the policy announced in the last report, the expenditures for the year were confined almost exclusively to the completion of work actually under way; and it is gratifying to note that with the exception of a portion of the relief freight lines for which no present necessity exists, substantially all the improvements outlined in the report for 1902, as essential to put your road in condition to meet the legitimate demands of your traffic, have been completed. As a result, the average daily mileage of the freight cars moved over your lines increased about twenty per cent between 1903 and 1907. The expenditures for the present year will be practically confined to finishing the work now in progress on the main line, and to the Tunnel Extension into and through New York and the Terminal Station in that city.

The progress upon the Tunnel Extension has been satisfactory, although it has necessarily been delayed by the engineering, legal and municipal questions inseparable from so extensive an undertaking. It is expected that the entire work upon the tunnels and terminal station will be completed in 1910.

On the section between Harrison, east of Newark, where the Tunnel Extension leaves your New Jersey Division, and the western portal of the Bergen Hill Tunnels, substantial progress was made during the year upon the masonry, superstructure and embankment necessary to carry your railroad across the Meadows above the grades of the railways and streets traversing that territory. The two tunnels through Bergen Hill have, with the exception of about seven hundred feet, been fully excavated. The concrete lining is being placed in the Bergen Hill Tunnels and also in the two tubes under the Hudson River, while the excavation is completed from the river to the Terminal Station approach at Tenth Avenue. From Tenth to Ninth Avenue more than half of the work has been finished, and on the Terminal Station site between Seventh and Ninth avenues in New York City practically all the retaining walls and foundations are in place. The steel viaducts for the support of the streets adjoining the station site and for the avenues crossing it are also nearing completion, while the steel structure of the station itself is in process of erection. The tunnel excavation from the terminal site eastwardly to the First Avenue shafts on the westerly side of the East River is completed, with the exception of the section between Fifth and Sixth avenues, and nearly one-half of the concrete lining and other work on that portion of the line is completed. In the construction of the four tunnels under the East River, one of the iron tubes has already been completed, and the remaining tubes will be connected early in the present year.

The tunnels under Long Island City from the East River to East Avenue shaft in the Borough of Queens have been completely excavated and iron lined, and two-thirds of the concrete lining is in place. The work between the East Avenue shaft and the western end of Sunnyside Yard, near Thomson Avenue, where the tunnels reach the surface, is under construction.

It was not possible to actively proceed with the Sunnyside Yard until a number of changes had been made in the City plans covering the re-location of certain streets and the construction of highways across the yard so as to eliminate grade crossings. But an agreement for this purpose having been reached in June last, the necessary work on the viaducts, embankments and bridge masonry is now under way.

This yard will be about fifty-five hundred feet long and fifteen hundred and fifty feet across at the widest point, and is an important part of the Tunnel Extension. The Long Island Railroad and the New York Connecting Railroad eventually will be directly connected with your New York Tunnel Extension in the vicinity of the yard, and through these lines the New York New Haven & Hartford Railroad and its New England connections will be provided with a direct all-rail route to the South and West over your system.

By reference to the general balance sheet it will be seen that the total amount capitalized on account of the New York Tunnel Extension to December 31 1907 is $39,541,-414 45, but this does not embrace the sums charged off from time to time against income and profit and loss accounts. These latter sums aggregated $23,000,000 00 prior to 1907; and as from adjustments made during the year already noted, large credits accrued to your Profit and Loss account, an opportunity was afforded to charge off the further amount of $7,000,000 00 on account of the Tunnel Extension, making the total charges to date against Income and Profit and Loss accounts $30,000,000 00. There will also be substantial credits to the cost of this work arising from the sale of surplus real estate not permanently required for the uses of the Tunnel Company. During 1907 over $1,600,000 00 was received from this source, the main item being the consideration paid by the United States Government for the post office site conveyed to it on Eighth Avenue between Thirty-first and Thirty-third streets.

The Companies engaged in its construction, namely, the Pennsylvania New York & Long Island Railroad Company, a corporation of the State of New York, and the Pennsylvania New Jersey & New York Railroad Company, a corporation of the State of New Jersey, were, pursuant to the laws of both States, consolidated and merged on June 26 1907 into the Pennsylvania Tunnel & Terminal RR. Co.

Large expenditures were also made upon the Philadelphia Baltimore & Washington, West Jersey & Seashore and Long Island Railroad Systems, the funds for which have been temporarily advanced by your Company.

The prosperity which had existed for a number of years in all branches of industry, and which had so exceptionally increased the traffic upon the railways, met with a severe check in November last, which is now largely affecting the revenues of your system. While a number of causes seriously disturbed public confidence, and thus brought on the financial panic which has so sharply affected the business interests of the country, an important one undoubtedly was the fear that, as the result of recent Federal and State legislation, the regulation of the railways had approached so nearly to an effort to control their management and revenues that the investments therein were not assured of that protection to which they are justly entitled. Eventually it may be assumed the questions that arise will be fairly adjusted, but in the meantime the railways have to face the loss of revenue consequent upon the enforced idleness of a large portion of their equipment, while to a proportionate number of their employees this has necessarily brought about either an entire loss of employment or a material reduction in their hours of labor.

In Pennsylvania, notwithstanding the legal maximum charge was three cents per mile, and the rates on passenger travel had been adjusted from time to time upon a careful consideration of the extent, frequency and character of the service rendered, and while the average rate received upon your lines was only about two cents a mile, a bill was passed under which the railways of the State were forbidden to charge, under any circumstances, more than that rate for transportation within the State. In order to earn the average rate theretofore received, it would have been necessary to advance the special rates on commutation and excursion business, which are specially authorized by the Constitution, had been long in force, and had furnished the basis upon which communities had been built up, values fixed and methods of living established which promoted the health and comfort of the public; or, in default of such action, the rate fixed by the law referred to would have reduced your earnings below a fair and proper return upon the capital invested.

For these reasons legal proceedings were instituted in the Court of Common Pleas of the County of Philadelphia to restrain the enforcement of this law. After an exhaustive examination of the data and facts submitted, it was decided to be unconstitutional by reason of the fact that under its provisions injustice would be done to the owners of the railways, and this decision was affirmed on appeal by the Supreme Court of the State.

In pursuance of the action taken by the Shareholders at the last annual meeting, the Philadelphia & Erie Railroad has been merged into the main line; and in further pursuance of the policy of acquiring the minority interests in roads in your system, where such acquisition promotes efficiency and economy of operation, and is to your general advantage, your Board has purchased on satisfactory terms all the individual interests in the Bald Eagle Valley Railroad, which extends from a point near Tyrone on your main line to Lock Haven on your Erie Division.

It has also been deemed advisable to absorb the Junction Railroad, three miles in length, which furnishes the connection in the city of Philadelphia between the Philadelphia Baltimore & Washington Railroad, your Main Line, and the Philadelphia & Reading Railway, and the entire stock interest where in is owned by your Company; and also the South-West Connecting Railway, a small branch, about a mile and three-quarters long, in the Connellsville coke region.

Your approval will therefore be asked of the necessary agreements covering the absorption of the Bald Eagle Valley Railroad, Junction Railroad and South-West Connecting Railway properties.

The charges to CAPITAL ACCOUNT during the year were as follows:

| | | |
|---|---|---|
| COST OF ROAD: Expenditure on the four-track system on Main Line, on double-tracking Conemaugh Division, on Pitcairn, Hollidaysburg and other yards, and on branches, shops and other facilities | $5,394,932 13 | |
| Cost of Philadelphia & Erie Railroad, absorbed | 30,208,000 00 | |
| Amount transferred from Real Estate account, being property used for railroad purposes | 14,200,284 21 | |
| | | $49,803,216 34 |
| EQUIPMENT: Portion of cost of locomotives and freight and passenger cars | $543,059 31 | |
| Portion of payments on account of principal of Car Trust Certificates | 3,000,000 00 | |
| | | 3,543,059 31 |
| | | $53,346,275 65 |
| REAL ESTATE: Credits thereto on account of transfer to Cost of Road, as above | $14,200,284 21 | |
| Less additional purchases | 172,789 13 | |
| | | 14,027,495 08 |
| Total charges to Capital Account for 1907 | | $39,318,780 57 |

It will be noted that the sum of $3,000,000, being a portion of the payments on account of Car Trust Equipment, has been charged to Capital Account. This was deemed advisable by reason of the fact that the large sums heretofore charged therefor against income had reduced the book value of your equipment to a figure below its actual value. Of the 247,699 freight cars now furnished by the lines in your system, more than one-half are either steel cars or of steel underframe construction.

The increase of CAPITAL STOCK during the year was as follows:

| | |
|---|---|
| Issued in exchange for Convertible Bonds of 1902 | $5,000 00 |
| In exchange for Convertible Bonds of 1905 | 5,650 00 |
| In exchange for Allegheny Valley Railway Company Preferred Stock | 164,050 00 |
| In exchange for Cumberland Valley Railroad Stock | 1,694,400 00 |
| In exchange for Philadelphia & Erie Railroad Stock | 4,485,200 00 |
| In exchange for Bald Eagle Valley Railroad Stock | 2,289,000 00 |
| Total issue during 1907 | $8,643,300 00 |

Included in this amount are the balances held, as noted on the Balance Sheet, to retire the small individual holdings of stock outstanding at the end of the year in the Allegheny Valley, Cumberland Valley, Bald Eagle Valley and Philadelphia & Erie raliroads.

The Board have to record with the deepest regret the death on October sixth, in the 83d year of his age, of Mr. Alexander M. Fox, who had served continuously as one of your directors since 1871. His sound judgment and long experience made him a wise counselor, while his attractive personality and devotion to your interests had won the high regard and confidence of his associates.

Mr. Percival Roberts Jr. was elected a Director on October 23d to fill the vacancy thus created.

Mr. Hugh B. Ely, Superintendent of the Insurance Department, in which he had served continuously with the highest efficiency since its establishment in 1882, having died October 30th, Mr. R. H. Newbern, Assistant Superintendent of that Department, was appointed November 13th 1907 to the position thus vacated.

By order of the Board,

JAMES McCREA, *President.*

Attest: LEWIS NEILSON, *Secretary.*

STOCKHOLDERS MAY OBTAIN COPIES OF THE REPORT IN PAMPHLET FORM ON AND AFTER 3rd MARCH 1908 ON APPLICATION IN PERSON OR BY LETTER TO LEWIS NEILSON, SECRETARY, ROOM 269 BROAD STREET STATION, PHILADELPHIA.

## DOMINION COAL COMPANY, LIMITED.

### REPORT OF DIRECTORS FOR YEAR ENDING DECEMBER 31ST, 1907.

COMPANY'S OPERATIONS.

The output for 1907 was 3,541,253 tons, as compared with 3,552,746 tons for 1906, or 11,493 tons less than in the corresponding period. The decrease was due to the fact that mining operations had not been resumed at No. 7 Mine since the fire which occurred in December 1906. The business of the Company has been adversely affected by the following circumstances:

The weather experienced throughout the winter and the spring was abnormally severe, thereby delaying the opening of navigation at Sydney by about four weeks, and, owing to the presence of drift ice along the Nova Scotia coast and in the Gulf, the regular shipments to the St. Lawrence did not begin until June 6th. These unusual conditions rendered it impossible to get up the full quantity of coal required for St. Lawrence points during the season of open navigation; supplementary shipments had to be made via Portland, Me., after the closing of the river, entailing heavy additional cost of railway carriage from that port to Montreal. The delays to steamers also caused an increase in the freighting costs.

Mining costs have continued to increase greatly, by reason of the scarcity of labor, the irregular working of men and the high prices paid for all materials used at the mines, including hay and feed for horses; these conditions were the most unfavorable in the history of the company.

COMPANY'S PROPERTY.

No. 7 Mine was idle nearly all the year on account of the fire as above noted, which destroyed the bankhead and all surface works, and necessitated the flooding of the mine from the ocean. The flooding was stopped on January 29th 1907, and pumping out commenced immediately after; the first coal was hoisted on November 27th. All surface works have been replaced and are now in first-class order, and the mine in condition to give a normal output next season.

*New Works.*—One of the new mines (No. 12), referred to in the last annual report, has been opened in the Lingan-Victoria district. The main slope has been driven 390 feet, and the back deep 335 feet, and first levels have been broken off. The prospects in this district show great promise and when fully developed the new colliery will produce a substantial output. The construction of the branch line (about seven miles in length) connecting this district with the main line of the Company's railway has been commenced. The bush has been cleared for four miles and grading completed for two miles. Some 368 acres of land have been purchased for the surface works, town site and reservoir, and the necessary clearing has been completed to a sufficient extent to admit of the erection of the temporary mine buildings, boarding-houses and stables.

Following the policy already established by your directors to safeguard in every possible manner life and property, careful attention has been paid to the prevention of fires both for underground and surface works. All collieries are periodically inspected by a special fire inspection committee, and regularly drilled fire brigades are organized at each of the collieries. Safety lamps are now in use at all the mines.

*A Rescue Station* at a central point with full equipment has been established, including twenty sets of "Draeger Breathing Apparatus," to enable men in any emergency to work in a poisonous atmosphere. A volunteer corps for such service has been organized and the men have been drilled in the use of the apparatus by a competent instructor brought over from England.

*A Horse Hospital* has been erected in which the sick and injured mine horses are properly treated with satisfactory results.

*Wrecking Plan.*—In response to the invitation of the Federal Government to tender for the establishment of a wrecking plant to afford aid to wrecked, disabled or stranded vessels within the coastal waters of the Maritime Provinces and the Gulf of St. Lawrence, an offer was submitted by the Company which was accepted, and an agreement entered into for five years. Certain of the Company's steamers have been assigned to this duty and a complete salvage outfit purchased. During the eight months of its existence assistance has been rendered to eleven vessels.

*New Coasting Steamer.*—Owing to the great difficulty experienced in obtaining schooners to carry on the coastwise trade, a specially designed steamer was built in Scotland to the Company's order. This steamer, the *Cabot,* arrived at Sydney on September 21st, and has been continuously employed in the trade since that date.

*Loading Plant at Glace Bay Harbor.*—A trestle and chute have been erected at this point to provide return cargoes

for sailing craft coming in with lumber and produce, and the berth in this harbor dredged to enable vessels to lie alongside. These facilities have proved advantageous to the Company.

*Rolling Stock, &c.*—One new main line locomotive and one new bank-switching locomotive have been purchased during the year. Also one new steam shovel for the banking station. The capacity of the banking station has been increased by building new turn-out and trestle. Scales for weighing coal on cars have been installed in Nos. 1, 2 and 4 Colliery Yards. A new 65-foot turn-table has been erected at the Glace Bay Round House.

*New Dwelling-Houses* for miners were erected as follows: No. 5 Colliery, 29 houses; No. 4 Colliery, 1 house; Mechanics' Row, 1 house; and one boarding-house in No. 2 District, and construction started on one hundred additional houses at various places. A census was taken in October showing a total population of 10,600 persons occupying the Company's houses.

*A New Bankhead* to serve both Emery and Phalen seams at No. 5 Colliery has been built and was put in operation on July 1st, replacing the old bankhead destroyed by fire in October 1906. Also a new machine-shop equipped with all necessary modern tools.

*Electric Power Transmission.*—The third unit has been installed at the Central Electric Station at No. 2 and the use of electric power extended during the year by the installation of an electric underground haulage engine at No. 3 Colliery, the introduction of electrically drived turbine pumps at several collieries, electric motors to run the central machine-shop at Glace Bay and at No. 2 Colliery, and the bankhead machinery at No. 5 and No. 7 Collieries, and for hoisting tanks at No. 8 water shaft.

The Company's property generally has been maintained in a state of efficiency and the development of the mines regularly carried on so as to insure the best possible results.

*Company's Stores.*—The management of the commercial stores, which was found to be most unsatisfactory, has been completely changed, and the pernicious system of allowing long time and indiscriminate credits to workmen discontinued. A careful inventory of the goods in stock has been taken and loss for depreciation provided for.

GENERAL.

The suit taken against the Company by the Dominion Iron & Steel Company referred to in the last annual report was tried at Sydney (July 30th to August 19th) before Mr. Justice Longley, and judgment given in the plaintiff's favor on September 16th. Your directors have throughout been acting upon the advice of eminent counsel but after this reverse, for their fuller satisfaction they took other counsel into consultation, who were unanimous in their opinion that the Coal Company's contentions were right and would eventually be maintained. The appeal taken before the Supreme Court of Nova Scotia was heard at Halifax on December 17th 1907, and a decision in favor of the Steel Company was given on January 14th 1908. Since receiving this second adverse judgment and in view of the appeal which has been taken to the Privy Council, your directors have submitted the case separately to three prominent members of the Ontario bar, and to two United States lawyers of high standing. In each case an entirely favorable opinion has been received and your directors consider that the recent decisions should be reversed and judgment given in favor of this Company.

Your directors regret that the annoyance and expense of a protracted litigation should continue to be borne by the Company, but as no genuine response has up to the present been made by the Steel Company to the numerous overtures put forward from time to time by influential friends of the two companies for a settlement on fair and equitable lines, the only alternative would have been complete surrender to the Steel Company's unreasonable demands. The questions involved are so vital to the prosperity of this Company, and your directors' belief in the justice of the Company's cause and its ultimate success in the suit being well assured, they have had no alternative in the best interests of the sharholders but to earnestly prosecute the appeal to the Privy Council.

Your directors, however, continue ready to discuss any feasilble scheme of settlement offered by the Steel Company recognizing that in view of the intimate relations which must inevitably exist between them, an amicable termination of the dispute would redound to the greater advantage of both companies.

Respectfully submitted,

JAMES ROSS, *President.*

BALANCE SHEET OF THE DOMINION COAL COMPANY, LIMITED AS AT DECEMBER 31ST 1907 (COMPARED WITH DECEMBER 31ST 1906.)

| *Balances.* | *For year ending Dec. 31 1906.* | *For year ending Dec. 31 1907.* |

—V. 85, p. 669.

—E. H. Rollins & Sons, Chicago, have just secured the services of John F. Bacon as their representative in Wisconsin and Minnesota, beginning March 1. Mr. Bacon is a well-known bond salesman in the West, having for several years past been connected with the Chicago office of Kleybolte & Co. Rollins & Sons have appointed as their Ohio representative H. M. Jenks, with headquarters in the Fourth National Bank Building, Cincinnati. Mr. Jenks has been associated with the bond house of A. B. Leach & Co. for a number of years.

—Mr. Robert H. McCurdy, formerly General Manager of the Mutual Life Insurance Co., has become connected with the long-established Stock Exchange house of Henderson & Co. Associated with Mr. McCurdy will be Messrs. Norman Henderson and Louis E. Hatzfeld. The firm will be known as McCurdy, Henderson & Co., with offices at 24 Nassau St., where they will be prepared to execute orders for stocks, bonds and investment securities.

—Duke M. Farson, for many years a prominent bond dealer in Chicago, has resumed business under his own name. He was for a time connected with the firm of Farson, Son & Co. in the First National Bank Building, but has now opened offices at 238 La Salle St. As heretofore, Mr. Duke Farson's specialties are high-grade municipal and corporation bonds.

—D. Thomas Moore and H. V. D. Moore, member of the New York Stock Exchange, have formed the new firm of D. T. Moore & Co., 40 Wall St., to succeed Morse, Moore & Moore, which was dissolved by mutual consent. The new partnership will conduct the old concern's stock and bond commission business.

—W. A. MacKenzie & Co. announce that they have opened an office for the purchase and sale of municipal and corporation securities in Room 58, Canada Life Building, Toronto. Mr. MacKenzie was for several years with the firm of Aemilius Jarvis & Co. as manager of their bond department.

—Leo M. Prince and Victor M. Reichenberger, both members of the New York Stock Exchange, have organized the new firm of L. M. Prince & Co. at 20 Broad St. for the transaction of a commission business in stocks and bonds.

—In an advertisement printed on page xv, N. W. Harris & Co., Pine St. corner William St., New York, also at 35 Federal St., Boston, and the National City Bank of this city are to-day offering an additional $2,500,000 issue of Chicago Railways Co. first mortgage 5% gold bonds due Feb. 1927. The recent offering of $2,500,000 Chicago Railways Co. first mortgage bonds was largely oversubscribed on the first day on which investors were given an opportunity to purchase. The proceeds of the present issue will be used to enable the company to make immediate further extensions and additions. Full particulars of this latest bond offering appear in to-day's advertisement, while a detailed financial description and a map of the property was published in the Feb. 29 issue of the "Electric Railway" Section, sent our subscribers last Saturday. Other important information regarding the company's latest developments can be gleaned from the investment news items in the "Chronicle," Feb. 29, p. 545 and 546. The additional issue is offered at 95½ and interest, netting the investor 5⅜%.

—Another enterprise of more than passing importance has been added to the financial institutions of Kansas City in the opening on March 2 1908 of the Kansas City (Mo.) Stock Exchange. Direct wire service has been secured with all the prominent exchanges throughout the country, and quotations will be furnished of the leading stocks and securities of the New York, Chicago, Boston, San Francisco, Los Angeles, Goldfield and Colorado Springs exchanges. The officers and directors of the Exchange and its list of stockholders include, it is stated, some of the best business men of Kansas City and vicinity and of the East and the West.

—Bond & Goodwin, Bankers and Brokers, Trinity Building, New York, and 35 Congress Street, Boston, have removed their Chicago office from the First National Bank Building to No. 234 La Salle Street, where, in addition to their extensive commercial paper business, they are now equipped to execute orders for the purchase and sale of securities on the New York and Boston exchanges. They succeed to the stock and bond business of C. E. Welles & Co. at the same location, and Mr. May, manager in Chicago for Welles & Co., will remain in charge of these departments.

—Winmill & Fish, bankers, 20 Broad St., New York, desire bids on 50 shares of Manhattan Real Estate Association stock, 50 shares New York Real Estate Association stock, 100 shares Blickensderfer Manufacturing Co. stock, 100 shares New England Watch Co. stock and for rights on 100 shares N. E. W. Co. stock. The firm will consider any reasonable bid which intending purchasers make on these securities. Telephone 445-6-7 Rector.

—The reader's attention is invited to the advertisement of A. M. Kidder & Co., 18 Wall Street, offering 2,000 shares tax-exempt Cleveland & Pittsburgh RR. Co. 4% betterment stock, guaranteed by Penn. RR. Co., at a price to return the buyer 4¼%. After paying all other charges, the earnings of the road were equal to 25% on this 4% guaranteed betterment stock, of which the par value is $50 per share.

---

—"The Financial Review" annual for 1908, compiled by the publishers of the "Commercial and Financial Chronicle" of New York, has been issued. It is an invaluable book of reference for commercial and financial statistics.

Some of the contents are as follows:

Retrospect of 1907, giving a comprehensive review of the business of that year, with statistics in each department, financial and commercial.

Bank Clearings in 1907, with comparative statistics for 25 years.

Number of shares sold on the New York Stock Exchange in each of the past 20 years.

Securities listed on the New York Stock Exchange in 1907; also principal note issues sold in 1907.

Money rates by weeks for past four years on all classes of loans.

Weekly Bank Statements in 1906 and 1907.

Crop Statistics for a series of years.

Iron and Coal—Production for a series of years.

Gold and Silver—Production for a series of years and Monthly Range of Price of Silver since 1836.

Exports and Imports for a series of years.

Comparative prices of Merchandise for a series of years.

Foreign Exchange—Daily Prices in New York in 1907.

Great Britain—Review of commercial and financial affairs, with comparative statistics.

Bank of England Weekly Statements in 1907, and the changes in the Bank rate for a series of years; also bank rate in principal Continental cities.

Government Bonds—Monthly Range since 1860 and Debt Statement.

State Bonds—Record of Prices since 1860.

Railroad and Miscellaneous Bonds and Stocks—Monthly Range of Prices for five years in New York and for one year in Boston, Philadelphia and Baltimore.

Description of Railroad and Industrial Securities, Records of Earnings, Dividends, Railroad Construction, and other statistics, for a series of years.

The price of the Review is $2.

William B. Dana Co., 76½ Pine Street, New York.

Copies may also be had from P. Bartlett, 513 Monadnock Blk., Chicago; Edwards & Smith, 1 Drapers Gardens, London

# The Commercial Times.

## COMMERCIAL EPITOME.

*Friday Night, March 6 1908.*

Though business is mending to some extent, the improvement is very slow. Some of the iron and steel mills have started up and retail and jobbing purchases of general merchandise have somewhat increased, while prices in the main are pretty well maintained. But caution is the word.

| *Stocks of Merchandise.* | | *March 1 1908.* | *Feb. 1 1908.* | *March 1 1907.* |
|---|---|---|---|---|
| Lard | tierces | 8,225 | 7,750 | 7,325 |
| Cocoa | bags | 11,420 | 12,500 | 8,500 |
| Coffee, Brazil | bags | 3,314,929 | 3,303,945 | 3,327,108 |
| Coffee, Java | mats | 63,500 | 36,425 | 248,300 |
| Coffee, other | bags | 206,234 | 191,563 | 265,823 |

| Flour | barrels and sacks | 48,900 | 47,400 | 64,600 |

LARD on the spot has advanced, owing to a rise in futures at the West, a firmer market for hogs at times and light offerings. Trade has increased somewhat, but the demand is still, in the main, for small lots. City 7¼c. and Western 7.60c. Refined lard has also advanced, with some increase in the demand. Refined Continent 8.15c., South America 8.75c. and Brazil in kegs 9.10c. Speculation in lard futures at the West has been active. Prices have shown some irregularity, but in the main the trend of the market has been upward, owing to buying by large packers, investment buying through various commission houses, more favorable trade reports, the strength of the grain markets, an absence of aggressive selling and covering of shorts.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

| | *Sat.* | *Mon.* | *Tues.* | *Wed.* | *Thurs.* | *Fri.* |
|---|---|---|---|---|---|---|
| May delivery | 7.65 | 7.65 | 7.80 | 7.70 | 7.75 | 7.95 |
| July delivery | 7.85 | 7.87½ | 8.00 | 7.92½ | 7.95 | 8.17½ |
| September delivery | 8.07½ | 8.10 | 8.22½ | 8.12½ | 8.17½ | 8.37½ |

PORK on the spot has advanced, owing to a noteworthy increase in the demand and light offerings. Mess $14@$14 50, clear $14 75@$15 75 and family $15 50@$16. Beef has been firm, owing to an increasing demand, partly for export, and light supplies. Mess $11@$11 50, packet $12@$12 50, flank $11 50@$12, family $13 50@$14 50 and extra India mess $21@$21 50. Cut meats have been quiet and steady. Pickled hams 8½@9c. and pickled bellies, 14@10 lbs., 7@7¾c. Tallow has been dull and steady; City 5@5⅜c. Stearines have been quiet and steady; oleo 7¼c. and lard 8½@8¾c. Butter has been quiet and steady; creamery extras 30c. Cheese has been quiet and steady; State, small, fancy, 15¾c. Eggs have been fairly active and steady; Western firsts 23½c.

OIL.—Cottonseed has been quiet and easier; prime summer yellow 37c. Linseed has been moderately active and steady; city, raw, American seed, 43@44c.; boiled 44@45c., and Calcutta, raw, 70c. Lard has been quiet and steady; prime 67@69c. Cocoanut has been fairly active and steady; Cochin 8@8½c. and Ceylon 6¾@7¼c. Olive has been dull and easier; yellow 60@70c. Peanut has been dull and steady; yellow 65@80c. Cod has been quiet and steady; domestic 42@43c. and Newfoundland 44@45c.

COFFEE on the spot has been quiet and steady; Rio No. 7, 6¼c. West India growths have been quiet and steady; fair to good Cucuta 9½@10⅝c. Speculation in future contracts has continued quiet with slight changes in prices. On Thursday, the 5th inst., the announcement of a bank suspension in Brazil caused selling for local and foreign account. Local roasters and dealers continue to give the market support. There is believed to be a large short interest here. The closing prices were as follows:

| | | | | | |
|---|---|---|---|---|---|
| March | 5.85c. | July | 6.00c. | November | 6.15c. |
| April | 5.90c. | August | 6.05c. | December | 6.20c. |
| May | 5.95c. | Septmeber | 6.10c. | January | 6.20c. |
| June | 6.00c. | October | 6.10c. | February | 6.25c. |

SUGAR.—Raw dull but firmer. Centrifugal, 96-degrees test, 3.89c.; muscovado, 89-degrees test, 3.39c.; molasses, 89-degrees test, 3.14c. Refined dull but firmer; granulated, 4.80@4.90c. Teas and spices have been in good demand and generally firm. Hops quiet and steady.

PETROLEUM moderately active and firm. Refined, barrels, 8.75c.; bulk, 5.00c.; cases, 10.90c. Gasoline has been in good demand and firm; 86-degrees in 100-gallon drums, 22c., drums $8 50 extra. Naphtha has been fairly active and firm; 73@76 degrees in 100-gallon drums 19c., drums $8 50 extra. Spirits of turpentine quiet at 52½c. Common to good strained rosin steady at $3 75.

TOBACCO.—Prices for domestic leaf have been rather heavy, but no marked changes have occurred. Trade has been quiet, with the purchases limited in the main to small quantities to meet immediate requirements. Havana has been quiet and easy. At the Sumatra inscriptions somewhat lower prices are expected to prevail.

COPPER dull and easier; lake 12⅜@12½c.; electrolytic 12¼@12⅜c. Lead dull and easier at 3.60@3.65c.. Spelter dull and easier at 4.65@4.75c.. Tin quiet and firmer; Straits 29¾c. Iron has been quiet and steady.

# COTTON.

*Friday Night, March 6 1908.*

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 97,612 bales, against 117,984 bales last week and 134,208 bales the previous week, making the total receipts since the 1st of September 1907, 6,937,324 bales, against 8,346,088 bales for the same period of 1906-07, showing a decrease since Sept. 1 1907 of 1,408,764 bales.

Speculation in cotton for future delivery has still kept within very moderate bounds, and aside from some aggressive manipulation of the near months, resulting in an advance in these deliveries, nothing very striking has taken place. The later months have remained practically stationary. Among the factors which have contributed to the advance in March and May have been the continued small receipts, the bullish weekly exhibit of statistics, covering by some of the more nervous shorts and vigorous buying at times by certain prominent bull interests. Firmness of Liverpool prices, activity in the spot business there, some reports of improvement in Manchester's trade and predictions of bullish ginning figures have also had a very noticeable influence. Then, too, the idea that farm work, especially east of the Mississippi, is very backward has counted for something, even though it be very generally recognized by experienced people in the trade that there is still plenty of time to catch up. Somewhat better financial conditions have also had some effect. But beyond and above all this was the idea that a large, concentrated short interest existed in March and May—especially May—an idea which seemed to be supported by the fact that the relative value of May has increased very noticeably as compared, for instance, with July. Recently May was only about 10 points over July, but during the past week this premium has trebled, though it has really fluctuated between 23 and 30 points, as against a premium at times last week of 9 to 11. The May option, too, which was recently at a discount under New Orleans May, has latterly reached a premium over May at that market. March, also, has shown noteworthy strength, although the transactions in that month have been comparatively small. A point on which a good deal of stress has been laid is the strength of spot and near-by deliveries and the apparent impracticability of bringing cotton here from the South with spot prices in that section so far above the New York "future" parity. But latterly prices have weakened somewhat, even on the near deliveries, owing to liquidation in which, according to a very general opinion, some of the leading bulls have taken part. Also, there have been rumors that a lockout of some 20,000 hands in Manchester is imminent. Short-time continues very general in this country. Mills are still buying the actual cotton on a very small scale, and speculation, dull for a considerable period, is not improved by the anti-option agitation at Washington, which, it is feared, may take shape in the passing of some bill by the House of Representatives inimical to trading in futures. Nevertheless, it may be reiterated that there has been an undercurrent of strength all the week, not only in the spot prices at the South, but also in the near months here, and within a day or two leading bull interests seem to have resumed their buying. The reduction in the Bank of England's rate of discount to 3½% and the daily sales of 10,000 bales of spot cotton at Liverpool have been by no means ignored. To-day prices declined, owing partly to reports that the Federation of Spinners had issued circulars announcing short time in Lancashire. Some "long" liquidation here followed. Spot cotton has been quiet. Middling uplands closed at 11.45c.

The official quotation for middling upland cotton in the New York market each day for the past week has been:

| *Feb. 29 to Mch. 6—* | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. |
|---|---|---|---|---|---|---|
| Middling upland | 11.45 | 11.65 | 11.65 | 11.65 | 11.55 | 11.45 |

## NEW YORK QUOTATIONS FOR 32 YEARS.

| | | | | | | |
|---|---|---|---|---|---|---|

Continental imports for the past week have been 166,000 bales.

The above figures for 1908 show a decrease from last week of 67,998 bales, a loss of 792,040 bales from 1907, a decrease of 420,914 bales from 1906, and a gain of 474,556 bales over 1905.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

| Towns. | Movement to March 6 1908. Receipts. Week. | Receipts. Season. | Shipments Week. | Stocks March 6. | Movement to March 8 1907. Receipts. Week. | Receipts. Season. | Shipments. Week. | Stocks March 8. |

WEATHER REPORTS BY TELEGRAPH.—Advices to us by telegraph from the South this evening denote that the weather has been more favorable the past week. Where rain has fallen the precipitation has been moderate or light, but in many sections, notably in Texas, dry weather has prevailed. As a result of the better meteorological conditions, farm work is making good progress quite generally.

*Galveston, Texas.*—There has been no rain the past week. The thermometer has averaged 66, ranging from 60 to 72. February rainfall three inches and thirty-five hundredths.

*Abilene, Texas.*—There has been no rain during the week. The thermometer has ranged from 52 to 84, averaging 68. Month's rainfall eleven hundredths of an inch.

*Corpus Christi, Texas.*—We have had no rain the past week. Average thermometer 69, highest 74, lowest 64. February rainfall one inch and nine hundredths.

*Fort Worth, Texas.*—There has been no rain the past week. The thermometer has averaged 68, the highest being 84 and the lowest 52. Month's rainfall two inches and forty-one hundredths.

*Palestine, Texas.*—There has been no rain during the week. The thermometer has averaged 72, ranging from 62 to 82. February rainfall four inches and forty-five hundredths.

*San Antonio, Texas.*—There has been no rain during the week. The thermometer has ranged from 62 to 84, averaging 73. Month's rainfall two inches and forty-two hundredths.

*Taylor, Texas.*—The week's rainfall has been only a trace, on two days. Average thermometer 72, highest 82 and lowest 62. February rainfall four inches and forty-one hundredths.

*New Orleans, Louisiana.*—We have had rain on two days during the week, the precipitation being nine hundredths of an inch. The thermometer has averaged 69. Month's rainfall four inches and fourteen hundredths.

*Shreveport, Louisiana.*—There has been only a trace of rain during the week. The thermometer has ranged from 44 to 82, averaging 63.

*Vicksburg, Mississippi.*—There has been rain on one day the past week, to the extent of four hundredths of an inch. The thermometer has averaged 67, ranging from 55 to 78.

*Helena, Arkansas.*—Farm work is now progressing well. The river is still rising and is now 7½ feet below high water mark. It has rained on one day during the week, the rainfall reaching twenty-four hundredths of an inch. Average thermometer 58.6, highest 77 and lowest 45. February rainfall six inches and ninety hundredths.

*Memphis, Tennessee.*—Rainfall for the week one inch and fifteen hundredths on two days. The thermometer has averaged 56.8, ranging from 33.3 to 74.1. Month's rainfall five inches and thirty-six hundredths.

*Nashville, Tennessee.*—There has been rain during the week, the rainfall being one inch and forty-one hundredths. The thermometer has ranged from 37 to 79, averaging 58. February rainfall four inches and fifteen hundredths.

*Mobile, Alabama.*—Fine weather in the interior past week and farm work is making better progress. The Tombigbee River is falling rapidly. Consumption of fertilizers in Alabama the current season is estimated 25% less than last year. Dry here all the week. Average thermometer 62, highest 76, lowest 43. Month's rainfall four inches and thirty-five hundredths.

*Montgomery, Alabama.*—Weather fine and farmers are hustling. There has been rain on one day the past week, the rainfall being one hundredth of an inch. The thermometer has averaged 62, the highest being 79 and the lowest 32. February rainfall three inches and fifty-five hundredths.

*Selma, Alabama.*—There has been no rain the past week. The thermometer has averaged 61.1, ranging from 32 to 78.

*Madison, Florida.*—There has been no rain during the week. The thermometer has ranged from 44 to 79, averaging 65.

*Augusta, Georgia.*—There has been rain on one day of the week, the precipitation being four hundredths of an inch. Average thermometer 56, highest 74, lowest 24.

*Savannah, Georgia.*—It has been dry all the week. The thermometer has averaged 56, the highest being 73 and the lowest 28. February rainfall one inch and sixty-two hundredths.

*Charleston, South Carolina.*—There has been rain on one day during the week, the rainfall reaching nine hundredths of an inch. The thermometer has averaged 54, ranging from 30 to 72.

*Greenwood, South Carolina.*—Dry all the week. The thermometer has ranged from 44 to 65, averaging 54.

*Stateburg, South Carolina.*—Cloudy weather has prevailed more or less on every day of the week, with light rain on one day to the extent of five hundredths of an inch. Average thermometer 54.3, highest 74, lowest 23.

*Charlotte, North Carolina.*—We have had rain on two days of the week, the rainfall having reached twenty hundredths of an inch. The thermometer has averaged 51, the highest being 68 and the lowest 38.

The following statement we have also received by telegraph, showing the height of rivers at the points named at 8 a. m. of the dates given:

| | | March 6 1908. | March 8 1907. |
|---|---|---|---|
| | | Feet. | Feet. |
| New Orleans | Above zero of gauge. | 15.7 | 15.5 |
| Memphis | Above zero of gauge. | 34 8 | 27.5 |
| Nashville | Above zero of gauge. | 25.0 | 33.5 |
| Shreveport | Above zero of gauge. | 10.2 | 13.0 |
| Vicksburg | Above zero of gauge. | 43.5 | 36.7 |

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—Through arrangements made with Messrs. Choremi, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

| Alexandria, Egypt, March 4. | 1907-08. | 1906-07. | 1905-06. |
|---|---|---|---|
| *Receipts* (cantars)— | | | |
| This week | 170,000 | 120,000 | 150,000 |
| Since Sept. 1 | 6,318,443 | 6,523,519 | 5,497,802 |

| *Exports* (bales)— | This week. | Since Sept. 1. | This week. | Since Sept. 1. | This week. | Since Sept. 1. |
|---|---|---|---|---|---|---|
| To Liverpool | 6,500 | 172,021 | 9,250 | 169,619 | 4,750 | 169,835 |
| To Manchester | 8,000 | 152,529 | 6,250 | 159,551 | 6,500 | 133,358 |
| To Continent | 7,250 | 234,673 | 13,000 | 253,657 | 14,000 | 224,899 |
| To America | 3,750 | 47,736 | 4,000 | 87,691 | 2,500 | 59,082 |
| Total exports | 25,500 | 606,959 | 32,500 | 670,518 | 27,750 | 587,174 |

*Note.*—A cantar is 99 lbs. Egyptian bales weight about 750 lbs.

This statement shows that the receipts for the week were 170,000 cantars and the foreign shipments 25,500 bales.

COTTON CONSUMPTION AND OVERLAND MOVEMENT TO MARCH 1.—Below we present a synopsis of the crop movement for the month of February and the six months ended Feb. 29 for three years:

| | 1907-08. | 1906-07. | 1905-06. |
|---|---|---|---|
| Gross overland for February.....bales | 160,836 | 195,018 | 138,742 |
| Gross overland for 6 months | 765,093 | 1,203,033 | 834,083 |
| Net overland for February | 128,588 | 150,603 | 120,203 |
| Net overland for 6 months | 588,374 | 1,011,006 | 680,716 |
| Port receipts in February | 681,585 | 914,453 | 504,028 |
| Port receipts in 6 months | 6,857,684 | 8,145,268 | 6,205,780 |
| Exports in February | 758,188 | 866,240 | 517,167 |
| Exports in 6 months | 5,872,040 | 6,302,303 | 4,636,776 |
| Port stocks on Feb. 29 | 669,290 | 1,101,579 | 838,012 |
| Northern spinners' takings to March 1 | 1,200,903 | 1,932,659 | 1,726,924 |
| Southern consumption to March 1 | 1,245,000 | 1,219,000 | 1,188,000 |
| Overland to Canada for 6 months (included in net overland) | 55,579 | 91,481 | 86,297 |
| Burnt North and South in 6 months | --- | --- | 2,620 |
| Stock at North'n interior mkts. Feb. 29 | 13,668 | 9,044 | 15,395 |
| Came in sight during February | 969,101 | 1,200,056 | 728,231 |
| Amount of crop in sight March 1 | 9,125,058 | 10,860,274 | 8,572,496 |
| Came in sight during balance of season | | 2,690,486 | 2,747,364 |
| Total crop | | 13,550,760 | 11,319,860 |
| Average *gross* weight of bales | 509.62 | 518.54 | 512.67 |
| Average *net* weight of bales | 486.62 | 496.04 | 490.24 |

JUTE BUTTS, BAGGING, ETC.—There has been continued dulness in the market for jute bagging during the week under review, with prices unchanged at 7¼ cents per yard for 2-lb. domestic bagging and 6½ cents per yard for re-woven and inferior foreign. Jute butts also dull at 2@2 cents per lb. for bagging quality.

## WORLD'S SUPPLY AND TAKINGS OF COTTON.

The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Sept. 1, for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amount gone out of sight, for the like period.

| Cotton Takings. Week and Season. | 1907-08 | | 1906-07. | |
|---|---|---|---|---|
| | *Week.* | *Season.* | *Week.* | *Season.* |
| Visible supply Feb. 28 | 4,749,945 | | 5,521,510 | |
| Visible supply Sept. 1 | | 2,291,844 | | 1,784,156 |
| American in sight to March 6 | 167,740 | 9,264,734 | 214,185 | 11,113,393 |
| Bombay receipts to March 5 | 68,000 | 1,262,000 | 92,000 | 1,545,000 |
| Other India ship'ts to March 5 | 1,000 | 128,000 | 6,000 | 139,000 |
| Alexandria receipts to March 4 | 23,000 | 842,000 | 16,000 | 871,000 |
| Other supply to March 4* | 2,000 | 189,000 | 2,000 | 212,000 |
| Total supply | 5,011,685 | 13,977,578 | 5,851,695 | 15,664,549 |
| *Deduct—* | | | | |
| Visible supply March 6 | 4,681,947 | 4,681,947 | 5,473,987 | 5,473,987 |
| Total takings to March 6 | 329,738 | 7,295,631 | 377,708 | 10,190,562 |
| Of which American | 269,738 | 7,145,631 | 323,708 | 7,866,562 |

## BREADSTUFFS.

*Friday, March 6th* 1908.

Prices for wheat flour have been firmer in the main, though no very important changes have taken place. But with the tendency of the wheat market still upwards, mills as a rule have raised quotations and some buyers have shown more disposition to follow the advance. Stocks in the hands of dealers are admittedly small, and though there is as yet no disposition in the trade to replenish depleted stocks, yet at times during the week an increased volume of business has been reported. This is true especially of the large spring-wheat flour markets. Export business has been light. Corn meal and rye flour have been quiet and firm.

Wheat, under the influence of the growing strength of the American cash situation as exemplified in decreasing receipts and shrinking stocks, has advanced. And this in spite of considerable liquidation at times by important interests, and also in spite of continued large shipments from Argentine. The reduction in the rate of discount by the Bank of England to 3½% has also been more or less of a bracing factor, to say nothing of rising prices on the whole in the English and Continental wheat markets. The stock at Minneapolis has decreased 475,000 bushels this week. Southwestern markets have reported a good cash demand and at Kansas City as well as at other points farmers' deliveries have fallen off sharply. The Northwestern receipts at times have been only half what they were on corresponding days last year. Stocks last week decreased at points east of the Rocky Mountains over 2,500,000 bushels, making a decrease within two weeks of some 4,200,000 bushels, whereas at this time last year they were increasing. Very bullish private reports have been received in regard to country stocks at the Northwest, some of them even affirming that they are practically exhausted. Some of the mills it is said will, owing to the low stage of supplies, be obliged to shut down for a month or two. It is expected, too, that the Government report on farm reserves, which is to be issued on March 10, will be of a bullish character. On the other hand, it is said that the exportable reserve of Argentine is about 150,000,000 bushels. However this may be, the Argentine offerings of late have been liberal. Moreover, the crop prospects over most of Europe appear to be more favorable, and so far as this country is concerned the outlook for the winter wheat also seems to be reasonably good.. And export business has been dull. A large Chicago bull pool is said to have sold lately some 6,000,000 bushels of May wheat. There is no doubt that heavy liquidation, partly by large interests and partly by scattered holders, has had no little effect in the last few days. Still the cash situation is regarded as so strong that not a few are inclined to think that, with occasional reactions, the drift of prices is towards a somewhat higher level. To-day prices were irregular, advancing for a time on small receipts, reports of decreasing stocks, a better export inquiry, bull support and covering. Later on a reaction occurred, however, on liquidation, attributed in part to unloading by bulls, Argentine shipments amounting to 6,216,000 bushels, against 4,600,000 a year ago, a large Argentine crop estimate, weak foreign markets and selling for short account.

Indian corn futures have advanced, owing to bullish manipulation, buying by commission houses and covering of shorts. The weather over many sections has been mild and rainy and roads are in bad shape. The receipts of contract grade at Chicago have been exceedingly small. On some days no contract grade has arrived there. Bulls have been favored, too, by the small stocks in Chicago. There has been a good cash demand at times at strong prices. Liverpool has also favored the bulls. Prices are admittedly high, but the danger of bull manipulation has checked short selling. To-day prices were firmer on favorable weather, small receipts of contract corn, reports of a good cash demand, bull support and covering of shorts.

| Sept. delivery in elevator | 59 | 59⅛ | 60⅛ | 60⅝ | 60⅝ | 60⅞ |

Oats for future delivery in the Western market have advanced with other cereals, though the trading has been inactive. Prices are considered unduly high, but strong interests are arrayed on the bull side, and in spite of liberal receipts there has been an absence of selling for short account. The cash demand at the West, moreover, has been active at rising prices. Commission houses have bought to some extent at times, and there has been more or less covering of shorts. To-day prices were firmer early with corn, but reacted later on liquidation and the dulness of speculation.
